MANAGEMENT DISCUSSION AND ANALYSIS

管理層討論及分析

MACRO SITUATION REVIEW

During the Year, the Group faced complex macro situation which has a variety of impacts on the business development of the Group.

Impact of the COVID-19 epidemic

The risk of the global economic slowdown has been escalating by the global outbreak of COVID-19 epidemic. The uncertainty and lethality of the global pandemic continued to jeopardize the confidence in all industries worldwide. The lockdown imposed in many countries and regions, including the PRC and Hong Kong, has caused disruptions to production activities and has an adverse impact on the livelihood of people and the economy globally, including the PRC. This situation caused a serious negative impact on trading business of the Group.

Decreased Demand for Petrochemical Storage

In this Year, as a result of the Russia-Ukraine conflict, the global commodity prices rose significantly, which indirectly led to an increase in the annual operating costs of the petrochemical storage industry. As oil prices rise, global inflationary pressures are rising rapidly. At the same time, under the impact of the pandemic and geopolitical tensions around the world, the recovery of the world economy was difficult, the global production and supply cycle was not smooth, and the global annual demand for petrochemical storage industry shrank, which led to a reduction in the occupancy rate of the petrochemical storage industry.

宏觀情況回顧

截至本年度，本集團面臨多樣的宏觀情況，其對本集團之業務發展帶來多種影響。

2019冠狀病毒疫情的影響

全球爆發2019冠狀病毒疫情，令全球經濟衰退風險持續增加。捉摸不透的致命性全球大流行病毒將繼續打擊全球所有產業信心。包括中國及香港在內的許多國家及地區實施的封鎖已導致生產活動中斷，並對包括中國在內的全球民生及經濟產生不利影響。該情況對本集團的貿易業務造成了嚴重的負面影響。

石化倉儲需求降低

於本年度，俄烏衝突後，全球大宗商品價格全面上漲，間接導致年石化倉儲業運營成本上升。隨著油價上漲，全球高通脹壓力也在迅速上升。同時，受疫情及世界各地地緣政治緊張的影響，世界經濟復甦艱難，全球生產和供應周期不暢，全球年石化倉儲業需求萎縮，使得石化倉儲業出租率降低。

BUSINESS REVIEW

During the Year, the Group is principally engaged in trading business and the provision of petrochemical products storage business.

Our major business activities can be divided into the below segments during the Year:

1. Trading Business

The Group is engaged in the trading and import and export businesses of electronic products, petrochemical products and various other products. During the Year, the Group's trading business recorded revenue of approximately HK\$787.2 million (2021: approximately HK\$882.5 million). The decrease in revenue in this segment was mainly attributable to (i) the fifth wave of community outbreaks caused by the Omicron variant of the coronavirus and the sharp increase in COVID-19 confirmed cases in Hong Kong in 2022, which had a significant adverse impact on cross-border transport and logistics, and a decrease in trade volume due to weak market conditions; and (ii) the Group had taken risk management measures and terminated the trading of some products which were loss-making or with higher operational risks.

2. Petrochemical Products Storage Business

The Group is engaged in petrochemical products storage business through Port Storage Petrochemical. During the year, the Group's petrochemical products storage business recorded a decrease in revenue by approximately 66.0% to approximately HK\$8.8 million (2021: approximately HK\$25.9 million). The decrease in revenue was mainly due to the impact of the surge in COVID-19 confirmed cases in the Yangtze River Delta region, and the strict control of various transportations such as dangerous chemicals vehicles and outbound oil tankers, which seriously hindered the development of petrochemical products storage business.

業務回顧

於本年度，本集團主要從事貿易業務及提供石化產品倉儲業務。

於本年度，本集團主要業務活動可分為以下分部：

1. 貿易業務

本集團從事電子產品、石化產品及多種其他產品之貿易及進出口業務。於本年度，本集團貿易業務錄得收益約787,200,000港元(二零二一年：約882,500,000港元)。此分部收益減少主要由於(i)奧密克戎變異病毒引發第五波社區爆發以及二零二二年香港2019冠狀病毒病感染個案驟增，對跨境運輸及物流造成重大不利影響以及市況疲弱導致貿易業務量減少所致；及(ii)本集團已採取風險控制措施並終止交易若干造成虧損或運營風險較高之產品。

2. 石化產品倉儲業務

本集團透過港儲石化從事石化產品倉儲業務。於本年度，本集團之石化產品倉儲業務錄得收益減少約66.0%至約8,800,000港元(二零二一年：約25,900,000港元)。收益減少主要由於長三角地區受到2019冠狀病毒病例激增的影響，以及危險化學品車輛、外運油輪等各類運輸受到嚴格管控，從而嚴重阻礙了石化產品倉儲業務的發展。

MANAGEMENT DISCUSSION AND ANALYSIS

管理層討論及分析

OUTLOOKS

The PRC economy is expected to gradually recover from the COVID-19. Going forward, the Company will adopt a prudent approach to run the Group's existing business and also actively to seize the opportunity of integrated development of Jiangsu Yancheng, the Group will rationally reorganise and optimise the resources of the Company, simplify and restructure to conserve resources and prudently identify investment opportunities.

