Section I: Overarching Principles Section

Chapter 1: Preliminary

Introduction to the Handbook

- 1.1 The Handbook is made under section 399 of the SFO and establishes codes or guidelines for the authorization of products covered by the Handbook and their offering documents and advertisements. These guidelines are not intended to be exhaustive.
- 1.2 Section I of the Handbook sets out the high-level principles and requirements that are intended to apply to all products. More detailed product-specific requirements applicable to specific types of products are contained in the applicable product code.
- 1.3 The Handbook provides general guidelines for authorization of products specifically stated in the applicable product codes. The Commission will have regard to both the spirit as well as the letter of the General Principles set out in Chapter 3 of this Overarching Principles Section in considering products authorization applications and whether products should remain authorized.
- 1.4 All products, their Product Providers and the Specified Entities are expected to comply with all applicable principles and requirements set out in Section I of the Handbook in addition to the detailed product-specific requirements applicable to specific types of products that are contained in the applicable product code.
- 1.5 The Handbook does not have the force of law and shall not be interpreted in a way that will override the provision of any law.

Effect of breach of the Handbook

- 1.6 Failure by any person to comply with any applicable provision of the Handbook:
 - (a) shall not by itself render the person liable to any judicial or other proceedings, but in any proceedings under the SFO before any court, the Handbook may be admissible in evidence, and if any provision set out in the Handbook appears to the court to be relevant to any question arising in the proceedings, it may be taken into account in determining the question;
 - (b) may cause the Commission to consider whether such failure adversely reflects on the person's fitness and properness (in so far as the relevant person is licensed or registered under the SFO and its obligations are stated in the Handbook);
 - (c) may cause the Commission to consider whether such failure adversely reflects on whether the product, the offering document and/or the advertisements should remain authorized;
 - (d) may cause the Commission to consider whether such failure adversely reflects on whether further products issued, managed and/or originated by such person, and/or offering documents and advertisements in relation to such products, should be granted authorization in the interest of the investing public (i.e. where there is a serious breach, the Commission may refuse to authorize new products issued, managed and/or originated by the person in breach and/or offering

documents and advertisements in relation to such products for a stated period);
and

- (e) may cause the Commission to impose additional authorization condition(s) which may include restricting the further offering of the product to the public.

Interpretation

1.7 Unless otherwise stated, the following words and expressions shall have the following meaning throughout Section I of the Handbook:

- (a) “applicable product code” means the UT Code in the case of unit trusts/mutual funds, the ILAS Code in the case of ILAS or the SIP Code in the case of structured investment products;

- (e) “ILAS” means investment-linked assurance schemes that are subject to the ILAS Code;
- (f) “ILAS Code” means the Code on Investment-Linked Assurance Schemes administered by the Commission as set out in Section III of the Handbook;
- (g) “investor(s)” shall include, for the purpose of reference only, investors in the case of unit trusts/mutual funds and structured investment products and scheme participants/prospective scheme participants in the case of ILAS;
- (h) “offering document” means, as the case may be, the offering document as defined in the applicable product code in respect of the relevant products;
- (i) “products” means any unit trusts/mutual funds, ILAS or structured investment products being offered to the Hong Kong public;
- (j) “Product Provider(s)” means in their respective contexts, the issuer of a structured investment product; the management company of a unit trust/mutual fund and the unit trust/mutual fund itself and (where unit trust/mutual fund is in the nature of a mutual fund corporation) its board of directors; and the insurance company issuing an ILAS;

- (q) “UT Code” means the Code on Unit Trusts and Mutual Funds administered by the Commission as set out in Section II of the Handbook.

SFC’s authorization

1.8 Nothing in the Handbook shall be interpreted in a manner that alters or imposes any restriction upon the exercise by the Commission of any power or discretion conferred upon it under the SFO.

1.9 The Commission may at any time pursuant to the SFO review its authorization and may modify, add to or withdraw any of the conditions of such authorization, or withdraw the authorization, as it considers appropriate.

1.10 Where a product is described as having been authorized by the Commission, it shall be stated that authorization does not imply official recommendation by adding a prominent note in the following terms to the offering document and advertisement and other invitations to invest in the product:

Note: SFC authorization is not a recommendation or endorsement of a product nor does it guarantee the commercial merits of a product or its performance. It does not mean the product is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors.

1.11 The SFC takes no responsibility for the contents of any offering documents or advertisements authorized by it. Product Providers are reminded that in granting authorization, the SFC relies on the representations made and information provided by the Product Provider and/or its representatives or agents in support of the authorization application. The making of any false or misleading representation and/or the provision of any false or misleading information by such person may amount to an offence under the SFO.

1.12 Product Providers are also reminded that SFC authorization does not imply that the SFO, or any other legal or regulatory requirements, have been complied with. Nothing in respect of an authorization may be taken as preventing the SFC from taking any action against any parties for breach of the SFO, or any other legal or regulatory requirements.

1.13 It is the SFC’s policy intent that products offered to the public in Hong Kong are subject to the prior authorization of the SFC unless an exemption applies to their offering

documents or advertisements. Given an unauthorized product is not required to comply with the requirements set out in the Handbook, the SFC would not generally consider it appropriate to authorize any advertisement, invitation or document in respect of such unauthorized product under section 105 of the SFO.

- 1.14 Authorization of a product under the SFO would normally be granted together with the authorization of its offering document(s) under section 105 of the SFO. It is the general policy of the Commission not to consider authorizing a product under the SFO alone without a concurrent authorization of its offering document(s).

Note: For the avoidance of doubt, references to “authorization of products” or terms to the same effect in the Handbook are applicable to products which may be authorized by the SFC under Part IV of the SFO. Upon the legislative amendments pursuant to the consultation on the “Possible Reforms to the Prospectus Regime in the Companies Ordinance and the Offers of Investments Regime in the Securities and Futures Ordinance” issued by the SFC in October 2009 becoming effective, such products shall include structured investment products.

Chapter 2: Administrative arrangements

Products Advisory Committee

- 2.1 According to section 8 of the SFO, the Commission is empowered to set up committees whether for advisory or other purposes. The Commission will establish a Products Advisory Committee for the purpose of consultation and advice on matters that may relate to the Handbook. The remit of the Products Advisory Committee and its membership shall be laid down in its terms of reference.
- 2.2 For the avoidance of doubt, the function of the Products Advisory Committee will be purely advisory in nature. It will not be vested with any of the powers exercisable by the SFC under the applicable sections of the SFO for authorization of products and their offering documents and advertisements.

Data privacy

- 2.3 The information requested under the Handbook may result in the applicant providing the Commission with personal data as defined in the Personal Data (Privacy) Ordinance. The data supplied will only be used by the Commission to perform its functions, in the course of which it may match, compare, transfer or exchange personal data with data held or obtained by the Commission, government bodies, other regulatory authorities, corporations, organisations or individuals in Hong Kong or overseas for the purpose of verifying those data. Subject to the limits in sections 378 of the SFO, the Commission may disclose personal data to other regulatory bodies. Persons who have supplied data to the Commission under the Handbook may be entitled under the Personal Data (Privacy) Ordinance to request access to or to request the correction of any data supplied to the Commission, in the manner and subject to the limitations prescribed. All enquiries shall be directed to the Data Privacy Officer at the SFC.

Part I: General matters

Chapter 1: Authorization procedures

Schemes established in Hong Kong or elsewhere

- 1.1 Schemes to be established in Hong Kong or elsewhere are normally expected to comply with the applicable provisions of the Handbook, including without limitation, all of the applicable provisions of this UT Code in order to be authorized in Hong Kong by the SFC pursuant to section 104 of the SFO.

Applications for authorization which seek waivers of any of these provisions must give detailed reasons why waivers are sought.

Scheme established in recognized jurisdictions

- 1.2 This UT Code accepts that some schemes already comply with certain provisions of this UT Code by virtue of prior authorization in a regulated jurisdiction. It therefore recognizes the types of scheme in jurisdictions set out in the list of recognized jurisdictions published on the Commission's website. Applications for authorization of recognized jurisdiction schemes will generally be reviewed on the basis that the scheme's structural and operational requirements, and core investment restrictions, already comply in substance with this UT Code. Applicants should note however that the SFC expects a scheme to comply in all material respects with this UT Code and reserves the right to require such compliance as a condition of authorization.

Documents to be supplied to the Commission

- 1.3 An applicant for authorization of a scheme must submit a completed Application Form and an Information Checklist as set out on the Commission's website. The application must also be accompanied by the following:
- (a) the scheme's offering and constitutive documents, including its Hong Kong Offering Document and Product KFS [see 3.6,3.9 and 3.11B];
 - (b) the scheme's latest audited report (if any) and if more recent, the latest unaudited report;
 - (c) management company profile [if applicable - see Application Form];
 - (d) the trustee/custodian's latest audited report [if applicable - see Application Form];
 - (e) letter of consent to the appointment from the trustee/custodian (not required for recognized jurisdiction schemes or schemes already in existence);
 - (f) application fee in the form of a cheque payable to the "Securities & Futures Commission"; and
 - (g) the letter nominating an individual to be approved by the Commission as an approved person [see 1.5] containing the individual's name, employer, position

held and contact details, including, in so far as applicable, the address, telephone and facsimile numbers, and electronic mail address.

The current fee schedule is available on the Commission's website.

In addition to the above, applicants for authorization of a non Hong Kong-based scheme must supply the following:

(h) Hong Kong Representative Agreement and Undertaking [see Chapter 9];

Applicants for authorization of a recognized jurisdiction scheme must also supply:-

(i) evidence of the scheme's authorized status in that jurisdiction.

Amendments to documents

- 1.4 In cases where it may not be suitable to amend documentation to comply with a requirement of the Handbook or this UT Code, the Commission may accept a written undertaking from the relevant party that they will comply with the requirement, together with disclosure in the Hong Kong Offering Document regarding compliance.

Nomination of an individual as approved person

- 1.5 According to sections 104(2) and 105(2) of the SFO, an individual must be approved for the purposes of being served by the Commission with notices and decisions for, respectively, the scheme and the issue of any related advertisement, invitation or document. - 1.6 An approved person should:

The Commission will establish a Products Advisory Committee for the purpose of consultation and advice on matters which may relate to collective investment schemes within the scope of this UT Code of the Handbook. The remit of the Products Advisory Committee and its membership will be set out in its Terms of Reference.

Part II: Authorization requirements

Chapter 4: Trustee/Custodian

Appointment of Trustee/Custodian

- 4.1 Every collective investment scheme for which authorization is requested must appoint a trustee/custodian acceptable to the Commission.

Notes (1): Schemes established under trust must have a trustee and mutual fund corporations must have a custodian. This chapter lists the general obligations of the trustee/custodian, whichever is appointed. Trustees are expected to fulfill the duties imposed on them by the general law of trusts. In the case of a mutual fund corporation, the responsibilities of a custodian should be reflected in a constitutive document such as a Custodian Agreement. [see Appendix D]

Notes (2): An acceptable trustee/custodian should either:

- (i) on an ongoing basis, be subject to regulatory supervision; or*
- (ii) appoint an independent auditor to periodically review its internal controls and systems on terms of reference agreed with the SFC and should file such report with the SFC.*

[see Appendix G -“Guidelines for Review of Internal Controls and Systems of Trustees/Custodians”]

- 4.2 A trustee/custodian must be:-

- (a) a bank licensed under section 16 of the Banking Ordinance (Chapter 155 of Laws of Hong Kong); or
- (b) a trust company which is a subsidiary of such a bank; or
- (c) a trust company registered under Part VIII of the Trustee Ordinance; or
- (d) a banking institution or trust company incorporated outside Hong Kong which is acceptable to the Commission.

- 4.3 A trustee/custodian must be independently audited and have minimum issued and paid-up capital and non-distributable capital reserves of HK\$10 million or its equivalent in foreign currency.

- 4.4 Notwithstanding 4.3 above, the trustee/custodian's paid-up capital and non-distributable capital reserves may be less than HK\$10 million if the trustee/custodian is a wholly-owned subsidiary of a substantial financial institution (the holding company); and

- (a) the holding company issues a standing commitment to subscribe sufficient additional capital up to the required amount, if so required by the Commission; or
- (b) the holding company undertakes that it would not let its wholly-owned subsidiary default and would not, without prior approval of the Commission, voluntarily

dispose of, or permit the disposal or issue of any share capital of the trustee/custodian such that it ceases to be a wholly-owned subsidiary of the holding company.

General obligations of trustee/custodian

4.5 The trustee/custodian must:-

- (a)
 - (i) take into its custody or under its control all the property of the scheme and hold it in trust for the holders (in the case of a unit trust) or the scheme (in the case of a mutual fund corporation) in accordance with the provisions of the constitutive documents;
 - (ii) register cash and registrable assets in the name of or to the order of the trustee/custodian; where borrowing is undertaken for the account of the scheme, such assets may be registered in the lender's name or in that of a nominee appointed by the lender; and
 - (iii) be liable for the acts and omissions of its nominees and agents in relation to assets forming part of the property of the scheme;
- (b) take reasonable care to ensure that the sale, issue, repurchase, redemption and cancellation of units/shares effected by a scheme are carried out in accordance with the provisions of the constitutive documents;
- (c) take reasonable care to ensure that the methods adopted by the management company in calculating the value of units/shares are adequate to ensure that the sale, issue, repurchase, redemption and cancellation prices are calculated in accordance with the provisions of the constitutive documents;
- (d) carry out the instructions of the management company in respect of investments unless they are in conflict with the provisions of the offering or constitutive documents or this UT Code;
- (e) take reasonable care to ensure that the investment and borrowing limitations set out in the constitutive documents and the conditions under which the scheme was authorized are complied with;
- (f) issue a report to the holders to be included in the annual report on whether in the trustee/custodian's opinion, the management company has in all material respects managed the scheme in accordance with the provisions of the constitutive documents; if the management company has not done so, the respects in which it has not done so and the steps which the trustee/custodian has taken in respect thereof; and
- (g) where applicable, take reasonable care to ensure that unit/share certificates are not issued until subscription moneys have been paid.

Retirement of trustee/custodian

- 4.6 The trustee/custodian may not retire except upon the appointment of a new trustee/custodian and subject to the prior approval of the Commission. The retirement of the trustee/custodian should take effect at the same time as the new trustee/custodian takes up office.

Independence of trustee/custodian and the management company

- 4.7 The trustee/custodian and the management company must be persons who are independent of each other.
- 4.8 Notwithstanding 4.7 above, if the trustee/custodian and the management company are both bodies corporate having the same ultimate holding company, whether incorporated in Hong Kong or outside Hong Kong, the trustee/custodian and the management company are deemed to be independent of each other if:-
- (a)
 - (i) they are both subsidiaries of a substantial financial institution;
 - (ii) neither the trustee/custodian nor the management company is a subsidiary of the other;
 - (iii) no person is a director of both the trustee/custodian and the management company; and
 - (iv) both the trustee/custodian and the management company sign an undertaking that they will act independently of each other in their dealings with the scheme; or
 - (b) the scheme is established in a jurisdiction where the trustee/custodian and the management company are required by law to act independently of one another.

Chapter 5: Management company and auditor

Appointment of the management company

- 5.1 Every collective investment scheme for which authorization is requested must appoint a management company acceptable to the Commission, except as provided for self-managed schemes below.

Note: The investment management operations of a fund management company or those of the investment adviser (where the latter has been delegated the investment management function) should be based in a jurisdiction with an inspection regime acceptable to the Commission. A list of acceptable inspection regimes is published on the Commission's website. The Commission will consider other jurisdictions on their merits and may accept an undertaking from the management company that the books and records in relation to its management of a scheme will be made available for inspection by the Commission on request.

- 5.2 A management company must:-

- (a) be engaged primarily in the business of fund management;
- (b) have sufficient financial resources at its disposal to enable it to conduct its business effectively and meet its liabilities; in particular, it must have a minimum issued and paid-up capital and capital reserves of HK\$1 million or its equivalent in foreign currency;
- (c) not lend to a material extent; and
- (d) maintain at all times a positive net asset position.

- 5.3 Indebtedness owed by the management company to its parent company will be considered as part of capital for the purpose of 5.2(b) in the following circumstances:-

- (a) the indebtedness must not be settled without the prior written consent of the Commission; and
- (b) the indebtedness must be subordinated to all other liabilities of the management company, both in terms of its entitlement to income and its rights in a liquidation.

Qualifications of Directors

- 5.4 The directors of the management company must be of good repute and in the opinion of the Commission possess the necessary experience for the performance of their duties. In determining the acceptability of the management company, the Commission may consider the qualifications and experience of persons employed by the management company and any appointed investment adviser.

Criteria for Acceptability of Management Company

5.5 The acceptability of the management company will be assessed on the following criteria:

- (a) The key personnel of the management company or those of the investment adviser (where the latter has been delegated the investment management function) are expected to possess at least five years investment experience managing unit trusts or other public funds with reputable institutions. The expertise gained should be in the same type of investments as those proposed for the funds seeking authorization.
- (b) Key personnel must be dedicated full-time staff with a demonstrable track record in the management of unit trusts or mutual funds. In assessing the qualifications of the personnel of the management company, the Commission may request resumes of the directors of the management company and its delegates (if any).

Note: In the case of a multimanager scheme which is generally expected to have at least three sub-managers delegated with investment function in managing the scheme's assets under the active monitoring of the management company, the Commission may accept that the key personnel of such sub-managers have demonstrable investment experience in areas not limited to that relating to public funds on a case-by-case basis. The offering document of the scheme should clearly disclose, among others, the due diligence processes adopted by the management company in selecting and monitoring the sub-managers on an on-going basis.

- (c) Sufficient human and technical resources must be at the disposal of the management company, which should not rely solely on a single individual's expertise.
- (d) The Commission must be satisfied with the overall integrity of the applicant management company. Reasonable assurance must be secured of the adequacy of internal controls and the existence of written procedures, which should be regularly monitored by its senior management for updatedness and compliance. Conflicts of interests must be properly addressed to safeguard investors' interests.
- (e) Where the investment management functions are delegated to third parties, there should be on-going supervision and regular monitoring of the competence of the delegates by the management company to ensure that the management company's accountability to investors is not diminished. Although the investment management role of the management company may be sub-contracted to third parties, the responsibilities and obligations of the management company may not be delegated.

Licensing Requirement

5.6 The type of licence required depends on the functions performed by the management company in Hong Kong. A management company should be properly licensed or registered under Part V of the SFO to carry on its regulated activities.

Self-managed Schemes

- 5.7 Notwithstanding 5.1, a scheme could be managed by its own board of directors who perform the functions of a management company. In this case, references in this UT Code to the directors of a management company are deemed to be references to the directors of a self-managed scheme.
- 5.8 The directors of a self-managed scheme are prohibited from dealing with the scheme as principals.
- 5.9 The regulations of a self-managed scheme must contain the following provisions:-
- (a) that holders could convene a meeting and, by way of an ordinary resolution, remove any of the directors considered no longer fit and proper to manage the scheme's assets; and
 - (b) that the directors' fees and remuneration should be fixed by the holders at a general meeting.

General obligations of a management company

- 5.10 A management company must:-
- (a) manage the scheme in accordance with the scheme's constitutive documents in the best interest of the holders. It is also expected to fulfill the duties imposed on it by the general law;
 - (b) maintain or cause to be maintained the books and records of the scheme and prepare the scheme's accounts and reports. At least two reports must be published in respect of each financial year. These reports must be sent to all registered holders and filed with the Commission within the time frame specified in 11.6; and
 - (c) ensure that the constitutive documents are made available for inspection by the public in Hong Kong, free of charge at all times during normal office hours at its place of business or that of its Hong Kong Representative and make copies of such documents available upon the payment of a reasonable fee.

Retirement of a management company

- 5.11 The management company must be subject to removal by notice in writing from the trustee or the directors of a mutual fund corporation in any of the following events:-
- (a) the management company goes into liquidation, becomes bankrupt or has a receiver appointed over its assets; or
 - (b) for good and sufficient reason, the trustee or the directors of a mutual fund corporation state in writing that a change in management company is desirable in the interests of the holders; or
 - (c) in the case of a unit trust, holders representing at least 50% in value of the units outstanding (excluding those held or deemed to be held by the management

company), deliver to the trustee a written request to dismiss the management company.

- 5.12 In addition, the management company must retire:-
- (a) in all other cases provided for in the constitutive documents; or
 - (b) when the Commission withdraws its approval of the management company.
- 5.13 The Commission must be informed by the trustee or the directors of a mutual fund corporation of any decision to remove the management company.
- 5.14 Upon the retirement or dismissal of the management company, the trustee or the directors of a mutual fund corporation must appoint a new management company as soon as possible, subject to the approval of the Commission.

Appointment of the auditor

- 5.15 The management company or the directors of a mutual fund corporation must, at the outset and upon any vacancy, appoint an auditor for the scheme.
- 5.16 The auditor must be independent of the management company, the trustee/custodian, and, in the case of a mutual fund corporation, the directors.
- 5.17 The management company must cause the scheme's annual report to be audited by the auditor, and such report should contain the information in Appendix E.

Chapter 6: Operational requirements

Scheme documentation

Matters to be disclosed in offering document

- 6.1 Authorized schemes must issue an up-to-date offering document, which should contain the information necessary for investors to be able to make an informed judgement of the investment proposed to them, and in particular should contain the information listed in Appendix C.

Note: Provided that the Commission is satisfied that the overall disclosure of required information is clear, a scheme may supplement an overseas offering document with a Hong Kong Covering Document. The Commission however specifically encourages the use of a short, clearly written Hong Kong Offering Document.

English and Chinese offering documents

- 6.2 Except as provided herein, the information required in Appendix C must be provided in the English and Chinese languages. The Commission may waive the requirement that the information be provided in both languages on a case by case basis where the management company satisfies the Commission that the scheme will only be offered to persons who are fully conversant in the language in which it is intended to publish the information.

Product KFS

- 6.2A An authorized scheme must issue a Product KFS. Such statement shall be deemed to form a part of the offering document and shall contain information that enables investors to comprehend the key features and risks of the scheme.

Notes : (1) The Commission may, on an exceptional basis, allow the Product KFS not to be deemed to form a part of the offering documents of certain foreign schemes, on the basis of overriding legal requirements of the home jurisdiction.

(2) Illustrative templates of the Product KFS are available on the Commission's website.

Accompaniment to offering document

- 6.3 The offering document must be accompanied by the scheme's most recent audited annual report and accounts together with its semi-annual report if published after the annual report.
- 6.4 No application form may be supplied to any person not a holder unless accompanied by the offering document, except that an advertisement or report containing all the requirements of Appendix C may be allowed to incorporate an application form.

Inclusion of performance data

- 6.5 If performance data or estimated yield is quoted, the Commission may require supporting documentation. No forecast of the scheme's performance may be made. The publication of a prospective yield does not constitute a forecast of performance.

Contents of constitutive documents

- 6.6 The constitutive documents of a scheme should contain the information listed in Appendix D. Nothing in the constitutive documents may provide that the trustee/custodian, management company or directors of the scheme can be exempted from any liability to holders imposed under Hong Kong law or the law of the scheme's place of domicile or breaches of trust through fraud or negligence, nor may they be indemnified against such liability by holders or at holders' expense.

