## CHARACTERISTICS OF GEM (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

# MANAGEMENT DISCUSSION AND ANALYSIS

## BUSINESS REVIEW

During the year under review, the pandemic of Coronavirus Disease 2019 (the “**Pandemic**”) continued to affect the normal operation of the society and daily economic activities, but the Group has concentrated its efforts and strengths on developing pandemic prevention-oriented business according to its own conditions. The “Internet Plus” services and the personal protective equipment manufacturing and distribution business catered to the current demand for epidemic prevention and have become the main source of income of the Group, with the supply chain business segment of the “Internet Plus” service increasing as compared with the same period of last year. A minor portion of revenue was generated from the Lottery-related services, which also reported steady earnings in each of the first three quarters.

### “Internet Plus” Business

During the period under review, the “Internet Plus” business has become the main source of revenue to the Group. The continuous recurrence of the Pandemic in Hong Kong resulted in a strong demand for pandemic prevention materials, which contributed revenue to the related supply chain business of the Group. The Company leverages on its own experience and advantages in supply chain business and material procurement to provide customers with prompt supply chain services.

The anti-counterfeiting business of the “Internet Plus” segment also made steady progress. In July 2021, Shenzhen Guoke Anti-counterfeiting Technology Company Limited\* (深圳國科防偽科技有限公司) (“**Guoke Anti-counterfeiting**”), a direct wholly-owned subsidiary of the Company, and Shenzhen Ficus Technology Holdings Ltd. (深圳細葉榕科技控股有限公司) (“**Ficus**”), the holder of patented technologies, entered into a licensing and master service agreement in relation to the provision of total solutions by Ficus to Guoke Anti-counterfeiting. The entering into the agreement allows the Group to obtain proper authorization on legally using the anti-counterfeiting total solutions and device to comply with the requirement of necessary approval for conducting the relevant business and gain business support.

Since then, taking into account the newly added provinces during the period under review, the Group has entered into commercial contracts with corporate users in various regions for the provision of Guoke innovative anti-counterfeiting products (Anti-counterfeiting device with lottery of Guoke Anti-counterfeiting, “**ACL**”), covering a number of industries, such as tea leaves and health food products. During the period under review, the Group has completed the delivery of several batches of ACL. In addition to traditional consumer products, ACL can also be applied to digital collectibles and derivatives.

### Personal Protective Equipment Business

During the period under review, the revenue from the personal protective equipment business recorded a contraction as compared with the same period of last year, which was attributable to the completion of the Group’s participation in the one-year Local Mask Production Subsidy Scheme launched by the Hong Kong Special Administrative Region Government in the last financial year. Meanwhile, there has been a continuous demand for personal protective equipment in the market due to the recurrence of the Pandemic. Depending on the actual situation of the market, the Group will make active deployment on machine capacity, production line and product style and configuration, labor arrangement and other aspects, in order to meet market demand on the premise of maximizing efficiency.

All of the Group’s personal protective equipment was supplied to the local market in Hong Kong. The sales channel for institutional customers remained stable, which is believed to generate steady revenue for the Group. The Group will continue to improve the quality and workmanship of its products and expand its sales channels in all aspects to provide safe and reliable products for institutional customers.

Owing to the Pandemic, the increase in transportation costs since September 2021 has led to an increase in the cost of personal protective equipment business, but the cost has returned to a stable trend after April 2022.

## MANAGEMENT DISCUSSION AND ANALYSIS

### Lottery-related Business

The traditional lottery industry in Mainland China (the “**Mainland**”) is subject to uncertainties and the Group’s lottery-related business is facing adjustments and challenges. During the period under review, the Group continued to generate income by offering maintenance service for its lottery system to customers in the Mainland. However, the lottery-related maintenance services contract was suspended at the end of the reporting period.

### Structure Optimization

During the period under review, the Group adjusted and streamlined its internal structure allocation with a view to optimize the structure of its human resources team and reduce costs according to its business arrangements and conditions. The Group strives to reduce operating costs through flexible adjustments in order to enhance revenue efficiency and achieve sustainable business objectives.

### Future Outlook

The year of 2022 remains challenging for the Group, with business progress slowing down as well as business strategies and personnel structure being adjusted as a result of the Pandemic. In light of the continuing global Pandemic, the Group will continue to make efficient use of the business resources of strategic shareholders in the pharmaceutical industry, concentrate human and financial resources on its personal protective equipment business and develop healthcare and other health-related businesses.

In respect of the “Internet Plus” business, the Group will step up its efforts to develop its supply chain business. After the period under review, the Group entered into a service agreement with a platform operator in Mainland China, pursuant to which the affiliated companies of the platform operators, which include “Xiaodian Platform” (小店平台), “Global Shopping Platform” (全球購平台), “Toutiao” (今日頭條), “TikTok” (抖音) and “Xigua” (西瓜視頻), will procure the product supply chain services provided by the Company. The Group also entered into procurement agreements with internationally renowned skin care brands, providing a quality and stable source of supply for its supply chain business. The Group will continue to strengthen its collaboration with various major cosmetics brands and pharmaceutical manufacturers to expand its product portfolio on the platform and provide reliable products and supply chain services for the platform. Moreover, after the period under review, the Group entered into a supply chain service agreement with a retail and gift redemption chain store for one-stop professional photographic equipment and electronic digital products in Macau, pursuant to which the Group will provide supply chain services such as real-time product delivery and procurement. The Group believed that the aforesaid businesses will open up new revenue streams and development opportunities for the Group.

The Group will also continue to explore other development opportunities for the “Internet Plus” business in the future, including negotiations with industry players on “Internet Plus” solutions and in-depth cooperation in fields such as medical and health-related platforms.

The Group appointed a number of senior managers with extensive experience in the supply chain business and e-commerce as the leaders of the business (details are set out in Profiles of Senior Management) after the period under review. The Group believes that it will embrace new development opportunities under the leadership of the new business managers. The new management team will also lead the employees to uphold the Group’s spirit of “striving for growth” and “thriving in challenges” despite adverse market conditions, and continue to create greater value for shareholders.

## FINANCIAL REVIEW

During the year ended 30 June 2022, the Group recorded revenue of HK\$41.0 million, representing an decrease of 47% over the revenue of HK\$77.8 million for the same period in 2021, while gross profit for the period of HK\$5.9 million represented an decrease of 71% over gross profit of HK\$20.9 million in the corresponding period in 2021. Decrease in revenue as the result of the effect of the completion of the Group's participation in the one-year Local Mask Production Subsidy Scheme launched by the Hong Kong Special Administrative Region Government for the procurement of 48 million units of masks at the end of June 2021. Decrease in gross profit was mainly due to the reasons as decrease in revenue which generated from Manufacturing and distribution of personal protective equipment and rising in relevant production costs.

The Group recorded a loss attributable to equity holders of HK\$88.0 million for the year under review, representing an decrease of 17% over the loss attributable to the equity holders for the same period in 2021 (2021: HK\$106.3 million). The major reasons for the decrease of the loss attributable to equity holders mainly due to the effects of i) no loss on settlement of contingent consideration payables with the amount of HK\$10.8 million was recorded during the year ended 30 June 2022; ii) waive of other payable was recorded as other income amounted to HK\$26.8 million; iii) gain on disposal of subsidiaries amounted to HK\$8.7 million was recorded as other income; and iv) the company has strengthened its efforts in cost control and result in less administrative and operating expenses as compared with the same period in 2021.

## SEGMENTAL INFORMATION

Lottery-related services business remains smooth during the reporting period. During the reporting period, the revenue of the Lottery-related services recorded HK\$1.8 million, representing a decrease of 5% over the revenue of HK\$1.9 million for the same period of the last financial year. The gross profit recorded HK\$1.3 million with the margin of 71% for the reporting period comparing with 8% for the same period of the last financial year. Details of further development of lottery-related services business are stated in the "Business Review" of the "Management Discussion and Analysis".

Internet plus services business recorded an increase in overall revenue as the result of strong demand of the internet plus supply chain services of pandemic prevention materials during the reporting period. In the Internet Plus services business, the revenue of supply chain services recorded HK\$29.7 million, representing an increase of 138% in total revenue over the revenue of HK\$12.4 million for the same period of the last financial year. The gross profit recorded HK\$2.3 million with the margin of 8% for the reporting period comparing with 13% for the same period of the last financial year. In the Internet Plus solution services, it recorded the revenue of HK\$0.4 million for the reporting period as the result of delivering of the anti-counterfeiting devices. Details of the further development of internet plus services business are stated in the "Business Review" of the "Management Discussion and Analysis".

The Group developed new business segment on the manufacturing and distribution of personal protective equipment in Year 2020. During the reporting period, the revenue of the personal protective equipment recorded HK\$9.1 million, representing a decrease of 86% over the revenue of HK\$63.4 million for the same period of the last financial year, its due to the completion of the Group's participation in the one-year Local Mask Production Subsidy Scheme launched by the Hong Kong Special Administrative Region Government for the procurement of 48 million units of masks at the end of last financial period. The gross profit recorded HK\$2.3 million with the margin of 26% for the reporting period comparing with 30% for the same period of the last financial year. Details of further development of personal protective equipment business are stated in the "Business Review" of the "Management Discussion and Analysis".

## MANAGEMENT DISCUSSION AND ANALYSIS

### GOODWILL AND INTANGIBLE ASSETS

During the reporting period, goodwill amounting to approximately HK\$12.3 million (2021: HK\$33.8 million) were determined to be impaired, in which approximately HK\$12.3 million (2021: HK\$Nil million), HK\$Nil million (2021: HK\$Nil million) and HK\$Nil million (2021: HK\$33.8 million) were attributable to lottery related services cash generating unit (“**CGU(s)**”), internet plus solution services CGU and internet plus supply chain services CGU respectively. The recoverable amount of the CGUs is determined based on value-in-use calculations (“**VIU**”). These calculations use pre-tax cash flow projections based on financial budgets approved by management covering a five-year period and a long-term average growth rate. The recoverable amount of the CGUs was with reference to the calculations performed by an independent appraisal valuer, ROMA Appraisals Limited. Details of the relevant assumptions and impairment assessment on goodwill and intangible assets of the Group are set out in Note 21 and Note 22 to the Consolidated Financial Statements of this annual report respectively.

The Directors considered that the goodwill attributable to the lottery related services CGU was impaired for the year ended 30 June 2022 as the traditional lottery segment believed to reach certain market saturation. Following the significant decline in the business operations of the lottery relation services CGU during the current year as a result of the termination of the Lottery-related maintenance service contract with customers, management is of the view that the recoverable amount of the CGU is minimal and considers it appropriate to recognise the remaining balance of the goodwill allocated to this CGU amounted to HK\$12.3 million in profit or loss of the Group in respect of the current year. There will be business contraction on lottery business and the revenue of lottery related services will decline in the upcoming financial budgets. The Directors considered that the goodwill attributable to the internet plus supply chain services cash generating unit was impaired for the year ended 30 June 2021 as the suspension part of the internet plus supply chain business contract and Management Service Agreement with Sino-TCM.

### VALUE OF INPUTS, BASIS AND KEY ASSUMPTIONS FOR GOODWILL IMPAIRMENT LOSS ASSESSMENT

#### Internet plus supply chain services CGU

For the Internet plus supply chain services CGU, as a result of the pandemic of Coronavirus Disease 2019, business development of Sinopharm Traditional Chinese Medicine Co., Ltd (“**Sino-TCM**”) has been practically suspended and has also caused the provision of Internet plus supply chain services to Sino-TCM being suspended. The Company is of the view that the recoverable amount of the CGU is minimal with HK\$Nil amount on the cash flow projections and considers it appropriate to recognize the remaining balance of the goodwill allocated to this group of CGU amounted to HK\$33.8 million in profit or loss of the Group for the year ended 30 June 2021.

## Lottery-related services CGU

For the year ended 30 June 2021, as disclosed in Note 21 to the consolidated financial statements of the Annual Report, the value of inputs, together with the basis and key assumptions for valuation are as follows:

Gross profit margin: 26%  
Average growth rate: 5%  
Long-term growth rate: 2%  
Discount rate: 17.0%

In this relation, the independent appraisal valuer, ROMA Appraisals Limited adopted a normal debt-to-equity ratio from comparable companies for the long-term valuation, and the Directors considered that a prudent gross profit margin and average growth rate should be adopted to reflect the actual market trend. As at 30 June 2021, the Group assessed the recoverable amount of the lottery-related services CGU with reference to the VIU calculation based on cash flow projection of the Group. The calculation uses cash flow projection based on the financial budgets approved by the Directors covering a 5-year period. Cash flows beyond the 5-year period have been extrapolated using a 2% long-term growth rate. Such growth rate is based on the relevant industry growth forecasts and does not exceed the average long-term growth rate for the relevant industry.

The Directors determined the budgeted gross profit margin and growth rate based on the past performance and the anticipated market development. Whereas the discount rate used is pre-tax and reflects specific risks relating to the lottery-related services CGU. In this relation, the Company adopted the weighted average cost of capital as the discount rate with reference to the yield rate of the 10-year China government bond, the market premium in China stock market and the public financial information of several market comparables engaged in similar business in the PRC.

For the year ended 30 June 2022, due to the suspension of the lottery-related maintenance services contract, the Company is of the view that the recoverable amount of the lottery-related services CGU is minimal with HK\$Nil amount on the cash flow projections and considers it appropriate to recognize the remaining balance of the goodwill allocated to the group of lottery-related services CGU amounted to HK\$12.3 million in profit or loss statement of the Group.

As disclosed in Management Discussion and Analysis on page 4 of the Annual Report, the underlying reasons for the change in the value of inputs, basis and key assumptions used in the valuation for the impairment loss on lottery-related services CGU for the Relevant Period as compared with that of the year ended 30 June 2021 is the suspension of the lottery-related maintenance services contract. Therefore, the cash flow projection is HK\$Nil for the lottery-related services CGU.

The Company has adopted the VIU method for determining the recoverable amount of the CGUs. The VIU calculation is based on the estimated future cash flows expected to be derived from the asset or CGU discounted to its present value that reflects current market assessments of the time value of money and the risks specific to the asset or CGU taking into consideration of the financial budgets approved by the Directors, which, as the Directors considers, is the most suitable method for the assessment on the recoverable amount of the CGUs. There are no subsequent changes in the valuation method used.

## MANAGEMENT DISCUSSION AND ANALYSIS

### CONVERTIBLE BONDS

#### Convertible Bonds due on 17 January 2022

On 17 January 2014, the Company issued unlisted convertible bonds due on 17 January 2017 with a principal amount of HK\$89,625,000 at a rate of 2% per annum (the "CBs") as general working capital and for repayment of borrowings. A maximum number of 37,500,000 shares would be issued by the Company upon full conversion of the CBs at the conversion price of HK\$2.39 per conversion share into full-paid ordinary shares of the Company. As a result of share subdivision on 17 December 2014, the number of Shares falling to be issued upon full conversion of the CBs was adjusted to 150,000,000 at the conversion price of HK\$0.598 per Share.

## MANAGEMENT DISCUSSION AND ANALYSIS

On 18 January 2017, the Company entered into the first amendment agreement with the bondholder to amend some principal terms of the CBs, including to extend the maturity date of the CBs for six months from 17 January 2017 to 17 July 2017, and further extend to 17 January 2018 upon a written consent from the bondholder. The conversion price of the CBs shall be amended from HK\$0.598 to HK\$0.359 per conversion share subject to adjustment and the CBs could be converted into the maximum number of 249,651,810 Shares. The interest rates of the CBs shall be increased to 8% per annum and paid semi-annually (the "**Amendments**"). Save for the Amendments, all other terms and conditions of the CBs shall remain unchanged. The Amendments were approved by way of an ordinary resolution by the Shareholders at the extraordinary general meeting of the Company held on 29 March 2017. On 18 July 2017, the Company received a written consent from the bondholder, pursuant to which the maturity date of the CBs would be extended for further six months to 17 January 2018.

On 18 January 2018, the Company entered into the second amendment agreement with the bondholder to extend the maturity date of the CBs from 17 January 2018 to 17 July 2018, and further extend to 17 January 2019 upon a written consent from the bondholder (the "**Second Amendment**"). The Second Amendment was approved by way of an ordinary resolution by the Shareholders at the extraordinary general meeting of the Company held on 18 April 2018. The Company has received a written consent from the bondholder, pursuant to which the maturity date of the CBs would be extended for the further six months to 17 January 2019.

On 17 January 2019, the Company entered into the third amendment agreement with the bondholder to extend the maturity date of the CBs from 17 January 2019 to 17 July 2019, and further extend to 17 January 2020 upon a written consent from the bondholder (the "**Third Amendment**"). The Third Amendment was approved by way of an ordinary resolution by the Shareholders at the extraordinary general meeting of the Company held on 19 March 2019. The Company has received a written consent from the bondholder, pursuant to which the maturity date of the CBs would be extended for the further six months to 17 January 2020.

As a result of the adjustments of the CBs on 10 May 2019 upon the allotment and issue of the consideration shares to Sinopharm Traditional Chinese Medicine Overseas Holdings Limited, a maximum number of 263,602,941 Shares would be allotted and issued to the bondholder upon conversion of the CBs in full. The adjusted conversion price was HK\$0.34 per conversion share subject to further adjustment.

On 7 February 2020, the Company entered into the fourth amendment agreement with the bondholder to extend the maturity date of the CBs from 17 January 2020 to 17 July 2020, and further extend to 17 January 2021 upon a written consent from the bondholder (the "**Fourth Amendment**"). The Fourth Amendment was approved by way of an ordinary resolution by the Shareholders at the extraordinary general meeting of the Company held on 25 March 2020. The Company has received a written consent from the bondholder, pursuant to which the maturity date of the CBs would be extended for the further six months to 17 January 2021.

On 19 January 2021, the Company entered into the fifth amendment agreement with the bondholder to amend some principal terms of the CBs, including to extend the maturity date of the CBs for one year from 17 January 2021 to 17 January 2022. The conversion price of the CBs shall be amended from HK\$0.34 to HK\$0.221 per conversion share subject to adjustment and the CBs could be converted into the maximum number of 405,542,986 Shares. The interest rate of the CBs shall be increased to 10% per annum and paid annually (the "**Fifth Amendments**"). Save for the Fifth Amendments, all other terms and conditions of the CBs shall remain unchanged. The Fifth Amendments were approved by way of an ordinary resolution by the Shareholders at the extraordinary general meeting of the Company held on 22 March 2021.

As at 30 June 2022, no CBs was converted into Shares by the bondholder or redeemed by the Company.

The bondholder has no conversion right of the CBs which have been matured since 17 January 2022. Therefore, the CBs have not been convertible since then.