FINANCIAL REVIEW

The Group's revenue decreased by approximately 12.4% to approximately HK\$796.0 million for the Year (corresponding period in 2021: approximately HK\$908.4 million). Regarding reason of the decrease in revenue, please refer to the paragraph headed "Business Review" above for details.

The Group's cost of revenue decreased by approximately 13.3% to approximately HK\$781.1 million for the Year (corresponding period in 2021: approximately HK\$901.2 million). The decrease in cost of revenue was mainly driven by the effect of decrease in revenue of the Group's trading business.

The Group recorded a gross profit margin of approximately 1.9% for the Year (corresponding period in 2021: approximately 0.8%). The increase in gross profit margin was mainly because the Group had taken risk management measures and terminated the trading of some products which were loss-making or with higher operational risks.

The Group's finance costs amounted to approximately HK\$39.6 million for the Year (2021: approximately HK\$36.9 million). Finance costs mainly include interest on bank loans, listed credit-enhanced guaranteed bonds and amounts due to related companies. The increase in finance costs was mainly attributable to the loan agreement entered into between Port Shipping International and Dafeng Port Development Group on 7 September 2022, in respect of a loan of approximately RMB131.2 million (equivalent to approximately HK\$148.5 million) which is unsecured, interest-bearing at 7% per annum and repayable on 8 September 2025.

展望

預期中國經濟將從疫情中逐步恢復。展望未來，本公司將採取審慎的方式經營本集團現有業務，同時積極抓住江蘇鹽城一體化整合發展的機遇，本集團將合理重組優化本公司資源、簡化及重組資源、謹慎尋找投資機會。

財務回顧

於本年度，本集團收益減少約12.4%至約796,000,000港元(二零二一年同期：約908,400,000港元)。有關收益減少原因之詳情，請參閱上文「業務回顧」一段。

於本年度，本集團收益成本減少約13.3%至約781,100,000港元(二零二一年同期：約901,200,000港元)。收益成本減少主要由於本集團貿易業務收益減少影響所致。

本集團於本年度錄得毛利率約1.9%(二零二一年同期：約0.8%)，毛利率上升主要由於本集團已採取風險管理措施並終止交易若干造成虧損或運營風險較高之產品。

於本年度，本集團融資成本約為39,600,000港元(二零二一年：約36,900,000港元)。融資成本主要包括銀行貸款之利息、上市信用增強擔保債券及應付關連公司款項。融資成本增加主要歸因於根據港航國際與大豐港開發集團於二零二二年九月七日訂立的貸款協議，約人民幣131,200,000元(相當於約148,500,000港元)的無抵押貸款，按每年7厘計息且應於二零二五年九月八日償還。

The Group recorded loss for the Year of approximately HK\$64.2 million (2021: approximately HK\$70.7 million). The decrease in the loss was mainly due to the stricter cost control measures the Group have taken in the Year and a reversal of impairment loss on property, plant and equipment during the Year. The loss attributable to the equity holders of the Company was approximately HK\$62.0 million (2021: approximately HK\$73.5 million) and the basic loss per share was 4.81 HK cents (2021: 5.70 HK cents).

Liquidity and financial resources

As at 31 December 2022, the Group had net current liabilities of approximately HK\$34.6 million (2021: approximately HK\$156.5 million), including net amounts due to connected companies of approximately HK\$37.6 million (2021: approximately HK\$224.4 million).

The Group's equity capital and bank and other borrowings have been applied to fund its working capital and other operational needs. The Group's current ratio as at 31 December 2022 was approximately 0.94 (2021: approximately 0.61).

As at 31 December 2022, the Group's gearing ratio (defined as the ratio of total interest-bearing borrowings to total equity) was approximately negative 124.6% (2021: approximately negative 101.6%).

In order to meet its financial obligations as and when they fall due within the next twelve months and improve the Group's current ratio. The Group has taken and will continue to take a series of measures and arrangements, which include but not limited to the following:

- (i) Negotiating with financial institutions or connected parties for the renewals of the Group's bank and other borrowings upon expiry, obtaining new borrowings and applying for future credit facilities;
- (ii) The Company has obtained a RMB1 billion (equivalent to HK\$1,131,900,000) financial support in formal writing from Dafeng Port Development Group, a connected company which has 40% equity interests in Dafeng Port Overseas; and
- (iii) Improving sales and strictly controlling costs to generate adequate cash flows to maintain its operations.