Changes to scheme documentation

- 6.7 The constitutive documents may be altered by the management company and trustee/custodian, without consulting holders, provided that the trustee/custodian certifies in writing that in its opinion the proposed alteration:-
- (a) is necessary to make possible compliance with fiscal or other statutory or official requirements; or
 - (b) does not materially prejudice holders' interests, does not to any material extent release the trustee/custodian, management company or any other person from any liability to holders and does not increase the costs and charges payable from the scheme property; or
 - (c) is necessary to correct a manifest error.

In all other cases no alteration may be made except by a special or extraordinary resolution of holders or the approval of the Commission.

Member register

- 6.8 The scheme, or in the case of a unit trust, the trustee or the person so appointed by the trustee must maintain a register of holders. The Commission must be advised on request of the address(es) where the register is kept.

Investment plans

- 6.9 If investment plans are offered:-
- (a) before contracting for a plan, a prospective planholder must be given full details in writing of his rights and obligations, of all costs and charges levied on planholders and of the consequences of terminating his plan;
 - (b) unless he has requested to the contrary, each planholder must be advised at least once every quarter of the opening balance of units, latest transaction details and closing balance of units;

- (c) the plan must include a direction to potential investors that they should refer to the offering document of the scheme to which they are considering linking their plan;
- (d) an investment plan leaflet to be distributed in Hong Kong must not solicit investment in schemes which have not been authorized by the Commission; and
- (e) in respect of any increase of initial fee of investment plans up to the maximum permitted level, no less than one month's prior notice must be given to holders concerned.

Pricing, issue & redemption of units/shares

Initial offers

- 6.10 If an initial offer is made, no investment of subscription money can be made until the conclusion of the first issue of units/shares at the initial price.

Valuation & pricing

- 6.11 Offer and redemption prices should be calculated on the basis of the scheme's net asset value divided by the number of units/shares outstanding. Such prices may be adjusted by fees and charges, provided the amount or method of calculating such fees and charges is clearly disclosed in the offering document.

Valuation of unquoted securities

- 6.12 The value of investments not listed or quoted on a recognized market should be determined on a regular basis by a professional person approved by the trustee/custodian as qualified to value such investments. Such professional person may, with the approval of the trustee/custodian, be the management company.

Dealing

- 6.13 There must be at least one regular dealing day per month. Any offer price which the management company or the distribution company quotes or publishes must be the maximum price payable on purchase and any redemption price must be the net price receivable on redemption.
- 6.14 The maximum interval between the receipt of a properly documented request for redemption of units/shares and the payment of the redemption money to the holder may not exceed one calendar month unless the market(s) in which a substantial portion of investments is made is subject to legal or regulatory requirements (such as foreign currency controls) thus rendering the payment of the redemption money within the aforesaid time period not practicable. In such case, the extended time frame for the payment of redemption money shall reflect the additional time needed in light of the specific circumstances in the relevant market(s).

Meetings

- 6.15 A scheme should arrange to conduct general meetings of holders as follows:-
- (a) Holders must be able to appoint proxies;
 - (b) Votes should be proportionate to the number of units/shares held or to the value of units/shares held where there are accumulation units/shares;
 - (c) The quorum for meetings at which a special or extraordinary resolution is to be considered should be the holders of 25% of the units or shares in issue and 10% if only an ordinary resolution is to be considered;
 - (d) If within half an hour from the time appointed for the meeting a quorum is not present, the meeting should be adjourned for not less than 15 days. The quorum at an adjourned meeting will be those holders present at the adjourned meeting in person or by proxy;
 - (e) If the possibility exists of a conflict of interest between different classes of holders there should be provision for class meetings;
 - (f) An Extraordinary General Meeting should be called for the following purposes:
 - (i) to modify, alter or add to the constitutive documents, except as provided in 6.7;
 - (ii) to terminate the scheme (unless the means of termination of the scheme are set out in the constitutive documents, in which case termination must be effected as required);
 - (iii) to increase the maximum fees paid to the management company, trustee/custodian or directors of the scheme; or
 - (iv) to impose other types of fees.
 - (g) Where bearer units are in issue, provision must be made for notification to bearer holders in Hong Kong of the timing and agenda of forthcoming meetings and voting arrangements;
 - (h) The directors of the scheme, the trustee/custodian, the management company, investment adviser and their connected persons must be prohibited from voting their beneficially owned shares at, or counted in the quorum for, a meeting at which they have a material interest in the business to be contracted;
 - (i) An ordinary resolution may be passed by a simple majority of the votes of those present and entitled to vote in person or by proxy at a duly convened meeting; and
 - (j) A special or extraordinary resolution may only be passed by 75% or more of the votes of those present and entitled to vote in person or by proxy at a duly convened meeting.

Fees

- 6.16 The level/basis of calculation of all costs and charges payable from the scheme's property must be clearly stated, with percentages expressed on a per annum basis [see C14 of Appendix C]. The aggregate level of fees for investment management or advisory functions should also be disclosed.

Note: Percentage-based transaction fees payable to the management company or any of its connected persons may be disallowed as inconsistent with the management company's fiduciary responsibility.

- 6.17 If a performance fee is levied, the fee can only be payable:-

- (a) no more frequently than annually; and
- (b) if the net asset value per unit/share exceeds the net asset value per unit/share on which the performance fee was last calculated and paid (i.e. on a "high-on-high" basis).

Note: Notwithstanding 6.17(b), the performance fee may also be calculated with reference to the performance of a benchmark or an asset class and the performance fee is only payable upon outperformance of the net asset value per unit/share vis-à-vis that of the benchmark or asset class.

- 6.18 The following fees, costs and charges must not be paid from the scheme's property:-

- (a) commissions payable to sales agents arising out of any dealing in units/shares of the scheme;
- (b) expenses arising out of any advertising or promotional activities in connection with the scheme;
- (c) expenses which are not ordinarily paid from the property of schemes authorized in Hong Kong; and
- (d) expenses which have not been disclosed in the constitutive documents as required by D10 of Appendix D.

Chapter 7: Investment: core requirements

This Chapter sets out the core requirements of the investment limitations and prohibitions of a collective investment scheme, other than a specialized scheme under Chapter 8.

Spread of Investments

- 7.1 The value of a scheme's holding of securities issued by any single issuer may not exceed 10% of its total net asset value.

Notes: (1) An issuer of investments based on an underlying security (such as an issuer of covered warrants) is treated separately from an issuer of the underlying security, provided that the 10% restriction applicable to any single issuer is not exceeded if and when any rights of convertibility are exercised.

(2) A waiver of this section can be considered on a case-by-case basis for a scheme whose sole objective is to track an index with constituent stocks exceeding 10%.

- 7.2 A scheme may not hold more than 10% of any ordinary shares issued by any single issuer.

- 7.3 The value of a scheme's holding of securities neither listed, quoted nor dealt in on a market may not exceed 15% of its total net asset value.

Note: Market means any stock exchange, over-the-counter market or other organized securities market that is open to the international public and on which such securities are regularly traded.

- 7.3A Notwithstanding 7.1, 7.2, and 7.3, where direct investment by a scheme in a market is not in the best interest of investors, a scheme may invest through a wholly-owned subsidiary company established solely for the purpose of making direct investments in such market. In this case:-

- (a) the underlying investments of the subsidiary, together with the direct investments made by the scheme, must in aggregate comply with the requirements of this Chapter;
- (b) any increase in the overall fees and charges directly or indirectly borne by the holders or the scheme as a result must be clearly disclosed in the offering document; and
- (c) the scheme must produce the reports required by 5.10(b) in a consolidated form to include the assets (including investment portfolio) and liabilities of the subsidiary company as part of those of the scheme.

Government and other public securities

- 7.4 Notwithstanding 7.1 and 7.2, up to 30% of a scheme's total net asset value may be invested in Government and other public securities of the same issue.
- 7.5 Subject to 7.4, a scheme may invest all of its assets in Government and other public securities in at least six different issues.

- Notes: (1) *"Government and other public securities" means any investment issued by, or the payment of principal and interest on, which is guaranteed by the government of any member state of the Organization for Economic Co-operation and Development (OECD) or any fixed interest investment issued in any OECD country by a public or local authority or nationalized industry of any OECD country or anywhere in the world by any other body which is, in the opinion of the trustee/custodian, of similar standing.*
- (2) *Government and other public securities will be regarded as being of a different issue if, even though they are issued by the same person, they are issued on different terms whether as to repayment dates, interest rates, the identity of the guarantor, or otherwise.*

Warrants and options

- 7.6 (a) A scheme may invest in options and warrants for hedging purposes.
- (b) In addition to (a) above, the value of a scheme's investment in warrants and options not held for hedging purposes in terms of the total amount of premium paid may not exceed 15% of its total net asset value.
- 7.7 The writing of uncovered options is prohibited.
- 7.8 The writing of call options on portfolio investments may not exceed 25% of a scheme's total net asset value in terms of exercise price.

Futures and commodities

- 7.9 A scheme may enter into financial futures contracts for hedging purposes.
- 7.10 In addition to 7.9, a scheme may enter into futures contracts on an unhedged basis provided that the net total aggregate value of contract prices, whether payable to or by the scheme under all outstanding futures contracts, together with the aggregate value of holdings of physical commodities and commodity based investments may not exceed 20% of the total net asset value of the scheme.

- Notes: (1) *"physical commodities" includes gold, silver, platinum or other bullion.*
- (2) *"commodity based investments" does not include shares in companies engaged in producing, processing or trading in commodities.*

Investment in other schemes

The following provisions govern the spread of investments in other collective investment

schemes. 7.1, 7.2 and 7.3, are not applicable to such investments, unless otherwise stated.

7.11 The value of a scheme's holding of units or shares in other collective investment schemes (namely “underlying schemes”) which are non-recognized jurisdiction schemes and not authorized by the Commission may not in aggregate exceed 10% of its total net asset value.

7.11A A scheme may invest in one or more underlying schemes which are either recognized jurisdiction schemes or schemes authorized by the Commission. The value of a scheme’s holding of units or shares in each such underlying scheme may not exceed 30% of its total net asset value, unless the underlying scheme is authorized by the Commission, and the name and key investment information of the underlying scheme are disclosed in the offering document of the scheme.

Note: The Commission has set out in the list of recognised jurisdictions those categories of recognised jurisdiction schemes that are eligible for investment pursuant to 7.11A.

7.11B In addition, each underlying scheme's objective may not be to invest primarily in any investment prohibited by this Chapter, and where such scheme's objective is to invest primarily in investments restricted by this Chapter, such holdings may not be in contravention of the relevant limitation.

Notes: (1) Where a scheme exclusively invests in underlying schemes, it shall comply with the provisions in 8.1.

(2) The Commission generally does not require the management company to adopt a “see-through” approach in their investments in underlying schemes, except in the case where the underlying schemes are managed by the same management company as that of the scheme that invests in them, or by other companies within the same group that the management company belongs to, then 7.1, 7.2 and 7.3 are also applicable to investments of the underlying schemes.

Limitation on charges

7.11C Where a scheme invests in any underlying scheme(s) managed by the same management company or its connected persons, all initial charges on the underlying scheme(s) must be waived.

7.11D The management company of a scheme may not obtain a rebate on any fees or charges levied by an underlying scheme or its management company.

7.12 Notwithstanding 7.11, a scheme may invest all of its assets in a single collective investment scheme and be authorized as a feeder fund. In this case:-

(a) the underlying scheme must be authorized by the Commission;

(b) the offering document must state that:

(i) the scheme is a feeder fund into the underlying scheme;

- (ii) for the purpose of complying with the investment restrictions, the scheme and its underlying fund will be deemed a single entity;
 - (iii) the scheme's annual report must include the investment portfolio of the underlying fund as at the financial year end date; and
 - (iv) the aggregate amount of all the fees and charges of the scheme and its underlying fund must be clearly disclosed;
- (c) the borrowing of the feeder fund may not exceed 10% of its total net asset value and should be restricted to facilitating redemptions or defraying operating expenses; and
- (d) no increase in the overall total of initial charges, management company's annual fee, or any other costs and charges payable to the management company or any of its connected persons borne by the holders or by the scheme may result, if the schemes in which a scheme invests are managed by the same management company or by a connected person of that company.

Note: The SFC may consider on a case-by-case basis allowing additional fees to be payable to the management company or its connected persons in respect of additional or different services and expertise provided by the management company or its connected persons for the benefit of the scheme.

7.13 [deleted]

Prohibition on real estate investments

7.14 A scheme may not invest in any type of real estate (including buildings) or interests in real estate (including options or rights, but excluding shares in real estate companies and interests in real estate investment trusts (REITs)).

Note: In the case of investments in such shares and REITs, they shall comply with the investment limits as set out in 7.1, 7.2, 7.3 and 7.11, where applicable.

Short selling limitations

7.15 No short sale may be made which will result in the scheme's liability to deliver securities exceeding 10% of its total net asset value.

7.16 The security which is to be sold short must be actively traded on a market where short selling activity is permitted [see Note to 7.3].

Limitations on making loans

7.17 A scheme may not lend, assume, guarantee, endorse or otherwise become directly or contingently liable for or in connection with any obligation or indebtedness of any person without the prior written consent of the trustee/custodian.

Unlimited liability

- 7.18 A scheme may not acquire any asset which involves the assumption of any liability which is unlimited.

Limitations on securities in which directors/officers have interests

- 7.19 A scheme may not invest in any security of any class in any company or body if any director or officer of the management company individually owns more than 0.5% of the total nominal amount of all the issued securities of that class, or, collectively the directors and officers of the management company own more than 5% of those securities.

Limitations on nil-paid/partly paid securities

- 7.20 The portfolio of a scheme may not include any security where a call is to be made for any sum unpaid on that security unless that call could be met in full out of cash or near cash by the scheme's portfolio, the amount of which has not already been taken into account for the purposes of 7.8.

Limitations on borrowing

- 7.21 The maximum borrowing of a scheme may not exceed 25% of its total net asset value (except for a capital markets scheme which may not exceed 10%). For the purposes of this section of this UT Code, back-to-back loans do not count as borrowing.

Applicability of restrictions to umbrella funds

- 7.22 The provisions of this Chapter apply to each sub-fund of the umbrella fund as if each sub-fund were a single scheme, except for 7.2, where the total collective investment by the sub-funds in any ordinary shares issued by any single issuer may not exceed 10%.

Breach of investment limits

- 7.23 If the investment limits in Chapter 7 and 8 are breached, the management company should take as a priority objective all steps as are necessary within a reasonable period of time to remedy the situation, taking due account of the interests of the holders.

Name of scheme

- 7.24 If the name of the scheme indicates a particular objective, geographic region or market, the scheme should invest at least 70% of its non-cash assets in securities and other investments to reflect the particular objective or geographic region or market which the scheme represents.

Chapter 8: Specialized schemes

This chapter sets out the guidelines for various types of specialized schemes. A specialized scheme means any scheme whose primary objective is not investment in equities and/or bonds, any scheme falling under the categories in this Chapter, or which otherwise does not meet the requirements of Chapter 7.

For any scheme that has features falling within the scope of one or more specialized scheme(s) under this Chapter, the scheme shall comply with the relevant requirements under this Chapter where applicable. For example, where a guaranteed fund or index fund that seeks to achieve its investment objective through investment in, or use of, financial derivative instruments, the requirements regarding (i) collateral as set out in 8.8(e) of this UT Code and (ii) exposure to counterparty risk as set out in 8.8(d) of this UT Code must be complied with, in addition to requirements set out in 8.5 or 8.6 of this UT Code.

In addition to the specialized schemes mentioned in this Chapter, application may be made for other specialized schemes pursuant to this Chapter. Each such scheme will be considered by the Commission on a case-by-case basis, taking into account the applicable requirements set out in this Chapter and Chapter 7, or pending the issue, if appropriate, of further guidelines.

Limitation on charges

- (h) Where a UPMF invests in schemes managed by the same management company or its connected persons, all initial charges on the underlying schemes must be waived.

- (vii) where applicable, the mechanism of any up-front charging fee structure and the cost implications to investors.

Jurisdiction

- (g) Nothing in the deed of guarantee may exclude the jurisdiction of the courts of Hong Kong to entertain an action concerning the scheme or the guarantee.

Name of scheme

- (h) The name of the scheme should accurately reflect the nature of the guarantee.

Reporting Requirement

8.6 Index funds

The following criteria apply to index funds.

General

- (a) An index fund is a collective investment scheme, the principal objective of which is to track, replicate or correspond to a financial index or benchmark, with an aim of providing or achieving investment results or returns that closely match or correspond to the performance of the index.
- (b) An index fund may seek to track an index by one of the following strategies:
 - (i) full replication by investing all or substantially all of its assets in the constituents of the underlying index, broadly in proportion to the respective weightings of the constituents;
 - (ii) a representative sampling by investing in a portfolio featuring a high correlation with the underlying index; and
 - Note: The use of sampling where certain securities in the portfolio are not the constituent securities of the index is acceptable if the portfolio matches the characteristics of the index.*
 - (iii) Synthetic replication through the use of financial derivative instruments to replicate the index performance.
- (c) In achieving its investment objective, the scheme may invest in other appropriate investment instruments, such as derivatives permitted under this UT Code or otherwise accepted by the Commission, in accordance with the scheme's disclosed investment strategies and restrictions.
 - (c)(a) Where the management company of the index fund adopts a synthetic replication strategy, the requirements set out under 8.8 of this UT Code regarding structured funds are also applicable.
- (d) In general, the Commission will consider authorizing an index fund only if the underlying index is acceptable to the Commission. Such acceptance does not imply official approval or endorsement of the index. The Commission reserves

the right to withdraw the authorization if the index is no longer considered acceptable.

Note: The management company should immediately consult the Commission if for any reasons the index might likely cease or has ceased to be acceptable. The management company should as a priority objective propose remedial actions or alternatives that are acceptable to the Commission.

Acceptable Indices

- (e) The acceptability of an index will be assessed on the following criteria:
- (i) The index should have a clearly defined objective and/or the market or sector it aims to represent should be clear.

Note: The Commission must be satisfied that the index appropriately reflects the characteristics of the market or sector. The index should be able to reflect the price movements in its underlying constituents and change the composition and weightings of these constituents to reflect changes in the underlying market or sector. The Commission may, where relevant, request information on the market capitalisation of the constituent securities in relation to the total value of the market or sector that an index purports to represent.

- (ii) The index should in general be broadly based

Note: An index with a single constituent security weighing more than 40% or with its top five constituent securities weighing more than 75% would generally be considered too concentrated. Exceptions may be made on a case by case basis, particularly where the constituent securities are Government or other public securities.

- (iii) The index should be investible, where applicable.

Note: The Commission expects that the constituent securities should be sufficiently liquid (taking into account their respective weightings and trading volume), and may be readily acquired or disposed of under normal market circumstances and in the absence of trading restrictions.

- (iv) The index should be transparent and published in an appropriate manner.

Note: The latest index level and other important news should be either published in Hong Kong daily newspapers or conveniently accessible by investors (for example, by enquiring of the Hong Kong Representative or through relevant websites). The Commission may also consider whether the index is easily accessible through market data vendors.

- (v) The index should be objectively calculated and rules-based. The index provider is expected to possess the necessary expertise and technical resources to construct, maintain and review the methodology/rules of the index. The methodology/rules should be well documented, consistent and transparent.

Note: The Commission may request the submission of the methodology/rules of the index.

Reporting requirements

- (f) The Commission should be consulted on any events that may affect the acceptability of the index. Significant events relating to the index should be notified to the holders as soon as practicable. These may include a change in the methodology/rules for compiling or calculating the index, or a change in the objective or characteristics of the index.

Investment restrictions

- (g) The core requirements in Chapter 7 will apply with the modifications or exceptions as set out in the following (h) and (i) and paragraph 11 of Appendix I of this UT Code - Guidelines for Regulating Index Tracking Exchange Traded Funds.
- (h) Notwithstanding 7.1, more than 10% of the net asset value of an index fund may be invested in constituent securities issued by a single issuer provided that:
 - (i) it is limited to any constituent securities that each accounts for more than 10% of the weighting of the index; and
 - (ii) the scheme's holding of any such constituent securities may not exceed their respective weightings in the index, except where weightings are exceeded as a result of changes in the composition of the index and the excess is only transitional and temporary in nature.

Note: A waiver of (h)(ii) may be granted on a case-by-case basis, after considering factors including whether the waiver is necessary for the scheme to achieve its objective to track the index.

- (i) Subject to 8.6 (g) and (h) above, the 30% limit in 7.4 may be exceeded, and an index fund may invest all of its assets in Government and other public securities in any number of different issues despite 7.5.

Disclosure

- (j) In addition to the requirements under Appendix C, the offering document of an index fund must make the following disclosure and warnings:-
 - (i) a description of the market or sector the index aims to represent;
 - (ii) the characteristics and general composition of the index and, where applicable, concentration in any economic sectors and/or issuers;

- (iii) the weightings of the top 10 largest constituent securities of the index as of a date within a month of the date of the offering document;
- (iv) where necessary, a statement to the effect that the investment of the scheme may be concentrated in the securities of a single issuer or several issuers;
- (v) a warning of lack of discretion to adapt to market changes due to the inherent investment nature of index funds and that falls in the index are expected to result in corresponding falls in the value of the scheme;
- (vi) a statement to the effect that there is no guarantee or assurance of exact or identical replication at any time of the performance of the index;
- (vii) circumstances that may lead to tracking errors and the related risks, and strategies employed in minimising such errors;
- (viii) a brief description of the index methodology/rules and/or the means by which investors may obtain such information (for example, by providing the website address of the index provider);
- (ix) the means by which investors may obtain the latest index information and other important news of the index;
- (x) a warning that index composition may change and securities may be delisted;
- (xi) any circumstances that may affect the accuracy and completeness in the calculation of the index;
- (xii) a warning in relation to any licensing conditions (including indemnity given to the index provider, if any) for using the index, and the contingency plan in the event of cessation of the availability of the index;
- (xiii) a statement on whether the index provider and the management company of the scheme (or its connected persons) are independent of each other. If not, the means by which possible conflicts of interests may be addressed;
- (xiv) the Commission reserves the right to withdraw the authorization of the scheme if the index is no longer considered acceptable; and
- (xv) any other information which is relevant and material for investors to make an informed investment decision.

Replacement of the underlying index

- (k) Following the authorization of the scheme, a replacement of the underlying index may only be made in accordance with the provisions of its constitutive document and with the prior approval of the Commission.

Note: A replacement of the underlying index may be necessary under circumstances including where the index is no longer available or considered acceptable.

Financial statements

- (l) The interim and annual financial statements of the scheme must disclose a list of those constituent securities, if any, that each accounts for more than 10% of the weighting of the index as at the end of the relevant period and their respective weightings. The statements must also provide a comparison of the scheme performance and the actual index performance over the relevant period.

Name of scheme

- (m) The name of the scheme must reflect the nature of an index fund.

Note: The words “index”, “tracking” and/or “tracker” are expected to appear in the name of the scheme.

8.7 Hedge funds

Foreword

The following criteria apply to collective investment schemes that are commonly known as hedge funds (or alternative investment funds or absolute return funds). Hedge funds are generally regarded as non-traditional funds that possess different characteristics and utilize different investment strategies from traditional funds. In considering an application for authorization, the Commission will, among other things, consider the following:

- (i) the choice of asset class; and
- (ii) the use of alternative investment strategies such as long/short exposures, leverage, and/or hedging and arbitrage techniques.