## MANAGEMENT DISCUSSION AND ANALYSIS

As at the date of this annual report, the Company has not received any notice of event of default from the bondholder demanding immediate repayment. The Company is still in the progress of negotiating with the bondholder for the renewal of or further extension on the CBs and will disclose further developments on the above matters by way of further announcement(s) in a timely manner in accordance with regulatory requirements.

### Convertible Bonds due on 20 February 2023

Individual attendance of the Nomination Committee members are set out on page 18 of this annual report.

### Board Diversity Policy

The Nomination Committee has adopted the board diversity policy. The Company recognises and embraces the benefits of having a diverse Board to enhance the quality of its performance. In designing the Board's composition, the Board diversity has been considered from a range of diversity perspectives, including but not limited to gender, age, cultural and educational background, professional experience, skills, knowledge and length of service. The Company also takes into account these factors based on its own business model and specific needs from time to time and the ultimate decision will be based on merit and contribution that the selected candidates will bring to the Board.

### Nomination Policy

The Nomination Committee has adopted the nomination policy. The secretary of the Nomination Committee shall call a meeting of the Nomination Committee, and invite nominations of candidates from the Board members (if any), for consideration by the Nomination Committee prior to its meeting. The Nomination Committee may also put forward candidates who are not nominated by the Board members. The Nomination Committee shall make recommendations of the candidates for the Board's consideration and approval. For proposing candidates to stand for re-election at a general meeting, the Nomination Committee shall make nominations to the Board for its consideration.

The factors considered by the Nomination Committee in assessing the suitability of a proposed candidate include (i) reputation for integrity; (ii) qualifications including professional qualifications, skills, knowledge and experience that are relevant to the Company's business and corporate strategy; (iii) willingness to devote adequate time to discharge duties as a Board member and other directorships and significant commitments; (iv) diversity in all its aspects, including but not limited to gender, age (18 years or above), cultural and educational background, professional experience, skills, knowledge and length of service; (v) independence requirements (for nomination of INEDs only) pursuant to Rule 5.09 of the GEM Listing Rules; and (vi) such other perspectives appropriate to the Company's business.

### Corporate Governance Function

The Company has not established a corporate governance committee. With the leadership of the chairperson of the Company and assistance from the chief executive officer of the Company, the Board is committed to promoting corporate governance which serves as a vital element of risk management throughout the growth and expansion of the Company.

## ACCOUNTABILITY AND AUDIT

### Financial Reporting

The Directors acknowledge their responsibility to prepare the financial statements for each financial period which give a true and fair view of the financial affairs of the Group. The Directors also ensure that (i) the financial statements of the Group are prepared in accordance with the statutory requirements and applicable accounting standards on a going concern basis and (ii) the publication of the financial statements of the Group is in a timely manner. The Directors have also made judgments and estimates that are prudent and reasonable in the preparation of the consolidated financial statements.

A statement by the external auditors about their reporting responsibility is set out in the section headed "Independent Auditor's Report" in this annual report.

### Risk Management and Internal Controls

The Board complied with the code provisions on risk management and internal control as set out in the CG code. The Board has the overall responsibility for evaluating and determining the nature and extent of the risks it is willing to take in achieving the Group's strategic objectives, and maintaining appropriate and effective risk management and internal control systems for the Group with the support of the Audit Committee. The systems are designed to manage the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Management has established comprehensive policies, standards and procedures in areas of operational, financial and risk controls for safeguarding the Company's assets against unauthorised use or disposition; for maintaining proper accounting records; and for ensuring the reliability of financial information to achieve a satisfactory level of assurance against fraud and errors.

The Board has overseen the Company's risk management and internal control systems on an ongoing basis. A year-end review of the effectiveness of the Group's risk management and internal control systems has been conducted annually. Such review covered the financial, operational and compliance controls of the significant subsidiaries of the Group and included the adequacy of resources, qualifications and experience of staff of the Company's accounting, internal audit and financial reporting functions, and their training programmes and budget. The Company has an internal audit function to carry out analysis and independent appraisal of the adequacy and effectiveness of the systems. The systems were considered to be effective and adequate.

The internal audit function also has procedures in place to keep information confidential and manage actual or potential conflicts of interest. Employees of the Group are prohibited from using inside information for their own benefit. The Board also has the responsibility to disseminate to the Shareholders and the public any inside information by way of announcements in accordance with the GEM Listing Rules.

## AUDITORS' REMUNERATION

The Group also complies with the relevant PRC laws and regulations relating to its business and operations. No important event affecting the Group has occurred since the end of the financial year under review.

### Principal Risks and Uncertainties of the Group

During the year under review, the Group was facing the following risks and uncertainties in our business: i) Lottery Industry Trends and regulations: The industry trends in lottery business in the PRC will directly affect the Group's operation. The decline in the sales of lottery market, uncertainties in the implantation lottery sales through online channels and implementation of any additional regulations and measures by the relevant authorities could have adversely impact on the Group's business, operation and financial results. ii) Service agreement renewal: The Group signed the service agreement with provincial lottery centers and other customers based on the fixed terms of period. The Group had maintained sound relationship with our customers and business partners to render the reliable lottery related services and internet plus services in order to secure and renew the relevant services agreement. But the renewal of the relevant services agreement is not guarantee, the lottery centers require to perform the tender process after the end of services period. In case of such services agreement will not be renewed, it will have adversely impact on the Group's business and operation. iii) Internet plus services business: the Group has opened up new business development on "Internet Plus" in order to explore more business opportunities for the Group. The Group observed that it is a growing market and the business is less susceptible to policy and regulatory changes. However, the operating results of that new business have been materially affected by the industry trends and future development. iv) Cost increase: Cost increases, whether resulting from rising costs of materials, transportation, minimum wage legislations in Hong Kong or Mainland China could impact the profit margins of the Group on the manufacturing and distribution of its products on personal protective equipment. In addition, the Group may be subject to product liability suits or product recalls, which could harm our personal protective equipment business.

## Key Relationships with Employees, Customers and Suppliers

The Group recognizes the accomplishment of the employees by providing comprehensive benefit package, career development opportunities and internal training appropriate to individual needs. The Group provides a healthy and safe workplace for all employees.

The Group encompasses working relationships with suppliers to meet our customers' needs in an effective and efficient manner. The Group's requirements and standards are well communicated to the suppliers before the commencement of a project.

The Group values the views and opinions of all the customers through various means and channels to understand the customer trends and needs. The Group also conducts comprehensive tests and checks to ensure that only quality products and services are offered to the customers.

## MAJOR CUSTOMERS AND SUPPLIERS

For the year ended 30 June 2022, sales to the five largest customers accounted for approximately 78% of its entire sales and sales to the largest customer accounted for approximately 29%. Purchases from the Group's five largest suppliers accounted for approximately 82% of the total purchases for the year and purchases from the largest supplier accounted for approximately 54%.

None of the Directors, or any of their close associates or any Shareholders, which to the best knowledge of the Directors owned more than 5% of the Company's issued share capital, had any beneficial interest in these major customers and suppliers.

## RESULTS AND APPROPRIATIONS

The results of the Group for the year ended 30 June 2022 are set out in the "Consolidated Statement of Profit or Loss and Other Comprehensive Income" on pages 65 and 66.

## DIVIDENDS

The Board does not recommend the payment of any dividend for the year ended 30 June 2022 (2021: Nil).

## DIVIDEND POLICY

The Board has adopted a dividend policy. Any distribution of dividends shall be in accordance with the applicable laws and the relevant provisions of the Articles of Association effective from time to time. The Company may declare and distribute final dividends, interim dividends or special dividends as may be determined by the Board from time to time. Declaration of final dividend is subject to the approval of the Shareholders. The Company may distribute dividends by way of cash or Shares. Profit distribution of the Company shall take into account: (i) the earnings per share of the Company; (ii) the reasonable return in investment of the investors and the Shareholders in order to provide incentive to them to continue to support the Company in its long-term development; (iii) the financial conditions and business plan of the Company; and (iv) the market sentiment and circumstances.

## RELATED PARTY TRANSACTIONS

Details of the significant related party transactions which also constituted exempted connected transactions under Chapter 20 of the GEM Listing Rules are set out in Note 46 to the Consolidated Financial Statements of this annual report.

## CONTINUING CONNECTED TRANSACTIONS PURSUANT TO RULE 20.58 OF THE GEM LISTING RULES

On 12 November 2018, Sinopharm Health Cross Border E-Commerce Company Limited ("**Sinopharm Health**"), a non-wholly-owned subsidiary of Hero Global Holdings Limited (英雄環球控股有限公司) ("**Hero Global**"), and Sinopharm Traditional Chinese Medicine Co. Ltd. (國藥藥材股份有限公司) ("**Sino-TCM**") entered into a management service agreement (the "**Management Service Agreement**"), pursuant to which Sinopharm Health shall provide business management and consulting services to Sino-TCM. The transactions contemplated under the Management Service Agreement shall continue upon completion of the acquisition of the 100% equity interest in Hero Global by the purchaser, Sinopharm Tech Corporate Management Limited (formerly known as China Vanguard Corporate Management Limited), a wholly-owned subsidiary of the Company, from Sinopharm Traditional Chinese Medicine Overseas Holdings Limited (國藥藥材海外控股有限公司) (the "**Vendor II**") pursuant to a sale and purchase agreement entered into on 4 January 2019.

Upon completion of the above acquisition on 6 May 2019, Sinopharm Health became a wholly-owned subsidiary of the Company. The Vendor II was wholly-owned by Sino-TCM, and the Vendor II, upon completion of the above acquisition on 6 May 2019 and the allotment and issue of the 650,000,000 consideration shares on 10 May 2019, became a substantial shareholder of the Company. As such, the Vendor II and Sino-TCM were each a connected person of the Company upon completion of the above acquisition. The transactions under the Management Service Agreement became continuing connected transactions of the Company (the "**CCT**") under Chapter 20 of the GEM Listing Rules.

Pursuant to the Management Service Agreement, Sinopharm Health will provide business management and Internet Plus solutions tailored for the business needs of Sino-TCM, in particular the development of the platform. The Company considered that the transactions with Sino-TCM under the Management Service Agreement would generate a stable source of income to the Group while at the same time enable Sinopharm Health to expand its business of Internet Plus Health and cross-border e-commerce.

The term of the Management Service Agreement is three years commencing from 12 November 2018, being the date of the Management Service Agreement, and ended on 11 November 2021, which is renewable for a further term of three years as mutually agreed by the parties subject to the terms and conditions of the Management Service Agreement.

Sino-TCM shall pay an annual service fee in the sum of RMB28 million to Sinopharm Health for the services provided by Sinopharm Health under the Management Service Agreement, which shall be settled within 60 business days following the end date of the preceding financial year. The service fee payable by Sino-TCM under the Management Service Agreement is subject to a 5% year-on-year increment during the term thereof.

Details of the CCT were disclosed in the announcement of the Company dated 4 January 2019.

For the year ended 30 June 2022, the independent non-executive Directors of the Company have reviewed the CCT and confirmed that the Management Service Agreement has been entered into in the ordinary and usual course of business of the Group, on normal commercial terms and on terms that are fair and reasonable and in the interests of the Shareholders as a whole. There was no transaction during the year. A letter from the auditors of the Company has been received by the Board confirming that none of the matters mentioned under Rule 20.54 of the GEM Listing Rules arose regarding the CCT for the year ended 30 June 2022.

## CONTINUING CONNECTED TRANSACTIONS IN RELATION TO THE LICENSING AND MASTER SERVICE AGREEMENT

On 4 July 2021, 深圳國科防偽科技有限公司 (transliterated as Shenzhen Guoke Anti-Counterfeit Technology Company Limited, the "**Licensee**"), a direct wholly-owned subsidiary of the Company, and 深圳細葉榕科技控股有限公司 Shenzhen Ficus Technology Holdings Ltd. (the "**Licensor**") entered into a licensing and master service agreement (the "**CCT Agreement**") in relation to the patents (the "**Patents**") registered and held by the Licensor, being Anti-counterfeit Packaging Device for Products (商品防偽用包裝裝置) (registration numbers: ZL 2019 2 1449828. X in the PRC) and Anti-counterfeit Packaging Device for Adhesive Parts (粘附件及其組件、防偽用包裝裝置) (registration numbers: ZL 2019 2 1579150. 7 in the PRC).

Subject to the terms and conditions of the CCT Agreement, the Licensor agreed to provide the following services (collectively the "**Total Solutions**") to the Licensee from time to time including to: (i) grant the Licensee during the term of the CCT Agreement, an exclusive and royalty-bearing license to the Patents to use, sell, and offer to sell the licensed product that contains the imbedded lottery ticket and that is designed, manufactured, packaged and delivered in accordance with the required specifications from the state-owned enterprise customers for the anti-counterfeit purposes of the state-owned enterprise customer's commercial products (the "**Device(s)**") in the PRC (the "**Licensing Arrangement**"); and (ii) provide services in relation to (a) design, production arrangement, material procurement and quality control, and customisation service of the Devices pursuant to the specification required by the Licensee and with the quality satisfactory to the Licensee at reasonable costs under each individual purchase order, and (b) design, development and customization of the online anti-counterfeiting information verification platform and the relevant services based on the Licensor's legal rights or interests that exist in the Patents II (the "**Licensed Patent Rights**") (the "**Total Solution Services**").

## DIRECTORS' REPORT

The annual caps under the CCT Agreement for each of the three years ending 30 June 2024 respectively are HK\$8,300,000, HK\$8,800,000 and HK\$9,300,000 for the year ended 30 June 2022, for the year ending 30 June 2023 and for the year ending 30 June 2024. The CCT Agreement II should commence on the business day immediately following the date of the CCT Agreement and shall, unless terminated in accordance with provisions of clauses of the CCT Agreement, continue in full force and effect until 30 June 2024.

As consideration for the licensing of the Licensed Patent Rights to the Licensee under the Licensing Arrangement and for the provision of Total Solution Services, the Licensee agrees to pay the Licensor a charge of 18% of the net sale price for the provision of the Total Solutions for each Device. It does not include the cost for procurement of the lottery ticket imbedded in the Device, and production cost associated with the production, transportation and delivery of the Devices and the cost associated with online anti-counterfeiting information verification platform for the Devices based on the Licensed Patent Rights.

The patented and innovative Devices for anti-counterfeit use include the unique lottery component with the characteristics of uniqueness and credibility with criminal sanctions for counterfeiting lottery tickets. The Devices are easily recognized by the consumers and welcomed by the brand owners due to the fact that the lottery system established in the PRC can only be operated by the government and therefore are highly creditable. As at 4 July 2021, the Patents have been registered and granted legal protection in three regions and have won awards and recognition from professional judges in international exhibitions. The Group has experience in welfare and sports lottery industries for years. In the past two years, the Group has focused on the opportunities in the growing anti-counterfeiting market. The Group is actively exploring the anti-counterfeiting market and has achieved concrete results. As at 4 July 2021, the Group has contracted with three brand owners in the tea leaves, natural food and cosmetics e-commerce platform industries for the application of the Devices on the brand owners' products and shall be required to deliver the Devices in accordance with the agreements entered into. Therefore, the Group is under actual demand to obtain authorization from the Licensor for the use of the Total Solutions and the Devices to comply with the requirement of necessary approval for conducting the relevant business and support.

The Licensor was currently indirectly owned as to 75% by Ms. Woo, Theresa, the spouse of Mr. Chan Ting, the chairperson, an executive director and chief executive officer of the Company. Accordingly, the Licensor was an associate of the connected person of the Company. As such, the transactions contemplated under the CCT Agreement shall constitute continuing connected transactions of the Company (the "CCT II") under Chapter 20 of the GEM Listing Rules.

Details of the CCT II were disclosed in the announcement of the Company dated 5 July 2021.

For the year ended 30 June 2022, the independent non-executive Directors of the Company have reviewed the CCT II and confirmed that the CCT Agreement has been entered into in the ordinary and usual course of business of the Group, on normal commercial terms and on terms that are fair and reasonable and in the interests of the Shareholders as a whole. There was no transaction during the year. A letter from the auditors of the Company has been received by the Board confirming that none of the matters mentioned under Rule 20.54 of the GEM Listing Rules arose regarding the CCT II for the year ended 30 June 2022.

## PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

Save as disclosed in this annual report, neither the Company nor any of its subsidiaries purchased, sold or redeemed any of the Shares during the year ended 30 June 2022.

## CONNECTED TRANSACTIONS IN RELATION TO LOAN CAPITALISATION INVOLVING ISSUE OF NEW SHARES UNDER GENERAL MANDATE

On 8 June 2021 (after trading hours), the Company and each of Mr. CHAN Ting (the "**First Subscriber**"), Madam CHEUNG Kwai Lan (the "**Second Subscriber**") and Ms. NG Pik Yin (the "**Third Subscriber**") (the "**Subscriber(s)**"), each a connected person, entered into a loan capitalisation agreement (the three agreements are referred to as the First Loan Capitalisation Agreement, the Second Loan Capitalisation Agreement and the Third Loan Capitalisation Agreement, collectively the Loan Capitalisation Agreements) pursuant to which they conditionally agreed to subscribe for, and the Company conditionally agreed to allot and issue, an aggregate of 133,705,046 Shares (the "**Loan Capitalisation Shares**") (the First Subscriber: 23,076,923 Loan Capitalisation Shares; the Second Subscriber: 89,166,585 Loan Capitalisation Shares; the Third Subscriber: 21,461,538 Loan Capitalisation Shares) at the subscription price of HK\$0.26 each (the "**LC Subscription Price**") under the general mandate (the "**General Mandate**") granted to the Directors at the annual general meeting of the Company held on 20 November 2020. The subscription amount payable by the First Subscriber, the Second Subscriber and the Third Subscriber under the First Loan Capitalisation Agreement, the Second Loan Capitalisation Agreement and the Third Loan Capitalisation Agreement respectively shall be satisfied by capitalising the outstanding principal amount under the loans owing by the Company to the respective Subscribers (the "**Loan Capitalisation**").

The Directors considered that the Loan Capitalisation under the Loan Capitalisation Agreements would allow the Company to settle the outstanding sums owing by the Company to the Subscribers without utilising existing financial resources of the Group while reducing the gearing level and hence strengthening the financial position of the Group.

The aggregate nominal value of the 133,705,046 Loan Capitalisation Shares is HK\$1,671,313.08. The net issue price, after deduction of relevant expenses, is estimated to be approximately HK\$0.26 per Loan Capitalisation Share. The closing price per Share as quoted on the Stock Exchange on 8 June 2021, being the date of the Loan Capitalisation Agreements was HK\$0.26.