本集團於本年度錄得虧損約64,200,000港元(二零二一年:約70,700,000港元)。虧損減少之主要原因為本集團於本年度採取更嚴格的成本控制措施及本年度物業、廠房及設備減值虧損撥回。本公司權益持有人應佔虧損約為62,000,000港元(二零二一年:約73,500,000港元)，而每股基本虧損則為4.81港仙(二零二一年:5.70港仙)。

流動資金及財務資源

於二零二二年十二月三十一日，本集團之淨流動負債約為34,600,000港元(二零二一年:約156,500,000港元)，包括應付關連公司款項淨額約37,600,000港元(二零二一年:約224,400,000港元)。

本集團之股本、銀行及其他借貸已用作為其營運資金及其他營運需要提供資金。本集團於二零二二年十二月三十一日之流動比率約為0.94(二零二一年:約0.61)。

於二零二二年十二月三十一日，本集團之資產負債比率(定義為計息借貸總額對權益總額之比率)約為負124.6%(二零二一年:約負101.6%)。

為履行其於未來十二個月內到期的財務責任並提高本集團的流動比率，本集團已經並將繼續採取一系列措施和安排，包括但不限於以下各項：

- (i) 與金融機構或關連方就到期後重續本集團銀行借款及其他借款、獲得新借款及申請未來信貸融資進行磋商；
- (ii) 本公司已以正式書面形式從持有大豐港海外40%股權之關連公司大豐港開發集團獲得人民幣10億元(相當於1,131,900,000港元)之財務支持；及
- (iii) 提升銷售及嚴控成本，以產生充足的現金流量維持其營運。

Significant investment, material acquisitions and disposals

As at 31 December 2022, we were interested in approximately RMB100 million registered capital in Jiangsu Hairong, a company providing integrated logistics handling services in the PRC market, representing approximately 40% of its total registered capital.

Jiangsu Hairong is a private company and there is no quoted market price available for the investment. The carrying amount of the investment is nil as at 31 December 2022 (2021: Nil). The Group has not recognised further losses as the Group's share of losses of Jiangsu Hairong exceeds the carrying amount of its interest in Jiangsu Hairong. The unrecognised share of loss of Jiangsu Hairong for the Year and cumulative up to the end of the Year amounted to approximately HK\$7.7 million (2021: approximately HK\$5.0 million) and approximately HK\$24.6 million (2021: approximately HK\$16.9 million), respectively.

We hold the investment with the primary objective to maintain to the synergy effect between integrated logistics handling services with our petrochemical trading business and petrochemical products storage business, and the investment may allow the Group to benefit from the potential upside of the integrated logistics handling business in the future when the operational environment of the integrated logistics handling business improves.

Save for the 40% equity interests in Jiangsu Hairong held by us, the Group had made no significant investment, no material acquisition and disposal of subsidiaries and associates during the Year.

Pledge of assets

The Group used bank facilities and other borrowings to finance its business expansion. As at 31 December 2022, the loan from a connected party of approximately RMB13.4 million (equivalent to HK\$15.2 million) is secured by prepaid lease payment of approximately HK\$37.8 million (31 December 2021: Nil).

主要投資、重大收購及出售

於二零二二年十二月三十一日，我們於江蘇海融(為一家在中國市場提供綜合物流處理服務的公司)約人民幣一億元的註冊資本中擁有權益，約佔其註冊資本總額的40%。

江蘇海融為私人公司，並無可供投資的市場報價。於二零二二年十二月三十一日，該投資的賬面值為零(二零二一年：零)。由於本集團應佔江蘇海融的虧損超過其於江蘇海融權益的賬面值，因此本集團並未確認進一步虧損。於本年度及截至年末累計的未確認應佔江蘇海融的虧損分別為約7,700,000港元(二零二一年：約5,000,000港元)及約24,600,000港元(二零二一年：約16,900,000港元)。

我們持有該投資的主要目的為繼續發揮綜合物流處理服務與我們石化貿易業務和石化產品倉儲業務之間的協同效應，而該投資或可讓本集團於未來綜合物流處理業務的經營環境改善時受益於綜合物流處理業務的潛在上行空間。

本集團於年內除持有江蘇海融之40%股權外，並無任何主要投資、重大收購及出售附屬公司及聯營公司。

資產抵押

本集團動用銀行融資及其他借貸為其業務擴張提供資金。於二零二二年十二月三十一日，來自一名關連人士的貸款人民幣約13,400,000元(相當於約15,200,000港元)以預付租賃款項約37,800,000港元作抵押(二零二一年十二月三十一日：無)。

2.1 Emission Reduction

The Company strictly abides by relevant national laws and regulations, such as the Environmental Protection Law of the People's Republic of China, the Environmental Impact Assessment Law of the People's Republic of China, the Law on the Prevention and Control of Water Pollution of the People's Republic of China, the Law on the Prevention and Control of Atmospheric Pollution of the People's Republic of China, the Law on the Prevention and Control of Environmental Pollution by Solid Wastes of the People's Republic of China, and the Law on the Prevention and Control of Noise Pollution of the People's Republic of China. It sorted out its production and operation process, and identified the emissions and discharges generated in the daily operations, including wastewater produced from washing of storage tanks, volatile organic compounds (VOCs¹) and solid wastes produced in the operation process. The Company earnestly implemented its internal management systems including the Environmental Management System and Measures and the Environmental Protection Responsibility System, and accordingly established and improved the relevant rules and norms of emission and discharge management. The Company formulated management rules including the Hazardous Waste Management Rules and the Responsibility System for Prevention and Control of Hazardous Waste Pollution for various types of waste, and strictly monitored the emissions and discharges. The purpose is to actively control the impact on the surrounding ecology and environment. We regularly conduct self-monitoring and submit quarterly and annual pollutant discharge reports to meet the management requirements of pollutant discharge permits. During the reporting period, the Company did not have any illegal emissions or discharges.