Due to the wide array of schemes that may fall under this category, the Commission will exercise its discretion in imposing additional conditions to each scheme on a case-by-case basis as appropriate.

Where a scheme invests all its non-cash assets in other hedge funds, it may be authorized as a fund of hedge funds (FoHFs).

Where a scheme has a capital guarantee feature, it may be authorized as a capital guaranteed hedge fund. In this case, provisions of 8.5 and 8.7 may apply to the scheme where relevant, depending on the nature of the scheme.

Unless otherwise specified, the provisions in other Chapters of this UT Code shall apply. Where the provisions refer to the scheme, this means the applicant scheme.

The management company

- (a) The management company of a scheme must satisfy the requirements set out in Chapter 5 unless otherwise specified in this Chapter. For the avoidance of doubt, the Commission will consider, among others, the following factors when assessing the acceptability of the management company:
- (i) The management company must have the requisite competence, expertise and appropriate risk management and internal controls systems. It must also be adequately and suitably staffed in order to properly manage the risks and operational issues in connection with its hedge funds business;
 - (ii) the experience of the key investment personnel of the management company and those of the investment adviser (where the latter has been delegated the investment management function) in managing hedge funds;

Note: The key personnel of the management company of either a single hedge fund¹ or a FoHFs must be dedicated full-time staff with a demonstrable track record in the management of hedge funds.

The Commission will take into account various factors in assessing the acceptability of the key personnel for a scheme. These factors may vary from a single hedge fund to a FoHFs having regard to the different strategies and operational differences of these funds.

There must be at least two key personnel in the management company each having at least five years' relevant experience. The management company must demonstrate that out of these five years' relevant experience, the two key personnel must each have at least two years' specific experience:

- (a) *In the case of a single hedge fund manager, the Commission will normally consider it acceptable if each of the two key personnel has at least two years' specific investment management experience in the same strategy as that of the scheme.*
- (b) *In the case of a FoHFs manager, the Commission will normally consider it acceptable if each of the two key personnel has at least two years' specific investment management experience as a FoHFs manager.*

A key personnel may satisfy this five years' relevant experience by a combination of both his specific experience mentioned above and general experience relating to hedge funds. With respect to general experience, the Commission will normally consider the following types of experience acceptable:

¹ "Single hedge fund" in the context of 8.7 means hedge funds that are not in the form of FoHFs.

- (1) *proprietary trading experience in securities, derivatives or other investment instruments which are of a similar nature to those contemplated by the scheme; or*
- (2) *carrying out investment strategies in the context of investment management or securities dealing business in similar nature to the one contemplated for the scheme; or*
- (3) *prior experience in evaluating or selecting hedge funds for investment purposes.*

General experience acquired through academic research, sales or marketing or back-office administration of hedge funds is unlikely to be considered acceptable for meeting the requirement in 8.7(a).

For the avoidance of doubt, to the extent that 5.5(a) requires the key personnel to possess specific public funds experience, this requirement may be satisfied if the management company on a firm-wide basis is able to demonstrate that it possesses the requisite experience and resources to administer public funds.

The Commission may require independent substantiation of the management experience and track record of the key personnel, the management company and the group companies (where appropriate).

The experience requirement of the investment personnel of the underlying funds of a FoHFs is set out in the “Fund of Hedge Funds” section below.

- (iii) amount of assets under management;

Note: The Commission would generally expect at least US\$100 million for the total amount of assets under management that follow hedge fund strategies. While assets under management may include proprietary funds, the Commission will generally look for experience in managing third-party funds.

- (iv) the risk management profile and internal control systems of the management company; and

Note: The management company must have in place suitable internal controls and risk management systems commensurate with the company’s business and risk profile, including a clear risk management policy and written control procedures.

It must continuously deploy such necessary resources and be vigilant to ensure that all the relevant risks in connection with the management of the scheme are properly monitored and controlled in accordance with the investment strategy of the scheme.

The management company must demonstrate that those representatives and agents (including for example, administrators,

custodian, brokers, valuation agents) appointed by it possess sufficient know-how and experience in dealing with hedge funds.

In the case of the management of a FoHFs, the management company must:

- (a) have in place a due diligence process for the selection of the underlying funds and on-going monitoring of their activities;*
- (b) demonstrate its ability to assess and monitor the performance of the managers of the underlying funds, and the ability to replace the underlying funds whenever necessary to protect the interests of holders; and*
- (c) submit a plan to explain its due diligence and on-going monitoring processes (containing, among others, the frequency of reporting and evaluation of the underlying funds, and measures adopted by the management company to ensure investment and operational risks of the underlying funds are analysed and controlled) and include a summary of the plan in the offering document of the scheme.*

The management company must ensure that its risk management process is able to deal with normal and exceptional circumstances including extreme market conditions.

The management company must take all reasonable care in the selection of its distribution agents engaged in the selling of hedge funds and provide all necessary information and training to these agents for the purpose of selling the scheme.

- (v) the investment management operations of the scheme must be based in a jurisdiction with an inspection regime acceptable to the Commission.*

Note: Whilst reference would be made to the list of acceptable inspection regimes published on the Commission's website, it is noted that the regulation of offshore hedge funds vs. onshore funds may be different in some jurisdictions. The acceptability of an inspection regime in the context of a scheme that is subject to such regime and is seeking SFC authorization may need to be considered on a case-by-case basis.

Prime broker

- (b) Where a scheme appoints a prime broker, the following shall apply:*
 - (i) the prime broker must be a substantial financial institution subject to prudential regulatory supervision;*
 - (ii) where assets of the scheme are charged to the prime broker for financing purpose, such assets must not, at any time, exceed the level of the scheme's indebtedness to the prime broker;*

Note: Where assets of the scheme may be used as collateral or security for financing to be provided by the prime broker, disclosure must be made in the offering document of the risks associated with the collateralisation, for example, foreclosure or re-hypothecation of these assets by the prime broker and any consequential impact to the scheme and its investors.

- (iii) the assets charged to the prime broker must remain in a segregated custody account, in the name or held to the order of the trustee/custodian; and
- (iv) the scheme's offering document must disclose the profile of the prime broker and its relationship with the scheme.

Note: Before a prime broker is appointed by the scheme, the scheme or the management company (as the case may be) must conduct due diligence on the prime broker and be reasonably satisfied with the prime broker's suitability and competence.

Apart from disclosing the profile of the prime broker, the offering document must disclose the role(s) of the prime broker in relation to the hedge fund, whether the prime broker is subject to any regulatory supervision, and if so, a brief description of its licensing status in the relevant jurisdiction. Where appropriate, disclosure of the risks relating to any conflicts of interest between the prime broker and the scheme has to be made in the offering document.

Minimum subscription

- (c) The minimum level of initial subscription by each investor in a scheme must not be less than US\$50,000*, except for FoHFs, where the minimum initial subscription must not be less than US\$10,000*. No minimum subscription level will apply to a scheme which provides at least 100% capital guarantee.

(or the currency equivalent)*

Limited liability

- (d) The liability of holders must be limited to their investment in the scheme and this must be clearly stated in the offering document.
- (e) Where the scheme is a sub-fund of an umbrella fund, the scheme will be required to demonstrate to the Commission that there are legally enforceable provisions to ring-fence the scheme assets from the liabilities of other sub-funds. A brief description of such ring-fencing arrangement must be made in the offering document.

Note: The Commission may require an independent legal opinion or regulatory confirmation regarding the enforceability of the ring-fencing provisions.

Investment and borrowing restrictions

- (f) The scheme must have a set of clearly defined investment and borrowing parameters in its constitutive and offering documents. The offering document must clearly explain the types of financial instruments in which the scheme will invest; the extent of diversification or concentration of investments or strategies; the extent and basis of leverage (including the maximum level of leverage); and the related risk implications of the investment and borrowing parameters.
- (g) The core requirements in Chapter 7 will not apply except for 7.12, 7.14, 7.17, 7.18, 7.22 and 7.23.

Name of scheme

- (h) If the name of the scheme indicates a particular objective, geographic region or market, the scheme must utilize at least 70% of its non-cash assets for the purposes of pursuing the objective or geographic region or market.

Performance fees

- (i) If a performance fee is levied, the scheme must comply with 6.17. Full and clear disclosure of the calculation methodology must be set out in its offering document.

6.17 does not apply to the underlying funds of a FoHFs. For FoHFs, the offering document of the scheme must disclose whether a performance fee is levied at both the scheme level and the underlying funds level. It must also summarize the bases of how performance fees are calculated and paid by the underlying funds. Appropriate warnings must be made in the offering document about the possibility of charging performance fees at various levels within a FoHFs and the implications to investors.

Note: The Commission notes that various methodologies may be used for the charging and accrual of performance fees based on the basic principle in 6.17.

The Commission may require illustrative examples to be given in the offering document to demonstrate the charging method where it considers appropriate.

Where a scheme intends to achieve equalisation for the calculation of performance fees, its offering document must disclose the mechanisms adopted to achieve equalisation.

Where the scheme does not intend to achieve equalisation of performance fees, its offering document must clearly disclose this fact and how the absence of equalisation may affect the amount of performance fees to be borne by investors.

Fund of hedge funds

The following provisions apply to FoHFs in lieu of the provisions of 8.1.

- (j) The FoHFs must comply with the following:
- (i) a FoHFs must invest in at least five underlying funds, and not more than 30% of its total net asset value may be invested in any one underlying fund; and

Note: One of the underlying assumptions of a FoHFs is that it can achieve diversification through investing in a range of funds that employ different investment strategies and/or utilise the skills of different fund managers.

Any scheme applying for authorisation as a FoHFs should clearly explain its diversification strategy in the offering document.

A FoHFs authorised pursuant to this UT Code is expected to achieve investment return through the performance of its underlying funds rather than direct investments in securities, futures, options, derivatives, currency or other investments through proprietary trading or “managed accounts”. It is therefore generally not acceptable for a FoHF to carry out proprietary trading directly or through the use of “managed accounts”.
 - (ii) a FoHFs may not invest in another FoHFs.
- (k) The management company of the FoHFs must ensure that:
- (i) each of the key personnel of the management company of an underlying fund possesses at least two years’ experience in the relevant hedge fund investment strategy, provided however that up to 10% of the net asset value of the FoHFs may comprise of underlying funds managed by investment personnel with less experience;
 - (ii) there is an independent trustee/custodian to safe keep the assets of the underlying funds;
 - (iii) where a FoHFs invests in underlying funds managed by the same management company or its connected persons, all initial charges on such underlying funds are waived;
 - (iv) neither the management company of the FoHFs nor its connected persons retain a rebate (whether in cash or in kind) on any fees or charges levied by such underlying funds, their management company or any of their connected persons;
 - (v) the offering document of the FoHFs clearly discloses the aggregate amount or give an indicative range of all the fees and charges of the FoHFs and each of its underlying funds; and

- (vi) where the FoHFs invests in hedge funds not authorized by the SFC, such fact is disclosed in the offering document of the FoHFs. A warning must be included to the effect that some or all of the underlying funds of the FoHFs and their fund managers are not subject to the regulation of the Commission and that such funds may not be subject to rules similar to those of the Commission that are designed to protect investors.

Dealing

- (l) There must be at least one regular dealing day per month.
- (m) The maximum interval between the lodgement of a properly documented redemption request for redemption of units/shares (whether a notice period is required or not) and the payment of redemption money to the holder may not exceed 90 calendar days.

Note: A scheme may only effect redemption in specie with the prior consent of individual redeeming holder. The offering document must disclose the possibility of redemption in specie and the need to obtain prior consent from an individual holder for making such redemption.

A scheme may not effect compulsory redemption except where the management company is reasonably satisfied that it is in the overall benefit of the scheme to do so. Examples where the management may effect compulsory redemption include the circumstances where the continuous holding of the scheme's interest by a particular holder will cause the scheme to be in breach of any laws or regulations governing the scheme, or result in adverse financial consequences to the scheme such as tax penalties.

Subject to the foregoing, the offering document must disclose the circumstances under which compulsory redemption may be effected and the length of notice for such redemption.

- (n) The offering document of the scheme must include a warning to the effect that the redemption price may be affected by the fluctuations in value of the underlying investments during the period between the lodgement of the redemption request and the date when the redemption price is calculated.

Valuation

- (o) The investments of the scheme must be independently and fairly valued on a regular basis. Where appropriate, generally accepted accounting principles and industry's best practices should be applied on a consistent basis.

Note: It is incumbent upon the management company to demonstrate that the scheme's investments will be independently and fairly valued.

In considering whether the management company is able to demonstrate that a scheme's investments are independently valued, the Commission may take into account a number of factors including the following:

- a) *The duties and functions of the party carrying out the valuation (the “valuation agent”) is expected to be segregated from those of the party carrying out the investment management function for the scheme e.g. the appointment of an independent administrator. Disclosure of how the segregation is achieved must be made in the offering document;*
- b) *There should be checks and balances to ensure that the valuation process and policy is consistently followed;*
- c) *The pricing data should be gathered from reliable sources;*
- d) *Where necessary, safeguarding measures should be implemented for the valuation to be carried out independently; and*
- e) *The selection of the valuation agent by the management company is based on due process.*

Disclosure must be made of (1) the selection criteria of the valuation agent and the relationship between the management company, its group of companies and the valuation agent; and (2) any limitations and constraints of the valuation policies and methodologies.

The above factors are not exhaustive and the Commission may take into account other relevant factors in assessing the compliance with the independence requirement.

- (p) Full particulars of the valuation frequency, the valuation methods of the scheme’s investments, the identity and qualifications of the valuation agent(s), the experience of the valuation agent(s) in evaluating hedge fund assets and the relationship of the agent(s) with the scheme’s management company or its group of companies and, where applicable, with the prime broker must be disclosed in the offering document.
- (q) The offering document of the scheme must include a warning to the effect that some of the underlying investments of the scheme may not be actively traded and there may be uncertainties involved in the valuation of such investments. Potential investors must be warned that under such circumstances, the net asset value of the scheme may be adversely affected.

Disclosure

- (r) The front cover of the offering document must display prominently the following warning statements:
 - (i) the scheme uses alternative investment strategies and the risks inherent in the scheme are not typically encountered in traditional funds;
 - (ii) the scheme undertakes special risks which may lead to substantial or total loss of investment and is not suitable for investors who cannot afford to take on such risks;
 - (iii) investors are advised to consider their own financial circumstances and the suitability of the scheme as part of their investment portfolio; and

- (iv) investors are advised to read this offering document and should obtain professional advice before subscribing to the scheme.

Note: The text of the warning statements may be varied but the message must be clear and not disguised.

- (s) For the purpose of 6.1, the offering document must disclose all relevant matters relating to the investment operations and risk management aspects of the scheme and give lucid explanations of the investment strategy of the scheme and the risks inherent in the scheme.

Note: For example, explanations should be given on the nature of the scheme; the markets covered; the instruments used; the risk and reward characteristics of the strategy; the circumstances under which the scheme would work best and the circumstances hostile to the performance of the scheme; the risk management and internal control mechanism, including the setting of investment and borrowing parameters to control the risks; the terms of the offering; the on-going monitoring of the scheme's investment and asset allocation process and the performance of the scheme; the on-going monitoring of the standards of the services provided by key service providers, for example, prime brokers and administrators and the replacement process of these service providers and the responsibilities of each of the relevant parties.

The offering document should be written in plain language. The Commission specifically encourages the use of a glossary to explain technical terms.

Details of unauthorized funds must not be shown in the offering document. Where names of such funds are mentioned, these must be clearly marked as unauthorized and not available to Hong Kong residents.

- (t) The management company must disclose the measures and safeguards put in place for the management of conflicts of interest in relation to the operation of the scheme.
- (u) All advertisements must prominently display the warning statements referred to in 8.7(r) above.

Application form

- (v) All application forms of the scheme must state prominently that the scheme is a hedge fund and there are special risks involved with investment in the scheme, and direct investors to read the offering document.

Financial reports

- (w) The management company must issue regular reports to holders on the scheme activities at least on a quarterly basis. Reports must be prepared and distributed in accordance with the Guidelines on Hedge Funds Reporting Requirements [see Appendix H].

8.8 Structured funds

The following general criteria shall apply to a collective investment scheme, known as structured fund, which seeks to achieve its investment objective primarily through investing substantially in financial derivative instruments, for example swap or market access products or similar arrangements. A structured fund is passively managed and usually tracks the performance of an index and/or offers structured pay-outs when certain pre-determined conditions are met. The provisions in other Chapters of this UT Code shall apply where appropriate.

Note: The requirements under 8.9 of this UT Code are intended to apply to actively managed funds that invest in financial derivative instruments to gain exposure by investing in different derivatives and therefore are not applicable to structured funds other than those under 8.9(f) of this UT Code.

- (a) The management company of a structured fund and the issuer of financial derivative instruments shall be independent of each other.

Notes: (1) The management company cannot also act as the issuer of financial derivative instruments.

(2) The index adopted by the scheme shall be objectively calculated, measurable and transparent to the public, for instance, the index is rules-based with minimal or no discretion exercisable by the issuer of the financial derivative instruments, and the index level or its calculation formula is accessible by the public. Where such index is provided for the use of the structured fund only, this would raise questions as to the propriety of the fund seeking exposure to such index.

- (b) Where the scheme is a mutual fund company, the majority of the board of directors of the scheme shall be independent directors (for example, persons who are not employees or officers of the derivative counterparty).
- (c) The valuation of the financial derivative instruments has to be marked-to-market daily. There shall be regular, reliable and verifiable valuation conducted by the manager or trustee or their delegate independent of the issuer of financial derivative instruments, through measures such as the establishment of a valuation committee or engagement of third party services. Further, the calculation agent/fund administrator should be adequately equipped with the necessary resources to conduct independent marked-to-market valuation and to verify the valuation of the financial derivative instruments on a regular basis;
- (d) Collateral has to be provided to limit the exposure of the scheme to the counterparty risk of the issuer of financial derivative instruments to no more than 10% of the net asset value of the scheme.

Note: The management company shall demonstrate, where appropriate, with proper legal opinion in support, the collateral is held by the trustee / custodian of the fund and must be readily accessible / enforceable by it without further recourse to the issuer of the financial derivative instruments.

- (e) Collateral must meet the following requirements:

- (i) Liquidity - sufficiently liquid in order that it can be sold quickly at a robust price that is close to pre-sale valuation. Collateral should normally trade in a deep and liquid marketplace with transparent pricing;
- (ii) Valuation - mark to market daily;
- (iii) Issuer credit quality – of high credit quality; collateral on assets that exhibit high price volatility may be accepted only if suitably conservative haircuts are in place;
- (iv) Diversification – must be appropriately diversified so as to avoid concentrated exposure to any single issuer. The counterparty or other investment limit/exposure of the collateral as a percentage of a scheme's net asset value must not contravene the investment restrictions or limitations set out in Chapter 7;

Note: By way of illustration, the value of collateral and the scheme's investment, if any, issued by any single issuer may not exceed 10% of the scheme's net asset value. Where the collateral is in the form of government and other public securities, 7.4 and 7.5 apply.

- (v) Correlation – correlation between the issuer of the financial derivative instruments and the collateral received must be avoided;
- (vi) Management of operational and legal risks – there must be in existence appropriate systems, operational capabilities and legal expertise for proper collateral management;
- (vii) Independent custody – must be held by the trustee or custodian of the scheme;
- (viii) Enforceability – must be readily accessible / enforceable by the trustee/custodian of the scheme without further recourse to the issuer of the financial derivative instruments; and
- (ix) Not available for secondary recourse – collateral cannot be applied for any purpose except for the purpose of being used as collateral.

Note: Structured products whose payouts rely on embedded derivatives or synthetic instruments or securities issued by special purpose vehicles, special investment vehicles or similar entities, shall not be invested by the fund or held as collateral to cover or reduce the counterparty exposure.

- (f) The management company has to put in place detailed contingency plans regarding credit events like significant downgrading of credit rating and the collapse of the issuer of financial derivative instruments.
- (g) Where the aggregate value of all collateral held by a scheme represents 30% or more of its net assets value, it shall disclose in the scheme's annual and interim reports a description of collateral holdings as required under Appendix E.

Disclosure

- (h) In addition to the information in Appendix C, the offering document must contain the following:
 - (i) disclosure of the structure of the scheme, in plain language and supplemented by visual aids and diagrams (where appropriate);
 - (ii) description of any potential conflicts of interest and the related risks arising from the same entity or entities within the same group acting in different capacities in relation to the scheme; and
 - (iii) description of any other relevant risks (legal or otherwise) arising from the structure of the scheme.

8.9 Funds that invest in financial derivative instruments

The following general criteria shall apply to a non-UCITS scheme which seeks to acquire financial derivative instruments for investment purposes, but does not meet the specific criteria set out in respect of other scheme types in this chapter or relevant provisions in Chapter 7. For the avoidance of doubt, the scheme shall also comply with provisions in Chapter 7 other than those in respect of financial derivative instruments which are aggregated and covered under 8.9.

UCITS schemes that use financial derivative instruments for investment purposes have already complied with the relevant UCITS requirements and thus are not required to comply with 8.9 except for the disclosure requirements set out in 8.9(j) and (k).

Financial Derivative Instruments Investments and Related Operational Requirements

- (a) A scheme may acquire financial derivative instruments for investment purpose subject to the limit that the scheme's global exposure relating to these financial derivative instruments does not exceed 100% of the total net asset value of the scheme.
- (b) For the purpose of calculating global exposure, the commitment approach shall be used, whereby the derivative positions of a scheme are converted into the equivalent position in the underlying assets embedded in those derivatives, taking into account the prevailing value of the underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions.
- (c) Before undertaking any investment within this category, the management company must have put in place suitable and adequate risk management and control systems to monitor, measure, and manage all the relevant risks in relation to the scheme. The risk management and control systems must (i) be commensurate with the nature and scale of the financial derivative investment activities that it undertakes for the scheme, bearing in mind the retail nature and risk profile of the scheme and (ii) be able to deal with normal and exceptional circumstances including extreme market conditions. The management company must maintain at all times such risk management and control systems.

- (d) The management company must at all times be adequately and suitably staffed in order to properly implement its risk management policy and procedures.
- (e) The management company must at all times demonstrate that those representatives and agents (including for example, administrators, custodian, brokers, valuation agents) appointed by it possess sufficient know-how, expertise and experience in dealing with the underlying investments of the scheme.
- (f) The financial derivative instruments invested by a scheme may be either listed/quoted on a stock exchange or dealt in over-the-counter, provided that:
 - (i) the underlying consists solely of shares in companies, debt securities, money market instruments, units/shares of collective investment schemes, deposits with substantial financial institutions, government and other public securities and physical commodities (primarily precious metals such as gold, silver, platinum or other bullion), financial indices, interest rates, foreign exchange rates or currencies, in which the scheme may invest according to its investment objectives and policies;
 - (ii) the counterparties to over-the-counter derivative transactions or their guarantors are substantial financial institutions; and
 - (iii) the valuation of the over-the-counter derivatives is marked-to-market daily, subject to regular, reliable and verifiable valuation and can be sold, liquidated or closed by an offsetting transaction at any time at their fair value at the scheme's initiative. [see also 8.8(c)]
- (g) The risk exposure to a counterparty of a scheme in an over-the-counter derivative transaction may not exceed 10% of its net asset value.
- (h) To limit the exposure to each counterparty as set out in (g) above, the scheme may receive collateral from such issuer, provided that the collateral complies with the requirements set out in 8.8(e).
- (i) For the avoidance of doubt, financial derivative instruments acquired for hedging purposes will not be counted towards the 100% limit referred to in 8.9(a) above.