As the First Subscriber is an executive Director, the chief executive officer of the Company and a director of Best Frontier Investments Limited (a substantial shareholder of the Company); the Second Subscriber is a non-executive Director of the Company and a director and shareholder of Best Frontier Investments Limited; and the Third Subscriber is an associate of a director of the Company's subsidiary, the First Subscriber, the Second Subscriber and the Third Subscriber are connected persons of the Company under The GEM Listing Rules. Therefore, the entering into of the First Loan Capitalisation Agreement, the Second Loan Capitalisation Agreement and the Third Loan Capitalisation Agreement and the subscription contemplated respectively thereunder constituted a connected transaction for the Company and is subject to the reporting, announcement, independent financial advice and independent shareholders' approval requirements under Chapter 20 of the GEM Listing Rules.

For each of the First Loan Capitalisation Agreement, the Second Loan Capitalisation Agreement and the Third Loan Capitalisation Agreement, the completion is conditional upon fulfillment of the conditions precedent on or before 17 September 2021 (the "**Long Stop Date**") (or such other time and date as the parties shall agree in writing) none of which is waivable. The Long Stop Date was extended to 29 October 2021 by the parties by entering into a supplemental agreement dated 17 September 2021.

The First Loan Capitalisation Agreement, the Second Loan Capitalisation Agreement and the Third Loan Capitalisation Agreement and the subscription contemplated respectively thereunder were approved by way of ordinary resolutions by the Shareholders at the extraordinary general meeting of the Company held on 11 October 2021. All the conditions precedent for completion of the Loan Capitalisation under the First Loan Capitalisation Agreement, the Second Loan Capitalisation Agreement and the Third Loan Capitalisation Agreement respectively have been fully fulfilled.

## DIRECTORS' REPORT

Details of the above connected transactions were disclosed in the Company's announcements dated 8 June 2021, 24 June 2021 and 17 September 2021, 11 October 2021 and the circular dated 23 September 2021.

On 20 October 2021, the Company allotted and issued a total number of 133,705,046 Loan Capitalisation Shares at the LC Subscription Price of HK\$0.26 per Loan Capitalisation Share to the First Subscriber, the Second Subscriber and the Third Subscriber under the General Mandate pursuant to the First Loan Capitalisation Agreement, the Second Loan Capitalisation Agreement and the Third Loan Capitalisation Agreement respectively. The net proceeds of approximately HK\$34.8 million from the allotment and issue of the Loan Capitalisation Shares has been utilized as intended.

### ISSUE OF CONVERTIBLE BONDS

On 20 August 2021, the Company and each of the two subscribers, namely Expert Global Enterprises Limited (the "**First Subscriber**") and Japan Equity Value Investment Fund (the "**Second Subscriber**") (collectively, the "**Subscribers**") entered into a subscription agreement (the two agreements were separately referred to as the "**First Subscription Agreement**" and the "**Second Subscription Agreement**" and collectively referred to as the "**Subscription Agreements**") in relation to the issuance of convertible bonds of an aggregate principal amount of HK\$100,000,000 with a term of 18 months (540 days) (the "**Convertible Bonds**") from the issue date. The principal amount of the Convertible Bonds to be issued to each of the two Subscribers was HK\$50,000,000. The Convertible Bonds will bear interest at the rate of 7% per annum, interest is payable semi-annually in arrears.

Assuming full conversion of the Convertible Bonds at the initial conversion price of HK\$0.29 per conversion share, the Convertible Bonds will be convertible into 344,827,586 ordinary Shares (the "**Conversion Share(s)**") with aggregate nominal value of HK\$4,310,344.83. The closing price per Share as quoted on the Stock Exchange on 20 August 2021, being the date of the Subscription Agreements was HK\$0.26. The Conversion Shares will be allotted and issued by the Company pursuant to the general mandate granted to the Directors at the annual general meeting of the Company held on 20 November 2020.

The Directors considered that raising funds by issuing Convertible Bonds provided an opportunity for the Company to enhance its working capital and strengthen its capital base and financial position. The Directors considered that the issue of the Convertible Bonds was an appropriate means of raising additional capital for the Company since it will not have an immediate dilution effect on the shareholding of the existing Shareholders.

The aggregate gross proceeds from the issue of the Convertible Bonds will be HK\$100 million. The aggregate net proceeds of approximately HK\$100 million from the issue of the Convertible Bonds was intended to be applied as to (i) approximately HK\$35 million for the development and promotion of anti-counterfeiting business of the Group, including but not limited to (a) costs of anti-counterfeiting device; and (b) improving nationwide sales capability and expanding marketing network; (ii) approximately HK\$20 million for the repayment of loans and other payables; and (iii) the remaining of the net proceeds in the approximate amount of HK\$45 million for the operating cost and general working capital of the Company. The net issue price for each Conversion Share is approximately HK\$0.29.

Completion of the First Subscription Agreement and the Second Subscription Agreement may or may not take place on the same date/time and was not inter-conditional with each other.

All the conditions precedent as set out in the First Subscription Agreement have been fulfilled and the completion took place on 30 August 2021. Upon the completion, the convertible bonds in the aggregate principal amount of HK\$50,000,000 (the **"First Convertible Bonds"**) were issued to the First Subscriber (the **"First Subscription"**). The net proceeds from the First Subscription, after deduction of expenses, was approximately HK\$50,000,000 which was fully utilized as to HK\$6.4 million for development of anti-counterfeiting business; HK\$15.0 million for the repayment of debts; and HK\$28.6 million for general working capital of the Company. The change of the use of proceeds was due to the impact of the pandemic of Coronavirus Disease 2019. The development and promotion program of anti-counterfeiting business has been delayed and appropriately HK\$11 million which was intended to be used for development of anti-counterfeiting business was actually utilized for the repayment of debts and general working capital of the Company instead.

Details of the above transactions were disclosed in the announcement of the Company dated 20 August 2021, 23 August 2021 and 30 August 2021.

As the conditions precedent set out in the Second Subscription Agreement have not been fully fulfilled (or as the case may be, waived) on or before the long stop date on 19 October 2021, the subscription contemplated under the Second Subscription Agreement have lapsed, determined and been of no further effect. No party shall be liable to the other save and except antecedent breach committed before the termination of the Second Subscription Agreement.

As at the date of this annual report, no First Convertible Bonds has been converted into the Shares by the First Subscriber or redeemed by the Company.

## UPDATE ON THE GUARANTEED PROFIT REGARDING THE FINANCIAL PERFORMANCE OF THE SUBSIDIARY ACQUIRED

On 4 January 2019, Sinopharm Tech Corporate Management Limited (formerly known as China Vanguard Corporate Management Limited) (the **"Purchaser"**), a wholly-owned subsidiary of the Company, as purchaser and Sinopharm Traditional Chinese Medicine Overseas Holdings Limited as vendor (the **"Vendor II"**) entered into a sale and purchase agreement (the **"Sale and Purchase Agreement"**), pursuant to which the Vendor II has conditionally agreed to sell, and the Purchaser has conditionally agreed to acquire, the sale shares (the **"Sale Shares"**) in Hero Global Holdings Limited (the **"Target Company"**), which represents 100% of the equity interest in the Target Company, for a consideration of HK\$139.10 million, which will be settled by the allotment and issue of 650,000,000 Shares (the **"Consideration Shares"**) by the Company to the Vendor II under the specific mandate at the issue price of HK\$0.214 per consideration share. The completion of the sale and purchase of the Sale Shares took place on 6 May 2019 and the Target Company became a wholly-owned subsidiary of the Company.

Pursuant to the Sale and Purchase Agreement, the Consideration Shares, upon the allotment and issue, will be subject to lock-up arrangement and held by the Purchaser in accordance with the terms and conditions of the Sale and Purchase Agreement. The Consideration Shares shall be released from the lock-up arrangement upon satisfaction of the Guaranteed Profit (as defined below) by the Target Company. For the avoidance of doubt, the lock-up period of the Consideration Shares shall not be less than three years since the allotment and issue thereof.

In the event that the aggregate Net Profit (as defined below) does not meet the Guaranteed Profit, the Consideration Shares will be released from the lock-up arrangement only after the cash compensation is made by the Vendor II to the Purchaser in accordance with the Sale and Purchase Agreement. In the event that the Vendor II fails to compensate the Purchaser in accordance with the Sale and Purchase Agreement, the Purchaser shall have the right to sell the locked-up Consideration Shares in return for such compensation amount in cash. There was no such option to dispose of the Sale Shares to the Vendor II in accordance with the Sale and Purchase Agreement.

## DIRECTORS' REPORT

Pursuant to the Sale and Purchase Agreement, the Vendor II guaranteed to the Purchaser that (i) the actual net profit after taxation of the Target Company (the "**Net Profit**") for each of the three years ended 31 December 2019, 2020 and 2021 shall not be less than HK\$23,000,000; or (ii) the aggregate Net Profit for the three years ended 31 December 2019, 2020 and 2021 shall not be less than HK\$69,000,000 in total (the "**Guaranteed Profit**"). If the aggregate Net Profit for the three years ended 31 December 2019, 2020 and 2021 is less than the Guaranteed Profit, the Vendor II shall compensate the Purchaser the shortfall multiplied by a compensation factor of 1.7 in cash. The Vendor II shall settle the compensation amount, if any, within 30 business days following the issue of written confirmation in respect of the shortfall by the Purchaser on or before 30 June 2022 with reference to the respective Net Profits for each of the three years as mentioned above.

Based on the unaudited management accounts of the Target Company prepared in accordance with Hong Kong Financial Reporting Standards, the Target Company recorded net profit after taxation of approximately HK\$10.5 million and HK\$5.9 million for the two years ended 31 December 2019 and 2020 respectively, and net loss after taxation of approximately HK\$2.0 million for the year ended 31 December 2021. The aggregate Net Profit for the three years ended 31 December 2019, 2020 and 2021 was approximately HK\$14.4 million and hence the Guaranteed Profit could not be fulfilled. Accordingly, the compensation of approximately HK\$92.8 million (the "**Compensation**"), being the shortfall of the Guaranteed Profit of approximately HK\$54.6 million multiplied by a compensation factor of 1.7, shall be payable by the Vendor II within 30 business days following the issue of written confirmation in respect of the shortfall by the Purchaser on 23 May 2022.

The Target Company and its subsidiaries has been engaged in (i) provision of business management and consulting services (with respect to Internet Plus, blockchain, big data and database management, etc.), overseas sourcing, online trade, technology development for e-commerce platforms (including payment, membership management and precision marketing), technical services; and (ii) provision of internet plus supply chain services. The revenue of the Target Company has been decreasing during the three years ended 31 December 2021 because certain online platform supply chain business contracts have not been renewed and provision of business management and consulting services to Sino-TCM was suspended due to the outbreak of the COVID-19 pandemic in the PRC, leading to the non-fulfilment of the Guaranteed Profit.

As at 23 May 2022, the Board was of the opinion that the Vendor II has not fulfilled its obligations in relation to the Guaranteed Profit of the Sale and Purchase Agreement. On 23 May 2022, the Purchaser and the Vendor II signed a confirmation letter and mutually agreed on the amount of the Compensation of approximately HK\$92.8 million and entered into a settlement agreement in relation to the settlement arrangement of the Compensation (the "**Settlement Agreement**").

Pursuant to the Settlement Agreement, the Compensation will be settled by 24 instalments, which will be payable on the 15th and the last day of each month commencing on 15 July 2022 and ending on 30 June 2023. The minimum payment amount of each instalment is HK\$3,869,028. If the Vendor II fails to pay the minimum compensation amount in any one of the instalments, the Purchaser has the right to request settlement of the remaining amount of the Compensation from the Vendor II immediately.

The Vendor II failed to settle the first installment of the Compensation on 15 July 2022. Even the Purchaser issued the Vendor II a written request of settlement on 18 July 2022, the Vendor II still failed to do the same on 31 July 2022 which was the scheduled settlement date for the second installment of the Compensation. In accordance with the Sale and Purchase Agreement, the Purchaser shall have the right to sell the locked-up Consideration Shares in return for such Compensation amount in cash. The Purchaser will exercise the right to sell the locked-up Consideration Shares and seek subscriber(s) who is/are third party(ies) independent of and not connected with the Company and any of its connected persons within the meaning of the GEM Listing Rules, to subscribe for the locked-up Consideration Shares. Up to the date of this report, the Company exercised the right and sold 232 million locked-up Consideration Shares in return for the compensation of approximately HK\$9.8 million.

## UPDATE ON THE GUARANTEED PROFIT REGARDING THE FINANCIAL PERFORMANCE OF THE ASSOCIATE ACQUIRED

On 12 December 2019 (after trading hours), Sinopharm Tech Corporate Management Limited (formerly known as China Vanguard Corporate Management Limited) (the "**Purchaser II**") and Ms. Choi Man Yun, Marian ("**Ms. Choi**"), Ms. Kong Lai Ying ("**Ms. Kong**"), Mr. Lau Chi Wing James ("**Mr. Lau**") and Mr. Cheung Wan Yu ("**Mr. Cheung**") (collectively the "**Vendors**") entered into a sale and purchase agreement (the "**Sale and Purchase Agreement II**"), pursuant to which the Vendors have conditionally agreed to sell, and the Purchaser II has conditionally agreed to acquire, the sale shares (the "**Sale Shares II**") in Ever Development Holdings Limited (the "**Target Company II**"), which represents 40% of the equity interests in the Target Company II, for a consideration of HK\$41.6 million, which will be settled by the allotment and issue of 180,869,565 Shares (the "**Consideration Share(s)**") by the Company to the Vendors under the general mandate granted to the Directors at the annual general meeting of the Company held on 20 November 2019 at the issue price of HK\$0.23 per Consideration Share (the "**Acquisition**"). The Target Company II provides one-stop comprehensive medical and health services. The completion of the sale and purchase of the Sale Shares II took place on 3 June 2020 and the Target Company II became an associate of the Company.

Pursuant to the Sale and Purchase Agreement II, the Vendors will guarantee and undertake to the Purchaser II that the audited net profit after taxation of each year ended 31 December 2020 and 31 December 2021 shall not be less than HK\$13,000,000 or the audited net profit after taxation shall in aggregate be not less than HK\$26,000,000 for the two years ended 31 December 2021 (the "**Profit Guarantee**"). If the Vendors cannot achieve the Profit Guarantee, the Vendors agreed to make a compensation to the Purchaser II by cash payment. The maximum compensation obligation of each Vendor shall be equivalent to HK\$24,960,000, multiplied by the original shareholding of such Vendor in the Target Company II as at 12 December 2019 and immediately before the completion of the Acquisition (the "**Original Shareholding**").

If the Target Company II achieves an audited net profit after taxation of HK\$15,000,000 or above for the year ended 31 December 2020, the Purchaser II will grant a performance award, to be settled by the allotment and issue of additional consideration shares by the Company to the Vendors. Such award is an one-off award, and each of the Vendors shall receive his or her award in proportion to their respective Original Shareholding. The performance award shall be determined as that (i) if the audited net profit after taxation is between HK\$15,000,000 (inclusive) and HK\$17,000,000, the award shall be HK\$6,400,000, calculated as the over-achievement of  $\text{HK\$2,000,000} \times 8 \times 40\%$ ; or (ii) if the audited net profit after taxation is or more than HK\$17,000,000, the award shall be HK\$12,800,000, calculated as the over-achievement of  $\text{HK\$4,000,000} \times 8 \times 40\%$ . The maximum number of the additional consideration shares to be allotted and issued to the Vendors is 55,652,174 Shares (the "**Additional Consideration Shares**").

For the year ended 31 December 2020, the Target Company II has fulfilled the Profit Guarantee and is entitled to the performance award. The audited net profit after taxation of the Target Company II for the year ended 31 December 2020 was HK\$18,951,234, which was more than HK\$17,000,000 and the award shall be HK\$12,800,000. The total number of the Additional Consideration Shares to be allotted and issued to the Vendors shall be 55,652,174 Shares. On 29 April 2021, the Company allotted and issued a total number of 55,652,174 Additional Consideration Shares to the Vendors at the issue price of HK\$0.23 per Additional Consideration Share under the general mandate granted to the Directors at the annual general meeting of the Company held on 20 November 2019. In proportion to the number of the Sale Shares II transferred by each of the Vendors to the Purchaser II, 37,008,696 Shares, 10,573,913 Shares, 5,286,956 Shares and 2,782,609 Shares were respectively allotted and issued to Ms. Choi, Ms. Kong, Mr. Lau and Mr. Cheung as the Additional Consideration Shares.

For the year ended 31 December 2021, the Target Company II has fulfilled the Profit Guarantee. The audited net profit after taxation of the Target Company II for the year ended 31 December 2021 was HK\$7,831,470.

An interest in 697,364,364 Shares as security was provided by Best Frontier to Integrated Asset on 8 April 2022.

## DIRECTORS' REPORT

2. The 650,000,000 Shares were held by Main Key Investments Limited which was wholly-owned by Mr. Guo Lei.
3. The 542,363,000 Shares were owned by Integrated Asset which was wholly-owned by Mr. YAM Tak Cheung. 8% coupon convertible bonds in aggregate amount of HK\$89,625,000 (the "CBs") for a term of six months maturing on 17 July 2017 were issued to Integrated Asset pursuant to the first amendment agreement dated 18 January 2017 approved by the Shareholders at the extraordinary general meeting of the Company held on 29 March 2017. The Company received a written consent from Integrated Asset, on which the maturity date of the CBs would be extended for further six months to 17 January 2018. A maximum number of 249,651,810 Shares would be allotted and issued to Integrated Asset upon conversion of the CBs in full. The amended conversion price was HK\$0.359 per conversion share subject to adjustment.

Pursuant to the second amendment agreement approved by the Shareholders at the extraordinary general meeting of the Company held on 18 April 2018, the amendments were that the maturity date of the CBs was extended for six months from 17 January 2018 to 17 July 2018, and further extended to 17 January 2019 upon a prior written consent from Integrated Asset. Such written consent from Integrated Asset has been received by the Company. A maximum number of 249,651,810 Shares would be allotted and issued to Integrated Asset upon conversion of the CBs in full.

Pursuant to the third amendment agreement approved by the Shareholders at the extraordinary general meeting of the Company held on 19 March 2019, the amendments were that the maturity date of the CBs was extended for six months from 17 January 2019 to 17 July 2019, and further extended to 17 January 2020 upon a prior written consent from Integrated Asset. Such written consent from Integrated Asset has been received by the Company. A maximum number of 249,651,810 Shares would be allotted and issued to Integrated Asset upon conversion of the CBs in full.

As a result of the adjustments of the CBs on 10 May 2019 upon the allotment and issue of the consideration shares to Sinopharm Traditional Chinese Medicine Overseas Holdings Limited, a maximum number of 263,602,941 Shares would be allotted and issued to Integrated Asset upon conversion of the CBs in full. The adjusted conversion price is HK\$0.34 per conversion share subject to further adjustment.