2.1 減少排放

公司嚴格遵守《中華人民共和國環境保護法》《中華人民共和國環境影響評價法》《中華人民共和國水污染防治法》《中華人民共和國大氣污染防治法》《中華人民共和國固體廢物污染環境防治法》《中華人民共和國噪聲污染防治法》等國家相關法律法規要求，梳理自身生產運營流程，識別到我們日常運營過程中產生的排放物包括：倉儲洗罐產生的廢水、運營過程中產生的揮發性有機物(VOCs¹)及固體廢棄物等。為積極控制對周邊生態環境的影響，公司認真貫徹《環境管理制度及措施》《環境保護責任制》等內部管理制度，建立及完善排放物管理相關章程與規範，針對各類型廢棄物制定有《危險廢棄物管理章程》《危險廢物污染防治工作責任制》在內的管理章程，並嚴格執行相應的排放物監管要求。我們根據排污許可證管理要求，定期進行自行監測，定期上報排污季度、年度報告。報告期內，公司未發生違規排放的情況。

¹ VOCs is the abbreviation of volatile organic compounds.
¹ VOCs是揮發性有機化合物 (volatile organic compounds)的英文縮寫。

Exhaust Gas Emission Management

We strictly abide by relevant emission standards, continuously improve production and operation process, innovate in storage and transportation processes, and effectively reduce the impact of exhaust emissions on the surrounding ecology and environment through technological innovation, source control and other measures to meet the requirements of the Law on the Prevention and Control of Atmospheric Pollution of the People's Republic of China.

We carry out the prevention and control of VOCs pollution according to the Technical Policy for Prevention and Control of VOCs Pollution, in order to control the possible leakage of VOCs during storage. In 2022, the Company added the Operation Rules for Oil Vapour Recovery to further standardise the operation process to avoid VOC leakage during storage.

During the reporting period, we strengthened the management of exhaust emissions, and engaged a qualified third party to conduct a comprehensive inspection on unorganised exhaust gas in the industrial park according to the Standard Operating Procedures and Technical Specifications for VOCs Leak Detection and issue a detection report. After inspection and re-inspection, the Company's unorganised exhaust gas emissions from storage tanks meet the relevant national and local emission standards. In addition, the Company also engaged a third-party detection agency to conduct exhaust leak detection and repair by detecting nearly 1,700 sealed points in the tank farm so as to make all-round investigation for the environmental risk in the storage process. It turned out that the Company can well manage and control the VOC leak risk with a good sealed petrochemical storage and transportation pipeline.

To further control VOC emissions in the process of oil loading and unloading, we implemented the following measures:

- We strengthened the maintenance of equipment and facilities, and conducted high-frequency inspections on the equipment, such as entrusting a third party to carry out leak detection and repair (LDAR) on the equipment to prevent the case of "leakage";
- The oil vapour recovery unit was put into use to recover the volatilised oil vapour from the storage tank, with a recovery efficiency of 95%;

廢氣排放管理

我們嚴格遵守相關排放標準，不斷改進生產運營流程，創新儲藏運輸工藝，通過技術革新、源頭控制等措施有效減少廢氣排放對周邊生態環境的影響，以滿足《中華人民共和國大氣污染防治法》要求。

為控制倉儲過程中可能存在VOCs洩露，我們依據《揮發性有機物(VOCs)污染防治技術政策》開展VOCs污染防治工作。二零二二年，公司新增《油氣回收操作規程》，進一步規範操作流程，以避免造成倉儲過程中的VOCs洩漏。

報告期內，我們加強對廢氣排放管理，聘請有資質的第三方機構依據《VOCs無洩漏檢測標準操作流程及技術規範》對園區內無組織廢氣進行全面檢測並出具檢測報告。經檢驗及復檢，公司對儲罐的無組織廢氣排放符合國家與地方相關排放標準。此外，公司還聘請第三方檢測機構開展廢氣洩漏檢測與修復工作，對罐區近1,700個密封點進行檢測，全面排查倉儲過程的環境風險，結果顯示公司石化倉儲運輸管線密封性良好，對VOCs洩漏風險有良好的管控能力。

為進一步控制油品裝卸過程中的VOCs排放情況，我們實施了以下舉措：

- 加強設備設施的維護保養，並對設備進行高頻次的巡查，如委託第三方對設備進行洩漏檢測與修復(LDAR)檢測，以杜絕「跑冒滴漏」的現象發生；
- 投用油氣回收裝置，對儲罐揮發的油氣進行回收，回收效率達到95%；

- Nitrogen valves were recalibrated to reduce vapour emissions via nitrogen sealing;
- Dust-proof mesh was added to the surrounding bulk cargo yards, and spraying was applied on a regular basis to reduce dust, which greatly reduces dust pollution;
- A pressure test was conducted on hoses on a regular basis to prevent leakage.
- 裝車台槽罐車由原頂部裝車改為更安全、更環保的底部裝車方式，同時對裝車過程中產生的氣體進行收集，並接入油氣回收裝置中；
- 啟用儲罐的氮氣封存設施，減少管線中VOCs的無組織揮發；
- 夏季時通過水噴淋的方式對罐體進行降溫，降低罐體內儲存介質的揮發性，從而減少介質揮發產生的廢氣；
- 重新標定氮氣閥門，通過氮封減少油氣排放；
- 對周邊散貨堆場增設防塵網，定期進行噴淋降塵措施，大大降低了揚塵污染；
- 對軟管定期進行試壓杜絕洩漏事件的發生。