Disclosure

- (j) The offering document shall contain information in plain language to facilitate investors' understanding of the scheme's investment strategy and risk profile, including:
 - (i) additional risk disclosures including the risks associated with investments in financial derivative instruments;
 - (ii) a statement indicating how and where information regarding the risk management and control policy, procedures and methods employed by the scheme will be made available to Hong Kong investors upon request; and
 - (iii) a summary of the risk management policy and methods employed by the scheme to effectively measure and manage the risks associated with the investments in financial derivative instruments.
- (k) The collateral disclosure requirements in 8.8(g) above shall also be complied with by a scheme falling under 8.9.

Chapter 9: Additional requirements for Non-Hong Kong based schemes

Appointment of representative

- 9.1 A scheme will be required to appoint a Representative in Hong Kong if its management company is not incorporated and does not have a place of business in Hong Kong.
- 9.2 If a Representative is appointed, the scheme has to maintain the Representative throughout the period it is authorised in Hong Kong.

Functions of a representative

- 9.3 The Representative is not required to take responsibility for the acts and omissions of the management company or, in the case of the scheme being a company, the directors of the scheme. It must, however, be authorized on behalf of the scheme and the management company to:-
- (a) receive applications and money for units/shares from persons in Hong Kong;
 - (b) issue receipts in respect of the application moneys received in accordance with (a);
 - (c) issue contract notes to the applicants in accordance with the terms of the scheme;
 - (d) receive redemption notices, transfer instructions and conversion notices from holders for immediate transmission to the management company or the scheme;
 - (e) accept any notices or correspondence, including service of process, which holders may wish to serve on the scheme, trustee/custodian or the management company;
 - (f) notify the Commission immediately if redemption of units/shares ceases, or is suspended;
 - (g) make available for public inspection in Hong Kong, free of charge, and offer for sale at a reasonable price copies of all constitutive documents of the scheme;
 - (h) provide holders with information on the scheme including the scheme's financial reports and sales literature;
 - (i) deliver to the Commission, if it requests, all accounts and records relating to the sale and redemption of units/shares of the scheme in Hong Kong; and
 - (j) represent the scheme and the management company in relation to all matters in which any holder normally resident in Hong Kong has a pecuniary interest or which relate to units/shares sold in Hong Kong.

Criteria for appointment

- 9.4 The management company is encouraged to appoint a Representative within the management group. The Representative must:-
- (a) be licensed or registered under the SFO; or
 - (b) be a trust company registered under Part VIII of the Trustee Ordinance (Chapter 29 of the laws of Hong Kong) and such company is an affiliate of an authorized financial institution defined under the SFO and is acceptable to the Commission.
- 9.5 [deleted]
- 9.6 The Representative must be properly appointed to represent the scheme and the management company.

Written undertaking

- 9.7 The Representative must provide the Commission with a written undertaking that it will perform the duties required of a Representative under this UT Code.

Retirement and replacement of the representative

- 9.8 Should the Representative retire or be dismissed, it must be replaced as soon as possible, by another Representative whose appointment is subject to the approval of the Commission.

Hong Kong representative agreement

- 9.9 Details of all contracts between the Representative, the scheme and/or the management company must be supplied to the Commission. Any subsequent amendments of these contracts must be notified to the Commission.

Jurisdiction

- 9.10 Nothing in the constitutive documents may exclude the jurisdiction of the courts of Hong Kong to entertain an action concerning the scheme.

Part III: Post-authorization requirements

Chapter 10: Operational matters

Valuation and pricing

- 10.1 A scheme must be valued and priced in accordance with the provisions of its offering and constitutive documents and the provisions of Chapter 6.

Pricing errors

- 10.2 If an error is made in the pricing of units/shares, the error should be corrected as soon as possible and any necessary action should be taken to avoid further error. If the error results in an incorrect price of 0.5% or more of scheme's net asset value per unit/share, the trustee/custodian and the Commission must be informed immediately. In such a case, investors should be compensated as follows, unless determined otherwise by the trustee/custodian with justification to the Commission:-
- (a) where total loss to individual investors (either purchasing or redeeming) is more than HK\$100 or such lesser amount as the management company may decide, investors should be compensated in such manner as the management company should determine with the approval of the trustee/custodian; and
 - (b) where the loss is to the management company, no compensation should be paid.

Changes to dealing

- 10.3 Where a scheme deals at a known price, and based on information available, the price exceeds or falls short of the current value of the underlying assets by more than 5%, the management company should defer dealing and calculate a new price as soon as possible.
- 10.4 A permanent change in the method of dealing may only be made after one month's notice to holders.
- 10.5 A temporary change may only be made:-
- (a) in exceptional circumstances, having regard to the interests of holders;
 - (b) if the possibility of a change and the circumstances in which it can be made have been fully disclosed in the offering document; and
 - (c) with the approval of the trustee/custodian.

Suspension and deferral of dealings

- 10.6 Suspension of dealings may be provided for only in exceptional circumstances, having regard to the interests of holders.

- 10.7 The management company or the Representative must immediately notify the SFC if dealing in units/shares ceases or is suspended. The fact that dealing is suspended must be published immediately following such decision and at least once a month during the period of suspension, in the newspaper(s) in which the scheme's prices are normally published.
- 10.8 Where redemption requests on any one dealing day exceed 10% of the total number of units/shares in issue, redemption requests in excess of 10% may be deferred to the next dealing day.

Transactions with connected persons

- 10.9 No person may be allowed to enter on behalf of the scheme into underwriting or sub-underwriting contracts without the prior consent of the trustee/custodian and unless the scheme or the management company provides in writing that all commissions and fees payable to the management company under such contracts, and all investments acquired pursuant to such contracts, will form part of the scheme's assets.
- 10.10 If cash forming part of the scheme's assets is deposited with the trustee/custodian, the management company, the investment adviser or with any connected person of these companies (being an institution licensed to accept deposits), interest must be received on the deposit at a rate not lower than the prevailing commercial rate for a deposit of that size and term.
- 10.11 All transactions carried out by or on behalf of the scheme must be at arm's length. In particular, any transactions between the scheme and the management company, investment adviser, the directors of the scheme or any of their connected persons as principal may only be made with the prior written consent of the trustee/custodian. All such transactions must be disclosed in the scheme's annual report.
- 10.12 Neither the management company nor any of its connected persons may retain cash or other rebates from a broker or dealer in consideration of directing transactions in scheme property to the broker or dealer save that goods and services (soft dollars) may be retained if:-
- (a) the goods or services are of demonstrable benefit to the holders;
 - (b) transaction execution is consistent with best execution standards and brokerage rates are not in excess of customary institutional full-service brokerage rates;
 - (c) adequate prior disclosure is made in the scheme's offering document the terms of which the holder has consented to [see C15 of Appendix C]; and
 - (d) periodic disclosure is made in the scheme's annual report in the form of a statement describing the manager's soft dollar practices, including a description of the goods and services received by the manager.

Note: Goods and services falling within (a) above may include: research and advisory services; economic and political analysis; portfolio analysis, including valuation and performance measurement; market analysis, data and quotation services; computer hardware and software incidental to the above goods and services; clearing and custodian services and investment-related publications. Such goods

and services may not include travel, accommodation, entertainment, general administrative goods or services, general office equipment or premises, membership fees, employee salaries, or direct money payments.

- 10.13 In transacting with brokers or dealers connected to the management company, investment adviser, directors of the scheme or any of their connected persons, the management company must ensure that it complies with the following obligations:
- (a) such transactions should be on arm's length terms;
 - (b) it must use due care in the selection of brokers or dealers and ensure that they are suitably qualified in the circumstances;
 - (c) transaction execution must be consistent with applicable best execution standards;
 - (d) the fee or commission paid to any such broker or dealer in respect of a transaction must not be greater than that which is payable at the prevailing market rate for a transaction of that size and nature;
 - (e) the management company must monitor such transactions to ensure compliance with its obligations; and
 - (f) the nature of such transactions and the total commissions and other quantifiable benefits received by such broker or dealer shall be disclosed in the scheme's annual report.

Chapter 11: Documentation and reporting

Ongoing disclosures

- 11.1 The proposed changes to a scheme in respect of the following must be submitted to the Commission for prior approval:
- (a) changes to constitutive documents;
 - (b) changes of key operators (including the trustee / custodian, management company and its delegates and Hong Kong representative) and their regulatory status and controlling shareholder;
 - (c) changes in investment objectives, policies and restrictions (including the purpose or extent of use of derivatives), fee structure and dealing and pricing arrangements; and
 - (d) any other changes that may materially prejudice holders' rights or interests.
- 11.1A For changes to a scheme that require the Commission's prior approval pursuant to 11.1, the Commission will determine whether holders should be notified and the period of notice (if any) that should be applied before the changes are to take effect. The revised Hong Kong Offering Document as a result of such changes should be submitted to the Commission for prior authorization.

- Notes:*
- (1) *Normally, the Commission will expect that one month's prior written notice (or such longer period as required under applicable laws and regulations or the provisions as set out in the offering or constitutive documents) should be provided to holders in respect of the changes. However, the Commission may permit a shorter period of notice if the change is not significant or may require a longer period of notice (up to three months) in exceptional circumstances. [see also 6.7]*
 - (2) *For the purposes of 11.1A, significant changes would include, for example, changes in investment objectives or major investment policies, and fee structure.*
 - (3) *For any increase in fees and charges from the current level as stated in the Hong Kong Offering Document up to the maximum level permitted by the constitutive documents, prior approval from the Commission is not required, but no less than one month's prior notice must be given to holders.*

- 11.1B For changes to a scheme that do not require the Commission's prior approval pursuant to 11.1, unless there is a specified minimum prior notice period in this UT Code, the management company should inform holders as soon as reasonably practicable of any information concerning the scheme which is necessary to enable holders to appraise the position of the scheme. The Hong Kong Offering Document may be updated to incorporate such changes and reissued without further authorization provided that the content and format of such document remains fundamentally the same as the version previously authorized. The revised Hong Kong Offering Document must be filed with the

Commission, together with a marked-up version against the previously filed version, within one week from the date of issuance.

Note: The management company should inform holders as soon as reasonably practicable of any material adverse change in the financial conditions or business of the key counterparties to a scheme that it is aware of. 'Key counterparties' include the management company, guarantor (where relevant), trustee/custodian and swap counterparty of the fund.

Notices to holders

- 11.2 Notification to holders must be made in the language(s) in which the scheme is offered to investors in respect of any changes or proposed changes to the offering or constitutive documents as determined by the Commission pursuant to 11.1A.

Note: In the case of schemes domiciled outside Hong Kong, notwithstanding the notice provisions of a scheme's home jurisdiction, the Commission may require additional notice to ensure that Hong Kong investors have sufficient time to consider and respond to the documentation. For example, any general meeting at which a special resolution is to be proposed shall be convened on at least 21 days' prior notice and that any general meeting at which an ordinary resolution is to be proposed shall be convened on at least 14 days' prior notice.

- 11.2A Subject to 11.4 and 11.5 below, notices to holders need not be approved by the Commission prior to issuance, but are required to be filed with the Commission within one week from the date of issuance of the notice. The Commission, however, retains its power to require issuers to submit draft notices for review where the Commission considers it appropriate. For the avoidance of doubt, matters relating to 11.1 should be approved by the Commission prior to the distribution of the relevant notices to holders.

- 11.2B The management company has the responsibility to ensure that notices to holders are not misleading and contain accurate and adequate information to keep investors informed. All notices should contain a Hong Kong contact number for investors to make enquiries.

Note: Notices should not include any reference to a specific date or timetable in respect of the changes made to the offering or constitutive documents where such date or timetable has not been agreed in advance with the Commission.

- 11.3 (Repealed)

Withdrawal of authorization

- 11.4 Following the authorization of a scheme, its management company should, subject to 11.5 below, give at least three months' notice to holders of any intention not to maintain such authorization. Such notice should be submitted to the Commission for prior approval and contain the reasons for the withdrawal of authorization, consequences of the withdrawal, any proposed changes in the operation of the scheme and their effects on existing investors, the alternatives available to investors (including, if possible, a right to switch without charge into another authorized scheme) and, where applicable, an estimate of any relevant expenses and who is expected to bear them.

Merger or termination

- 11.5 If a scheme is to be merged or terminated, in addition to following any procedures set out in the scheme's constitutive documents or governing law, notice must be given to investors as determined by the Commission. Such notice should be submitted to the Commission for prior approval and contain the reasons for the merger or termination, the relevant provisions under the constitutive documents that enable such merger or termination, the consequences of the merger or termination and their effects on existing investors, the alternatives available to investors (including, if possible, a right to switch without charge into another authorized scheme), the estimated costs of the merger or termination and who is expected to bear them.

Reporting requirements

Reporting to holders

- 11.6 At least two reports must be published in respect of each financial year. Annual reports and accounts containing the information provided in Appendix E must be published and distributed to holders within four months of the end of the scheme's financial year and interim reports must be published and distributed to holders within two months of the end of the period they cover.

As an alternative to the distribution of printed financial reports, holders may be notified of where such reports, in printed and electronic forms, can be obtained within the relevant time frame.

Note: Where a scheme does not issue bilingual annual and interim reports, the offering document of the scheme shall clearly disclose that annual and interim reports are available in English or Chinese language only, as the case may be.

- 11.7 The scheme's latest available offer and redemption prices or net asset value must be published at least once a month in at least one leading Hong Kong English language and one Chinese language daily newspaper. However, if a waiver has been given by the Commission under 6.2, publication need only be made in the language approved for that scheme. If dealing is suspended, this must be published in accordance with 10.7.

Maintenance of a website

- 11.7A A scheme should, as a matter of best practice, maintain a website for publication of its offering document, circulars, notices, announcements, financial reports and the latest available offer and redemption prices or net asset value of the scheme.

Reporting to Commission

- 11.8 Subsequent to the authorization of the scheme, all financial reports produced by or for the scheme, its management company and trustee/custodian must be filed with the Commission within the time frame specified in 11.6.
- 11.9 The management company or the Representative must supply to the Commission, upon request, all information relevant to the scheme's financial reports and accounts.

- 11.10 The management company or the Representative should notify the Commission as soon as possible of any change to the data in the application form.

Advertising materials

- 11.11 Advertisements and other invitations to invest in a scheme, including but not limited to those issued by licensed or registered persons acting as the distributors of the scheme, must comply with the Advertising Guidelines. All advertisements must be submitted to the Commission for authorization prior to their issue or publication in Hong Kong, unless exempted under section 103 of the SFO. For the avoidance of doubt, even if an advertisement is exempted from obtaining authorization from the Commission under the SFO, the issuer must still ensure that the advertisement or invitation complies with the Advertising Guidelines.
- 11.12 Where authorization by the Commission is required, it is recommended that the issuer of advertisements nominate one person, such as the Approved Person, the Hong Kong Representative or any other persons acceptable to the Commission, based in Hong Kong to liaise with the Commission. Authorization may be varied or withdrawn by the Commission as it deems fit. Once authorized, the advertisement may be used in any distribution media and reissued without further authorization with updated performance information of schemes and general market commentary provided that the content and format of such advertisement remain fundamentally the same as the version previously authorized and the advertisement, when reissued, is in compliance with the Advertising Guidelines.

Note: For radio, television, cinema or other time-limiting advertisements / broadcasts that require authorization by the Commission, the script of any verbal statements in such advertisements should be submitted for the Commission's advance clearance, followed by the demo of the broadcast (e.g. digital files) for formal authorization.

- 11.13 Issuers must keep adequate records of the advertisements issued, either in actual form or by way of a copy of the final proof, and the relevant supporting documents for substantiation of information presented thereon. Such records must be retained for at least 3 years from the latest date of publication / distribution of an advertisement and made available to the Commission upon request.

Mention of SFC authorization

- 11.14 Where a scheme is described as having been authorized by the Commission it must be stated that authorization does not imply official recommendation by adding a prominent note in the following terms to the offering document and advertisements and other invitations to invest in the scheme:

SFC authorization is not a recommendation or endorsement of a scheme nor does it guarantee the commercial merits of a scheme or its performance. It does not mean the scheme is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors.

Appendix G

Guidelines for review of internal controls and systems of trustees / custodians

Introduction

1. Pursuant to 4.1 of this UT Code, trustees/custodians of collective investment schemes are required to be approved by the SFC. An acceptable trustee/custodian should either:
 - (a) on an ongoing basis, be subject to regulatory supervision; or
 - (b) appoint an independent auditor to periodically review its internal controls and systems on terms of reference agreed with the SFC and should file such report with the SFC.
2. As a general guide, in determining the acceptability of an overseas supervisory authority, the SFC will have to be satisfied that either the overseas regulatory authority or its delegate carries out regular inspection of trustees/custodians within its jurisdiction or the latter is subject to regular review in a manner generally consistent with the SFC requirement. In the latter case, the auditor's report should be filed with the SFC.

Purpose of Guidelines

3. These Guidelines provide further guidance to trustees and custodians of scheme regarding compliance with the periodic internal control review requirement of this UT Code. These Guidelines set out the minimum best practice for trustees/custodians and auditors of scheme in order to facilitate the agreement of the scope of an internal control review on terms which will be acceptable to the SFC. These Guidelines have been developed in consultation with the Hong Kong Trustees Association and the Hong Kong Society of Accountants.
4. For the purpose of these Guidelines, the term "auditors" refers to the independent reporting accountants who are engaged in reporting on the internal controls of the trustee/custodian of scheme.

Scope of review

5. The internal control review should involve all material procedural and control elements relevant and necessary to the responsibilities of trustees/custodians in relation to scheme. The review should be conducted in accordance with generally acceptable international auditing practices¹.

¹ For example: *Practice Note 860.2* issued by the Hong Kong Society of Accountants; or *Technical Release AUDIT 4/97* issued by the Institute of Chartered Accountants in England and Wales (ICAEW) in the UK.

6. The engagement letter between the trustee/custodian and the auditor should incorporate or refer to the following Terms of Reference which sets out, as a minimum, the scope of review for compliance with the requirements of this UT Code. The trustee/custodian may engage the auditor to expand the scope of the review, and it is important that this is agreed with the auditor before the commencement of the review.
7. Where the trustee/custodian or an associated company carries on part of its responsibilities outside Hong Kong in a jurisdiction in which the SFC considers that there is inadequate regulatory supervision or review (as described in paragraph 2), then the scope of the review should include those functions undertaken outside Hong Kong in a way which satisfies the auditor issuing the report. Notwithstanding that an offshore company may be appointed trustee/custodian, if the trustee/custodian confirms that all relevant functions are carried out by it or its delegates in Hong Kong, the scope of the review can be so limited.

Terms of reference

8. The precise terms of the review engagement will be as agreed between the trustee/custodian and the auditor in each particular case. Terms of Reference for the review should be incorporated in the review engagement letter and should, as a minimum, include the following:

A. Report by the management of the trustee/ custodian

The management of the trustee/custodian must issue a report to describe the control objectives. As a minimum, control objectives should include the following:

- Maintenance of a control environment
- Compliance with applicable legal and regulatory requirements
- Compliance with control policies and procedures
- Safekeeping of assets against loss

The controls designed to meet the above objectives may vary from firm to firm. The SFC does not mandate specific controls to meet the control objectives. It is the responsibility of the management of the trustee/custodian to design suitable controls and ensure that these are effective and properly implemented for the purpose of achieving the control objectives so identified.

In addition, the report should describe the internal control policies and procedures designed for achieving the control objectives.

B. Objective of the review engagement

The objective of the engagement is to review the control objectives and procedures as described in the report issued by the trustee/custodian and to report on the findings of the review to the management of the trustee/custodian.

C. Report by the auditor

The auditor should issue a report, addressed to the management of the trustee/custodian, detailing the scope of the review work carried out relating to the

report by management and the conclusions reached. The report should state, as a minimum:

- (i) a summary of the terms of engagement (or attach a copy of the letter of engagement);
- (ii) the respective responsibilities of the management of the trustee/custodian and the auditor;
- (iii) the basis of the auditor's opinion (detailing the scope of work); and
- (iv) the auditor's opinion.

D. Auditor's opinion

As a minimum requirement, the auditor's opinion should state:

- (i) whether the accompanying report by the management of the trustee/ custodian describes fairly the control procedures in place during the period under review; and
- (ii) whether the specific control procedures tested (with details described) operated as described during the period under review.

Where applicable, the auditor should state the limitations to the tests performed and whether such limitations have any material impact on the auditor's opinion.

Period under Review

- 9. The period under review should be for a period of at least twelve months and should coincide with the financial year of the trustee/custodian unless otherwise agreed with the SFC.

Filing of Reports with the SFC

- 10. The management of the trustee/custodian should file a copy of the auditor's report and the trustee/custodian report (as described in paragraph 8) with the SFC within four months from the end of the period under review. Where applicable, management response to the auditor's report should also be attached. The reports should be sent to:

Investment Products Division
Securities & Futures Commission
35/F, Cheung Kong Center
2 Queen's Road Central
Hong Kong

Frequency of Review

- 11. The review of internal controls and systems of trustees/custodians of scheme should be conducted on an annual basis. The SFC reserves the right to demand more frequent review of a trustee or custodian should this be deemed necessary.

Appendix H

Guidelines on hedge funds reporting requirements

Introduction

The Commission has published the Guidelines on Hedge Funds Reporting Requirements (the Guidelines). The Guidelines sets out the minimum amount of information that is required to be disclosed in regular reporting to holders. The Commission advocates additional information to be disclosed if it is deemed to be appropriate and informative to holders, taking into account the objective and strategy of the scheme.

1. Pursuant to 5.17 and 11.6 of this UT Code, authorized schemes are required to publish at least two reports in respect of each financial year, of which the annual report must be audited by the auditor for the scheme. Pursuant to 8.7(w) of this UT Code, authorized hedge funds are also required to publish quarterly reports for holders. The following scheme reports should be distributed to holders and filed with the Commission within the stipulated timeframe:

<u>Nature of reports</u>	<u>No. of reports for each scheme financial year</u>	<u>Timeframe for filing and distribution to holders</u>
Annual report	One	Within four months of the end of the relevant financial year, except for funds of hedge funds (FoHFs) where the timeframe for filing and distribution to holders is within six months of the end of the relevant financial year.
Semi-annual report	One	Within two months of the end of the relevant period
Quarterly reports	Four	Within one month of the end of the relevant period, except for FoHFs where the timeframe for filing and distribution to holders is within six weeks of the end of the relevant period.

Note: Where the management company wishes to report to holders via monthly reports, there is no need to prepare quarterly reports provided that the same requirements for quarterly reports are complied with in the monthly reports.

2. These Guidelines aims to provide further guidance to management companies regarding the on-going reporting requirements of authorized hedge funds. *The Commission reserves the right to require additional disclosure to be made.*
3. For the ease of understanding by holders, where technical terms are used in the scheme reports, the management company is specifically encouraged to include a glossary to explain their meaning and their implications to investors. Where

financial terms are used in the scheme reports, the management company must provide their calculation bases, definitions, and any underlying assumptions.