Pursuant to the fourth amendment agreement approved by the Shareholders at the extraordinary general meeting of the Company held on 25 March 2020, the amendments were that the maturity date of the CBs was extended for six months from 17 January 2020 to 17 July 2020, and further extended to 17 January 2021 upon a prior written consent from Integrated Asset. Such written consent from Integrated Asset has been received by the Company. A maximum number of 263,602,941 Shares would be allotted and issued to Integrated Asset upon conversion of the CBs in full.

Pursuant to the fifth amendment agreement approved by the Shareholders at the extraordinary general meeting of the Company held on 22 March 2021, the Company amended some principal terms of the CBs, including to extend the maturity date of the CBs for one year from 17 January 2021 to 17 January 2022. Its conversion price shall be amended from HK\$0.34 to HK\$0.221 per conversion share (subject to adjustment), which can be converted into the maximum number of 405,542,986 Shares. The interest rate of the CBs shall be increased to 10% per annum and paid annually (the "**Fifth Amendments**"). Save for the Fifth Amendments, all other terms and conditions of the CBs shall remain unchanged.

The bondholder has not exercised any of its conversion right for the Company's shares and has no conversion right of the CBs which have been matured since 17 January 2022. Therefore, the CBs have not been convertible since then.

As at the date of this annual report, the Company has not received any notice of event of default from the bondholder demanding immediate repayment. The Company is still in the progress of negotiating with the bondholder for the renewal of or further extension on the CBs and will disclose further developments on the above matters by way of further announcement(s) in a timely manner in accordance with regulatory requirements.

Save as disclosed above, as at 30 June 2022, the Directors or chief executive of the Company were not aware of any person (other than a Director or chief executive of the Company) who had an interest or short position in the Shares or underlying Shares of the Company which would fall to be disclosed to the Company under the provisions of Division 2 and 3 of Part XV of the SFO, or which was recorded in the register required to be kept by the Company under Section 336 of the SFO.

## SHARE OPTION SCHEME

The Company adopted a share option scheme (the “**Old Share Option Scheme**”) on 31 January 2013 under which the Board may, at its discretion, invite eligible persons to take up share options to subscribe for the Shares. The purpose of the Old Share Option Scheme is to enable the Company to grant share options to selected eligible persons as incentives or rewards for their contribution to the Group. Eligible persons shall include any employee, any Director (including executive, non-executive and independent non-executive Directors) and any consultant of the Company or of any subsidiary of the Company or such other persons who, at the sole determination of the Board, have contributed to the Group at the time when an option is granted to such persons. The Old Share Option Scheme will remain valid for a period of 10 years commencing from the date of its adoption. The share options must be taken up within 21 days from the date on which the offer letter is delivered to the grantee for acceptance of the offer. The Old Share Option Scheme was terminated on 9 June 2021.

The Company adopted a new share option scheme (the “**New Share Option Scheme**”) on 9 June 2021 under which the Board may, at its discretion, invite eligible persons to take up share options to subscribe for the Shares. The purpose of the New Share Option Scheme is to enable the Group to grant the share options to selected eligible persons (the “**Eligible Persons**”) as incentives or rewards for their contribution to the Group. The New Share Option Scheme will provide the Eligible Persons with an opportunity to acquire proprietary interests in the Company with the view to achieving the following principal objectives: (i) motivate the Eligible Persons (in case of the Eligible Employees, as defined below) to optimise their performance and efficiency for the benefit of the Group; (ii) attract and retain or otherwise maintain ongoing business relationship with the Eligible Persons (in case of the Eligible Consultants, as defined below) whose contributions are, will be or are expected to be beneficial to the Group; and (iii) align the interests of the Eligible Persons with the Shareholders. Eligible persons shall include any employee and any Director (including executive, non-executive and independent non-executive Directors) (both collectively, the “**Eligible Employee(s)**”) and any consultant (both collectively, the “**Eligible Consultant(s)**”) of the Company or of any subsidiary of the Company or such other persons who, at the sole determination of the Board, have contributed to the Group at the time when an option is granted to such persons. The New Share Option Scheme will remain valid for a period of 10 years commencing from the date of its adoption. The share options must be taken up within 21 days from the date on which the offer letter is delivered to the grantee for acceptance of the offer. 357,537,680 Shares are available for issue under the New Share Option Scheme, representing approximately 7.88% of the issued Shares as at the date of this annual report.

Details of the Old Share Option Scheme and the New Share Option Scheme adopted by the Company are set out in Note 41 to the Consolidated Financial Statements.

## DIRECTORS' REPORT

## EVENTS AFTER REPORTING PERIOD

## CONNECTED TRANSACTION IN RELATION TO LOAN CAPITALISATION INVOLVING ISSUE OF NEW SHARES UNDER SPECIFIC MANDATE

On 27 July 2022 (after trading hours of the Stock Exchange), the Company and Mr. CHAN Ting (the "**Subscriber**") entered into a loan capitalisation agreement (the "**Loan Capitalisation Agreement II**"), pursuant to which the Company has conditionally agreed to allot and issue, and the Subscriber has conditionally agreed to subscribe for, 54,637,617 Shares (the "**Loan Capitalisation Share(s) II**") at the subscription price of HK\$0.28 each (the "**LC Subscription Price II**"), the same of which shall be satisfied by setting off the full amount of HK\$15,298,533 (the "**Loan**"). Upon completion, the Loan shall be deemed to have been fully repaid and the Company shall be released from its obligations under the Loan (the "**Loan Capitalisation II**").

As at the date of the Loan Capitalisation Agreement II, the Loan was the aggregate of certain loans which were originally advanced by (i) Ms. WOO Theresa (the spouse of the Subscriber) in the principal sum of HK\$3,493,500, (ii) Ms. CHAN Siu Sarah (the sister of the Subscriber) in the principal sum of HK\$1,196,000, (iii) Mr. FUNG King Him Daniel (a director of various subsidiaries of the Company) in the principal sum of HK\$2,961,948, (iv) Mr. CHEUK Ka Chun Kevin (an executive Director) in the principal sum of HK\$2,151,394 and (v) Mr. LIAO Zhe (an executive Director) in the principal sum of HK\$5,495,691 (collectively, the "**Assignors**") to the Company as its working capital. Each of the Assignors has executed an assignment of loans in favour of the Subscriber on 26 July 2022, pursuant to which each of the Assignors assigned to the Subscriber the said loans to the Subscriber on dollar-to-dollar basis. The assignment of loans and the Loan Capitalisation Agreement II are not inter-conditional with each other.

The Directors considered that the Loan Capitalisation II under the Loan Capitalisation Agreement II would allow the Company to settle the outstanding sums owing by the Company to the Subscriber without utilising existing financial resources of the Group while reducing the gearing level and hence strengthening the financial position of the Group.

The aggregate nominal value of the 54,637,617 Loan Capitalisation Shares II is HK\$682,970.21. The net issue price, after deduction of relevant expenses, is estimated to be approximately HK\$0.28 per Loan Capitalisation Share II. The closing price per Share as quoted on the Stock Exchange on 27 July 2022, being the date of the Loan Capitalisation Agreement II was HK\$0.064.

Since as at the date of the Loan Capitalisation Agreement II, the Subscriber was the chairperson, an executive Director and the chief executive officer of the Company and was a director of Best Frontier Investments Limited, a former substantial Shareholder, the Subscriber is a connected person of the Company under the GEM Listing Rules. Therefore, the entering into of the Loan Capitalisation Agreement II and the transactions contemplated thereunder constituted a connected transaction for the Company and is subject to the reporting, announcement, independent financial advice and Independent Shareholders' approval requirements under Chapter 20 of the GEM Listing Rules.

The completion of the Loan Capitalisation Agreement II is conditional upon fulfillment of the conditions precedent on or before 30 November 2022 (or such other time and date as the parties shall agree in writing) none of which is waivable.

Details of the above connected transaction were disclosed in the Company's announcement dated 27 July 2022 and the circular, convening an extraordinary general meeting to approve the above connected transaction is expected to be despatched to the Shareholders on or before 31 October 2022. Up to the date of this annual report, the conditions precedent for completion of the Loan Capitalisation II under the Loan Capitalisation Agreement II have not been fully fulfilled. Therefore, the Loan Capitalisation II may or may not proceed.

Save as disclosed above, there has been no important event affecting the Group since the end of the year ended 30 June 2022.

On behalf of the Board

**CHAU Wai Wah Fred**

# ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

## Reporting Boundary

This Environmental, Social and Governance (the “ESG”) Report (the “ESG Report”) issued by the Company covers the policies, compliance issues and key performance indicators relating to the environmental and social aspects of the head office and mask factories in Hong Kong and other business operations in the PRC during the year ended 30 June 2022. The above scope of reporting had relatively significant impact on the environment and society during the year. This ESG Report was prepared in accordance with the “Environmental, Social and Governance Reporting Guide” as set out in Appendix 20 of the GEM Listing Rules.

## Board’s ESG Management Approach and Strategy

The Group has implemented a top-down management approach within the Group for ESG management and has developed appropriate and effective ESG management systems and processes. The Board is responsible for the determination of the Group’s ESG strategy, assessing the ESG risks and opportunities as well as the oversight of the Group’s overall ESG performance, including environmental management issues, labor practices and other ESG aspects. The management of the Group is responsible for the execution of ESG management, the collection of relevant ESG data and the preparation of the ESG Report. The Group maintains effective communication with stakeholders through daily operations to understand and identify their needs, expectations and concerns regarding ESG factors of the Group, so that the importance of each ESG area can be assessed and long-term development approaches and strategies can be formulated. The Board reviews and approves the ESG Report annually to ensure all material ESG issues and their impacts on sustainable development are fairly presented in the ESG Report.

## Reporting Principles

The Group adheres to the four fundamental reporting principles set out in the ESG Reporting Guide for the preparation of this report:

**Materiality:** The Group acknowledges the importance of material issues that may have a significant impact on its stakeholders and operations. Material environmental and social issues were identified through an analysis of the written and verbal comments and responses submitted by members of the management team of the Group. Material issues identified during the year are similar to the material issues identified in the previous reporting period. Results were presented to the Board for validation of the material ESG issues for the year.

**Quantitative:** The Group records and discloses the key performance indicators in quantitative terms as appropriate for evaluation and validation of the effectiveness of ESG policies and measures.

**Consistency:** As far as practicable and unless stated otherwise, the Group applies consistent measurement methodology to allow for meaningful comparison of the ESG performance over time. Any changes in the methods or the key performance indicators used will be disclosed.

**Balance:** This report discloses information in an objective manner, providing stakeholders with an unbiased picture of the Group’s overall ESG performance.

## ENVIRONMENT

### Emissions

#### Policies relating to Air and Greenhouse Gas Emissions, Discharges into Water and Land, and Generation of Hazardous and Non-hazardous Waste

The indirect greenhouse gas emission, which is generated from our daily electricity consumption, is the main source of the Group's carbon footprint. To reduce greenhouse gas emission, energy-saving measures, including employees turning off light and unnecessary energy device before leaving the offices to reduce energy consumption and avoid unnecessary wastage of energy, are implemented. In order to reduce waste, a responsible waste management policy, including waste avoidance, reducing waste from its source, reuse, recycling and responsible disposal of waste, is adopted. During the year, the Group was not aware of any material non-compliance with the environmental laws and regulations in Hong Kong and in the PRC relating to air and greenhouse gas emissions, discharges into water and land, and generation of hazardous and non-hazardous waste.

#### Key Performance Indicators

##### 1. Air Pollutants

Fuel consumption by motor vehicles was the major source of nitrogen oxides ("NO<sub>x</sub>"), sulphur oxides ("SO<sub>x</sub>") and particulate matter ("PM") emissions. Relevant data for the year ended 30 June 2022 and 2021 were as follows:

	Year ended 30 June 2022 (g)	Year ended 30 June 2021 (g)
NO <sub>x</sub>	2,794.00	5,639.03
SO <sub>x</sub>	9.41	105.49
PM	205.72	415.19

##### 2. Greenhouse Gas Emissions

Greenhouse gas came from all sorts of daily activities, such as the use of electricity, water and the combustion of fuels in motor vehicles. Total greenhouse gas emissions included carbon dioxide ("CO<sub>2</sub>") and other greenhouse gases, such as methane ("CH<sub>4</sub>") and nitrous oxide ("N<sub>2</sub>O"). The Group strives to reduce burning and improve energy and resource use efficiency in its daily operations so as to manage its greenhouse gas emissions.

The combustion of fuels in motor vehicles caused the direct emission of greenhouse gasses. Relevant data for the year ended 30 June 2022 and 2021 were as follows:

	Year ended 30 June 2022 (kg)	Year ended 30 June 2021 (kg)
CO <sub>2</sub>	1,511.06	16,936.45
CH <sub>4</sub>	3.40	38.13
N <sub>2</sub> O	219.33	2,458.30

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

The electricity consumption of the Group mainly for the daily operations of the head office and mask factories in Hong Kong caused the indirect emission of greenhouse gas of CO<sub>2</sub>. Indirect CO<sub>2</sub> emission from electricity purchased from power companies was approximately 171,779.73kg for the year ended 30 June 2022 (2021: approximately 349,113.08kg).

### 3. *Hazardous Waste Production*

According to the National Catalogue of Hazardous Wastes (《國家危險廢物名錄》) which was formulated in accordance with Law of the People's Republic of China on Prevention and Control of Environmental Pollution by Solid Wastes (《中華人民共和國固體廢物污染環境防治法》) by the Ministry of Environmental Protection of the People's Republic of China (中華人民共和國環境保護部), printing ink is classified as hazardous waste.

Despite that the hazardous waste data during the year was unavailable to the Group (2021: not available), the Group considered only limited hazardous waste was produced during printing process.

### 4. *Non-hazardous Waste Production*

Commercial waste constituted the production of non-hazardous waste of the Group. For the year ended 30 June 2022, 1.8 tonnes of non-hazardous waste were produced due to one-off disposal of substandard masks in Hong Kong and the intensity of the non-hazardous waste produced was 0.6 tonnes per production line (2021: 0.6 tonnes per production line).

### 5. *Emissions Management*

The Group targeted to keep the levels of the air pollutants and greenhouse gas emissions for the year to not more than those for the year ended 30 June 2020 (the benchmark). The targets were achieved by using five less motor vehicles.

### 6. *Wastes Management*

The non-hazardous waste shall be classified, collected and placed separately from those of the hazardous waste, and then transferred to the government-approved institutions to dispose regularly. The Group has been continuously keeping the hazardous waste minimal over the years. Only limited hazardous waste was produced during the printing process in the offices so the hazardous waste data for the year and the previous years were unavailable to the Group. The Group reduces printing by making the documents electronically. On the other hand, the Group targeted to keep the intensity of the non-hazardous waste produced per production line which was due to one-off disposal of substandard masks in Hong Kong for the year to not more than 0.6 tonnes per production line which was the data for the year ended 30 June 2020 (the benchmark). The target was achieved by conducting quality control of the masks produced.

For the year ended 30 June 2022, the Group was committed to the policies relating to air and greenhouse gas emissions, discharges into water and land, and generation and disposal of hazardous and non-hazardous waste as set out in this ESG Report in order to minimise such pollution. The Group also performed regular assessments on the same.

## Use of Resources

### Policies on the Efficient Use of Resources

To support environmental protection, the Group tries its best endeavours to minimize the energy and resources consumption during the daily operation of the Group in Hong Kong and PRC offices. The Group strives to build an environmentally friendly working environment through our guidance and policies and participation among the staff to minimize the adverse impact of electricity and office consumables consumption on the environment.

In order to reduce the consumption of electricity in office, the Group issues guidance to the staff for setting the optimal temperature on the air-conditioning. All the lights and electronic appliances in office will be turned off when not in use and all the lights in office will be turned off during the lunch time.

Further, in order to reduce the consumables consumption in office, the Group encourages all the staff to save and file the documents electronically, use the recycled papers for printing, print the documents on double-sided papers and arrange the telephone or video conferences instead of face-to-face meetings.

### Key Performance Indicators

#### 1. *Energy Consumption*

Daily energy consumption of the Group mainly involved purchased electricity for the daily operations of the head office and mask factories in Hong Kong. For the year ended 30 June 2022, the total electricity consumption was approximately 38.45kWh and the intensity of the electricity consumption was approximately 12.82kWh per production line (2021: approximately 78.14kWh and approximately 11.16kWh per production line).

#### 2. *Water Consumption*

Despite that the water consumption data for the year ended 30 June 2022 was unavailable to the Group (2021: not available), the Group considered that there was only limited water consumption for the daily operations of the Group.

#### 3. *Energy Management*

The Group targeted to keep the intensity of the electricity consumption per production line for the year to not more than 14.83kWh which was the data for the year ended 30 June 2020 (the benchmark). For the year ended 30 June 2022, the intensity of the electricity consumption per production line was approximately 12.82kWh. The reduction was achieved by conducting control on electricity consumption.

#### 4. *Water Management*

The Group's domestic water is mainly provided by local water supply companies, and there was no problem in sourcing water that was fit for purpose during the year. For the business nature of the Group of provision of lottery-related services, internet plus services (solution and supply chain), and manufacturing and distribution of personal protective equipment, etc., the Group has been continuously keeping the water consumption minimal over the years. There was only limited water consumption for the daily operations of the Group so the water consumption data for the year and the previous years were unavailable to the Group.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

### 5. *Packaging Materials used for Finished Products*

Total packaging materials used for finished products in the mask production business for the year ended 30 June 2022 was approximately 56.93 tonnes and the intensity of the packaging materials used was approximately 18.98 tonnes per production line (2021: approximately 172.34 tonnes and approximately 24.62 tonnes per production line).

For the year ended 30 June 2022, the Group was committed to the policies on the efficient use of resources as set out in this ESG Report in order to reduce the consumption of energy and water.

## Environment and Natural Resources

### Policies on Minimising the Group's Significant Impact on the Environment and Natural Resources

The Group manages and minimizes the impact it may cause on the environment and natural resources, directly or indirectly, through the policies, including (i) ensuring that its business operations comply with the environmental laws and regulations in Hong Kong and in the PRC; (ii) monitoring and minimising air and greenhouse gas emissions and hazardous and non-hazardous waste; and (iii) ensuring that in its daily business operations, with best endeavours, energy, water and other raw materials will be conserved.

### Key Performance Indicator

For the year ended 30 June 2022, due to the mask production business, the electricity consumption causing the indirect emission of greenhouse gas of CO<sub>2</sub>, the non-hazardous waste production resulting from one-off disposal of substandard masks and the packaging material used for finished products of masks may have impact on the environment and natural resources. (2021: might have impact). The Group was committed to the policies on minimising its significant impact on the environment and natural resources as set out in this ESG Report in order to protect the environment and natural resources.