We uphold the principle of fairness and impartiality in supplier management and implement a strict supplier management mechanism. In order to achieve sustainable supply chain management, we strictly abide by relevant laws and regulations, including the Company Law of the People's Republic of China and the Contract Law of the People's Republic of China, to standardise our supplier management. We only have the authority to express our needs in daily procurement, which is subject to the approval of the superior company. The Company immediately sent volunteer groups to go everywhere to fulfill the wishes of anti-pandemic workers, in order to reassure employees and solve their difficulties.

Material Uncertainty Related to Going Concern

We draw attention to the "Going concern basis" section in note 2 to the consolidated financial statements concerning the adoption of the going concern basis on which the consolidated financial statements have been prepared. The Group incurred loss of HK\$64,241,000 for the year ended 31 December 2022 and, as at that date, the Group had net current liabilities and net liabilities of approximately HK\$34,600,000 and HK\$501,793,000 respectively. These conditions, along with other matters as set forth in note 2 to the consolidated financial statements, indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern and, therefore that it may be unable to realise its assets and discharge its liabilities in the normal course of business. The directors, having considered the measures being taken by the Group as disclosed in note 2 to the consolidated financial statements, are of the opinion that the Group would be able to continue as a going concern. Accordingly, the directors have prepared the consolidated financial statements on a going concern basis. The consolidated financial statements do not include any adjustments that would result from a failure of achieving the measures. We consider appropriate disclosures have been made in this respect. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the "Material Uncertainty Related to Going Concern" section, we have determined the matters described below to be the key audit matters to be communicated in our report.

有關持續經營的重大不確定因素

吾等提請注意，綜合財務報表附註2有關採納持續經營基準編製綜合財務報表的「持續經營基準」一節。貴集團於截至二零二二年十二月三十一日止年度產生虧損64,241,000港元，而於該日，貴集團的流動負債淨額及負債淨額分別約為34,600,000港元及501,793,000港元。該等情況及綜合財務報表附註2所載的其他事項顯示存在重大不確定性，或會對貴集團之持續經營能力產生重大懷疑，因此其可能無法在正常業務過程中變現其資產並清償其債務。經考慮貴集團採取於綜合財務報表附註2披露的措施後，董事認為貴集團將有能力持續經營。因此，董事已按持續經營基準編製綜合財務報表。綜合財務報表不包括有關事項無法實現而可能導致之任何調整。吾等認為在此方面已作出適當披露。吾等之意見並無就此事項作出修改。

關鍵審計事項

根據吾等之專業判斷，關鍵審核事項為吾等審核於本年度之綜合財務報表中最重要之事項。吾等在審核綜合財務報表及就此達致意見時處理此等事項，而不會就此等事項單獨發表意見。除「有關持續經營的重大不確定因素」一節所述事項外，吾等已釐定下述事項為將於吾等的報告中溝通的關鍵審計事項。

Impairment of property, plant and equipment
物業、廠房及設備之減值

Refer to notes 4 and 15 to the consolidated financial statements

參照綜合財務報表附註4及15

The property, plant and equipment with carrying amounts at 31 December 2022 in aggregate of HK\$122,678,000 as disclosed in note 15 to the consolidated financial statements were tested for impairment in accordance with Hong Kong Accounting Standard 36 "Impairment of Assets" and a reversal of impairment loss on property, plant and equipment of HK\$7,334,000 is recognised for the year then ended.

綜合財務報表附註15所披露物業、廠房及設備於二零二二年十二月三十一日之賬面值合共為122,678,000港元曾根據香港會計準則第36號「資產減值」進行減值測試，並於截至該日止年度確認物業、廠房及設備減值虧損撥回7,334,000港元。

The Group engaged an independent professional valuer to assess the recoverable amounts of the cash-generating units ("CGUs"), which involved fair value calculations.

貴集團委聘獨立專業估值師評估現金產生單位(「現金產生單位」)的可收回金額，其中涉及公平值計算。

The impairment test of property, plant and equipment required significant judgement and estimations and the determination of the level at which impairment should be tested. Given the significance of the amount and judgement involved, the impairment assessment is considered as a key audit matter.

物業、廠房及設備之減值測試需要重大判斷及估計及釐定應進行減值測試之層級。鑒於涉及重大金額及判斷，減值評估被視為一項關鍵審計事項。

Our procedures, among others, included:
吾等的程序包括但不限於：

Impairment of trade receivables

貿易應收款項之減值

Refer to notes 4, 21 and 32(a) to the consolidated financial statements

參照綜合財務報表附註4、21及32(a)

The carrying amounts of the Group's trade receivables amounted to HK\$416,066,000 as at 31 December 2022 (net of loss allowance of HK\$3,514,000).