4. Where the provisions refer to the scheme, this means the authorized hedge fund.

A. Contents of financial reports

Requirements applicable to both annual and semi-annual reports

5. Annual and semi-annual reports of the scheme must contain the information as required by Appendix E of this UT Code, with the exceptions as provided in paragraph 6.
6. The Commission encourages full disclosure of individual holdings of the scheme. Where the management company is satisfied that full disclosure of such information may be unduly burdensome, it may adopt alternative disclosures in lieu of the disclosure as required in the Investment Portfolio subsection of Appendix E of this UT Code. In that case, the management company must choose the most appropriate and informative illustration of the scheme's holdings/exposures at the end of the relevant period, taking into account the objective and strategy of the scheme.

Note: The following will be regarded as minimum disclosures acceptable to the Commission. The Commission reserves the right to require disclosure of the full position of the scheme for the purposes of carrying out its regulatory functions. Such disclosures to the Commission will be subject to the Commission's preservation of secrecy provisions.

With respect to any scheme that is a FoHFs, the management company should disclose:

- a. *Exposures (including cash and cash equivalent holdings*) for the scheme at the scheme level as of the reporting date (expressed in percentage terms of net asset value of the scheme) categorized by geographical region, industry, strategy, or some other basis that the management company considers the most appropriate, taking into account the objective and strategy of the scheme;*
- b. *The names and percentage values (based on net asset value of the scheme) of the top five underlying funds held by the scheme as of the reporting date;*
- c. *The number of underlying funds and the number of underlying fund managers included in the scheme as of the reporting date; and*
- d. *(Where the scheme is a multi-strategy FoHFs) disclosure of the number of underlying funds and underlying fund managers under each hedge fund strategy.*

With respect to other schemes, the management company should disclose:

- a. *Exposures (including cash and cash equivalent holdings*) for the scheme as of the reporting date (expressed in percentage terms of net asset value of the scheme) categorized by asset class, geographical region, industry, strategy, or some other basis that the management company considers the most appropriate, taking into account the objective and strategy of the scheme;*
- b. *The names and amounts of the top five long positions and top five short positions held by the scheme on a gross basis as of the reporting date; and*
- c. *The aggregated gross long and short positions held by the scheme as of the reporting date (expressed in percentage terms of the net asset value of the scheme);*

** “Cash equivalent holdings” are defined as those assets with a maturity of less than one year and which are readily transactable in an arm’s length transaction between willing and knowledgeable parties.*

Requirements specific to annual reports

7. Where performance fees were borne by the scheme during the financial year, the annual reports of the scheme must contain the amount of such performance fees payable at the scheme level expressed as a percentage of average net asset value of the scheme as at the end of the financial year and the calculation basis.

Note (1): A nil statement is required if no performance fees were borne by the scheme during the financial year.

(2): Where the scheme is a FoHFs, only performance fees at the FoHFs’ level need to be disclosed.

B. Quarterly reports

Distribution of quarterly reports

8. The Commission requires that quarterly reports be distributed to holders to keep them informed of the scheme activities on a timely basis.
9. Quarterly reports are required to be filed with the SFC and distributed to holders within the stipulated timeframe under paragraph 1 of these Guidelines.

Note: Given the newness of these Guidelines to the market, measures would be taken to familiarise the management company with the reporting requirements and the disclosure standard expected of these reports. The first quarterly report of each scheme must obtain a “no objection” letter from the Commission before it is issued to persons in Hong Kong. In order to facilitate the vetting procedures, upon request from the management company, Commission staff may review and provide comments on the format of the first quarterly report of each scheme before its contents are ready.

10. Quarterly reports may not be distributed to non-holders unless accompanied by the offering document of the scheme.

Contents of quarterly reports

11. Quarterly reports must be provided in the English and Chinese languages, and must contain the following information regarding the scheme.

Management commentary

12. A statement to the effect that the directors of the scheme and/or the management company accept responsibility for the information contained in the quarterly reports as being accurate as at the date of publication.

- (a) Performance review

A commentary by the management company that describes and explains the key factors impacting upon the scheme's financial performance and any style drifts in the scheme during the reporting period.

Note: Where the scheme is a FoHFs, the management company is expected to explain what has driven performance in terms of different strategies.

- (b) Market outlook

A discussion of the management company's expectation of the primary risk factors to which the scheme is exposed to, and the outlook of the development of these factors as they relate to the scheme.

- (c) Changes in key investment personnel

- (d) Lawsuits

Details of any lawsuits that may have a financial impact on the scheme during the reporting period.

Portfolio review

- (e) Fund size and NAV per unit/share

(f) Cash borrowings and other sources of leverage

The amount of cash borrowings and other sources of leverage at the scheme level and a summary of how leverage is calculated as at the end of the reporting period.

Note: The management company is expected to choose the most appropriate and informative illustration of the scheme's leverage, consistent with disclosures in the scheme's offering document, taking into account the objective and strategy of the scheme. Where the scheme is a FoHFs, disclosure is only required at the FoHFs' level.

(g) Performance and risk measures

Disclosure of performance and risk measures of the scheme in tabular form. A sample format with the required parameters and time frames is set out in the **Appendix** to these Guidelines.

The management company is encouraged to disclose other appropriate performance and risk measures, taking into account the objective and strategy of the scheme (e.g. Value at Risk (VaR), Alpha, Sortino ratio, additional Sharpe ratios using alternative risk free rates other than zero, aggregated risk/return statistics, full position disclosure of derivatives and their basis of calculation, time to recovery periods, % of down months, % of up months, delta equivalent of option positions etc.).

The management company must provide the calculation basis, definition and any underlying assumptions of each performance and risk measure either alongside the performance and risk measure or in a separate glossary.

(h) Amount of seed money

Disclosure of the amount of seed money expressed in percentage terms of the net asset value of the scheme contributed by the management company or its connected persons as at the end of the reporting period.

(i) Illiquid holdings

With respect to any scheme that is a FoHFs, the management company must disclose:

- (i) The name(s) of any underlying fund(s) suspended during the reporting period;
- (ii) The acquisition cost of such underlying funds; and
- (iii) The latest status of such underlying funds as at the end of the reporting period.

With respect to other schemes, the management company must disclose the name(s) and acquisition costs of all illiquid holdings* held by the scheme as at the end of the reporting period, categorized by:

- (i) Derivatives; and
- (ii) Non-derivatives.

- * *“Illiquid holdings” are defined as assets for which there are no readily available market values to be transacted between knowledgeable and willing parties in an arm’s length transaction, or with no registered turnover in the last 30 days prior to and including the reporting date.*

(j) Concentrated exposures

With respect to any scheme that is a FoHFs, the management company should disclose:

- (i) Exposures (including cash and cash equivalent holdings) for the scheme at the scheme level as of the reporting date (expressed in percentage terms of net asset value of the scheme) categorized by geographical region, industry, strategy, or some other basis that the management company considers the most appropriate, taking into account the objective and strategy of the scheme;
- (ii) The number of underlying funds and the number of underlying fund managers included in the scheme as of the reporting date; and
- (iii) (Where the scheme is a multi-strategy FoHFs) disclosure of the number of underlying funds and underlying fund managers under each hedge fund strategy.

With respect to other schemes, the management company should disclose:

- (i) Exposures (including cash and cash equivalent holdings) for the scheme as of the reporting date (expressed in percentage terms of net asset value of the scheme) categorized by asset class, geographical region, industry, strategy, or some other basis that the management company considers the most appropriate, taking into account the objective and strategy of the scheme; and
- (ii) The aggregated gross long and short positions held by the scheme as of the reporting date (expressed in percentage terms of the net asset value of the scheme).

Note (1): “Cash equivalent holdings” are defined as those assets with a maturity of less than one year and which are readily transactable in an arm’s length transaction between willing and knowledgeable parties.

(2): The Commission reserves the right to require disclosure of the full position of the scheme for the purposes of carrying out its regulatory functions. Such disclosures to the Commission will be subject to the Commission’s preservation of secrecy provisions.

Appendix I

Guidelines for regulating index tracking exchange traded funds

Introduction

1. These guidelines apply to passively managed index tracking exchange traded funds (which will be referred to as “Exchange Traded Funds” or “ETFs” throughout these guidelines)¹ authorized pursuant to this UT Code. These guidelines form part of 8.6 of this UT Code and are to be read in conjunction with this UT Code for an overall view of the regulatory framework for ETFs. In case of doubt, an applicant should consult the SFC at the earliest possible time on the application of these guidelines to an Exchange Traded Fund seeking authorization under this UT Code.
2. These guidelines are devised on the basis that ETFs, whether established in Hong Kong or overseas, should comply with common principles for safeguarding investors’ interests if they seek to be authorized by the SFC. Local and overseas ETFs may seek to rely on the general relief granted in these guidelines from strict compliance with certain UT Code requirements including investment restrictions and prescribed risk warnings.
3. Overseas ETFs that meet the core requirements for authorized schemes under this UT Code and are governed by a regulatory framework considered acceptable in these guidelines may seek the SFC authorization by way of a streamlined process. Depending on the specific product type and the way they are governed in their home jurisdictions, overseas ETFs may be deemed to have complied with some or all of the requirements in 8.6 of this UT Code in relation to investment restrictions and strategies, index acceptability and the documentation requirements such as constitutive documents, product disclosure documents and financial reports in other parts of this UT Code.
4. These guidelines also require ETFs that are primarily listed on the local exchange of Hong Kong to adopt an enhanced disclosure regime for real time or near-real time trading information. Overseas ETFs that are primarily listed on overseas exchanges are recommended but are not obliged to comply with this enhanced disclosure regime for real time or near-real time overseas trading information.

¹ An “index tracking ETF” means an index fund (as defined in Chapter 8.6) and whose units/shares are traded on a securities exchange. For avoidance of doubt, the term “ETF” used in these guidelines does not cover actively managed non-index tracking funds.

Basic requirements for ETFs

5. ETFs, whether local or overseas, must comply with the structural, operational and core investment requirements under this UT Code. They must also abide by the on-going compliance and reporting requirements under this UT Code subject to the applicable relief laid down in these guidelines if they seek authorization from the SFC.²
6. ETFs that do not conduct initial public offerings or any forms of public sales or subscriptions are not obliged to produce a Hong Kong Offering Document as stated in 6.1 of this UT Code. Instead, they must prepare a Product Description Document in both English and Chinese. The term “offering document” shall be replaced by the term “Product Description Document” wherever the former appears in this UT Code (see Paragraph 10 below) in relation to this type of ETFs.
7. Given ETF are index funds, the requirements set out in 8.6 (a) to (e) of the UT Code are broadly applicable to ETFs, unless otherwise stated in this appendix.

Note: ETFs holding physical commodities of precious metals may be considered on a case-by-case basis.

- 7A. Where an ETF adopts the strategy of investing in financial derivative instruments or synthetic replication for the purpose of achieving its investment objective, the requirements set out in 8.8 of this UT Code must also be complied with.
8. It is a condition for authorizing an ETF that intends to be primarily traded in Hong Kong and authorized under this UT Code (referred to as “Local ETFs” in these guidelines), that it must be either listed or traded on the Stock Exchange of Hong Kong Limited (the “SEHK”).

Streamlined regulatory regime for ETFs

9. ETFs must comply with this UT Code requirements not otherwise modified or waived by these guidelines.
10. Except as provided in paragraph 24(e) below, an ETF that is not conducting initial public offerings, or any forms of public sales or subscriptions in Hong Kong need not prepare a Hong Kong Offering Document in accordance with 6.1 of this UT Code. This ETF must prepare a Product Description Document in both English and Chinese that meets the content requirements in Appendix C of this UT Code (as modified by these guidelines) which is more particularly set out in **Annex (I)** to these guidelines.

General relief from 8.6

Unless otherwise stated in these guidelines, ETFs, whether local or overseas, must comply with all the applicable provisions governing index funds in 8.6 of this UT Code.

² For avoidance of doubt, the term “ETFs” in these guidelines shall, where the context applies, mean ETFs authorized under the Code.

11. *Relief from 8.6(h)*: Investment restrictions in 8.6(h)(i) and (ii) do not apply if:
- (a) an ETF adopts a representative sampling strategy which does not involve the full replication of the constituent securities of the underlying index in the exact weightings of such index;
 - (b) the strategy is clearly disclosed in the Product Description Document/Hong Kong Offering Document of the ETF (as the case may be);
 - (c) the excess of the weightings of the constituent securities held by the ETF over the weightings in the index is caused by the implementation of the representative sampling strategy;
 - (d) any excess weightings of the ETF holdings over the weightings in the index must be subject to a maximum limit reasonably determined by the ETF after consultation with the SFC. In determining this limit, the ETF must consider the characteristics of the underlying constituent securities, their weightings and the investment objectives of the index and any other suitable factors;
 - (e) limits laid down by the ETF pursuant to paragraph 11(d) above must be disclosed in the Product Description Document/Hong Kong Offering Document (as the case may be);
 - (f) disclosure must be made in the ETF's semi-annual and annual reports as to whether the limits imposed by the ETF itself pursuant to paragraph 11(d) have been complied with in full. If there is non-compliance with the said limits during the relevant reporting period, this must be reported to the SFC on a timely basis and an account for such non-compliance should be stated in the report relating to the period in which the non-compliance occurs or otherwise notified to investors; and
 - (g) nothing in paragraphs 11(d), (e) and (f) above applies to an overseas ETF governed by an Acceptable ETF Regime or by the relevant overseas jurisdiction (see the Note to paragraph (d) in **Annex (III)** to these guidelines).
12. *Disclosure of Risk Warnings under 8.6(j)*: Provisions relating to disclosure of index funds information in 8.6(j) do not apply where **Annex (I)** does not require the same. In particular, where proper risk warnings are disclosed, provisions relating to disclosure of risk warnings in 8.6(j)(iv), (v), (vi), (vii), (x), (xi), (xii) and (xiv) need not be strictly adhered to.
13. *Name of the ETF under 8.6(m)*: 8.6(m) does not apply if the name adopted is not misleading or deceptive as to the nature of the ETF and its investment objectives and strategy.

Modified post-authorization notification and approval procedures

14. The notification and approval requirements under 11.1A and 11.7 of this UT Code are modified to the following extent:

- (a) *Increase in Fees and Charges in 11.1A*: The prior notice requirements under 11.1A does not apply to adjustments in management fees if:
- (i) the proposed adjustments in management fees do not require holders' approval; and
 - (ii) either a notice for the fee adjustments is published as stated in paragraph 14(c) or where the ETF is governed by an Acceptable ETF Regime or in the relevant overseas jurisdiction (see the Note to paragraph (d) in **Annex (III)**), there is no notification requirement for this type of fee adjustments in that jurisdiction;
- (b) *Publication of NAV in Local Newspapers in 11.7*: On the basis that information is available to investors in accordance with paragraphs 17 to 21 in these guidelines (where applicable), the obligation under 11.7 to publish NAV in local newspapers is dispensed with. The management company must immediately notify the SFC as soon as practicable if dealing in units/shares on the SEHK ceases or is suspended.
- (c) Unless otherwise waived or provided for in paragraph 24(g) below, all notices and public announcements made by ETFs in accordance with this UT Code and these guidelines must be prepared in both English and Chinese.

Note: for avoidance of doubt, nothing in paragraph 14 shall exempt an ETF from compliance with 11.1, 11.4 and 11.5 of this UT Code.

Dissemination of trading information by ETFs

Local ETFs

17. In addition to information commonly available for stocks during the trading hours of the SEHK (e.g. bid/ask prices and queuing displays), local ETFs must provide the following trading information to the public on a real time or near- real time basis unless otherwise waived, via any suitable channels in paragraph 18 below:
- (a) Estimated NAV or R.U.P.V.³
 - (b) Last closing NAV;
 - (c) Notices for suspension and resumption of trading; and
 - (d) Composition of constituent securities (where practicable).
- 17A. Where an ETF adopts synthetic replication through the use of financial derivative instruments to replicate the index performance, the ETF should also publish the gross

³ R.U.P.V. as used on the information pages of information vendors in relation to ETFs listed on the SEHK stands for "Reference Underlying Portfolio Value" which is updated at 15-second intervals during trading hours and is equivalent to the aggregate of the total value of the Index Basket Shares per Creation Unit (which is calculated by multiplying the nominal price of the Index Basket Share by the number of the respective Index Basket Shares) and the prior day estimated total cash component per Creation Unit divided by the number of Units in a Creation Unit.

and net exposure to each counterparty and the value, nature and composition of collateral received (as a percentage of the ETF's NAV), where applicable.

18. Information in paragraphs 17(a) to (d) above may, where applicable, be made available to investors in Hong Kong through one or more of the following means:
 - (a) ETF's own website; or
 - (b) A hyperlink of (a) to the website of Hong Kong Exchange and Clearing Limited ("HKEx"); or
 - (c) Information pages of information vendors which disseminate trading information of ETFs in their ordinary course of business and whose information is accessible by retail brokers in Hong Kong (whether as paid services or not); or
 - (d) Any other channels that the SFC considers acceptable.

Overseas ETFs that have cross-listing or cross-trading status on the SEHK

19. Overseas ETFs authorized by the SFC that are cross-listed or cross-traded on the SEHK must provide local trading information in relation to their trading on the SEHK. Local trading information includes notices for suspension and resumption of trading on the SEHK. It is a recommended best practice for such overseas ETFs to provide their overseas markets' trading information that is of the same nature as described in paragraphs 17(a) to (d) above where trading hours of the relevant overseas market and those of the SEHK overlap.
20. Information provided to investors according to paragraph 19 may be made available via any of the channels stated in paragraph 18 or via the website of overseas exchanges on which such ETFs are traded.

Prior disclosure in the product description document/Hong Kong offering document

21. ETFs, whether local or overseas, must make prior disclosure of the types of trading information and channels through which such information is made available to investors in their Product Description Document/Hong Kong Offering Document (as the case may be). An ETF should also disclose the type of trading information (falling within the recommended best practices in these guidelines) that is not made available to investors in its Product Description Document/Hong Kong Offering Document (as the case may be).
- 21A. An ETF (whether local or overseas) should disclose the estimated total expense ratio of the scheme in the Product Description Document or Offering Document, where applicable.

Publication of ETFs' materials in Hong Kong

22. An ETF, whether local or overseas, must ensure that the following documents are made readily available to Hong Kong investors through any of the ETF's own website or such other channels as the SFC considers appropriate:
 - (a) Product Description Document/Hong Kong Offering Document (as the case may be);
 - (b) The ETF's offering document or prospectus (as the case may be) prepared in accordance with the regulations of the Acceptable ETF Regime or the relevant

- overseas jurisdiction (see the Note to paragraph (d) in **Annex (III)**) (“ETF’s Overseas Offering Document”) (where applicable);
- (c) Product KFS (where applicable);
 - (d) Latest version of the semi-annual and annual financial reports of the ETF; and
 - (e) All notices and public announcements issued by the ETF in either the Acceptable ETF regime or the relevant overseas jurisdiction (see the Note to paragraph (d) in **Annex (III)**) and in Hong Kong.

Note: Where an ETF is listed or traded on the SEHK, it may, but is not required to, make available the abovementioned documents to investors in Hong Kong by way of hyperlinks to the HKEx website.

Streamlined recognition process for overseas ETFs listed in an acceptable ETF regime

23. An overseas ETF that meets the core structural and operational requirements in this UT Code and is regulated in an Acceptable ETF Regime, may be authorized through a streamlined recognition process. The specific relief in paragraph 24 applies to this type of overseas ETF such that they will be deemed to have complied with certain UT Code requirements including constitutive documentation requirements, index acceptability and the prescribed contents for financial reports.

*Note: In determining whether a regime is an Acceptable ETF Regime, the regulatory principles set out in **Annex (III)** would be considered.*

24. An overseas ETF that complies with the conditions set out in **Annex (IV)** may rely on the following specific relief for a streamlined process for authorization in addition to the general relief in paragraphs 11 to 14.
- (a) *Acceptability of Index in 8.6(e)*: The index that such an overseas ETF tracks will be deemed to have complied with 8.6(e)(i) to (v) except where such index or its methodology contradicts the fundamental principles of a representative, diversified, investible and transparent index.
 - (b) *Reporting Requirements in 8.6(f)*: 8.6(f) only applies to (i) any significant events relating to the index that might affect the authorization or listing status of an overseas ETF in an Acceptable ETF Regime; and (ii) any other events in relation to the index that the Acceptable ETF Regime would require notification to investors. Notification of these events must be published in Hong Kong in both English and Chinese and notified to the SFC on a timely basis.
 - (c) *Replacement of Index in 8.6(k)*: Subject to paragraphs 24(a) and 24(g) of these guidelines, 8.6(k) does not apply to the replacement of index. Any replacement of index must be notified to investors and the SFC on a timely basis.
 - (d) *Disclosure in Financial Reports in 8.6(l) and Appendix E*: ETFs that have prepared their semi-annual and annual financial reports in accordance with their own governing overseas regulations, which reports are not qualified by their auditors, will be relieved from full compliance with the content requirements of 8.6(l) and Appendix E.

- (e) *Product Description Document*: Notwithstanding paragraph 10 above, the Product Description Document for an ETF from an Acceptable ETF Regime does not have to set out all the details of the information stated in **Annex (I)** to these guidelines if:
- (i) The Product Description Document takes the form of a summary of the salient features of the ETF including appropriate risk warnings as to the level of disclosure contained in it. This Product Description Document has to be prepared in both English and Chinese;
 - (ii) The ETF's Overseas Offering Document is available to investors in Hong Kong via the ETF's own website, the website of the overseas exchange on which it is primary listed or the HKEx website (if applicable); and
 - (iii) The ETF's Overseas Offering Document mentioned in paragraph 24(e)(ii) may be made available in either English or Chinese.
- (f) *Constitutive Documents*: The constitutive documents will be deemed to have complied with Appendix D of this UT Code in so far as these are related to the structural and operational aspects of the ETF.

Note: ETFs fall within the categories of Specialized Schemes under Chapter 8 of this UT Code and the concept of Recognized Jurisdiction Schemes is not directly applicable. However, in considering whether the constitutive documents of an ETF from an Acceptable ETF Regime is in compliance with this UT Code requirements, for example, Appendix D, the SFC would consider whether the home regulations in the Acceptable ETF Regime share similar principles in providing structural safeguards for investor protection. Accordingly, strict compliance with Appendix D and other operational requirements may not be required.

- (g) *Notification and Language Requirement in respect of Notices under 11.1 to 11.2B*: Notices in relation to ongoing disclosures that require the SFC's prior approval pursuant to 11.1 of an ETF that is primarily regulated in an overseas jurisdiction have to be published or made generally available to investors in Hong Kong. Unless otherwise waived, these notices must be in both English and Chinese, and be published on a timely basis and in such manner as the ETF considers appropriate.

24A. The SFC may enter into any mutual recognition arrangement with other jurisdictions from time to time to facilitate cross-listing and offering of ETFs in each other's market. Please refer to the relevant circular published on the SFC's website at www.sfc.hk for the specific relief granted to overseas ETFs under the relevant mutual recognition arrangement.

Miscellaneous

25. These guidelines do not apply retrospectively to index tracking exchange traded funds already authorized on or before 24 October 2003.
26. With respect to ETFs that have been submitted to the SFC for approval pursuant to this UT Code but have not been authorized before 24 October 2003, they may elect to comply with this UT Code as amended by these guidelines.