## Climate Change

### Policies on Identification and Mitigation of Significant Climate-related Issues

The Group has considered the potential climate-related risks in respect of the recommendations of the Task Force on Climate related Financial Disclosures, in which potential physical risk and transition risk from climate change may pose adverse financial impacts on the Group's businesses.

### Key Performance Indicator

Acute physical risk can arise from extreme weather conditions such as flooding and storms and chronic physical risk can arise from sustained high temperature, while transition risk may result from the change in environmental-related regulations or change in customer preferences. Upon evaluation of the potential acute physical risk that may cause disruption to the manufacturing activities and supply network, our offices do not locate in high-risk flood areas and that the Group maintains a large supplier base so we can source from alternative suppliers in the event of our suppliers being affected by extreme weather conditions. While sustained high temperature may result in an elevation of electricity consumption, the Group has adopted energy conservation measures in managing such risk, which are detailed in the above sub-section headed "Environment and Natural Resources". As for the potential transition risk, the Group continues to monitor the regulatory environment and the product market to ensure that our products meet customers and regulatory demand and expectations.

It is expected that potential extreme weather condition, sustained high temperature, change in environmental-related regulations and customer preference do not have a material impact on the Group's operations. Nevertheless, the Group continues to monitor the climate-related risks and implement relevant measures to minimize the potential physical and transition risks.

## EMPLOYMENT AND LABOUR PRACTICES

### Employment

The Group believes that human resources are the most valuable asset and core competitive strength of the Group. The Group adopts a fair and open recruitment policy to avoid any discrimination on age, gender, race, nationality, religion or marital status. All the candidates will be assessed under the fair recruitment process.

The resting time of the Group's employees is well respected and the employees are also entitled to paid holidays pursuant to statutory requirements or otherwise under their respective employment contracts. There is a computerized human resources management system in place to continuously monitor the working hours and leave application of the employees. The Group also adopts zero tolerance policy towards sexual harassment at the workplace to protect its employees from unsolicited sexual advances.

The Group rewards all the employees by providing a competitive remuneration package and performs the performance appraisal on annual basis with appropriate bonus, promotion opportunities for career advancement. "Employee Handbook" will be delivered to all employees for stating all the information regarding employment, business conduct, social security funds, compensation, leave benefits, working hours, etc. A brief orientation is provided to new employees to ensure that they are aware of all relevant policies. During the reporting period, the Group was not aware of any material non-compliance with all relevant labour and employment laws.

The Group promotes the concept of “work-life balance” for caring our employees in terms of their health, wellness and continuing education. Different types of health care plans are available such as medical insurance, employees’ compensation insurance and accident insurance on business trip. We strive to enhance the injury and illness prevention through more robust post-incident investigations. Work injury handling procedures were reviewed during the year to ensure the injury case can be handled properly.

ENVIRONMENTAL, SOCIAL AND  
GOVERNANCE REPORT

In response to the COVID-19 outbreak, the Group put in place a number of infection prevention measures to safeguard the health and safety of our employees, such as distributing mask to them every day and providing sanitizing materials to them. In addition, all staff were required to have their body temperature checked and recorded in writing before entering the offices to ensure that they were not infected with the virus and to prevent the spread of the virus. For those employees' cohabitating family members, close contacts or their residential buildings with confirmed cases of COVID-19, the Company will arrange for the relevant colleagues to work from home for 14 consecutive days (except weekends).

## Development and Training

Staff's continuous development is one of crucial success of the Group. The Group provides on-board briefings and orientation for the new coming staff. The Group also encourages the employees to attend the external applicable training courses or seminars during the office hours which are relevant to the job duties. The employees are entitled to the examination leaves when they attend the external examination applicable to their job duties on the examination day. The Group strives to ensure that all employees can fulfill the relevant job requirements in terms of education, training, technical and work experience.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

### Labour Standards

During the recruitment process, the Group strictly complies with all applicable laws and regulations in those places where it operates. The Group ascertains that its employees are all above the minimum legal working age requirement and have been fully protected in terms of labour standards. The Group complied with all laws and regulations prohibiting child labour and forced labour. Applicants are required to provide documentary proofs of academic qualifications and working experience for verifications. Applicants who are suspected to have false academic qualifications and working experience will not be employed. All the staff were employed in accordance with the relevant laws and regulations in Hong Kong and the PRC and the management regularly reviews the recruitment process to ensure that no discrimination is present.

#### Key Performance Indicators

##### *Child Labour and Forced Labour*

The Group does not tolerate the recruitment of child labour and the use of forced labour. Our recruitment process is subject to a stringent internal review process that includes verifying personal information of applicants. For instance, the staff member who is responsible for recruitment collects the identity proof from the candidates to ensure that the age of the candidates fulfils the requirements as stipulated by the law.

The employment of forced and child labour is strictly prohibited. During the year, all employees were over the age 18, and were properly employed in accordance with the requirements of all applicable laws and regulations. No confirmed non-compliance incidents or grievances were noted by the Group (2021: Nil).

## OPERATING PRACTICES

### Supply Chain Management

The Group believes that sourcing and selection of suppliers play a crucial part in establishing our product and brand. The Group conducts assessment on supplier with the relevant industrial and environmental standards in supply of materials, and to consider that it is one of the supplier selection criteria. During the procurement process, the Group performs regular assessments on the environmental and social risks of the supply chain management.

#### Key Performance Indicators

##### *1. Suppliers by Geographical Region*

During the year ended 30 June 2022, the Group made the purchases from 7 suppliers and 7 suppliers located in Hong Kong and the PRC respectively (2021: 7 suppliers and 6 suppliers located in Hong Kong and the PRC respectively).

##### *2. Practices relating to Engaging Suppliers*

Moreover, the Group closely monitor the performance of our existing suppliers and select all new vendors based on our defined criteria, such as their size, quality of products and/or services, delivery time, supply stability, cost effectiveness, etc. Approved suppliers are evaluated regularly to uphold the quality of products and services acquired which is up to standard. Suppliers who are not up to the standard for a prolonged period of time are to be disqualified.

### **3. Practices to Identify Environmental and Social Risks along the Supply Chain**

The Group conducts assessment on the environmental and social risks of suppliers. The environmental assessment report, the pollutant discharge permit and other qualification requirements are listed as rigid qualifications, and the environmental system certification, the work safety permit and other industry-related requirements are listed as supporting qualifications.

### **4. Practices to Promote Environmentally Preferable Products and Services when Selecting Suppliers**

The Group supports the purchases of environmentally-friendly products to minimize the environmental impact caused by our business operations. We also closely cooperate with our suppliers to maintain the quality of products and services provided to our customers.

## **Product Responsibility**

The Group has responsibilities on its product or services provided. The Group encourages employees to maintain high standards of product or services provided and are obliged to retain confidence and all information obtained in connection with their employment.

### **Key Performance Indicators**

#### **1. Products Sold or Shipped subject to Recalls for Safety and Health Reasons**

During the year ended 30 June 2022, no products sold or shipped was subject to recalls for safety or health reasons (2021: Nil).

#### **2. Products and Service related Complaints**

During the year, no written complaint was received by the Group relating to product and service quality. If the Group receives a complaint, the responsible personnel will investigate into the matter and take appropriate action accordingly. If a reported complaint on product quality is confirmed and is found to be caused by the supplier, the Group will terminate the agreement with the relevant supplier and may take appropriate legal actions, if necessary. If our customers are not satisfied with a particular package that they have purchased from us, the Group will offer the relevant customer an exchange of another package. In the last resort, the Group may offer refund to our customers.

#### **3. Practices relating to Observing and Protecting Intellectual Property Rights**

During the year, the Group complied with laws and regulations regarding intellectual property rights in Hong Kong and the PRC that have a significant impact on us, including, but not limited to, Copyright Ordinance (Chapter 528 of the Laws of Hong Kong) in Hong Kong, "Trademark Law of the PRC" (中華人民共和國商標法) and the "Copyright Law of the PRC" (中華人民共和國著作權法) in the PRC. Moreover, the Group act proactively to enforce intellectual property rights against third party infringers. Legal actions will be taken in due course upon identification of any intellectual property rights infringements.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

### 4. *Quality Assurance Process and Recall Procedures*

The Group offers high quality products, and we strive to minimize our product liability risk. Before launching any new products, the Group requests samples from the suppliers or factories and engages a third-party professional to perform quality control inspections on the samples. Products are only launched if the quality control tests pass. The Group deals with product or service recalls by offering refund or discount for future purchases.

### 5. *Consumer Data Protection and Privacy Policies*

The Group is committed to protecting the privacy of all consumers. We adhered to the Personal Data (Privacy) Ordinance (Chapter 486 of the Laws of Hong Kong) and laws and regulations relating to customer data and privacy. The Group imposed strict procedures in dealing with collecting, retaining, and disclosing personal information. We recorded customer information into our customer management system and set up access rights only for responsible employees to ensure the security of customer information.

## Anti-corruption

All of the Group's operations comply with the legislation on standards of conduct, such as criminal law of the PRC, the Anti-Unfair Competition Law of the PRC, and the Prevention of Bribery Ordinance in Hong Kong. The Group has established a corporate culture of integrity and justice, and adopted the clear guidelines for employees which strictly prohibit bribery, extortion, fraud, money laundering and other acts. The Group has also implemented the whistleblowing policy for encouraging the staff to report to the Board if there is any money laundering, bribery and irregularities.

### Key Performance Indicators

No concluded legal cases regarding corrupt practices brought against the Company or its employees was noted or reported during the year.

The Group prohibits any acts of corruption and bribery committed by our employees. Our "Employee Handbook" clearly sets out guidelines for the acceptance of gifts. In the handbook, all employees are required to exercise caution and judgment when accepting gifts. Gifts should not be accepted if they are in value higher than HK\$100. Discounts or other privileges given by any person or company to employees of the Group can be accepted by them but the terms and conditions of use must also apply to other general customers. Moreover, in the whistleblowing policy, all employees should immediately report any suspected corruption and fraud cases to the Company. After a potential fraud case has been reported, investigation is to be conducted with due care. For any proven fraud case, management will take appropriate action immediately.

In the case of conflicts of interest, directors and staff are required to declare their personal interests and report the matters to the Board or management of the Group. Employees are strictly prohibited to abuse their power and/or take advantage of their position for personal gain. Training would be introduced in respect of the updated and relevant regulations in relation to anti-bribery and corruption.

## COMMUNITY

### Community Investment

The Group believes in contributing to the society as part of our mission to create a more peaceful community. Therefore, the Group encourages our staff to participate in any activities which are beneficial to our communities. The Group targets through donations, sponsorships and charity work by supporting any activities which can help charitable, cultural, medical, educational and other needs in our community. The Group will consider to support or donate any charitable organizations from time to time where appropriate.

### Key Performance Indicators

#### *Focus Areas of Contribution and Resources Contributed*

During the year, the Group with business of manufacturing and distribution of personal protective equipment fulfilled its corporate responsibility as well as brought Hong Kong community through the difficult times.

In response to the COVID-19 outbreak, the Group safeguarded the health of our employees, which are part of the community, by distributing mask to them every day to ensure that they were not infected with the virus and to prevent the spread of the virus to the community.

# INDEPENDENT AUDITOR'S REPORT

**CCTH CPA LIMITED**  
中正天恆會計師有限公司

## TO THE SHAREHOLDERS OF SINOPHARM TECH HOLDINGS LIMITED

(incorporated in the Cayman Islands with limited liability)

### QUALIFIED OPINION

We have audited the consolidated financial statements of Sinopharm Tech Holdings Limited (the “**Company**”) and its subsidiaries (collectively referred to as “**the Group**”) set out on pages 65 to 170, which comprise the consolidated statement of financial position as at 30 June 2022, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, except for the possible effects of the matters described in the Basis for Qualified Opinion section of our report, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 30 June 2022, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“**HKFRSs**”) issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

### BASIS FOR QUALIFIED OPINION

#### Interests in associates

As referred to in Note 24 to the consolidated financial statements, the interests in associates at 30 June 2022 and 30 June 2021 represent the Group’s 20% and 40% equity interest in Ever Development Holdings Limited and its subsidiaries (“**Ever Development Group**”) with the carrying amounts of approximately HK\$23,621,000 and HK\$45,663,000 respectively and the results of Ever Development Group are recognised by the Group in its consolidated financial statements under the equity method of accounting based on the financial statements of Ever Development Group for the year ended 30 June 2022. During the course of our audit, management of the Group and Ever Development Group represented that certain inventories of Ever Development Group with the purchase costs of approximately HK\$12,502,000 were substantially deteriorated and impairment on such inventories amounted to HK\$12,502,000 was recognised as expenses in the financial statements of Ever Development Group for the year ended 30 June 2022. In view that we have not observed the physical count of such inventories performed by Ever Development Group, we are unable to obtain sufficient appropriate audit evidence by alternative means to assess the existence and condition of these inventories and to ascertain whether (a) the inventories are properly carried in its financial statements at the lower of cost and net realisable value; (b) the share of losses of the associates and the loss on dilution of interests in associates amounted to HK\$153,000 and HK\$21,889,000 respectively are properly recognised in the Group’s consolidated statement of profit or loss and other comprehensive income for the year ended 30 June 2022; and (c) the interest in Ever Development Group with the carrying amount of approximately HK\$23,621,000 are properly recognised in the Group’s consolidated statement of financial position at 30 June 2022.

Any adjustments to the aforementioned share of losses of associates and loss on dilution of interest in associates might have consequential effects on the consolidated financial performance of the Group for the year ended 30 June 2022 and the Group’s consolidated financial position as at 30 June 2022, and the related disclosures thereof in the consolidated financial statements.

## BASIS FOR QUALIFIED OPINION – continued

We conducted our audit in accordance with Hong Kong Standards on Auditing (“**HKSAs**”) issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (“**the Code**”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## MATERIAL UNCERTAINTY RELATED TO GOING CONCERN

We draw attention to Note 2 to the consolidated financial statements regarding the adoption of going concern basis on which the consolidated financial statements have been prepared. The Group sustained net current liabilities and net liabilities amounted to approximately HK\$202,205,000 and HK\$173,397,000 respectively as at 30 June 2022 and the Group incurred a loss of approximately HK\$93,771,000 for the year then ended. These conditions, along with other matters as set out in Note 2, indicate the existence of a material uncertainty that may cast significant doubt on the ability of the Group and the Company to continue as a going concern. The consolidated financial statements do not include any adjustments that would result from a failure to obtain the funding as referred to in Note 2 for financing the working capital and financial commitments of the Group and the Company for the foreseeable future. Our opinion is not modified in respect of this matter.

## KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

## INDEPENDENT AUDITOR'S REPORT

**KEY AUDIT MATTERS – continued****Impairment assessment on trade receivables and other receivables****Key audit matter****How the matter was addressed in our audit**

As detailed in Notes 26 and 27 to the consolidated financial statements, as at 30 June 2022, the Group had trade receivables and other receivables, net of impairment losses recognised, of approximately HK\$28,419,000 and HK\$13,996,000 respectively. Assessment of impairment provision for these receivables involves management's judgment of the ability of the debtors to make settlement which depends on customers' specific and market conditions that are inherently uncertain.

We have identified impairment assessment on trade receivables and other receivables as a key audit matter due to the magnitude of these receivables and the management's estimates and judgments involved in the determination of the expected credit losses of these receivables.

Our procedures in relation to management's impairment assessment on trade receivables and other receivables included:

- (a) We obtained an understanding of the design, implementation and operating effectiveness of management's internal controls relating to credit control, debt collection and making provisions for doubtful debts.
- (b) We assessed the classification and accuracy of individual balances in ageing reports of trade receivables and other receivables by testing the underlying invoices and/or agreement on a sample basis.
- (c) We assessed subsequent settlement of the receivable balances. Where settlement had not been received subsequent to the year end date, we obtained an understanding of the basis of management's judgments about the recoverability of the outstanding receivables and estimates about the allowances for credit losses made by management for these individual balances.
- (d) We assessed the historical accuracy of the estimates made by the management for the credit loss allowances.
- (e) We assessed the appropriateness of the expected credit loss positioning methodology, examining the key data inputs on a sample basis to assess their accuracy and completeness, and challenging the assumptions, including both historical and forward-looking information, used to determine the expected credit losses.

## KEY AUDIT MATTERS – continued

### Impairment assessment of goodwill

#### Key audit matter

As detailed in Notes 21 to the consolidated financial statements, the Group had fully impaired goodwill at 30 June 2022 and impairment losses on goodwill amounted to approximately HK\$12,305,000 was recognised in profit or loss in respect of the current year under review.

We have identified the impairment assessment of goodwill as a key audit matter due to their significance to the Group's total assets and significant judgement exercised by the management when performing the impairment assessment. Determining the amount of impairment for goodwill requires an estimation of recoverable amount, which is based on the value in use of the relevant cash-generating units ("CGUs") to which goodwill have been allocated. The calculation of value in use requires management to make assumption and exercise judgement about the future results of the related business, including revenue growth rate and gross profit margin, long-term growth rate and appropriate discount rates applied to future cash flow forecast.

#### How the matter was addressed in our audit

Our audit procedures in relation to impairment assessment of the goodwill included:

- (a) We evaluated and challenged the composition of the Group's future cash flow forecast in each CGU, and the process by which they were drawn up, including testing the underlying value in use calculation.
- (b) We assessed the reasonableness of key assumptions such as revenue growth, future profitability and discount rates with reference to the business and industry circumstances.
- (c) We considered the reasonableness of these forecasts of future profits by comparing them against past results achieved.
- (d) We performed sensitivity analysis of the key assumptions and considered the resulting impact of possible downside changes.
- (e) We considered the adequacy of the disclosure of impairment assessments of the goodwill set out in the consolidated financial statements.

## INDEPENDENT AUDITOR'S REPORT

### OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises all the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance is responsible for overseeing the Group's financial reporting process.

### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

## AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS – continued

As part of an audit in accordance with HKSAAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

INDEPENDENT AUDITOR'S REPORT

**AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS – continued**

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

## 1. GENERAL

Sinopharm Tech Holdings Limited (“**the Company**”) was incorporated in the Cayman Islands as an exempted company with limited liability and its shares are listed on the GEM of The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”). The Company’s registered office is located at Second Floor, Century Yard, Cricket Square, P.O. Box 902, Grand Cayman, KY1-1103, Cayman Islands and its principal place of business is located at Units 15–16, 25/F., Corporation Park, 11 On Lai Street, Shatin, New Territories, Hong Kong.

The principal activity of the Company is investment holding. The activities of the Company’s principal subsidiaries, joint ventures and associates are set out in Notes 47, 23 and 24 respectively.