於二零二二年十二月三十一日，貴集團貿易應收款項之賬面值為416,066,000港元(經扣除虧損撥備3,514,000港元)。

Loss allowances for trade receivables are based on management's estimate of the lifetime expected credit losses to be incurred, which is estimated by taking into account the credit loss experience, ageing of overdue trade receivables, customers' repayment history and customers' financial position and an assessment of both the current and forecast general economic conditions, all of which involve a significant degree of management judgement. Given the significance of the amount and judgement involved, the impairment assessment is considered as a key audit matter.

貿易應收款項之虧損撥備乃以管理層對將產生之全期預期信貸虧損之預估為基準，全期預期信貸虧損乃經考慮信貸虧損經驗、過期貿易應收款項賬齡、客戶還款紀錄及客戶之財務狀況以及對目前及預測整體經濟狀況之評估後作出估計，上述考慮事宜均涉及管理層重大判斷。鑒於涉及重大金額及判斷，減值評估被視為一項關鍵審計事項。

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

INDEPENDENT AUDITOR'S REPORT

獨立核數師報告

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

核數師就審核綜合財務報表承擔之責任

吾等之目標是對綜合財務報表整體是否不存在由於欺詐或錯誤而導致之重大錯誤陳述取得合理保證，並出具載有吾等意見之核數師報告。吾等僅向閣下(作為整體)報告，除此之外，本報告別無其他目的。吾等不會就本報告的內容向任何其他人士負責或承擔責任。

合理確定屬高層次之核證，惟根據香港審計準則進行之審核工作不能保證總能察覺所存在之重大錯誤陳述。錯誤陳述可因欺詐或錯誤產生，倘它們個別或整體在合理預期情況下可影響使用者根據該等綜合財務報表作出之經濟決定時，則被視為重大錯誤陳述。

在根據香港審計準則進行審計之過程中，吾等運用專業判斷，保持專業懷疑態度。吾等亦：

- 識別及評估由於欺詐或錯誤而導致綜合財務報表存在重大錯誤陳述之風險，設計及執行審計程序以應對該等風險，以及獲取充足及適當之審計憑證，作為吾等意見之基礎。由於欺詐可能涉及串謀、偽造、蓄意遺漏、虛假陳述或凌駕內部監控之情況，因此未能發現因欺詐而導致之重大錯誤陳述之風險高於未能發現因錯誤而導致之重大錯誤陳述之風險。
- 了解與審計相關之內部監控，以設計適當之審計程序，惟並非旨在對貴集團內部監控之有效性發表意見。
- 評估董事所採用會計政策之恰當性及作出會計估計及相關披露之合理性。

AUDITOR'S RESPONSIBILITIES FOR THE
AUDIT OF THE CONSOLIDATED FINANCIAL
STATEMENTS (Continued)

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

- 評估綜合財務報表之整體呈報方式、結構及內容，包括披露資料，以及綜合財務報表是否公平地反映相關交易及事項。
- 就 貴集團內實體或業務活動之財務資料獲取充足及適當之審計憑證，以便對綜合財務報表發表意見。吾等負責集團審計之方向、監督及執行。吾等為審核意見承擔全部責任。

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(Continued)*

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law and regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

2. BASIS OF PRESENTATION (Continued)

Basis of preparation (Continued)

These consolidated financial statements have been prepared on a basis consistent with the accounting policies adopted in the 2021 consolidated financial statements except for the adoption of the new/revised HKFRSs that are relevant to the Group and effective from the current year as detailed in note 3 to the consolidated financial statements. A summary of the principal accounting policies adopted by the Group is set out in note 4 to the consolidated financial statements.

Going concern basis

As at 31 December 2022, the Group had net current liabilities of approximately HK\$34,600,000 (2021: approximately HK\$156,506,000) and net liabilities of approximately HK\$501,793,000 (2021: approximately HK\$440,347,000) respectively. These conditions indicate the existence of a material uncertainty which may cast significant doubt about the Group's ability to continue as a going concern and, therefore, the Group may be unable to realise its assets and discharge its liabilities in the normal course of business.

Notwithstanding the aforesaid conditions, the consolidated financial statements have been prepared on a going concern basis on the assumption that the Group is able to operate as a going concern for the foreseeable future. In the opinion of the directors of the Company, the Group can meet its financial obligations as and when they fall due within the next twelve months, after taking into consideration of the measures and arrangements made by the Group as detailed below:

- (i) the Group is in negotiation with financial institutions or connected parties for the renewals of the Group's bank and other borrowings upon expiry, obtaining new borrowings and applying for future credit facilities;
- (ii) the Company has obtained a RMB1 billion financial support (equivalent to HK\$1,131,900,000) in formal writing from 江蘇鹽城港大豐港開發集團有限公司 (Jiangsu Yancheng Port Dafeng Port Development Group Company Limited*, "Dafeng Port Development Group") (formerly known as 江蘇大豐海港控股集團有限公司 (Jiangsu Dafeng Harbour Holdings Limited*)), a connected company which has 40% equity interests in Dafeng Port Overseas; and

2. 呈列基準(續)