27. These guidelines do not preclude the right of the SFC to impose any conditions for the authorization of an ETF as may be reasonable in the circumstances.

Annex (III)

General principles for an acceptable ETF regime

In determining whether a regime is an Acceptable ETF Regime, the following regulatory principles would be considered:

- (a) The availability of a mutual co-operation and assistance agreement for fund management activities between the principal securities regulator of the Acceptable ETF Regime and the SFC;
- (b) The similarity or comparability of the overall securities regulatory framework provided by the overseas jurisdiction where there is substantial interest in the ETF and in which it is primarily listed. The SFC will consider the extent to which these overseas jurisdictions' structural and operational requirements and disclosure standards on ETFs are comparable or equivalent to the principles adopted by the SFC for regulating collective investment schemes;
- (c) The overall and combined effect of the rules and regulations, the regulatory infrastructure of an Acceptable ETF Regime where the ETF is primarily listed and in which there is substantial interest and the effectiveness of the administration of these rules and regulations, should be able to afford comparable investor protection to that provided under the Hong Kong regulatory framework; and
- (d) The overseas stock exchange on which primary listing of the ETF takes place should provide a system for efficient public dissemination of trading and other information relevant to the trading of ETFs. Information about the index which the ETF tracks is either published generally or otherwise made readily available to the public in electronic or other means.

*Note: It is acknowledged that the regulatory framework for ETFs in some overseas jurisdictions may meet substantially but not all of the above principles in **Annex (III)** for recognition as an Acceptable ETF Regime. In these circumstances, the SFC would consider on a case-by-case basis the extent to which these ETFs may be granted partial relief under these guidelines and if any corresponding or alternative safeguards for investor protection should be imposed in consideration of the relief being granted.*

Once it is established that an overseas ETF is regulated in an Acceptable ETF Regime, such ETF must also comply with the conditions in **Annex (IV)** in order to be eligible for the specific relief in paragraphs 23 and 24 of the guidelines.

Annex (IV)

Compliance conditions for overseas ETFs

An overseas ETF that seeks to rely on the specific relief in paragraphs 23 and 24 of the guidelines must comply with the following conditions:

- (a) Compliance with the applicable laws and regulations of the relevant Acceptable ETF Regime;
- (b) Compliance with the applicable listing rules and trading rules of the overseas exchange on which the ETF is primarily listed;
- (c) There are no changes in the laws and regulations of the Acceptable ETF Regime and the relevant overseas listing rules governing the offering and the listing of the ETF that would materially affect the Acceptable ETF Regime's comparability with that of Hong Kong. Where any material changes would be made to the securities regulations or the applicable listing rules of the Acceptable ETF Regimes thereby affecting their comparability with those of Hong Kong, the ETF or its management company must inform the SFC as soon as practicable; and
- (d) The ETF complies in full with the applicable provisions in the guidelines.

Part I: General matters

Chapter 1: Authorization procedures

General

- 1.1 Investment-linked assurance schemes are insurance policies issued by an Authorized Insurer and they are normally expected to comply with the applicable provisions of the Handbook, including without limitation, all of the applicable provisions of this ILAS Code in order to be authorized in Hong Kong by the SFC pursuant to section 104 of the SFO.
- 1.2 Authorized Insurers are under the prudential regulation of the Insurance Authority. The intermediaries selling investment-linked assurance schemes, including insurance agents and brokers, are subject to a self-regulatory system through self-regulatory organisations of the insurance industry. These organisations are also subject to the oversight of the Insurance Authority. Therefore, issues such as how the Authorized Insurers operate, their financial conditions or their business conduct are not within the Commission's regulatory ambit.
- 1.3 Applications for authorization which seek waivers of any of these provisions must give detailed reasons why waivers are sought.

Nomination of an individual as approved person

- 1.4 According to sections 104(2) and 105(2) of the SFO, an individual must be approved for the purposes of being served by the Commission with notices and decisions for, respectively, the scheme and the issue of any related advertisement, invitation or document. An applicant for authorization is, therefore, required to nominate an individual for approval by the Commission as an approved person.
- 1.5 An approved person should:
 - (a) have his/her ordinary residence in Hong Kong;
 - (b) inform the Commission of his/her current contact details, including, in so far as applicable, the address, telephone and facsimile numbers, and electronic mail address;
 - (c) be capable of being contacted by the Commission by post, telephone, facsimile and electronic mail during business hours;
 - (d) inform the Commission of any change in his/her contact details within 14 days after the change takes place; and
 - (e) comply with any other requirements as the Commission considers appropriate.
- 1.6 An individual approved by the Commission as an approved person for a scheme shall generally be approved also for the issue of any advertisement, invitation or document made in respect of that scheme.

Documents to be supplied to the Commission

- 1.7 An applicant for authorization of a scheme should complete and submit the Application Form together with the following to the Commission upon application for authorization:

Note: The Application Form is available on the Commission's website.

- (a) the scheme's offering document and constitutive documents;
- (b) Information Checklist;

Note: The Information Checklist is available on the Commission's website.

- (c) such other documents as may be required by the SFC from time to time;
- (d) application fee in the form of a cheque payable to the "Securities & Futures Commission"; and

Note: The current fee schedule is available on the Commission's website.

- (e) the letter nominating an individual to be approved by the Commission as an approved person containing the individual's name, employer, position held and contact details, including, in so far as applicable, the address, telephone and facsimile numbers, and electronic mail address.

Authorized Insurer

- 1.8 Insurers are required to obtain authorization to carry on Class C of Long Term Business under the Insurance Companies Ordinance (Chapter 41 of the Laws of Hong Kong) before applying for authorization of its investment-linked assurance schemes.

Chapter 2: Administrative arrangements

Administrative arrangements

- 2.1 According to section 8 of the SFO, the Commission is empowered to set up committees, whether for advisory or other purposes. The Commission will establish a Products Advisory Committee for the purpose of consultation and advice on matters which may relate to collective investment schemes within the scope of this ILAS Code of the Handbook. The remit of the Products Advisory Committee and its membership will be set out in its Terms of Reference.

Data privacy

- 2.2 The information requested under this ILAS Code may result in the applicant providing the Commission with personal data as defined in the Personal Data (Privacy) Ordinance. The data supplied will only be used by the Commission to perform its functions, in the course of which it may match, compare, transfer or exchange personal data with data held or obtained by the Commission, government bodies, other regulatory authorities, corporations, organizations or individuals in Hong Kong or overseas for the purpose of verifying those data. Subject to the limits in section 378 of the SFO, the Commission may disclose personal data to other regulatory bodies. You may be entitled under the Personal Data (Privacy) Ordinance to request access to or to request the correction of any data supplied to the Commission, in the manner and subject to the limitations prescribed. All enquiries should be directed to the Data Privacy Officer at the SFC.

Part II: Authorization requirements

Chapter 4: Applicant company

Regulatory status of applicant company

- 4.1 No investment-linked assurance scheme will be authorized pursuant to this ILAS Code unless the applicant company is an Authorized Insurer. If the applicant company ceases to be authorized by the Insurance Authority, any existing authorization of the scheme will normally lapse.

Responsibilities of applicant company

- 4.2 The applicant company will be responsible for observing all requirements of this ILAS Code and any conditions imposed by the Commission in granting authorization during the continued enjoyment of that authorization, except to the extent that the Commission grants waivers in writing.
- 4.3 The applicant company is responsible for whatever information is given to the Commission on its behalf and should use its best endeavours to ensure that statements of intention in printed matter are followed.
- 4.4 If a scheme contains a guaranteed investment option, such guarantee should be provided either by the applicant company or a substantial financial institution acceptable to the Commission.
- 4.5 The applicant company shall:
- (a) use its best endeavours to carry on and conduct its business in a proper and efficient manner and will ensure that any scheme to which the constitutive documents relate is conducted in a proper and efficient manner; and
 - (b) exercise best endeavours and due diligence to ensure that the marketing of the scheme is carried out professionally, honestly and fairly.

Chapter 5: Operational requirements

Scheme documentation

Matters to be disclosed in the offering document

- 5.1 An authorized scheme must issue an up-to-date offering document, which should contain all information (including but not limited to product features and risks factors associated with the scheme) necessary for prospective scheme participants to be able to make an informed judgment of the investment proposed to them, and in particular should contain the information listed in Appendix A.

English and Chinese offering document

- 5.2 Except as provided herein, the offering document must be prepared in English and Chinese. The Commission may waive the requirement that the information be provided in both languages on a case-by-case basis where the applicant company satisfies the Commission that the scheme will only be offered to persons fully conversant in the language in which it is intended to publish the information.

Illustration document

- 5.3 An illustration document must be prepared by the Authorized Insurer in conjunction with each proposed investment by each prospective scheme participant. This document must be provided to the scheme participant for his review and signature prior to signing of the application form.
- 5.4 The minimum requirements for the information to be included in the illustration document are set out below. Subject to the approval of the Commission, the Authorized Insurer may customize the document to include additional information provided that such additional information is not misleading and does not otherwise detract from the information disclosed in the minimum requirements.

(a) Surrender values

The Authorized Insurer is required to illustrate, what the scheme participant would be expected to receive if he redeems at the end of each of the first 5 years of the contract, and for every fifth year thereafter until maturity, after deduction of all relevant charges. The computation of these surrender values shall not take into account any non-guaranteed returns, including, without limitation, any discretionary bonus, dividend payments, reimbursements of charges. These expected surrender values should be based on at least 2 different assumptions on the rate of return.

Note: For the avoidance of doubt, assumed rates of return may still be used in the illustration document and further guidance is available on the Commission's website.

(b) Prescribed statements

The following statements should appear in the illustration document:

THE ASSUMED RATES USED BELOW ARE FOR ILLUSTRATIVE PURPOSES. THEY ARE NEITHER GUARANTEED NOR BASED ON PAST PERFORMANCE. THE ACTUAL RETURN MAY BE DIFFERENT!

IMPORTANT:

THIS IS A SUMMARY ILLUSTRATION OF THE SURRENDER VALUES OF [Name of Product]. IT IS INTENDED TO SHOW THE IMPACT OF FEES AND CHARGES ON SURRENDER VALUES BASED ON THE ASSUMPTIONS STATED BELOW AND IN NO WAY AFFECTS THE TERMS OF CONDITIONS STATED IN THE POLICY DOCUMENT.

The following statements should be clearly disclosed before the scheme participant's signature:

Warning: You should only invest in this product if you intend to pay the premium for the whole of your chosen premium payment term. Should you terminate this product early, you may suffer a significant loss.

I confirm having read and understood the information provided in this illustration and received the principal brochure.

Note: A format for the illustration document is available on the Commission's website.

Application form

- 5.5 The entitlement of the scheme participant to the cooling-off period must be prominently displayed at the bottom of the application form immediately above the space for signature. The language for the cooling-off period should comply with the prevailing cooling off initiative issued by Hong Kong Federation of Insurers from time to time.
- 5.6 No scheme application form may be provided to any member of the public unless it is accompanied by the offering document and the illustration document. To that end the application form should include a statement to the effect that it should only be issued in conjunction with the offering document and the illustration document.

Product KFS

- 5.7 An authorized scheme must issue a Product KFS. Such statement shall be deemed to form a part of the offering document and shall contain information that enables prospective scheme participant to comprehend the key features and risks of the product.

Note: An illustration template of the Product KFS is available on the Commission's website.

Inclusion of performance data

- 5.8 If performance data or estimated yield is quoted, the Commission may require supporting documentation. No forecast or illustration of the scheme's future

performance may be made in authorized scheme documents except for the illustration of surrender values or where an investment return at a certain rate is guaranteed.

Naming of unauthorized collective investment schemes

- 5.9 As a general principle any naming of collective investment schemes in authorized scheme documents should be restricted to those which are authorized by the Commission pursuant to section 104(1) of the SFO.

Contents of constitutive documents

- 5.10 The constitutive documents of a scheme should contain the information listed in Appendix B.
- 5.11 Nothing in the constitutive documents may provide for the parties thereto to be exempted from any liability to scheme participants arising out of any breach of trust through fraud or negligence or imposed on them under Hong Kong law or the law of the scheme's place of domicile, under any trust deed or under any contract entered into, nor to be indemnified against any such liability by scheme participants or at scheme participants' expense.

Cooling-off period

- 5.12 A scheme must allow a scheme participant to withdraw unconditionally within the cooling-off period, subject to a market value adjustment ("MVA") in accordance with the prevailing cooling off initiative issued by Hong Kong Federation of Insurers from time to time.
- 5.13 Any such MVA must be calculated solely with reference to the loss the Authorized Insurer or contract issuer might make in realizing the value of any assets acquired through investment of the premiums made under the contract. It shall therefore not include any allowance for expenses or commissions in connection with the issuance of the contract.

Fees and charges

- 5.14 Where a scheme proposes to invest in collective investment schemes managed or distributed by the same company or group, all initial charges of the underlying funds must be waived but recurrent management fees and charges may be levied proportionate to the amount invested.
- 5.15 The level/basis of calculation of all costs and charges payable from the scheme's property must be clearly stated, with percentages expressed on a per annum basis, where applicable. The aggregate level of fees for investment management or advisory functions should also be disclosed.
- 5.16 If a performance fee is levied, such fee shall not create an incentive for the Authorized Insurer or its delegates to take excessive risks in the hope of increasing its performance fee.

Various methodologies may be used for the charging and accrual of performance fees and normally, such methodologies shall ensure that cumulative gains are offset in

some way by cumulative losses (i.e. “high-on-high” basis or the scheme’s excess performance as compared against a benchmark).

5.17 The performance fee can only be payable:

- (a) no more frequently than annually; and
- (b) if the net asset value per unit exceeds the net asset value per unit on which the performance fee was last calculated and paid (i.e. on a “high-on-high” basis).

Note: Notwithstanding 5.17(b), the performance fee may also be calculated with reference to the performance of a benchmark or an asset class and the performance fee is only payable upon outperformance of the net asset value per unit/share vis-à-vis that of the benchmark or asset class.

In the case where a scheme or the investment option(s) linked to the scheme is not unitized, a certificate from an actuary must be provided to the Commission on an annual basis to certify compliance with the foregoing except where:

- (a) there exists a year-on-year guarantee on investment return where the deficiency, if any, between the guaranteed return and the actual return is credited into the scheme account not less frequently than annually; or
- (b) the scheme is a deposit administration policy in which investment returns may be declared by a company, in its discretion, at or above a stated minimum rate not less frequently than annually.

Chapter 6: Guarantee and with-profits or similar features

Guarantee features

The following criteria shall apply to a scheme which contains a guarantee feature or an investment option in which a guaranteed amount will be paid to scheme participants at a specific date in the future.

Guarantor

- 6.1 If the guarantor is an entity other than the Authorized Insurer which issues the policy, it must be a substantial financial institution acceptable to the Commission.

Disclosure

- 6.2 The principal brochure must contain:
- (a) the name of the guarantor (if other than the Authorized Insurer which issues the policy) and the terms and conditions of the guarantee;
 - (b) where applicable, a warning statement in relation to all material conditions which affect the scope or validity of the guarantee including, where relevant, the condition that the guarantee only applies to scheme participants who hold their investment until the date specified in the guarantee and that termination or withdrawal before such date are fully exposed to fluctuations in the value of the investment option and/or subject to penalties; and
 - (c) an illustration or description to clearly demonstrate the guarantee mechanism.

Guarantee features and discretionary benefits features

- 6.3 In relation to an insurance arrangement, if it is stated that discretionary benefits will or may be paid to scheme participants in excess of the guaranteed amount, and the amounts of those benefits are determined at the discretion of the policy issuer, the principal brochure of the scheme must contain:
- (a) a statement to the effect that the [name of policy issuer], at its sole discretion, has the right to retain investment income of the [name of investment option] in excess of that required to be set aside to meet the guaranteed benefits under the [name of investment option];
 - (b) a readily comprehensible description of the methods of determining the discretionary benefits, including the following information, to the extent applicable:
 - (I) the reporting date; and
 - (II) **(i) for a participating product where the policy holder has a right to participate in profits from the long term fund of the policy issuer or any part of that fund:**
 - (i) details of the fund or part fund to which the right relates;

- (ii) the principles on which the distribution of profits among policy holders and shareholders is based and whether these principles are derived from the constitution of the policy issuer or otherwise;
 - (iii) the bonus rates declared immediately prior to the reporting date and for the four years previous; and
 - (iv) the proportion of total distributed profits that was distributed to shareholders immediately prior to the reporting date and for the four years previous;
- (ii) for an investment-linked product:**
- (i) a description of the method which will be used to calculate unit prices from time to time; and
 - (ii) the percentage changes in unit prices for the five yearly intervals immediately preceding the reporting date;
- (iii) for an investment account product:**
- (i) a description of the method which will be used to calculate the interest rate for each period; and
 - (ii) the rate of interest declared immediately prior to the reporting date and for the four years previous; and
- (c) a statement that past performance should not be taken as an indication of future performance.

Note: For investment option with less than five years track record, figures for shorter periods may be shown, provided the date of commencement is shown.

With-profits or similar features

The following shall apply to a scheme with "with-profits" or similar features where the Authorized Insurer can impose a market value adjustment. Where such scheme or any investment option also has guarantee features and discretionary benefits features, the provisions in 6.1-6.3 shall also apply.

- 6.4 As regards a scheme or an investment option with with-profits or similar features where the Authorized Insurer invests in a mixture of assets, and retains the absolute discretion to declare a rate of return (commonly known as "bonus") determined by reference to the performance of the underlying assets and other factors and is promised on the basis that the ups and downs of the investment performance can be smoothed out over a period, and the Authorized Insurer may, amongst other things, reduce the rate of bonus and/or apply a market value adjustment to the policy value or withdrawal amount in respect of any withdrawals (whether or not this may be on a retrospective basis), the following must be disclosed in the offering document:
- (a) a statement to the effect that scheme participants' withdrawal amount may be significantly reduced by the market value adjustments as a result of such

with-profits or similar features;

- (b) the extent to which the investment can be deducted by such market value adjustments;
- (c) a statement as to whether the Authorized Insurer has the sole discretion to determine the market value adjustment level;
- (d) a statement as to how the prevailing rate of market value adjustments is disclosed to scheme participants from time to time; and
- (e) a statement as to whether any policy issued by the scheme is subject to any market value adjustments.

6.5 An Authorized Insurer must keep scheme participants informed of any exercise of the market value adjustment relating to a scheme having with-profits or similar features.

Part III: Post-authorization requirements

Chapter 7: Post-authorization requirements

Scheme changes

- 7.1 The proposed changes to a scheme in respect of the following must be submitted to the Commission for prior approval:
- (a) changes to constitutive documents;
 - (b) changes of key operators (including the applicant company / management company and its delegates) and their regulatory status and controlling shareholder;
 - (c) changes in investment objectives, policies and restrictions (including the purpose or extent of use of derivatives), fee structure and dealing and pricing arrangements; and
 - (d) any other changes that may materially prejudice scheme participants' rights or interests.
- 7.2 For changes to a scheme that require the Commission's prior approval pursuant to 7.1, the Commission will determine whether scheme participants should be notified and the period of notice (if any) that should be applied before the changes are to take effect. The revised offering document as a result of such changes should be submitted to the Commission for prior authorization.
- Notes:*
- (1) *Normally, the Commission will expect that one month's prior written notice (or such longer period as required under applicable laws and regulations or the provisions as set out in the offering document or constitutive documents) should be provided to scheme participants in respect of the changes. However, the Commission may permit a shorter period of notice if the change is not significant or if it is not practicable for the applicant to do so due to circumstances beyond its control. The Commission may also require a longer period of notice (up to three months) in exceptional circumstances.*
 - (2) *For the purposes of 7.2, significant changes would include, for example, changes in investment objectives or major investment policies, and fee structure.*
 - (3) *For any increase in fees and charges from the current level as stated in the principal brochure up to the maximum level permitted by the constitutive documents, prior approval from the Commission is not required, but no less than one month's prior notice must be given to scheme participants. However, the Commission may permit a shorter period of notice if the change is not significant or if it is not practicable for the applicant to do so due to circumstances beyond its control.*
- 7.3 For changes to a scheme that do not require the Commission's prior approval pursuant to 7.1, unless there is a specified minimum prior notice period in this ILAS Code, the

applicant company should inform scheme participants as soon as reasonably practicable of any information concerning the scheme which is necessary to enable scheme participants to appraise the position of the scheme. The offering document may be updated to incorporate such changes and reissued without further authorization provided that the content and format of such document remains fundamentally the same as the version previously authorized. The revised offering document must be filed with the Commission, together with a marked-up version against the previously filed version, within one week from the date of issuance.

Note: Without prejudice to the foregoing, the Authorized Insurer should inform scheme participants as soon as reasonably practicable of any material adverse change in the financial conditions or business of the key counterparties that it is aware of. 'Key counterparties' include but are not limited to the Authorized Insurers and guarantors (where relevant).

- 7.4 The constitutive documents may be altered without consulting scheme participants provided that the proposed alteration:
- (a) is necessary to make possible compliance with fiscal or other statutory or official requirements; or
 - (b) does not materially prejudice scheme participants' interest, does not to any extent release the parties from any liability to participants and does not increase the costs and charges payable under the scheme.
- 7.5 The Commission may accept undertakings from an applicant company to delay making a required amendment to a document until an opportune time, but in such cases the Commission may impose a reasonable time limit for carrying out the required amendment, and require a written undertaking from an applicant company to comply, in the interim period, with the substance of the requirement.

Withdrawal of authorization

- 7.6 Following the authorization of a scheme, the applicant company should, subject to 7.7 below, give three months' notice, or any shorter notice period as may be allowed by the Commission if it is not practicable for the applicant to do so due to circumstance beyond its control, to scheme participants of any intention not to maintain such authorization. Such notice should be submitted to the Commission for prior approval and contain reasons for the withdrawal of authorization, consequences of the withdrawal, any proposed changes in the operation of the scheme and their effects on existing scheme participants, the alternatives available to scheme participants (including, if possible, a right to switch without charge into another authorized scheme) and, where applicable, an estimate of any relevant expenses and who is expected to bear them.

Merger or termination

- 7.7 Where a scheme or an investment option linked to the scheme is to be merged or terminated, in addition to following any procedures set out in the constitutive documents or governing law, notice shall be given to scheme participants. Such notice should be submitted to the Commission for prior approval and shall contain the reasons for the merger or termination, the relevant provisions under the constitutive documents that enable such merger or termination, the alternatives available to

participants (including, if possible, a right to switch without charge into another authorized scheme or investment option), the estimated costs of the merger or termination and who is expected to bear them.

Advertising materials

- 7.8 Advertisements and other invitations to invest in a scheme must comply with the Advertising Guidelines. All advertisements must be submitted to the Commission for authorization prior to their issue or publication in Hong Kong, unless exempted under section 103 of the SFO. For the avoidance of doubt, even if an advertisement is exempted from obtaining authorization from the Commission under the SFO, the applicant company must ensure that the advertisement or invitation complies with the Advertising Guidelines.
- 7.9 Where authorization by the Commission is required, it is recommended that the applicant company nominate one person, such as the Approved Person or any other persons acceptable to the Commission, based in Hong Kong to liaise with the Commission. Authorization may be varied or withdrawn by the Commission as it deems fit. Once authorized, the advertisement may be used in any distribution media and reissued without further authorization with updated performance information of schemes and general market commentary provided that the content and format of such advertisement remain fundamentally the same as the version previously authorized and the advertisement, when reissued, is in compliance with the Advertising Guidelines.