The consolidated financial statements are presented in Hong Kong dollar (“**HK\$**”), which is also the functional currency of the Company.

## 2. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

In preparing the consolidated financial statements of the Group, comprising the Company and its subsidiaries, the directors of the Company have given consideration to the future liquidity of the Group in light of the Group’s net current liabilities and net liabilities of HK\$202,205,000 and HK\$173,397,000 respectively at 30 June 2022. As at 30 June 2022, the Group had convertible bonds payable (with principal amount of HK\$50,000,000 and carrying amount of HK\$44,995,000) and accrued interest amounted to approximately HK\$2,917,000 (included in accruals and other payables) to be matured within one year after that date, amount due to a shareholder amounted to approximately HK\$105,747,000, amounts due to directors amounted to approximately HK\$8,490,000 and amounts due to related parties amounted to approximately HK\$12,144,000, all of which are included in current liabilities. These conditions indicate the existence of a material uncertainty which may cast significant doubt about the Group’s ability to continue as a going concern.

Notwithstanding the aforesaid conditions, the consolidated financial statements have been prepared on a going concern basis on the assumption that the Group is able to operate as a going concern for the foreseeable future. In the opinion of the directors of the Company, the Group can meet its financial obligations as and when they fall due within the next year from the date of approval of these consolidated financial statements, after taking into consideration of the measures and arrangements made by the Group, as detailed below:

- (a) At 30 June 2022, the Group owed directors and related parties amounted to HK\$8,490,000 and HK\$12,144,000 respectively as at that date, details of which are set out in Note 31 and Note 32 respectively. Subsequent to 30 June 2022, the amounts due by the Group to certain directors and related parties totalled HK\$15,298,533 were assigned to Mr. Chan Ting, a director of the Company resigned on 1 August 2022. In the event that the settlement of the amount due to Mr. Chan Ting by the Group of HK\$15,298,533 detailed in note 49(a) is not materialised, Mr. Chan Ting has agreed not to demand for repayment of the all of amounts due to him by the Group until the Group has adequate working capital for repayment.
- (b) On 15 September 2022, the Group obtained a written consent from certain suppliers of the subsidiaries of the Company, under which these suppliers have agreed not to demand settlements on or before 31 December 2023 of the outstanding trade payables amounted to approximately HK\$36,177,000 at 30 June 2022 due by the Group to the suppliers (included in trade payables, note 29).

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

**2. BASIS OF PREPARATION OF FINANCIAL STATEMENTS – continued**

- (c) On 15 September 2022, the Group obtained a written consent from a shareholder of the Company, under which the shareholder of the Company has agreed not to request repayment on or before 31 December 2023 of the amount due by the Group to the shareholder amounted to approximately HK\$105,747,000 at 30 June 2022 (Note 33).
- (d) On 26 September 2022, the Group obtained a written consent from the bondholder, under which the bondholder has agreed not to request repayment on or before 20 February 2024 of the convertible bonds with principal amount of HK\$50,000,000 (Note 35) and the accrued interest amounted to approximately HK\$2,917,000 at 30 June 2022.
- (e) The directors will continuously and closely monitor the Group's liquidity position and financial performance and implement measures to improve the Group's cash flows.

In light of the measures and arrangements implemented to date, the directors of the Company are of the view that the Group has sufficient cash resources to satisfy its working capital requirements and other financial obligations for at least the next twelve months from the date of approval of these consolidated financial statements after having taken into account of the Group's projected cash flows, current financial resources and capital expenditure requirements with respect to the operations and development of the Group's business. Accordingly, the directors of the Company are of the view that it is appropriate to prepare these consolidated financial statements on a going concern basis.

Should the Group be unable to continue to operate as a going concern, adjustments would have to be made to restate the carrying amounts of the Group's assets to their estimated recoverable amounts, to provide further liabilities that might arise and to reclassify non-current assets and non-current liabilities as current assets and current liabilities respectively. The effects of these potential adjustments have not been reflected in the consolidated financial statements.

**3. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs")****Amendments to HKFRSs that are mandatorily effective for the current year**

In the current year, the Company has applied the "Amendments to References to the Conceptual Framework in HKFRS Standards" and the following amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") for the first time, which are mandatorily effective for the annual period beginning on or after 1 January 2020 for the preparation of the financial statements:

Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16	Interest Rate Benchmark Reform — Phase 2
Amendment to HKFRS 16	Covid-19-Related Rent Concessions
Amendment to HKFRS 16	Covid-19-Related Rent Concessions beyond 30 June 2021

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 3. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) – continued

#### Amendments to HKFRSs that are mandatorily effective for the current year – continued

The application of the “Amendments to References to the Conceptual Framework in HKFRS Standards” and the amendments to HKFRSs in the current year had no material impact on the Company’s financial positions and performance for the current and prior years and/or on the disclosures set out in these financial statements.

#### New and amendments to HKFRSs in issue but not yet effective

The Company has not early applied the following new and amendments to HKFRSs that have been issued but are not yet effective:

Amendments to HKAS 1	Classification of Liabilities as Current or Non-current and Hong Kong Interpretation 5 (2020), Presentation of Financial Statements — Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause <sup>3</sup>
Amendments to HKAS 1 and HKFRS Practice Statement 2	Disclosure of Accounting Policies <sup>3</sup>
Amendments to HKAS 8	Definition of Accounting Estimates <sup>3</sup>
Amendments to HKAS 12	Deferred Tax related to Assets and Liabilities arising from a Single Transaction <sup>3</sup>
Amendments to HKAS 16	Property, Plant and Equipment: Proceeds before Intended Use <sup>1</sup>
Amendments to HKAS 37	Onerous Contracts — Cost of Fulfilling a Contract <sup>1</sup>
Amendments to HKFRS 3	Reference to the Conceptual Framework <sup>2</sup>
Annual Improvements to HKFRSs 2018–2020	Amendments to HKFRS 1, HKFRS 9, Illustrative Examples accompanying HKFRS 16, and HKAS 41 <sup>1</sup>

<sup>1</sup> Effective for annual periods beginning on or after 1 January 2022

<sup>2</sup> Effective for business combinations for which the date of acquisition is on or after the beginning of the first annual period beginning on or after 1 January 2022

<sup>3</sup> Effective for annual period beginning on or after 1 January 2023

The directors of the Company anticipate that the application of all new and amendments to HKFRSs will have no material impact on the financial statements in the foreseeable future.

## 4. SIGNIFICANT ACCOUNTING POLICIES

### Statement of compliance

These consolidated financial statements have been prepared in accordance with HKFRSs (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (“**HKASs**”) and Interpretations) issued by the HKICPA, accounting principles generally accepted in Hong Kong and all the applicable disclosures as required by the Hong Kong Companies Ordinance. In addition, the consolidated financial statements have been prepared in accordance with applicable disclosure provisions of the GEM Listing Rules.

The consolidated financial statements have been prepared on the historical cost convention.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 “Share-based payment”, leasing transactions that are within the scope of HKFRS 16/HKAS 17 “Leases”, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 “Inventories” or value in use for the purposes of impairment assessment in HKAS 36 “Impairment of Assets”.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The significant accounting policies are set out below.

## 4. SIGNIFICANT ACCOUNTING POLICIES – continued

### Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities (including structured entities) controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

- the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Group, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

## 4. SIGNIFICANT ACCOUNTING POLICIES – continued

### Basis of consolidation – continued

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

### Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in existing subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable HKFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under HKFRS 9 or, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

### Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except that:

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with HKAS 12 “Income Taxes” and HKAS 19 “Employee Benefits” respectively;
- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with HKFRS 2 “Share-based Payment” at the acquisition date (see the accounting policy below); and
- assets (or disposal groups) that are classified as held for sale in accordance with HKFRS 5 “Non-current Assets Held for Sale and Discontinued Operations” are measured in accordance with that standard.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer’s previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer’s previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity’s net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests’ proportionate share of the recognised amounts of the acquiree’s identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at their fair value or, when applicable, on the basis specified in another HKFRS.

When a business combination is achieved in stages, the Group’s previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (i.e. the date when the Group obtains control) and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

## 4. SIGNIFICANT ACCOUNTING POLICIES – continued

### Business combinations – continued

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period, and additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date. Measurement period adjustments are adjustments that arise from additional information obtained during the “measurement period” (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

### Goodwill

Goodwill arising on an acquisition of a business is carried at cost less any accumulated impairment losses and is presented separately in the consolidated statement of financial position.

For the purposes of impairment testing, goodwill arising from an acquisition is allocated to each of the relevant cash generating units (“CGUs”), or groups of CGUs, that is expected to benefit from the synergies of the acquisition, which represents the lowest level at which the goodwill is monitored for internal management purposes and not larger than an operating segment. A CGU to which goodwill has been allocated is tested for impairment annually, and whenever there is an indication that the unit may be impaired. For goodwill arising on an acquisition in a financial year, the CGU to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount of the CGU is less than the carrying amount of the unit, the impairment loss is allocated to reduce the carrying amount of any goodwill allocated to the unit first, and then to the other assets of the unit pro rata on the basis of the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss in the consolidated statement of profit or loss and other comprehensive income. An impairment loss for goodwill is not reversed in subsequent periods.

On disposal of the relevant CGU, the attributable amount of goodwill capitalised is included in the determination of the amount of profit or loss on disposal.

### Investments in subsidiaries

Investment in a subsidiary is accounted for in the Company’s financial statements at cost less any identified impairment loss. Cost includes directly attributable costs of investment. The results of the subsidiary are accounted for by the Company on the basis of dividend received and receivable.

## 4. SIGNIFICANT ACCOUNTING POLICIES – continued

### Investments in associates and joint ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of associates and joint ventures are incorporated in these consolidated financial statements using the equity method of accounting. The financial statements of associates and joint ventures used for equity accounting purposes are prepared using uniform accounting policies as those of the Group for like transactions and events in similar circumstances. Under the equity method, an investment in an associate or a joint venture is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate or joint venture. Changes in net assets of the associate/joint venture other than profit or loss and other comprehensive income are not accounted for unless such changes resulted in changes in ownership interest held by the Group. When the Group's share of losses of an associate or joint venture exceeds the Group's interest in that associate or joint venture (which includes any long term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture. On acquisition of the investment in an associate or a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The Group assesses whether there is an objective evidence that the interest in an associate or a joint venture may be impaired. When any objective evidence exists, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with HKAS 36 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill, that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

#### 4. SIGNIFICANT ACCOUNTING POLICIES – continued

##### Investments in associates and joint ventures – continued

When the Group ceases to have significant influence over an associate or joint control over a joint venture, it is accounted for as a disposal of the entire interest in the investee with a resulting gain or loss being recognised in profit or loss. When the Group retains an interest in the former associate or joint venture and the retained interest is a financial asset within the scope of HKFRS 9, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition. The difference between the carrying amount of the associate or joint venture and the fair value of any retained interest and any proceeds from disposing the relevant interest in the associate or joint venture is included in the determination of the gain or loss on disposal of the associate or joint venture. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate or joint venture on the same basis as would be required if that associate or joint venture had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate or joint venture would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) upon disposal/partial disposal of the relevant associate or joint venture.

The Group continues to use the equity method when an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate. There is no remeasurement to fair value upon such changes in ownership interests.

When the Group reduces its ownership interest in an associate or a joint venture but the Group continues to use the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities.

When a group entity transacts with an associate or a joint venture of the Group, profits and losses resulting from the transactions with the associate or joint venture are recognised in the Group's consolidated financial statements only to the extent of interests in the associate or joint venture that are not related to the Group.

## 4. SIGNIFICANT ACCOUNTING POLICIES – continued

### Revenue recognition

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents goods or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- the Group’s performance creates and enhances an asset that the customer controls as the Group performs; or
- the Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct goods or service.

A contract asset represents the Group’s right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with HKFRS 9. In contrast, a receivable represents the Group’s unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group’s obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

A contract asset and a contract liability relating to a contract are accounted for and presented on a net basis.

#### *Contracts with multiple performance obligations (including allocation of transaction price)*

For contracts that contain more than one performance obligations, the Group allocates the transaction price to each performance obligation on a relative stand-alone selling price basis, except for the allocation of discounts and variable consideration.

The stand-alone selling price of the distinct goods or service underlying each performance obligation is determined at contract inception. It represents the price at which the Group would sell promised goods or service separately to a customer. If a stand-alone selling price is not directly observable, the Group estimates it using appropriate techniques such that the transaction price ultimately allocated to any performance obligation reflects the amount of consideration to which the Group expects to be entitled in exchange for transferring the promised goods or services to the customer.

## 4. SIGNIFICANT ACCOUNTING POLICIES – continued

### Revenue recognition – continued

#### *Output method*

The progress towards complete satisfaction of a performance obligation is measured based on output method, which is to recognise revenue on the basis of direct measurements of the value of the goods or services transferred to the customer to date relative to the remaining goods or services promised under the contract, that best depict the Group's performance in transferring control of goods or services.

### Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and any identified impairment losses.

Depreciation is recognised so as to write off the cost of items of property, plant and equipment over their estimated useful lives and after taking into account their estimated residual value, using the straight-line method. The principal annual rates are as follows:

Leasehold land and buildings	3%–5% or over the lease term but limited to 15 years
Furniture, fixtures and equipment	7%–31%
Plant and machinery	3%–12%
Leasehold improvement	Over the lease term
Motor vehicles	6%–20%
Computer equipment	20%–25%

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in profit or loss.

### Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is calculated using the weighted-average method. Net realisable value represents the estimated selling price in the ordinary course of business less estimated costs to completion and the estimated costs necessary to make the sales.

## 4. SIGNIFICANT ACCOUNTING POLICIES – continued

### Leases

#### Definition of a lease

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified or arising from business combinations on or after the date of initial application, the Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 at inception, modification date or acquisition date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

#### The Group as a lessee

##### *Allocation of consideration to components of a contract*

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

As a practical expedient, leases with similar characteristics are accounted on a portfolio basis when the Group reasonably expects that the effects on the consolidated financial statements would not differ materially from individual leases within the portfolio.

##### *Short-term leases and leases of low-value assets*

The Group applies the short-term lease recognition exemption to leases of properties that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. It also applies the recognition exemption for lease of low-value assets. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis or another systematic basis over the lease term.

## 4. SIGNIFICANT ACCOUNTING POLICIES – continued

### Leases – continued

#### The Group as a lessee – continued

##### *Right-of-use assets*

The cost of right-of-use asset includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

The Group presents right-of-use assets as a separate line item on the consolidated statement of financial position.

##### *Refundable rental deposit*

Refundable rental deposit paid are accounted under HKFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of use assets.

## 4. SIGNIFICANT ACCOUNTING POLICIES – continued

### Leases – continued

#### The Group as a lessee – continued

##### *Lease liabilities*

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments include:

- fixed payments (including in-substance fixed payments) less any lease incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable by the Group under residual values guarantees;
- the exercise price of a purchase option if the Group is reasonably certain to exercise the option; and
- payments of penalties for terminating a lease, if the lease term reflects the Group exercising an option to terminate the lease.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

##### *Refundable rental deposits*

Refundable rental deposits received are accounted for under HKFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments from lessees.

#### 4. SIGNIFICANT ACCOUNTING POLICIES – continued

##### Impairment loss on tangible and intangible assets (other than goodwill)

At the end of the reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately.

##### Intangible assets

Intangible assets acquired separately are capitalised at cost and those acquired from a business combination are capitalised at fair value as at the date of acquisition. Following initial recognition, the cost model is applied to the class of intangible assets. Intangible assets, excluding development costs, created within the business are not capitalised and expenditure is charged against the profit or loss in the year in which the expenditure is incurred.

Useful lives of acquired intangible assets are assessed to be either finite or indefinite. Intangible assets with finite useful lives are stated at cost less accumulated amortization and any accumulated impairment losses. Intangible assets with indefinite useful lives are stated at cost less any subsequent accumulated impairment losses.

Amortization for intangible assets with finite useful lives is provided on a straight-line basis over their estimated useful lives.

Intangible assets are tested for impairment annually either individually or at the CGU level. Useful lives are also examined on an annual basis and, where applicable, adjustments are made on a prospective basis.

As intangible asset is derecognised on disposal or no future economic benefits are expected from its use or disposal. The gain or loss arising from the derecognition of the intangible asset, calculated as the difference between the net disposal proceeds and the carrying amount of the intangible asset, is recognised in the consolidated statement of profit or loss and other comprehensive income in the year the intangible asset is derecognised.

## 4. SIGNIFICANT ACCOUNTING POLICIES – continued

### Intangible assets – continued

#### Computer software

Costs incurred on the acquisition of computer software are capitalised in the consolidated statement of financial position at cost less amortisation and any identified impairment losses.

#### Research and development expenditures

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

An internally generated intangible asset arising from development expenditure is recognised only if it is anticipated that the development costs incurred on a clearly defined project will be recovered through future commercial activity.

Where no internally generated intangible asset can be recognised, development cost is charged to profit or loss in the year in which it is incurred.

#### Service contracts

Acquired service contracts are stated at cost less amortisation and any identified impairment losses.

#### Intellectual property right

Acquired intellectual property right are stated at cost less amortisation and any identified impairment losses.

## 4. SIGNIFICANT ACCOUNTING POLICIES – continued

### Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the consolidated statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is the tax expected to be payable or recoverable on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences, and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, and interests in associates and joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilize the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities. Deferred tax is recognised in profit or loss, except when it relates to items that are recognised in other comprehensive income or directly to equity, in which case the deferred tax is also recognised in other comprehensive income or directly in equity respectively.

#### 4. SIGNIFICANT ACCOUNTING POLICIES – continued

##### Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in its functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the exchange rates prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at the end of the reporting period. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the period.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. Hong Kong dollars) at the rate of exchange prevailing at the end of the reporting period, and their income and expenses are translated at the average exchange rates for the year, unless exchange rates fluctuate significantly during the period, in which case, the exchange rates prevailing at the dates of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity (the translation reserve). Such exchange differences are recognised in profit or loss in the period in which the foreign operation is disposed of.

Goodwill and fair value adjustments on identifiable assets acquired arising on the acquisition of a foreign operation on or after 1 July 2005 are treated as assets and liabilities of the foreign operation and translated at the rate of exchange prevailing at the end of the reporting period. Exchange differences arising are recognised in the translation reserve.

### Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition.

### Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

### Employee benefits

#### (a) Retirement benefits schemes

The Group operates a defined contribution MPF Scheme under the Mandatory Provident Fund Schemes Ordinance for those employees who are eligible to participate in the MPF Scheme. Contributions are made based on a percentage of the employees' basic salaries and are charged to the consolidated statement of profit or loss and other comprehensive income as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the MPF Scheme.