編製基準(續)

該等綜合財務報表之編製基準與二零二一年綜合財務報表所採納會計政策一致，惟採納綜合財務報表附註3所詳述與本集團相關且自本年度起生效之下列新訂／經修訂香港財務報告準則除外。本集團所採納主要會計政策概要載於綜合財務報表附註4。

持續經營基準

於二零二二年十二月三十一日，本集團擁有流動負債淨額及負債淨額分別約為34,600,000港元(二零二一年：約156,506,000港元)及約501,793,000港元(二零二一年：約440,347,000港元)。該等情況表明存在重大不確定性，可能對本集團持續經營的能力產生重大懷疑，因此，本集團可能無法於日常業務過程中變現其資產及清償其負債。

儘管有上述之情況，綜合財務報表已按持續經營基準編製，並假設本集團有能力於可見將來持續經營。經考慮本集團所採取的措施及安排後，本公司董事認為，本集團能夠應付其於未來十二個月到期之財務責任，詳情如下：

- (i) 本集團目前與金融機構或關連方就到期後重續本集團銀行及其他借款、獲取新借款及申請未來信貸融資進行磋商；
- (ii) 本公司已以正式書面形式從持有大豐港海外擁有40%股權之關連公司江蘇鹽城港大豐港開發集團有限公司(「大豐港開發集團」)(前稱江蘇大豐海港控股集團有限公司)獲得人民幣10億元(相當於1,131,900,000港元)之財務支持；及

2. BASIS OF PRESENTATION (Continued)

Going concern basis (Continued)

- (iii) the Group is expected to generate adequate cash flows to maintain its operations.

The directors have prepared a cash flow forecast covering a period up to 31 December 2023 on the basis that negotiation with financial institutions and connected parties for the renewals of the Group's borrowings and credit facilities would be successful, and are satisfied that the Group will have sufficient working capital to meet its financial obligations as and when they fall due within the twelve months from 31 December 2022. Accordingly, the directors consider that it is appropriate to prepare the consolidated financial statements on a going concern basis.

Notwithstanding the above, significant uncertainties exist as to whether the directors of the Company will be able to achieve its plans and measures as described above. Whether the Group will be able to continue as a going concern would depend upon the Group's ability to generate adequate financing and operating cash flows in the near future, and to obtain the continuous financial support from its connected parties.

Should the Group be unable to continue to operate as a going concern, adjustments would have to be made to restate the values of assets to their estimated recoverable amounts, to provide further liabilities that might arise and to reclassify non-current assets and non-current liabilities as current assets and current liabilities respectively. The effects of these potential adjustments have not been reflected in the consolidated financial statements.

2. 呈列基準(續)

持續經營基準(續)

- (iii) 本集團預期會產生充足現金流量維持其營運。

董事已基於與金融機構及關連方就重續本集團借款及信貸融資進行的磋商將告成功而編製涵蓋直至二零二三年十二月三十一日止期間之現金流量預測，並信納本集團將擁有足夠營運資金履行於自二零二二年十二月三十一日起計十二個月內到期之財務責任。因此，董事認為按持續經營基準編製綜合財務報表屬適宜之舉。

儘管出現上述情況，本公司董事是否能成功實現其上文所述之計劃及措施仍存在重大不確定性。本集團能否持續經營將取決於本集團於近期未來產生足夠融資及經營現金流量並獲得其關連方持續財務支援的能力。

倘本集團未能以持續經營基準繼續營運，則需要作出調整以按資產之估計可收回金額重列資產之價值，就可能產生之進一步負債計提撥備，以及將非流動資產及非流動負債分別重新分類為流動資產及流動負債。綜合財務報表並未反映此等潛在調整之影響。

3. ADOPTION OF NEW/REVISED HKFRSs

The Group has applied, for the first time, the following new/revised HKFRSs that are relevant to the Group:

Amendments to HKFRS 16
香港財務報告準則第16號(修訂本)
Amendments to HKAS 16
香港會計準則第16號(修訂本)
Amendments to HKAS 37
香港會計準則第37號(修訂本)
Amendments to HKFRS 3
香港財務報告準則第3號(修訂本)
Annual Improvements to HKFRSs
香港財務報告準則年度改進

Amendments to HKFRS 16: Covid-19-Related Rent Concessions Beyond 30 June 2021

The amendments exempt lessees from having to consider individual lease contracts to determine whether rent concessions occurring as a direct consequence of the covid-19 pandemic are lease modifications and allow lessees to account for such rent concessions as if they were not lease modifications. It applies to covid-19-related rent concessions that reduce lease payments due on or before 30 June 2022. The amendments do not affect lessors.

The adoption of the amendments does not have any significant impact on the consolidated financial statements.

Amendments to HKAS 16: Proceeds before Intended Use

The amendments clarify the accounting requirements for proceeds received by an entity from selling items produced while testing an item of property, plant or equipment before it is used for its intended purpose. An entity recognises the proceeds from selling any such items, and the cost of those items, in profit or loss and measures the cost of those items applying the measurement requirements of HKAS 2.

The adoption of the amendments does not have any significant impact on the consolidated financial statements.