Note: For radio, television, cinema or other time-limiting advertisements / broadcasts, the script of any verbal statements in such advertisements should be submitted for the Commission's advance clearance, followed by the demo of the broadcast (e.g. digital files) for formal authorization.

- 7.10 The applicant company must keep adequate records of the advertisements issued, either in actual form or by way of a copy of the final proof, and the relevant supporting documents for substantiation of information presented thereon. Such records must be retained for at least three years from the latest date of publication / distribution of an advertisement and made available to the Commission upon request.

Notices to scheme participants

- 7.11 Notification to scheme participants must be made in the language(s) in which the scheme is offered to them in respect of any changes or proposed changes to the scheme, the offering document or constitutive documents as determined by the Commission pursuant to 7.2.
- 7.12 Subject to 7.6 and 7.7 above, notices to scheme participants need not be approved by the Commission prior to issuance but are required to be filed with the Commission within one week from the date of issuance of the notice. The Commission, however, retains its power to require the applicant company to submit draft notices for review where the Commission considers it appropriate. For the avoidance of doubt, matters relating to 7.1 above should be approved by the Commission prior to the distribution of the relevant notices to scheme participants.
- 7.13 The applicant company has the responsibility to ensure that the notices to scheme participants are not misleading and contain accurate and adequate information to keep

them informed. All notices should contain a Hong Kong contact number for scheme participants to make enquiries.

Note: Notices should not include any reference to a specific date or timetable in respect of the changes made to the principal brochure or constitutive documents where such date or timetable has not been agreed in advance with the Commission.

Reporting to the Commission and the Insurance Authority

- 7.14 The Authorized Insurer should promptly report to the Commission and the Insurance Authority immediately any material breach, infringement of or non-compliance with the Handbook (including this ILAS Code).

Mention of SFC authorization

- 7.15 Where a scheme is described as having been authorized by the Commission, it must be stated that authorization does not imply official recommendation by adding a prominent note in the following terms to the offering document and advertisements and other invitations to invest in the scheme:

SFC authorization is not a recommendation or endorsement of a scheme nor does it guarantee the commercial merits of a scheme or its performance. It does not mean the scheme is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors.

Poor performance of underlying funds*/assets may further magnify the scheme participant's investment losses, while all charges are still deductible.

Other warning statements as required by this ILAS Code must be prominently displayed in the offering document.

Explanatory Notes

1. The Securities and Futures Commission is empowered under Part IV of the Securities and Futures Ordinance (the “SFO”) to authorize the issue of offering documents and advertisements for structured products, and, following enactment of legislative amendments currently proposed (“the enactment date”), to authorize structured products under the SFO. The authorization under the SFO may be granted subject to such conditions as the Commission considers appropriate. This Code establishes guidelines for the authorization under the SFO of unlisted structured investment products (from the enactment date), and the issue of offering documents and advertisements for unlisted structured investment products offered to the public in Hong Kong.
 2. This Code forms part of the SFC Handbook for Unit Trusts and Mutual Funds, Investment-Linked Assurance Schemes and Unlisted Structured Investment Products (the “Handbook”).
 3. The Commission will normally have regard to the Handbook, including the high-level principles set out in Part I of the Handbook, in considering authorization applications for unlisted structured investment products (from the enactment date), and the issue of offering documents and advertisements for unlisted structured investment products and, if authorized, whether such authorization should remain.
 4. In addition to the high-level principles set out in Part I of the Handbook, this Code contains a series of requirements that are specifically applicable to unlisted structured investment products within the meaning of this Code. Some of these requirements are effectively expansions of the high-level principles and examples of their application and some are more detailed guidelines which are expected to be complied with in connection with the authorization of unlisted structured investment products (from the enactment date), and the issue of offering documents and advertisements for these products.
 5. Although the requirements under this Code are expressed in more detailed language than the high-level principles, they, like the high-level principles, are to be interpreted in a manner that will best ensure the attainment of their underlying purposes. Where the high-level principles apply to situations not specifically covered by any requirements in this Code, the requirements of the high-level principles should be observed. The Commission may only consider granting waivers from strict compliance with specific requirements(s) under this Code in exceptional circumstances. General waivers will not be granted.
 6. The Commission may review its authorization at any time, and may modify, add to or withdraw such authorization as it deems fit in accordance with the SFO.
 7. This Code is not subsidiary legislation.

Chapter 3: Issuers and guarantors

Eligibility of Issuers

- 3.1 An Issuer shall satisfy the requirements in this Chapter at the time of issue of the structured investment product and for the period during which any of the Issuer's obligations to investors under the terms and conditions of the structured investment product remain outstanding.
- 3.2 An Issuer shall satisfy the following requirements:-
- (a) it shall be duly incorporated in Hong Kong or duly incorporated or otherwise established under the laws of a jurisdiction acceptable to the Commission;
 - (b) it shall be in compliance with the laws of the place in which it is incorporated or established and its constitutive documents; and

(2) In considering whether a particular jurisdiction is acceptable for purposes of these requirements, the Commission may have regard to factors which include the following:-

- (a) whether there would be any legal impediment to any enforcement action against the Issuer taken by or on behalf of any investor in Hong Kong, or to the enforcement of any judgment or award granted by a Hong Kong court;*
- (b) whether applicable laws protecting the interests of investors and creditors, corporate governance standards and anti-money laundering obligations are equivalent to those applicable to companies incorporated in Hong Kong; and*

3.3 An Issuer shall meet the eligibility requirements in either (a) or (b) below at the time of issue of the structured investment product. Note: The Commission may require the Issuer to confirm it meets the core requirements and to provide to the Commission its own records of any past disciplinary action or proceedings taken against it in Hong Kong or elsewhere and such other matters which may reasonably affect its eligibility to act as an Issuer.

(b) Where the Issuer does not meet the requirements in 3.3(a), the Commission may consider an application for authorization of the issue of an offering document or advertisement for a structured investment product made by such an Issuer in the following circumstances:-

- (i) where the Issuer does not meet the requirements in 3.3(a), and the structured investment product is not collateralised in accordance with 3.3(b)(ii):-
 - (A) the Issuer must have its obligations under the terms of the structured investment product guaranteed in compliance with 5.9 and 5.10 by a Guarantor; and
 - (B) the Guarantor shall meet the requirements set out in 3.4.

Note: The Commission normally expects the Guarantor in such a case to be part of the corporate group to which the Issuer belongs.

- (ii) where the Issuer does not meet the requirements in 3.3(a), and the Issuer does not have its obligations under the terms of the structured investment product guaranteed in accordance with 3.3(b)(i):-
 - (A) the Issuer shall be a special purpose vehicle:-

 - (IV) which has no other borrowings, indebtedness in the nature of borrowings, loan capital outstanding or created but unissued (including term loans), guarantee obligations or material contingent liabilities, save for structured investment products it has issued under the relevant Programme;

 - (VI) which has independent, professional directors or trustees; and
 - (VII) which is insulated from liabilities of third parties or the corporate group sponsoring its establishment, protected from dissolution risk and has appropriate restrictions on its filing of a bankruptcy or winding-up petition or taking any other insolvency action; and
- (B) the structured investment product shall be collateralised in compliance with the applicable requirements in 5.12 to 5.22.

Eligibility of Guarantors

3.4 The Guarantor shall satisfy the following requirements at the time of the issue of the structured investment product. Without limiting the generality of the other provisions in this Code, any failure to meet any such eligibility requirement at any time during the period in which the Issuer's obligations under the terms and conditions of the structured investment product or the Guarantor's obligations under the terms and conditions of the guarantee remain outstanding will be construed as an ongoing disclosure obligation under 7.6(c) of this Code.

- (a) The Guarantor shall comply with 3.2 and 3.3(a) as if it were the Issuer;

Note: The Commission may require the Guarantor to provide its own records of any past disciplinary action or proceedings taken against it in Hong Kong or elsewhere and such other matters which may reasonably affect its eligibility to act as the Guarantor.

and

- (b) the laws of the place in which it is incorporated or established and the Guarantor's constitutive documents shall permit the Guarantor to enter into the guarantee and shall not be inconsistent with the applicable requirements of the Handbook.

Note: The Commission may request evidence of compliance with these requirements by such means as it considers appropriate, including provision of a legal opinion.

General obligations of the Issuer

3.5 In addition to any other obligations under the terms and conditions of the relevant structured investment product, the Issuer:-

- (a) shall ensure that it complies, and that the structured investment product complies, with the applicable provisions of the Handbook;
- (b) is responsible for the contents of, and the completeness and accuracy of the information contained in, any advertisement, invitation or other document issued by it in respect of the structured investment product;
- (c) shall ensure that it complies, and that the structured investment product complies, with all applicable laws and rules and, in addition, any codes or guidelines issued by governmental departments, regulatory bodies or any other organisations regarding its activities or its administration both at the time of issue of the structured investment product and for the period during which any of the Issuer's or, where applicable, a Guarantor's obligations to investors under the terms and conditions of the structured investment product remain outstanding;
- (d) shall ensure that the proceeds of the issue of the structured investment product are applied as set out in the offering document in respect of that structured investment product;
- (e) shall make and maintain arrangements to facilitate timely dissemination to investors in the structured investment product of any information required to be disclosed to them under 7.6 or 7.7;
- (f) shall at all times comply with its obligations under the terms of the structured investment product, the applicable requirements in the Handbook and its regulatory obligations, and shall have implemented and shall maintain appropriate systems, controls, procedures and policies, including, without limitation, in relation to risk management, independent valuation of the structured investment product or of any collateral and, where applicable, collateral administration, to ensure such compliance;

Note: By "independent" valuation of the structured investment product or of any collateral the Commission expects a clear segregation of functions, and when a party assumes different responsibilities in relation to the structured investment product, a clear segregation of functions within the organisation.

- (g) shall exercise reasonable care and diligence in any appointment and selection of any intermediaries of a structured investment product; and
- (h) shall ensure that there is sufficient monitoring of the structured investment product to enable compliance with its obligations in Chapter 7.

3.6 In addition, in the case of an Issuer within the scope of 3.3(b)(ii), the Issuer shall implement sufficient arrangements to preserve its organisation and structure, discharge its administrative and operational obligations and ensure that it is able to fulfil its obligations under the terms and conditions of the structured investment product and to comply with all applicable requirements in the Handbook.

3.7 An Issuer shall provide information and undertakings to the Commission in such form as the Commission may require from time to time.

Chapter 4: Product arrangers

Appointment and eligibility of Product Arranger

4.1 An Issuer of the type in (a) or (b) below shall appoint a Product Arranger in respect of the structured investment product, who shall comply with the applicable requirements in this Code for so long as any of the Issuer's obligations to investors under the terms and conditions of the structured investment product remain outstanding:-

- (a) the Issuer is within the scope of 3.3(b)(ii); or
- (b) the Issuer, and (in the case of a guaranteed structured investment product) the Guarantor, is not:-
 - (i) a bank licensed to carry on banking business pursuant to the Banking Ordinance and is regulated by the HKMA; or
 - (ii) a corporation licensed by the Commission pursuant to section 116 of the SFO.

4.2 A Product Arranger shall meet the eligibility requirements below. Without limiting the generality of the other provisions in this Code, any failure to meet any such eligibility requirement at any time during the period in which the Issuer's obligations under the terms and conditions of the structured investment product remain outstanding will be construed as an ongoing disclosure obligation under 7.6(c) of this Code. The Product Arranger shall:-

- (a) at the time of issue of the structured investment product and for so long as the Issuer's obligations to investors in the structured investment product remain outstanding, be licensed or registered in Hong Kong for Type 1 regulated activity;

Note: Without limiting the generality of 4.2(a) and without prejudice to any obligation of the Product Arranger in connection with other activities, the Commission expects a Product Arranger to be appropriately licensed or registered to conduct the relevant regulated activities in connection with its role as a Product Arranger in respect of the structured investment product.

and

- (b) at the time of issue of the structured investment product, not be the subject of any disciplinary proceedings in respect of its licence or registration to conduct any regulated activity, or subject to any action by an exchange, regulated market or self-regulatory organisation for breach of any applicable rules, which may materially affect its financial condition, status as a licensed or regulated entity, or ability to perform its licensed or regulated activity.

Note: The Commission may require a Product Arranger to provide its own records of any past disciplinary action or proceedings taken against it in Hong Kong or elsewhere and such other matters which may reasonably affect its eligibility and its competence to act as the Product Arranger.

- 4.3 Where an Issuer appoints more than one Product Arranger in respect of a structured investment product, one of the Product Arrangers shall be designated as the primary channel of communication with the Commission, and the Commission shall be informed accordingly. All Product Arrangers will nevertheless remain severally responsible for complying with applicable requirements set out in the Handbook.

Obligations and responsibilities of Product Arranger

- 4.4 Without limiting the Issuer's obligations and responsibilities, each Product Arranger shall ensure that the Issuer at all times complies with the applicable requirements in the Handbook. For the avoidance of doubt, a Product Arranger shall not, by virtue of this provision, be liable for the financial obligations of the Issuer or the Guarantor (if applicable) under the terms and conditions of the structured investment product.
- 4.5 A Product Arranger shall at all times comply with the applicable requirements in the Handbook and its regulatory obligations, and shall have implemented and shall maintain appropriate systems, controls, procedures and policies, including, without limitation, in relation to risk management, independent valuation of the structured investment product or of any collateral and, where applicable, collateral administration, to ensure such compliance.

Note: By "independent" valuation of the structured investment product or of any collateral the Commission expects a clear segregation of functions, and when a party assumes different responsibilities in relation to the structured investment product, a clear segregation of functions within the organisation.

- 4.6 A Product Arranger shall provide information and undertakings to the Commission in such form as the Commission may require from time to time.

Chapter 5: Product structure

General principles

- 5.1 The Issuer and, where applicable, each Product Arranger shall be satisfied that a structured investment product is designed fairly and is appropriate for the market(s) for which it is intended.
- 5.2 The Issuer and, where applicable, each Product Arranger should be independent of any Key Product Counterparty.
- 5.3 The Issuer and, where applicable, each Product Arranger shall avoid situations where conflicts of interest may arise including any actual or potential conflicts that may arise between different parties involved in respect of the structured investment product. Where such a conflict cannot be avoided, and provided that investors' interests can be sufficiently protected, the conflict shall be managed and minimised by appropriate measures, and the actual or potential conflicts and these measures shall be disclosed in the offering documents.
- 5.4 (a) The Issuer and, where applicable, each Product Arranger shall exercise reasonable care and diligence in selecting and (for the Issuer) appointing parties:-
- (i) who undertake one or more roles or services in respect of a structured investment product;
 - (ii) who are or will be counterparties to material agreements in respect of the structured investment product; or
 - (iii) to whose credit risk the Issuer or investors in the structured investment product may be exposed.
- (b) Without limiting the generality of 5.4(a), the Issuer and, where applicable, each Product Arranger shall give due consideration to the following matters:-
- (i) the parties referred to in 5.4(a)(i), (ii) and (iii) shall meet any applicable eligibility requirements (including, in the case of a trustee or a custodian, the specific requirements set out in Appendix B to this Code) and shall have the necessary experience, competence and resources to perform such roles and/or services; and
 - (ii) in selecting the parties referred to in 5.4(a)(i), (ii) and (iii), the Issuer and, where applicable, such Product Arranger shall have regard to all relevant factors, including the degree of regulatory oversight to which such parties are subject, their locations and any possible conflict of laws risks, the legality, validity and enforceability of the governing agreements and arrangements, the parties' risk management practices, their financial resources and creditworthiness and, where applicable, the degree of counterparty exposure and concentration risk in or of the structured investment product and the implications of these factors for investors in the structured investment product.

Note: In the case of a trustee/custodian, the Issuer and such Product Arranger shall ensure that the trust deed or custodial agreement does

not contain any term that may operate to undermine any applicable provision in the Handbook.

- 5.5 Where a structured investment product is designed such that the Issuer's payment obligations to investors or the investors' economic return from the structured investment product depend(s) or will depend wholly or substantially upon payments made or to be made pursuant to an agreement or arrangement, for example a swap or forward arrangement, between the Issuer and another party, and where such party's creditworthiness may have an impact on the risk and return of the structured investment product (such party, and any party guaranteeing or providing credit support for such party's obligations, collectively referred to as a "Key Product Counterparty"), the Issuer and, where applicable, each Product Arranger shall ensure that any such transaction is entered into at a fair market value and on the best available terms and that the Key Product Counterparty is selected in an objective manner with regard to the requirements in 5.4.
- 5.6 The Issuer and, where applicable, each Product Arranger shall ensure that any agreement between it and one or more of the parties referred to in 5.4(a)(i), (ii) and (iii) and any Key Product Counterparties described in 5.5, any guarantee provided pursuant to Chapters 3 and 5, and any arrangements with trustees/custodians provide for the parties to submit, at a minimum, to the non-exclusive jurisdiction of the courts of Hong Kong.

Note: In general, the Commission expects such agreements, guarantees and arrangements to be governed by Hong Kong law. Where the same are not governed by Hong Kong law, the Issuer should explain in the offering document the implications to investors of this choice of law. See Appendix C for details.

Reference assets, obligations and benchmarks for unlisted structured investment products

- 5.7 The reference entities, assets, obligations and/or benchmarks (collectively, "reference assets") to which a structured investment product is linked shall be acceptable to the Commission.

Note: In considering whether reference assets are acceptable, the Commission will generally take into account factors which include the following:-

- (1) where structured investment products are linked to equity securities, indices or funds, the Commission will have regard to the reference assets eligible from time to time as reference assets for structured products listed on The Stock Exchange of Hong Kong Limited;*
- (2) whether sufficient information is available to the public, or will be made available to investors, in English and Chinese, in respect of the reference assets;*

- (3) *in the case of a structured investment product linked to an index, the name of the publisher of the index, how it is compiled, its computation, the frequency with which it is updated and published, and the circumstances in which it could be modified or discontinued;*
- (4) *in the case of a basket or baskets of reference assets, the number of reference assets and their relative weightings; and*
- (5) *the extent to which any reference asset, or its price, value or performance or any other relevant attribute is or might be controlled or influenced by one party or a group of parties.*

5.8 The Issuer shall ensure that reference assets for a structured investment product meet the following requirements:-

- (a) information on the reference assets, their performance and/or value and any other attribute of such reference assets relevant to determining the Issuer's obligations under the terms and conditions of the structured investment product shall be transparent and regularly available to investors free of charge;

Note: Where the information in relation to a reference asset such as Hang Seng Index is readily available in both English and Chinese and easily accessible to the investing public in Hong Kong free of charge, the Issuers and Product Arrangers may, instead of providing the same information to investors, inform investors of the source(s) and means to access such information.

and

- (b) the basis upon which the value or return of the structured investment product is linked to each such reference asset, including relative weightings and other formulae, the circumstances in which any change might be made to these, and any basis upon which any such reference asset may be replaced or substituted shall be transparent and objective.

Guaranteed structured investment products

5.9 For purposes of 3.3(b)(i), the terms of the guarantee shall:-

- (a) inure for the benefit of all of the investors in the structured investment product; and
- (b) provide for the Guarantor to be unconditionally and irrevocably liable, as primary obligor, for the due and punctual performance of all obligations of the Issuer to investors arising under and in accordance with the terms and conditions of the structured investment product, including to the extent that such terms and conditions may be varied or waived.

- 5.10 The guarantee shall be issued by the Guarantor in conformity with the laws of the place in which the Guarantor is incorporated or otherwise established, it shall be issued in conformity with the Guarantor's constitutive documents, and all authorizations needed for its issue under such laws or documents shall have been duly given.
- 5.11 The Issuer and/or the Guarantor shall provide to the Commission legal opinions in relation to the guarantee from competent legal counsel qualified to practise in the relevant jurisdiction(s) as to the following matters:—
- (a) confirming that the guarantee constitutes legal, valid and binding obligations of the Guarantor and is enforceable in accordance with its terms;
 - (b) confirming that the guarantee will not be adversely affected by waiver or variance of the terms of the structured investment product, by the invalidity or unenforceability of the Issuer's obligations or by events such as bankruptcy, reorganisation, merger or transfers affecting the Issuer, and excludes any right of set-off on the part of the Guarantor;
 - (c) opining on whether there are any circumstances in which the guarantee may be invalidated, voided, vitiated or terminated or in which the Guarantor may be afforded relief from its obligations thereunder;
 - (d) confirming that the guarantee meets the requirements in 5.9 and 5.10; and
 - (e) addressing such other matters as the Commission may require.

Collateralised structured investment products

- 5.12 Where any of the Issuer's obligations to investors under the terms and conditions of a structured investment product are, or will be, secured by an asset or a pool of assets ("collateral"), 5.13 through 5.20 apply.

Assets held as collateral

- 5.13 Where a structured investment product is collateralised in order to provide credit support or to secure (whether wholly or partially) relevant financial obligations in connection with that structured investment product, the collateral shall meet the following criteria:-
- (a) the collateral shall be in cash or shall be liquid and tradable;
 - (b) there shall be an active secondary market for the relevant assets comprising the collateral, with trading carried out by a number of dealers, and trading prices in such market shall be continuously available;
 - (c) the collateral shall have a credit rating which is one of the top three investment grades awarded by at least one rating agency of international standing and reputation which is acceptable to the Commission;
 - (d) the collateral shall not include:-
 - (i) structured products whose payouts primarily rely on embedded derivatives or synthetic instruments; or

- (ii) securities issued by special purpose vehicles, special investment vehicles or similar entities;
- (e) the issuer of any such collateral shall normally not be related to the Issuer or any Product Arranger in respect of the structured investment product which the collateral supports or any party who is or will be a Key Product Counterparty;

Note: Where the Issuer considers that it is appropriate to use collateral issued by a related party to the Issuer, the Product Arranger or the Key Product Counterparty, the Issuer should disclose this in the offering documents and the fact, with reasons in support, that it is satisfied that investors' interest is not thereby prejudiced. The Issuer must also explain their relationship, and how a default by any of the parties may affect the collateral.

- (f) the collateral shall be acquired at the best available price in the market and on an arms-length basis;
- (g) the collateral shall be fully-funded;
- (h) the collateral shall be selected in reliance on objective benchmarks and considerations, and shall not be used primarily to enhance the return on the structured investment product;
- (i) the tenor of the assets comprising the collateral shall generally match that of the structured investment product the collateral supports;
- (j) where appropriate, the collateral shall be diversified;

Note: Where the Issuer considers that there is no need to diversify, the Issuer should disclose this in the offering documents and the fact, with reasons in support, that it is satisfied that investors' interest is not thereby prejudiced.

- (k) the risk and return characteristics of the collateral, including any concentration risk, and their implications for investors shall be able to be explained in a way that an investor in the target market could reasonably be expected to understand; and
- (l) the collateral shall be capable of being enforced in a timely and efficient manner.

5.14 In structuring the structured investment product and selecting the collateral, the Issuer shall use best efforts to ensure that, in the absence of a default or early termination, the value of the collateral as of the date the structured investment product matures or expires will be at least equal to the notional amount of the issue.