The employees of the Group's subsidiaries that operated in the PRC are required to participate in a central pension scheme operated by the local municipal government. These subsidiaries are required to contribute pension, based on a certain percentage of their payroll costs, to the pension schemes. The contributions are charged to consolidated statement of profit or loss and other comprehensive income as they become payable in accordance with the rules of the pension schemes.

#### (b) Share option schemes

The Company operates share option schemes for the purpose of providing incentives and rewards to eligible participants who, in the sole discretion of the Board, have contributed or may contribute to the Group. Upon the exercise of share options, the resulting shares issued are recorded by the Company as additional share capital at the nominal value of the shares, and the excess of the exercise price per share over the nominal value of the shares is recorded by the Company in the share premium account. Options which are cancelled prior to their exercise date, or which lapse, are deleted from the register of outstanding options.

## 4. SIGNIFICANT ACCOUNTING POLICIES – continued

### Employee benefits – continued

#### (b) Share option schemes – continued

For grants of share options that are conditional upon satisfying specified vesting conditions, the fair value of services received is determined by reference to the fair value of share options granted at the date of grant and is expensed on straight-line basis over the vesting period, with a corresponding increase in equity (share option reserve).

At the end of the reporting period, the Group revises its estimates of the number of options that are expected to ultimately vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to share option reserve.

For share options that vest immediately at the date of grant, the fair value of the share options granted is expensed immediately to profit or loss.

When share options are exercised, the amount previously recognised in share option reserve will be transferred to share premium. When share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share option reserve will be transferred to accumulated losses.

#### (c) Share award scheme

The Group also grants employees and consultants (but not directors) shares of the Company at nil consideration under its share award scheme. Under the share award scheme, the awarded shares are newly issued at par value. The fair value of the employees' and consultants' services received in exchange for the grant of shares newly issued is recognised as staff costs in the consolidated statement of profit or loss and other comprehensive income with a corresponding increase in an employee share-based compensation reserve under equity.

### Dividends

Dividends proposed or declared after the date of the reporting period is not recognized as a liability at the date of the reporting period.

### Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Executive Directors that make strategic decisions.

## 4. SIGNIFICANT ACCOUNTING POLICIES – continued

### Borrowing costs

Borrowing costs are directly attributable to the acquisition, construction or production of qualifying asset that necessarily take a substantial period of time to get ready for its intended use or sale are capitalised as part of the costs of that asset. Capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are charged to the consolidated statement of profit or loss and other comprehensive income in the year in which they are incurred.

### Related parties

- (a) A person or a close member of that person's family is related to the Group if that person:
- (i) has control or joint control over the Group;
  - (ii) has significant influence over the Group; or
  - (iii) is a member of the key management personnel of the Group or a parent of the Group.
- (b) An entity is related to Group if any of the following conditions applies:
- (i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);
  - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);
  - (iii) Both entities are joint ventures of the same third party;
  - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity;
  - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;
  - (vi) The entity is controlled or jointly controlled by a person identified in (a); or
  - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the Group (or of a parent of the entity).

Close family members of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

### Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest income which is derived from the Group's ordinary course of business are presented as other income.

### Financial assets

#### *Classification and subsequent measurement of financial assets*

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets that meet the following conditions are subsequently measured at FVTOCI:

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### *Classification and subsequent measurement of financial assets – continued*

All other financial assets are subsequently measured at fair value through profit or loss (“**FVTPL**”), except that at the date of initial application/initial recognition of a financial asset the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income if that equity investment is neither held for trading nor contingent consideration recognised by an acquirer in a business combination to which HKFRS 3 Business Combinations applies.

In addition, the Group may irrevocably designate a financial asset that are required to be measured at the amortised cost or FVTOCI as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

##### *Amortised cost and interest income*

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit-impaired.

##### *Impairment of financial assets*

The Group recognises a loss allowance for expected credit losses (“**ECL**”) on financial assets which are subject to impairment under HKFRS 9 (including trade and other receivables, and bank balances). The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL (“**12m ECL**”) represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment are done based on the Group’s historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade receivables. The ECL on these assets are assessed individually for debtors with significant balances and collectively using a provision matrix with appropriate groupings.

## 4. SIGNIFICANT ACCOUNTING POLICIES – continued

### Financial instruments – continued

#### Financial assets – continued

##### *Impairment of financial assets – continued*

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

(i) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

##### *Impairment of financial assets – continued*

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation.

(iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over one year past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

##### *Impairment of financial assets – continued*

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. Estimation of ECL reflects an unbiased and probability weighted amount that is determined with the respective risks of default occurring as the weights.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

Where ECL is measured on a collective basis or cater for cases where evidence at the individual instrument level may not yet be available, the financial instruments are grouped on the following basis:

- Nature of financial instruments (i.e. the Group's trade and other receivables are each assessed as a separate group);
- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade receivables where the corresponding adjustment is recognised through a loss allowance account.

## 4. SIGNIFICANT ACCOUNTING POLICIES – continued

##### *Derecognition of financial assets*

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

#### Financial liabilities and equity instruments

##### *Classification as debt or equity*

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

##### *Equity instruments*

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

##### *Convertible bonds issued by the Company*

Convertible bonds issued by the Company contain both the liability and conversion option components are classified separately into respective items on initial recognition in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

#### Financial liabilities and equity instruments – continued

##### *Convertible bonds issued by the Company – continued*

- (i) Conversion option to be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Company's own equity instruments

At the date of issue, the fair value of the liability component (including any embedded non-equity derivatives features) is estimated by measuring the fair value of similar liability that does not have an associated equity component.

The conversion option classified as equity is determined by deducting the amount of the liability component from the fair value of the compound instrument as a whole. This is recognised and included in equity, net of income tax effects, and is not subsequently remeasured. In addition, the conversion option classified as equity will remain in equity until the conversion option is exercised, in which case, the balance recognised in equity will be transferred to share premium. Where the conversion option remains unexercised at the maturity date of the convertible note, the balance recognised in equity will be transferred to accumulated losses. No gain or loss is recognised in profit or loss upon conversion or expiration of the conversion option.

Transaction costs that relate to the issue of the convertible bonds are allocated to the liability and equity components in proportion to the allocation of the gross proceeds. Transaction costs relating to the equity component are charged directly to equity. Transaction costs relating to the liability component are included in the carrying amount of the liability portion and amortised over the period of the convertible bonds using the effective interest method.

- (ii) Conversion option to be settled other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Group's own equity instruments

A conversion option that will be settled other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Group's own equity instruments is a conversion option derivative.

At the date of issue, both the debt component and derivative components are recognised at fair value. In subsequent periods the debt component of the convertible bonds is carried at amortised cost using the effective interest method. The derivative component is measured at fair value with changes in fair value recognised in profit or loss.

Transaction costs that relate to the issue of the convertible bonds are allocated to the debt and derivative components in proportion to their relative fair values. Transaction costs relating to the derivative component are charged to profit or loss immediately. Transaction costs relating to the debt component are included in the carrying amount of the debt portion and amortised over the period of the convertible bonds using the effective interest method.

##### *Financial liabilities at FVTPL*

Financial liabilities are classified as at FVTPL when the financial liability is either held for trading or it is designated as at FVTPL on initial recognition.

A financial liability other than a financial liability held for trading may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial liability forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and HKFRS 9 Financial Instruments permits the entire combined contract (asset or liability) to be designated as at FVTPL.

Financial liabilities at FVTPL (including unlisted warrants and contingent consideration payable) were stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liability.

##### *Other financial liabilities*

Other financial liabilities including trade and other payables, amounts due to directors, lease liabilities/ obligations under finance leases and other borrowings are subsequently measured at amortised cost, using the effective interest method.

##### *Effective interest method*

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest expense is recognised on an effective interest basis.

##### *Derecognition of financial liabilities*

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

## 5. KEY SOURCES OF ESTIMATION UNCERTAINTY

The preparation of consolidated financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future accounting periods.

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are also discussed below:

### Depreciation of property, plant and equipment

Property, plant and equipment are depreciated on a straight-line basis over their estimated useful lives, after taking into account of their estimated residual value. The determination of the useful lives and residual values involve management's estimation. The Group assesses annually the residual value and the useful life of the property, plant and equipment and if the expectation differs from the original estimate, such a difference may impact the depreciation in the year and the estimate will be changed in the future period.

### Impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the value in use of the CGU to which goodwill has been allocated. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the CGU and a suitable discount rate in order to calculate the present value. Where the actual cash flows are less than expected, or changes in facts and circumstances which result in downward revision of future cash flows, additional impairment loss may arise. As at 30 June 2022, the goodwill was fully impaired (30 June 2021: carrying amount of HK\$12,305,000). Impairment loss on goodwill amounted to HK\$12,305,000 (Year ended 30 June 2021: HK\$33,834,000) was recognised in respect of the current year. Details of impairment test for goodwill are set out in Note 21.

### Amortisation of intangible assets

Intangible assets with finite useful lives are amortised on a straight-line basis over their estimated useful lives. The determination of useful lives and residual values involve management's estimation. The Group assesses annually the useful life of the intangible assets and if the expectation differs from the original estimate, such a difference may impact the amortisation change for the year of change and the subsequent years.

For the current year, amortisation charge of intangible assets of HK\$27,000 (Year ended 30 June 2021: HK\$16,000) was charged to profit or loss in respect of the current year (Note 22).

## 5. KEY SOURCES OF ESTIMATION UNCERTAINTY – continued

### Impairment of intangible assets

The Group assesses the future cash flows expected to arise from the intangible assets. Where the actual cash flows are less than expected, or changes in facts and circumstances which result in downward revision of future cash flows, impairment loss may arise.

As at 30 June 2022, the carrying amount of intangible assets is HK\$Nil (30 June 2021: HK\$27,000). No impairment loss on intangible assets was recognised in respect of the current year and the prior year ended 30 June 2021 (Note 22).

### Provision for doubtful receivables

The Group makes provision for doubtful recovery of trade receivables and other receivables based on an assessment of the recoverability of receivables. Provision for doubtful receivables is made when events or changes in circumstances indicate that the balances may not be collectible. The identification of non-recoverability of receivables requires the use of judgement and estimates. Where the expectation on the recoverability of trade receivables and other receivables is different from the original estimate, such difference will impact the carrying amounts of trade receivables and other receivables and doubtful debts expenses in the period which such estimate has been changed.

The Group uses provision matrix to calculate expected credit loss (“ECL”) for the trade receivables based on the grouping of various trade receivables that have similar loss patterns. The provision matrix is based on the Group’s historical default rates and taking into consideration forward-looking information that is reasonable and supportable available without undue costs and effort. At every reporting date, the historical observed default rates are reassessed and changes in the forward-looking information are considered. In addition, trade receivables with significant balances are assessed for ECL individually.

The Group uses four categories for those receivables which reflect their credit risk and how the loss provision is determined for each of those categories. These internal credit risk ratings are aligned to external credit ratings. Management made periodic collective assessments as well as individual assessment on the recoverability of other receivables based on historical settlement records and past experience. In calculating the expected credit loss rates, the Group considers historical loss rates for the other receivables and adjusts for forward looking macroeconomic data.

The provision of ECL is sensitive to changes in estimates. The information about the ECL and the Group’s trade and other receivables are disclosed in Note 8(i) and (ii).

For the current year, provision for doubtful trade and other receivables totalled HK\$10,363,000 (Year ended 30 June 2021: HK\$8,074,000), and HK\$6,999,000 (Year ended 30 June 2021: 4,782,000) respectively was recognised in profit and loss in respect of the current year (Note 26 and 27).

## 5. KEY SOURCES OF ESTIMATION UNCERTAINTY – continued

### Impairment assessment of interest in associate

Determining whether interest in an associate, Ever Development Holdings Limited (“**Ever Development**”), is impaired requires an estimation of the recoverable amount of the interest in Ever Development which is the higher of value in use and fair value less costs of disposal. The value in use calculation requires the management to estimate the present value of the Group’s attributable share of future cash flows expected to be generated by Ever Development based on its business operations and a suitable discount rate with reference to comparable entities. The fair value less costs of disposal of Ever Development was determined based on its estimated sale price by reference to recent transactions or other appropriate estimation basis. Where the expected value in use or fair value less costs of disposal are less than the carrying amount of the Group’s investment, an impairment loss may arise. As at 30 June 2022, the carrying amount of the Group’s interest in Ever Development was approximately HK\$23,621,000 (30 June 2021: HK\$45,663,000). No impairment loss on investment in Ever Development was recognised in profit or loss in respect of the current year (Year ended 30 June 2021: Nil).

## 6. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The capital structure of the Group consists of debt, which includes convertible bonds disclosed in Note 35, and equity attributable to equity holders of the Company, comprising issued share capital, reserves and accumulated losses as disclosed in consolidated statement of changes in equity. Management reviews the capital structure by considering the cost of capital and the risks associated with each class of capital. In view of this, the Group will balance its overall capital structure through the payment of dividends, new share issues as well as the issuance of new debt or the redemption of existing debt. The Group’s overall strategy remains unchanged throughout the year.

## 8. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's major financial instruments include trade receivables, financial assets included in other receivables, deposits and prepayments, bank balances and cash, trade payables, financial liabilities included in accruals and other payables, amounts due to directors, amounts due to related parties, lease liabilities, convertible bonds, derivative financial liabilities, other borrowing, unlisted warrants and contingent consideration payable. Details of these financial instruments are disclosed in respective notes. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. Management of the Group manages and monitors these exposures to ensure that appropriate measures are implemented on a timely and effective manner. The Group's overall strategy remains unchanged from that of the prior year.

### Credit risk

The Group is exposed to credit risk and the Group's maximum exposure to credit risk in relation to financial assets is the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

The Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk, the Group compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition, having considered available reasonable and supportive forwarding-looking information. Especially the following indicators are incorporated:

- internal credit rating;
- external credit rating;
- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the customer's ability to meet its obligations;
- actual or expected significant changes in the operating results of the debtor/customer;
- significant changes in the expected performance and behaviour of the customer, including changes in the payment status of customer in the Group and changes in the operating results of the customer.

In order to minimize the credit risk, management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts.

The credit quality of the debtors is assessed based on their financial positions, past experience and other factors. The Group has policies in place to ensure credit terms are granted to reliable debtors.

The Group performed ongoing credit evaluations of its debtors' financial condition and did not require collateral from the debtors on the outstanding balances. Based on the expected recoverability and timing for collection of the outstanding balances, the Group maintained a provision for doubtful accounts and actual losses incurred had been within management's expectations.

## 8. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES – continued

### Credit risk – continued

#### (i) Trade receivables

The Group applies the simplified approach to provide for expected credit losses for trade receivables, which permits the use of the lifetime expected loss provision for all trade receivables.

As at 30 June 2022, the loss allowance for trade receivables was determined as follows:

	Receivables aged (based on invoice date)							Total
	0–30 days	31–60 days	61–180 days	181–365 days	365–540 days	541–730 days	Over 2 years	
Expected loss rate	0%	0%	5%	5%	50%	75%	100%	
Gross carrying amount (HK\$'000)	61	—	23,641	6,151	—	—	88,054	117,907
Loss allowance (HK\$'000)	—	—	1,128	306	—	—	88,054	89,488

As at 30 June 2021, the loss allowance for trade receivables was determined as follows:

	Receivables aged (based on invoice date)							Total
	0–30 days	31–60 days	61–180 days	181–365 days	365–540 days	541–730 days	Over 2 years	
Expected loss rate	0%	0%	5%	5%	50%	75%	100%	
Gross carrying amount (HK\$'000)	4,468	822	34	594	16,853	—	70,996	93,767
Loss allowance (HK\$'000)	—	—	—	30	8,427	—	70,996	79,453

The above expected credit losses also incorporated forward looking information.

Receivables that aged not more than 60 days substantially related to customers that have good trade records with the Group. Based on past experience, the directors are of the opinion that no provision for impairment is necessary in respect of these balances as there had not been a significant change in credit quality and the balances are still considered fully recoverable.

The Group has concentration of credit risk as 40.75% (30 June 2021: 57.99%) and 98.60% (30 June 2021: 96.75%) of the total trade receivables at 30 June 2022 were due from the Group's largest customer and the five largest customers respectively within the manufacturing and distribution of personal protective equipment business segment. However, the Group concludes that the credit risk in relation to these customers is not significant because they have no history of default in recent years. The Group's historical experience in collection of receivables falls within recorded allowance and the directors do not expect any additional significant impairment on trade receivables.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

**8. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES – continued****Credit risk – continued****(ii) Other receivables**

The Group uses four categories for those receivables which reflect their credit risk and how the loss provision is determined for each of those categories. These internal credit risk ratings are aligned to external credit ratings.

A summary of the assumptions underpinning the Group's expected credit loss model is as follows:

<b>Category</b>	<b>Group's definition of categories</b>	<b>Basis for recognition of expected credit loss provision</b>
Performing	Customers have a low risk of default and a strong capacity to meet contractual cash flows	12 months expected losses  Where the expected lifetime of an asset is less than 12 months, expected losses are measured at its expected lifetime
Underperforming	Receivables for which there is a significant increase in credit risk; as significant increase in credit risk is presumed if interest and/or principal repayments are 30 days to 60 days past due	Lifetime expected losses
Non-performing	Interest and/or principal repayments are 60 days to 120 days past due	Lifetime expected losses
Write-off	Interest and/or principal repayments are 120 days past due and there is no reasonable expectation of recovery	Asset is written off

Management made periodic collective assessments as well as individual assessment on the recoverability of other receivables based on historical settlement records and past experience. In calculating the expected credit loss rates, the Group considers historical loss rates for the other receivables and adjusts for forward looking macroeconomic data.

The Group has assessed that the expected credit loss for other receivables at 30 June 2022 was estimated to be approximately HK\$27,471,000 (30 June 2021: HK\$21,494,000) under 12 months expected losses method and impairment loss on other receivables amounted to approximately HK\$6,999,000 was charged to profit and loss of the Group in respect of the current year (Year ended 30 June 2021: HK\$4,782,000).

## 8. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES – continued

### Credit risk – continued

#### (iii) Cash at bank

The table below shows the details of bank deposit balances maintained at the end of the reporting period:

	Rating	30-6-2022 HK\$'000	30-6-2021 HK\$'000
Cash at banks and bank deposits	Baa3-Aa2	2,912	7,404

The rating represents long-term credit rating provided by Moody's, an internationally recognised credit rating agency. A rating within the "A" category is judged to be upper-medium grade and are subject to low credit risk under the rating regime of Moody's. Given that significant portion of the bank deposits are placed with banks that are independently rated with high credit rating with no default history in past years, management of the Group considers that the credit risk on the bank balances is limited.

The credit risk on liquid funds is limited because the counterparties are authorised banks in Hong Kong and the PRC.