Note: The Commission expects that Issuers should establish and maintain sufficient internal measures, including, where appropriate, valuation of the collateral by functionally independent means.

Measures in relation to collateralised structured investment products

5.15 At a minimum, the Issuer shall ensure that the following requirements are met at all times from the date of issue of the structured investment product until such time as the Issuer's obligations to investors in the structured investment product are fully discharged:-

- (a) the collateral shall be clearly identified, properly segregated and ring-fenced for the benefit of the investors in respect of each series or tranche of the relevant structured investment product from all other series or tranches issued by the same Issuer, and held in safe custody by a trustee/custodian which meets the requirements in Appendix B to this Code;

Notes: (1) The Commission generally expects that there will be no power on the part of the trustee/custodian or any Key Product Counterparty to direct the trustee/custodian to substitute collateral.

- (2) Without prejudice to any obligations or duties imposed on the trustee/ custodian under the applicable laws, the Commission generally expects that the Issuer will ensure that any trust deed/custodial agreement imposes an obligation on the trustee/custodian to use its best efforts to take such steps and action as the circumstances may require to enforce the rights and interests in relation to the collateral held by it on behalf of the investors.*

- (b) the collateral shall be free from prior encumbrances, save for any interest(s) granted in favour of investors, and shall not be used or dealt with by any of the Issuer, any Product Arranger and the trustee/custodian in contravention of the Handbook or in any other way that would prejudice the interests of the investors;

Notes: Although not a Code requirement, Issuers should consider the structural needs in designing a product and where appropriate, the Commission encourages Issuers to accord first priority to investors' claims to the proceeds of realization of the collateral.

and

- (c) the Issuer shall make all necessary arrangements to eliminate or mitigate any risks that would impede or prevent efficient and timely realisation of the proceeds of the collateral for the benefit of investors, including conflict of laws or cross-border insolvency issues.

Notes: (1) The Issuer shall explain in the offering document how the arrangements mentioned in 5.15(c) may serve such purposes, and any limitations.

- (2) For the avoidance of doubt, the Issuer shall give the highest regard to the protection of investors' interests in designing a structured investment product.*

5.16 The Issuer shall provide to the Commission legal opinions from competent legal advisers qualified to practise in the relevant jurisdictions, opining as to the legally

binding nature, validity and enforceability of any interest created or proposed to be created, any proposed trust or custodial arrangements under 5.15 and such other matters as the Commission may require, for example relating to the nature and location of the collateral and applicable laws governing the creation, perfection, maintenance and enforceability of the collateral.

- 5.17 The Issuer and, where applicable, each Product Arranger shall be satisfied that the collateralisation of the structured investment product adequately protects the interests of investors in the structured investment product.

Other requirements

- 5.18 Subject to 5.19, the Issuer shall identify in the offering document in respect of the structured investment product all relevant details of the assets comprising or to comprise the collateral, including, where applicable, details of specific asset types, issuers, tenors, market segment, historical performance, ratings, valuations and any secondary markets, and the proportion in value of the total collateral pool each such asset type represents or will represent at the time the collateral is acquired.
- 5.19 Where the collateral has not been identified or acquired as of the date of issue of the offering document, or where the Issuer cannot legally provide all details required by 5.18 as of the date of the offering document, the Issuer shall:-
- (a) identify in the offering document the relevant types of assets comprising, or to comprise, the collateral, provide details of market segment, historical performance, ratings, valuations and secondary market activity, to the extent applicable, of proxy collateral similar to the intended collateral and disclose the proportion in value of the total collateral pool each such type represents or will represent at the time the collateral is acquired; and
 - (b) provide the remaining details required by 5.18 to investors by the business day in Hong Kong following the acquisition of the collateral pursuant to 5.20.
- 5.20 The Issuer shall ensure that relevant collateral is acquired and all rights and interests in such collateral created in connection with the structured investment product at the latest by the end of the first business day in Hong Kong after the relevant trade date in respect of the structured investment product. The Issuer shall ensure that such rights and interests are perfected as soon as practicable.

Chapter 6: Offering documents and advertisements

Offering documents

- 6.1 An offering document shall:-
- (a) be issued by the Issuer of the relevant structured investment product;
 - (b) contain the information necessary for investors to be able to make an informed judgment of the investment which is the subject matter of the authorization; and
 - (c) without prejudice to any of the above, contain details with respect to all of the applicable items of disclosure listed in Appendix C to this Code.
- 6.2 Where structured investment products are issued under a Programme, the offering document in respect of a particular structured investment product issue may consist of more than one document which, when read together as a whole, comprise the offering document for that issue and comply with the requirements in the Handbook and applicable regulatory requirements.

- Notes:*
- (1) *The number of documents comprising an offering document shall be reasonable.*
 - (2) *The Issuer shall ensure that the overall presentation of the invitation or offer in this way could not reasonably be expected to confuse or mislead investors or otherwise impede an investor's understanding of the risks and nature of the structured investment product.*
 - (3) *The Issuer shall be prudent and reasonable in deciding upon how the information required to be included in the offering document for a structured investment product is presented. Notwithstanding that the Issuer may consider it necessary for the offering document in respect of a structured investment product to comprise more than one document, it should ensure that the information is presented in as simple and straightforward a format as possible.*

- 6.3 Every offering document must contain a Product KFS. Such statement shall form a part of the offering document and shall contain information to enable investors to comprehend the key features and risks of the relevant structured investment product.

Note: *An illustrative template of a Product KFS will be made available on the Commission's website.*

- 6.4 An offering document (or any document referred to in 6.2 constituting part of the offering document) may only be amended by:-
- (a) a supplemental or subsequent offering document (or document constituting part of the offering document); or
 - (b) replacing that offering document (or document constituting part of the offering document) with a new offering document or document, as applicable.

- 6.5 In granting authorization for the issue of an offering document, the Commission will normally impose a validity period being the first anniversary of the date of publication of the offering document (and where multiple documents are used, the first document constituting the offering document).
- 6.6 If, at any time after the issue of the offering document and before the commencement of dealings in the structured investment product, the Issuer becomes aware that:-
- (a) there has been a significant change affecting any matter contained in the offering document; or
 - (b) a significant new matter has arisen, the inclusion of information in respect of which would have been required in such offering document if it had arisen before such offering document was issued,

the Issuer (unless the Commission agrees otherwise) shall, as soon as practicable, issue a supplement to its offering document including details of any such change or new matter, provided that such supplement shall remain subject to prior review and authorization by the Commission under section 105(1) of the SFO. For this purpose “significant” means significant for the purpose of making an informed judgment of the proposed investment as required under 6.1.

Advertisements

- 6.7 Advertisements in respect of structured investment products shall be submitted for authorization prior to their issue or publication to the public in Hong Kong. The criteria for authorization are set out in the Advertising Guidelines. The Commission may review its authorization at any time, and may modify, add to or withdraw such authorization as it deems fit, in accordance with the SFO.

Presentation of offering documents

- 6.8 Offering documents shall be issued in the English and Chinese languages.

Part III: Post-authorization requirements

Chapter 7: Post-sale continuing obligations

Provision of information

- 7.1 The Issuer shall make available to investors in a timely manner any information, notice or document that it is required to provide to them pursuant to the Handbook or under applicable law or regulations.

Note: In addition to provision of information through intermediaries, Issuers should consider also making information available by means of their own websites as a matter of best practice.

- 7.2 The Issuer shall ensure that all material documents in relation to the structured investment product (including without limitation any guarantee, Programme agreement(s), trust deed, custodial agreement and documents creating and evidencing interests in collateral or credit enhancement arrangements, and all arrangements with Key Product Counterparties and parties undertaking roles or providing services in respect of the structured investment product which are material to investors' interests in the structured investment product) are made available in Hong Kong for inspection by investors, free of charge at all times during normal office hours at the place of business of the Issuer or any Product Arranger, and ensure that copies of such documents are available upon request by any investor upon the payment of a reasonable fee.

Market-making

- 7.3 (a) The Issuer shall provide market-making in respect of the structured investment product at least bi-weekly on a committed basis, and for this purpose, make indicative bid prices for the structured investment product available to investors, either itself or through its designated market agent.
- (b) Indicative bid prices shall be made available throughout each market-making day, although they may be subject to intra-day changes.
- (c) On each market-making day, based on the indicative bid prices, the Issuer shall, or shall procure its market agent to, provide a firm (actual) bid price in good faith and buy back the structured investment product on the same market-making day, subject to acceptance of the firm (actual) bid price by the investor.

- (d) The minimum market-making size shall be the minimum denomination of the structured investment product.

7.4 An Issuer will not be required to comply with the requirements in 7.3:-

- (a) in the case of a structured investment product with a scheduled tenor of six months or less (in the absence of early termination or default) as stated in the relevant offering document;
- (b) where there is market disruption or suspension of trading of the reference asset(s).

Enquiries and communications

7.5 An Issuer and, where applicable, each Product Arranger shall put in place arrangements promptly to address any enquiries or other communications concerning a structured investment product throughout the period during which any of the Issuer's obligations to investors in respect of the structured investment product remain outstanding.

Continuing disclosure obligations

7.6 An Issuer shall comply with the following requirements throughout the period during which any of its obligations to investors in respect of the structured investment product remain outstanding:-

- (a) where an Issuer is required under the Handbook or any law to include in its offering document its annual report and audited financial statements, or those of a Guarantor or a Key Product Counterparty, the Issuer shall make available to investors:-
 - (i) as soon as practicable after the date of their publication but, in any event, not later than four months after the date to which they relate, the annual report and audited financial statements in respect of the Issuer, the Guarantor and/or the Key Product Counterparty, as applicable, and, where group accounts are prepared, the relevant group accounts, together with the auditor's report thereon;
 - (ii) as soon as practicable after the date of its publication or preparation but, in any event, not later than four months after the period to which it

relates, any interim financial report in respect of the Issuer, the Guarantor and/or the Key Product Counterparty, as applicable;

- (iii) where published, as soon as practicable after the date of its publication, any current financial report in respect of the Issuer, the Guarantor and/or the Key Product Counterparty, as applicable; and
- (iv) as soon as practicable after the date of their publication, full details of any other financial information which the Issuer, and (where applicable) the Guarantor and/or the Key Product Counterparty may provide to any other securities or financial regulator, stock exchange or market as filings made as a matter of public record;

- Note:*
- (1) *The reports and accounts required to be provided in 7.6(a)(i) and (ii) above shall be in both the English and Chinese languages, provided that an Issuer / Guarantor / Key Product Counterparty who is not otherwise required by any law, code or regulation to publish financial statements in both Chinese and English may make available the reports and accounts in full in one language – either in Chinese or English. The version in the other language may be made available in the form of a summary.*
 - (2) *The above requirements are directed at ensuring that investors who have already invested in the structured investment product will be kept informed about the Issuer's, and where applicable, the Guarantor's and any Key Product Counterparties' financial status, on an ongoing basis. It is possible that financial information falling within 7.6(a)(iii) or (iv) of the Code may also trigger a disclosure obligation under 7.6(c). That is a matter for the Issuer to determine.*
 - (3) *For the avoidance of doubt, the Issuer is reminded that, where it intends to continue offering structured investment products to the public, it needs to comply with the requirements in the Code (in particular Appendix C) with regard to disclosure of financial information in offering documents.*

- (b) the Issuer shall keep the Commission and all investors in the structured investment product informed as soon as reasonably practicable if the Issuer or

the Guarantor (as the case may be) ceases to meet any of the core requirements in Appendix A;

- (c) to the extent permitted by applicable law, the Issuer shall notify the Commission and all investors in the structured investment product of changes in the financial condition or other circumstances which could reasonably be expected to have a material adverse effect on the ability of the Issuer or, if applicable, the Guarantor or a Key Product Counterparty, to fulfil its commitments in connection with the structured investment product;
- (d) the Issuer shall notify the Commission and all investors in the structured investment product:
 - (i) where applicable, of any event of default in respect of the collateral, or failure of a material portion of the collateral to continue to meet any of the requirements in 5.13 and, to the extent it is able to do so, explain the reasons for such failure; and
 - (ii) to the extent it is aware or ought to be aware after reasonable enquiry, of any breach of the requirements in Appendix B to this Code by a trustee/custodian appointed in respect of the structured investment product; and
- (e) the Issuer shall notify the Commission and all investors in the structured investment product as soon as reasonably practicable of any termination or resignation of any Product Arranger or any trustee/custodian appointed in respect of the structured investment product and, in such case, their replacement and the reasons for such termination, resignation and replacement.

Note: The notifications to investors to be made under 7.6(b) to (e) shall be in both the English and Chinese languages.

7.7 An Issuer and, where applicable, a Product Arranger shall respond promptly to any enquiries made of it by the Commission concerning a structured investment product by giving such relevant information as is available to the Issuer or the Product Arranger, as

applicable, or, if appropriate by making the information available to all investors in the structured investment product.

Additional obligations in the event of failure to continue to meet requirements

Appendix D

Advertising guidelines applicable to unlisted structured investment products

Application of advertising guidelines

These Advertising Guidelines are applicable to advertisements for unlisted structured investment products.

The guidelines outline the expected standard of disclosure and presentation of advertisements for unlisted structured investment products. These guidelines are not intended to be exhaustive.

All persons or entities issuing advertisements for unlisted structured investment products (including, for the avoidance of doubt, licensed and registered persons acting as intermediaries of the structured investment product) are required to comply with these guidelines.

For purposes of these guidelines, advertisements do not include materials which market the expertise or branding of or services offered by an Issuer without reference to any particular product.

General

Pursuant to the SFO, the Commission may at any time review its authorization of an advertisement and may modify, add to or withdraw any of the conditions of such authorization, or withdraw the authorization, as it considers appropriate.

Nothing in these guidelines undermines the prohibition under section 103 of the SFO, or compromises or prejudices any of the powers of the Commission under the SFO.

These guidelines do not have the force of law and shall not be interpreted in any manner which overrides the provisions of any law, codes or other regulatory requirements.

Disclosure and presentation of advertisements

General principles

1. Advertisements for a structured investment product shall:
 - (a) not be false, biased, misleading or deceptive;
 - (b) be clear, fair and present a balanced picture of the structured investment product with adequate and prominent risk disclosures; and
 - (c) contain information that is timely and consistent with the offering document.

- Notes:*
- (1) *Key features and risks, including, where appropriate, a description of any derivative component in the context of the risk and return of the structured investment product, shall be presented for investors upfront and presented prominently.*
 - (2) *Presentation of benefits and returns shall not be disproportionately more prominent than, or be made without mentioning, the risks of the structured investment product. Use of different font sizes for the positive and negative features of or statements regarding a structured investment product shall be avoided. An advertisement shall not give the impression that an investor could profit without risk.*
 - (3) *Terms like “guaranteed” shall not be used unless what is being guaranteed and the extent of the guarantee are accurately and clearly described. If a guarantee is subject to limitations or conditions, it would not be appropriate to use the word “guaranteed” generally to describe the structured investment product.*
 - (4) *Other terms which may convey an impression of low risk or a risk-free investment such as “principal-protected”, “secure”, “safe”, “warranty”, “deposit”, “likely” and “promise” shall generally not be used unless the issuer of the advertisement can demonstrate that such use is fair and not misleading.*
 - (5) *Advertisements shall not carry any slogan that is exaggerated or unwarranted or is inconsistent with or unrelated to the nature and risk and return profile of the structured investment product.*

(6) *Presentation of cumulative returns in advertisements is generally discouraged unless the issuer of the advertisement can demonstrate that such presentation is fair and not misleading.*

(7) *Advertisements shall not contain any information in respect of a structured investment product that is not contained in its offering document.*

2. Advertisements shall not refer to structured investment products for which no issue of offering document has been authorized by the SFC.

3. Advertisements shall take into account, and be reflective of, the knowledge and the level of comprehension which the investing public could reasonably be expected to have.

Language and graphics

4. Advertisements shall be visually reader-friendly and information shall not be densely-packed.

5. Advertisements shall be written in plain language so that investors can understand them. Use of technical jargon or complex sentences shall be avoided.

6. Where comparative information is presented, the comparison shall be meaningful and presented in a fair, balanced and unbiased way. The source of the information used for the comparison shall be specified and the key facts and assumptions used to make the comparison shall be included.

7. An advertisement shall not contain language, artwork or graphics that is inaccurate or inconsistent with the offering document for the relevant structured investment product.

8. Advertisements shall not be disguised. For example, where advertisements are included in a newspaper, the advertisement shall not give the appearance of being editorial comment.

Note: Where any of the Issuer's affiliates or any other party connected with the Issuer sponsors or participates in any activities or produces any materials promoting or discussing the structured investment product, there shall be clear disclosure of such party's interests and its relationship with the Issuer.

9. Any commentary in an advertisement regarding a structured investment product shall be reasonable and shall be made by a person who is competent to form a valid and objective opinion on the relevant matter.
10. Where visual images are used in advertisements, the issuer of the advertisement shall satisfy itself that the visual images accurately portray the relevant structured investment product and are not misleading. Visual images should not divert or mislead investors' focus from the proper consideration of the structured investment product.
11. An advertisement shall not seek to denigrate competitors of a product in such a way as might lower the reputation of the industry, or use language or artwork that would be considered by a reasonable person to be in poor taste.

Warning statements/Notes

12. If an advertisement or where applicable, a structured investment product or the issue of its offering document is described as having been authorized by the Commission, a statement that authorization does not imply official recommendation as set out in the Overarching Principles Section of the Handbook or to the like effect must be stated in the advertisement.
13. Advertisements shall contain warning statements/notes to the effect that:
 - (a) investors must read the offering document for further details including the risk factors;
 - (b) investors should not invest in the structured investment product based on the advertisement alone;
 - (c) the structured investment product is unlisted and, where applicable, that there may not be an active or liquid secondary market;
 - (d) the maximum loss that an investor may suffer is highlighted;
 - (e) the investment is subject to the credit and insolvency risks of the Issuer, the Guarantor and/or other identified counterparties (as the case may be);
 - (f) investing in the structured investment product is not the same as investing in its reference assets;

- (g) where applicable, investors may, at settlement, receive physical delivery of reference asset(s);
 - (h) where applicable, the structured investment product is not principal-protected;
 - (i) where applicable, the investment may be terminated early by the Issuer;
 - (j) where applicable, the structured investment product is not collateralised;
 - (k) the product is a structured investment product involving derivatives;
 - (l) the structured investment product is not covered by the Investor Compensation Fund;
 - (m) where the name of the structured investment product contains the word “deposit”, the deposit is a structured investment product which is not a protected deposit, that it is not protected by the Deposit Protection Scheme and that it is not the same as and should not be treated as a substitute for a term deposit; and
 - (n) in the case of a collateralised structured investment product, the priority of claims of investors to the proceeds of realisation of the collateral.
14. Warning statements and footnotes shall be clear and legible and shall not be presented in a style, font size or position which reduces their impact.

Historical performance of reference assets

15. Advertisements may only contain information on the historical performance of the reference assets to which a structured investment product is linked if the information is relevant and conducive to investors' understanding of the structured investment product. Such information shall not be the main focus of the advertisement.

Note: Where the reference assets are listed securities and if historical share price information is set out in an advertisement, the period covered shall be 5 years to the latest practicable date, save for cases where the reference assets have been listed for less than 5 years, in which case the period should be from the date of listing.

16. All performance information, including awards and rankings, shall be referenced to the relevant sources and dated. Rankings and awards may be quoted from any recognised,

published independent source. For peer group comparisons, only one source shall be used and a clear description of the peer group shall be included in the advertisement.

17. No forecast of the structured investment product's performance may be presented.
18. Where provided, information on past performance of a reference asset shall be up to the latest practicable date before the issue of the relevant advertisement, and will normally be expected to be no more than 7 days old.

Examples and presentation

19. Hypothetical examples are permitted for the purpose of explaining how a structured investment product works. Any such examples must be fair, balanced and commercially realistic. They must also include the worst-case scenario. They must be accompanied by a statement to the effect that the examples used are for illustrative purposes only and that the actual performance of the product may differ from the examples shown.
20. An issuer of advertisement may only present an annualised rate of return or potential return of a structured investment product if:
 - (a) all the assumptions underpinning the calculation are stated;
 - (b) it is accompanied by a prominent statement that the annualised rate of return is hypothetical and is not the actual return; and
 - (c) the actual return (or potential return) and the annualised return (or potential return) are presented side by side.
21. If graphs are used, they must be clearly presented without distortion. If different sets of data are plotted on the same graph for comparison purposes, the same axes shall be used. Periods/tenors for comparison shall be consistent.
22. If non-US\$/HK\$-denominated returns are shown, the advertisement shall, in addition, either:
 - (a) show the same returns in US\$/HK\$ with an explanation of the exchange rate used as the basis for the calculation; or
 - (b) include a statement to the effect that *"The investment returns are denominated in [foreign currency]. US/HK dollar-based investors are therefore exposed to fluctuations in the US/HK dollar / [foreign currency] exchange rate."*

Presentation of credit ratings

23. Where a credit rating of a structured investment product, the Issuer of such structured investment product, any reference asset or any collateral is given in an advertisement, it shall be accompanied by:
- (a) the source of the credit rating, which must be a rating agency of international standing and reputation acceptable to the Commission;
 - (b) either an explanation of what the credit rating means, including the class and/or type of rating and the specific entity or obligation rated, or a cross-reference to an explanation of what it means located in the offering document; and
 - (c) an appropriate warning to the effect that the credit rating (i) is not a recommendation, (ii) is not necessarily an indication of liquidity or volatility, and (iii) may be downgraded if the credit quality of the relevant entity or asset or obligation declines.

Note: Where a negative outlook has been assigned, such fact shall be disclosed.

Radio, television, cinema or other time-limiting advertisements / broadcasts

24. The following requirements apply to advertisements where the audience has no control over the time taken for the information in the advertisement to be delivered (e.g. radio, television, cinema broadcasts, etc.):
- (a) For audio advertisements with no visual display, warning statements referred to in paragraph 13 of these guidelines shall be audibly and clearly read out in a voice-over at the end of each broadcast.
 - (b) For visual advertisements, warning statements referred to in paragraph 13 of these guidelines and the full name of the issuer of the advertisement shall be displayed for such time as to be sufficiently prominent to allow the viewer to read the entire text of the disclosure with reasonable ease.
 - (c) Advertisements shall not be disguised as authoritative reports, and shall be presented with courtesy and good taste. Disturbing or annoying materials such

as blatant sound effects, persistent repetition, or words and phrases implying emergency shall be avoided.

Responsibility of the issuer of an advertisement

25. Issuers of advertisements are responsible for the contents of their advertisements and the monitoring of their publication or distribution. Under no circumstances may an issuer disclaim its liabilities in respect of the accuracy of the contents of its advertisements. Where information in the advertisement is sourced externally and disclosed as such, such issuer shall not include the information in an advertisement unless the issuer has a reasonable belief that such information is accurate, complete and up-to-date.
26. Issuers of advertisements shall keep adequate records of the advertisements issued, either in actual form or by way of a copy of the final proof, and the relevant supporting documents for substantiation of information presented therein. Such records shall be retained for at least 3 years from the latest date of publication/distribution of an advertisement and shall be made available to the Commission upon request.
27. The full name of the issuer of the advertisement, the Issuer and each Product Arranger for the relevant structured investment product(s) and their regulatory status in Hong Kong (or the lack thereof) shall be disclosed in the advertisement.