### Foreign currency risk

At the end of the reporting period, the Group has trade receivables, other receivables, deposits, bank balances and cash, trade payables, accruals, other payables, amounts due to directors, amounts due to related parties, lease liabilities and other borrowing denominated in RMB and US\$, which are the currencies other than the functional currency of respective group entities. The carrying amounts of the Group's foreign currency denominated monetary assets and liabilities are as follows:

	Assets		Liabilities	
	30-6-2022 HK\$'000	30-6-2021 HK\$'000	30-6-2022 HK\$'000	30-6-2021 HK\$'000
US\$	172	250	—	5,187
RMB	9,459	38,852	27,310	29,556

The Group currently does not have a foreign currency hedging policy. However, management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise. The directors consider that the Group's exposure to foreign currency exchange risk is insignificant as the majority of the Group's transactions are denominated in the functional currency of the respective group entities.

The Group uses a 5% sensitivity rate to report foreign currency risk internally to key management personnel, which represents management's assessment of the reasonable possible change in foreign exchange rates. If RMB had strengthened/weakened by 5%, loss for the year ended 30 June 2022 would have been increased/decreased by approximately HK\$738,000 as a result of exchange gains/losses on translation of foreign currency transactions (Year ended 30 June 2021: decreased/increased loss by approximately HK\$464,800).

Certain financial assets and liabilities of the Group are denominated in US\$. However, the exchange rate of US\$ against HK\$ is relatively stable, accordingly, no sensitivity analysis has been presented on the currency risk.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

**8. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES – continued****Interest rate risk**

The Group has no significant interest-bearing assets, the Group's income and operating cash flows are substantially independent of changes in market interest rates. Management does not anticipate significant impact on interest-bearing assets resulted from the changes in interest rates.

Interests on convertible bonds and other borrowing are charged at fixed interest rates which expose the Group to fair value interest rate risk. Details of the Group's convertible bonds and other borrowing are set out in Notes 35 and 37 respectively.

**Sensitivity analysis**

At 30 June 2022, it is estimated that a general increase or decrease of 100 basis points in interest rates, with all other variable held constant, would decrease/increase the Group's loss by approximately HK\$30,000 (Year ended 30 June 2021: decrease/increase loss by approximately HK\$75,000). The above sensitivity analysis has been determined assuming that the change in interest rates had occurred at the end of the reporting period and had been applied to the exposure to interest rate risk for financial instruments in existence at that date. The 100 basis points increase or decrease represents management's assessment of a reasonably possible change in interest rates over the next financial year. The analysis was performed on the same basis in respect of the prior year ended 30 June 2021.

**Liquidity risk**

Individual operating entities within the Group are responsible for their own cash management, including short-term investment of cash surpluses and raising of loans to cover expected cash demands. The Group's policy is to regularly monitor its liquidity requirements and its compliance with lending covenants, to ensure that it maintains sufficient reserves of cash to meet its liquidity requirements in the short and longer term.

The following tables analyse the Group's remaining contractual maturity for its financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay:

## Fair value

The carrying amounts of financial instruments measured at fair value at the end of the reporting period are categorised among the three levels of the fair value hierarchy, defined as follows:

- (i) Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- (ii) Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- (iii) Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

## 8. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES – continued

### Fair value – continued

Fair value of financial assets and financial liabilities that are not measured at fair value on a recurring basis but fair value disclosures are required

The directors consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate their fair values. The fair values, which are included in Level 3 categories, have been determined in accordance with generally accepted pricing models based on a discounted cash flows analysis, with the most significant inputs being the discount rate that reflects the credit risk of counterparties.

## 9. SEGMENT INFORMATION

The factors used to identify the Group's operating segments, including the basis of organization, are mainly based on the services provided by the Group's operating divisions as follows:

- (a) Provision of lottery-related services
- (b) Provision of internet plus services
  - Solution services: Provision of internet related solution services
  - Supply chain services: Provision of supply chain management, data analysis and related services and trading of goods through internet platform
- (c) Manufacturing and distribution of personal protective equipment: Manufacture and sale of personal protective equipment and consumables
- (d) Other services

For the purposes of monitoring segment performance and allocating resources between segments, all assets and liabilities are allocated to operating segments other than the corporate assets and liabilities.

Information regarding the above segments is reported below.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

**17. DIVIDENDS**

No dividend was paid or proposed during the year ended 30 June 2022, nor has any dividend been proposed since the end of the reporting date (Year ended 30 June 2021: Nil).

**18. LOSS PER SHARE ATTRIBUTABLE TO EQUITY HOLDERS OF THE COMPANY**

The calculation of the basic loss per share attributable to the equity holders of the Company is based on the following data:

	<b>Year ended 30-6-2022 HK\$'000</b>	Year ended 30-6-2021 HK\$'000
Loss for the year for the purpose of basic loss per share		
Loss for the year attributable to the equity holders of the Company	<b>(87,998)</b>	(106,340)
	<b>Year ended 30-6-2022 '000</b>	Year ended 30-6-2021 '000
Weighted average number of ordinary shares for the purpose of basic loss per share	<b>4,497,028</b>	4,299,491

The computation of diluted loss per share does not assume the conversion of the Company's outstanding convertible loan notes since their assumed exercise would result in a decrease in loss per share.

The computation of diluted loss per share does not assume the exercise of the Company's options because the exercise price of those options was higher than the average market price for shares for both year ended 30 June 2022 and 2021.

### Lottery-related services

During the current year, the Group ceased for the provision of lottery-related services to most of its customers, which resulted in the significant decline in the business operations of this group of CGU. Management is of the view that the recoverable amount of the CGU is minimal and considers it appropriate to recognise additional impairment loss on the goodwill allocated to this group of CGU amounted to HK\$12,305,000 (2021: Nil) in the Group's profit and loss in respect of the current year.

### Internet plus supply chain services

Following the significant decline in the business operations of this group of CGU during the prior year ended 30 June 2021 as a result of the suspension of the Management Service Agreement with Sinopharm Traditional Chinese Medicine Co. Ltd, a shareholder of the Company, management was of the view that the recoverable amount of the CGU was minimal and considered it appropriate to recognise the remaining balance of the goodwill allocated to this group of CGU amounted to HK\$33,834,000 in profit or loss of the Group in respect of the prior year ended 30 June 2021.

### Acquisition of Ever Development

On 3 June 2020, Sinopharm Tech Corporate Management Limited (“**STCM**”), a wholly-owned subsidiary of the Company, acquired 40% equity interest in Ever Development from certain third parties (the “**Vendors**”) for a consideration of HK\$41,600,000 which was satisfied by 180,869,565 new ordinary shares issued by the Company.

Pursuant to the related sale and purchase agreement,

- (i) the Vendors has guaranteed to STCM that the audited net profit after taxation of Ever Development for each year ended 31 December 2020 and 31 December 2021 shall not be less than HK\$13,000,000 or the audited net profit after taxation of Ever Development for the two years ended 31 December 2021 shall not be less than HK\$26,000,000 in aggregate (the “**Profit Guarantee**”). In the event that the actual profit of Ever Development is less than the Profit Guarantee, the Vendors are required to make compensation to STCM in the maximum amount of HK\$24,960,000, which is calculated based on the formula as set out in the sale and purchase agreement.
- (ii) in the event that the actual net profit after taxation of Ever Development for the year ended 31 December 2020 is HK\$15,000,000 or above, the Vendors are entitled to a performance award (the “**Performance Award**”), which is determined based on the formula as set out in the agreement and is to be settled by additional new shares issued by the Company.
- (iii) the Vendors has granted a call option (the “**Call Option**”) to STCM under which STCM is entitled to acquire additional equity interest in Ever Development to a maximum of 11% from the Vendors for the consideration which is calculated based on the formula set out in the agreement during the period from 1 January 2021 to 31 December 2021 and the acquisition consideration is to be satisfied by payment in cash or issue of new shares by the Company.

Management of the Group determined that the net profit after taxation of Ever Development for each of the years ended 31 December 2020 and 31 December 2021 is not less than the Profit Guarantee, accordingly the Group is not entitled to receive any compensation as stated in paragraph (i) above.

During the prior year ended 30 June 2021, the Company issued 55,652,174 new shares to the Vendors for the settlement of the Performance Award, details of which are set out in note 38.

During the current year, STCM has not exercised the Call Option to acquire additional interest in Ever Development and the Call Option lapsed accordingly.

### Dilution of shareholding in Ever Development

During the current year, the shareholders of Ever Development, except STCM, made capital contribution to Ever Development on 6 June 2022, which resulted in a dilution of the Group’s shareholding in Ever Development from 40% to 20%. The loss on dilution of interest in Ever Development amounted to approximately HK\$21,889,000 (2021: Nil) was charged to profit or loss of the Group in respect of the current year. Details regarding the dilution of interest in associates are set out in the announcement dated 7 June 2022 made by the Company.

**26. TRADE RECEIVABLES – continued**

The trade receivables with the carrying amount of HK\$61,000 (30 June 2021: HK\$4,468,000) are neither past due nor impaired at the end of the reporting period.

The Group has policies for allowances of doubtful receivables which are based on the evaluation of collectability and aged analysis of accounts and on the management's judgement including the credit worthiness, collaterals and the past collection history of each customer.

For the year ended 30 June 2022, the Group made an allowance of HK\$10,363,000 (30 June 2021: HK\$8,074,000) in respect of trade receivables, which were past due at the reporting date with long age and slow repayments from the respective customers since the due date.

Movements in the impairment of trade receivables are as follows:

## 41. SHARE OPTION SCHEME

The Company has adopted a share option scheme on 31 January 2013 which will remain valid for a period of 10 years commencing from 31 January 2013 and it was terminated on 9 June 2021. The Company adopted a new share option scheme on 9 June 2021 which will remain valid for a period of 10 years commencing from 9 June 2021. The Board may, at its discretion, invite eligible persons to take up options to subscribe for the shares in the Company. Eligible persons shall include any employee, directors (including executive, non-executive and independent non-executive directors) and consultants of the Company or of any subsidiary of the Company or such other persons who at the sole determination of the Board have contributed to the Group at the time when an option is granted to such person.

The maximum number of shares issued and to be issued on the exercise of options granted and to be granted to each eligible participant (included both exercised and outstanding options) in any 12 month period must not exceed 1% of the total issued share capital of the Company in issue at any time. Any further grant of share options in excess of this limit is subject to Shareholder's approval in a general meeting.

The maximum number of shares of the Company which may be issued upon exercise of all the outstanding options granted and yet to be issued under the Share Option Scheme or any other schemes must not, in aggregate, exceed 30% of the shares of the Company in issue from time to time.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

## 41. SHARE OPTION SCHEME – continued

The exercise price of the share options is determinable by the directors, and may not be less than the highest of:

- (i) the closing price of the shares of the Company as stated in the Stock Exchange's daily quotation sheets on the date of grant, which must be a business day;
- (ii) the average closing price of the shares of the Company as stated in the Stock Exchange's daily quotation sheets for the five business days immediately preceding the date of grant; and
- (iii) the nominal value of a share of the Company.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

**41. SHARE OPTION SCHEME – continued**

During the current year, options were granted by the Company to subscribe for 77,000,000 new shares of the Company (2021: Nil), details of which are as follows:

<u>Date of grant</u>	<u>Number of shares under options granted</u>	<u>Exercise price per share</u>	<u>Exercisable period</u>
		HK\$	
27 August 2021	77,000,000	0.25	1 October 2021 to 30 September 2024

The fair value of the options at 27 August 2021 was estimated to be HK\$4,899,000. The fair value of the options granted was calculated using the Binomial Model. The inputs into the model were as follows:

	<b>Share options granted on 27 August 2021</b>
Exercise price	HK\$0.25
Expected volatility	63.39%
Expected life	3.09 years
Risk-free rate	0.60%
Expected dividend yield	0%
Exercise multiple	2.2 times

Expected volatility was determined by reference to the historical volatility of the Company's share prices over the previous 3.38 years, 2.98 years and 3.09 years. The expected life used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions and behavioural considerations.

The Group recognised the total expenses of HK\$4,446,000 for the current year (Year ended 30 June 2021: HK\$4,296,000) in relation to share options granted by the Company.

- (a) During the year ended 30 June 2022,
- (i) the Group settled the total amounts of approximately HK\$34,763,000 due by the Group to Mr. Chan Ting and Madam Cheung Kwai Lan, directors of the Company, and Ms. Ng Pik Yin, the spouse of a director of a subsidiary of the Company, which was satisfied by the issue by the Company of 133,705,046 new ordinary shares, details of which are set out in Notes 46(a)(iii).
- (b) During the year ended 30 June 2021,
- (i) the Group settled the total amounts of approximately HK\$15,238,000 due by the Group to certain shareholders of the Company, which was satisfied by the issue by the Company of 58,606,927 new ordinary shares, details of which are set out in Notes 46(a)(v) and (vi).
  - (ii) the Company issued 55,652,174 new ordinary shares to the vendors for the settlement of the Performance Award pursuant to the agreement for the acquisition of Ever Development, details of which are set out in Note 38.

**45. RETIREMENT BENEFITS SCHEMES**

The Company and its subsidiaries in Hong Kong operate a defined contribution retirement benefits scheme for their qualifying employees pursuant to the Mandatory Provident Fund Schemes Ordinance. The assets of the scheme are held separately in funds which are under the control of independent trustees. The retirement benefits schemes contributions charged to the consolidated statement of profit or loss represent contributions payable by the Company and its subsidiaries in Hong Kong to the funds at rates specified in the rules of the schemes. When there are employees who leave the defined contribution retirement benefits scheme prior to becoming fully vested in the contributions, the amount of the forfeited contributions will be used to reduce future contributions payable by the Company and its subsidiaries in Hong Kong.

The employees of the Group's subsidiaries in the PRC are members of a state-managed retirement benefit scheme operated by the government of the PRC. These subsidiaries are required to contribute certain percentage of payroll costs to the retirement benefit scheme to fund the benefits. The only obligation of the Group with respect to the retirement benefit scheme is to make the required contributions under the schemes.

At the end of the reporting period, no forfeited contributions were available to reduce the contribution payable in future years.

The total expenses recognised in profit or loss of HK\$392,000 (Year ended 30 June 2021: HK\$877,000) represent contributions payable to these plans by the Group at rates specified in the rules of the plans.

## 46. RELATED PARTY TRANSACTIONS

### (a) Transactions and balances with related parties

In addition to those disclosed elsewhere in the consolidated financial statements, the Group had material transactions and balances with related parties as follows:

#### Transactions with related parties

- (i) On 2 April 2020, the Company entered into a subscription agreement with a director, Mr. Chan Ting. Pursuant to the subscription agreement, the Company has conditionally agreed to allot and issue and Mr. Chan Ting has conditionally agreed to subscribe for 800,000,000 new shares of the Company at the subscription price of HK\$0.2 per share and the completion of the subscription is conditional upon and subject to all the conditions precedent being fulfilled or waived on or before 31 October 2020 (“**the Long Stop Date**”). On 30 October 2020, the parties to the subscription agreement entered into an agreement, under which the subscription agreement was terminated and the rights and obligations of the parties ceased and none of the parties will have any claim against the other.
- (ii) On 17 February 2021, China Success Enterprises Limited (“**China Success**”), a wholly-owned subsidiary of the Company, entered into an agreement with Sharp Associate Limited (“**Sharp Associate**”, an entity which is wholly-owned by Theresa Woo, the spouse of Mr. Chan Ting), pursuant to which China Success conditionally agreed to purchase, and Sharp Associate has conditionally agreed to sell 25% equity interest in Rich General Limited (“**Rich General**”) for a consideration of HK\$200 million. The principal activities of Rich General are, through its subsidiaries after the group reorganisation undertaken by Rich General, the design, development and provision of anti-counterfeiting devices in the PRC. According to the acquisition agreement, the consideration for the proposed acquisition of HK\$200 million is to be satisfied by issue of new ordinary shares by the Company at the issue price of HK\$0.28 per share. Completion of the acquisition is subject to certain conditions to be fulfilled by the contracting parties on or before 30 June 2021.

As the conditions precedent to the proposed acquisition of 25% equity interest could not be fulfilled on or before the specified timeline (i.e on or before 30 June 2021), the proposed acquisition lapsed and will not proceed.

- (iii) On 8 July 2021, the Company entered into agreements with Mr. Chan Ting and Madam Cheung Kwai Lan, directors of the Company, and Ms. Ng Pik Yin, the spouse of a director of a subsidiary of the Company, pursuant to which the outstanding balances of HK\$6,000,000 and HK\$23,183,312 and HK\$5,580,000 due by the Group to Mr. Chan Ting, Madam Cheung Kwai Lan and Ms. Ng Pik Yin respectively were settled by the Group which were satisfied by 23,076,923 new ordinary shares, 89,166,585 new ordinary shares and 21,461,538 new ordinary shares issued by the Company to them respectively at the issue price of HK\$0.26 per share.

Notes:

- Wholly-foreign-owned enterprises established under the law of the PRC.
- A limited liability company established under the law of the PRC.
- On 1 January 2019, STCM entered into an agreement to acquire 100% equity interest in Hero Global Holdings Limited ("Hero Global"), for a consideration which was satisfied by the issue of 650,000,000 new shares of the Company ("Consideration Shares") at a price of HK\$0.155 per share.

Pursuant to the sale and purchase agreement, the vendor warranted to the Group that (i) the actual net profit after taxation of Hero Global for each of the three years ending 31 December 2019, 2020 and 2021 shall not be less than HK\$23,000,000, HK\$23,000,000 and HK\$23,000,000 respectively; or (ii) the aggregate net profit for the three years ending 31 December 2019, 2020 and 2021 shall not be less than HK\$69,000,000 in total ("Profit Guarantee"). If the aggregate net profit for the three years ending 31 December 2019, 2020 and 2021 is less than the guaranteed profit, the vendor shall compensate the Group in accordance with a formula that the compensation is equal to the shortfall multiplied by a compensation factor of 1.7 and is to be settled in cash. The Consideration Shares have been locked up by the Company for the purpose of the Compensation, if any, payable by the vendor.

Management of the Group determined that the net profit after taxation of Hero Global for each of the years ended 31 December 2019, 2020 and 2021 is less than the Profit Guarantee, accordingly the Group is entitled to receive the compensation amounted to approximately HK\$93 million which is calculated in accordance with the formula stated above and was agreed by the contracting parties as stated in the paragraph above.

Subsequent to 30 June 2022, the vendor failed to settle the first instalment of the compensation as agreed by the contracting parties. In accordance with the related sale and purchase agreement, the Group is entitled to sell the locked-up Consideration Shares for the recovery of the compensation.

None of the subsidiaries had issued any debt securities at the end of the year or at any time during the year.