3. 採納新訂／經修訂香港財務報告準則

本集團已首次應用下列與本集團有關之新訂／經修訂香港財務報告準則：

Covid-19-Related Rent Concessions Beyond 30 June 2021
二零二一年六月三十日之後與2019冠狀病毒相關的租金寬免
Proceeds before Intended Use
擬定用途前所得款項
Cost of Fulfilling a Contract
履行合約之成本
Reference to the Conceptual Framework
對概念框架之提述
2018–2020 Cycle
二零一八年至二零二零年週期

香港財務報告準則第16號(修訂本)：二零二一年六月三十日之後與2019冠狀病毒相關的租金寬免

該修訂本豁免承租人考慮個別租賃合約以釐定與2019冠狀病毒疫情直接後果相關的租金寬免是否屬租賃修訂，容許承租人將有關租金寬免當作非租賃修訂入賬。該修訂本適用於抵減二零二二年六月三十日或之前到期租賃付款的2019冠狀病毒疫情相關租金寬免。該修訂本對出租人並無影響。

採納該修訂本對綜合財務報表並無任何重大影響。

香港會計準則第16號(修訂本)：擬定用途前所得款項

對於物業、廠房或設備項目作擬定用途前進行測試期間實體出售所生產的項目而獲得的所得款項，該修訂本澄清了有關會計規定。實體於損益確認出售任何該等項目的所得款項及該等項目之成本，並應用香港會計準則第2號的計量規定計量該等項目之成本。

採納該修訂本對綜合財務報表並無任何重大影響。

3. ADOPTION OF NEW/REVISED HKFRSs

(Continued)

Amendments to HKAS 37: Cost of Fulfilling a Contract

The amendments clarify that for the purpose of assessing whether a contract is onerous under HKAS 37, the cost of fulfilling the contract comprises the costs that relate directly to the contract. Costs that relate directly to a contract include both the incremental costs of fulfilling that contract (for example, direct labour and materials) and an allocation of other costs that relate directly to fulfilling contracts (for example, an allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract).

The adoption of the amendments does not have any significant impact on the consolidated financial statements.

Amendments to HKFRS 3: Reference to the Conceptual Framework

The amendments update a reference in HKFRS 3 to the Conceptual Framework for Financial Reporting issued in 2018. The amendments also add to HKFRS 3 an exception to its requirement for an entity to refer to the Conceptual Framework to determine what constitutes an asset or a liability. The exception specifies that, for some types of liabilities and contingent liabilities, an entity applying HKFRS 3 should instead refer to HKAS 37. The exception has been added to avoid an unintended consequence of updating the reference.

The adoption of the amendments does not have any significant impact on the consolidated financial statements.

3. 採納新訂／經修訂香港財務報告準則(續)

香港會計準則第37號(修訂本)：履行合約之成本

該修訂本澄清，根據香港會計準則第37號評估合約有否虧損時，履行合約之成本包括與合約直接相關之成本。與合約直接相關之成本同時包括履行該合約的增量成本(例如直接勞工及材料)，以及與履行合約直接相關的其他成本分配(例如分配履行合約所用物業、廠房及設備項目之折舊開支)。

採納該修訂本對綜合財務報表並無任何重大影響。

香港財務報告準則第3號(修訂本)：對概念框架之提述

該修訂本更新了香港財務報告準則第3號內文對二零一八年發佈之財務報告概念框架之提述。該修訂本亦在香港財務報告準則第3號中增設了一項例外，在特定情況下，實體毋須提述概念框架來確定某項目是否構成資產或負債。該例外規定，對於若干類型的負債及或有負債，應用香港財務報告準則第3號的實體，應參考香港會計準則第37號。增設例外情況，乃為避免更新引用而帶來的意外後果。

採納該修訂本對綜合財務報表並無任何重大影響。

3. ADOPTION OF NEW/REVISED HKFRSs (Continued)

Annual Improvements Project — 2018–2020 Cycle

HKFRS 1: Subsidiary as a First-time Adopter

This amendment simplifies the application of HKFRS 1 for a subsidiary that becomes a first-time adopter of HKFRSs later than its parent — i.e. if a subsidiary adopts HKFRSs later than its parent and applies HKFRS 1.D16(a), then a subsidiary may elect to measure cumulative translation differences for all foreign operations at amounts included in the consolidated financial statements of the parent, based on the parent's date of transition to HKFRSs.

HKFRS 9: Fees in the "10 per cent" Test for Derecognition of Financial Liabilities

This amendment clarifies that — for the purpose of performing the "10 per cent test" for derecognition of financial liabilities — in determining those fees paid net of fees received, a borrower includes only fees paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf.

HKFRS 16: Lease Incentives

The amendment removes the illustration of payments from the lessor relating to leasehold improvements. As currently drafted, Example 13 is not clear as to why such payments are not a lease incentive.

HKAS 41: Taxation in Fair Value Measurements

This amendment removes the requirement to exclude cash flows for taxation when measuring fair value, thereby aligning the fair value measurement requirements in HKAS 41 with those in HKFRS 13.

The adoption of the amendments does not have any significant impact on the consolidated financial statements.

3. 採納新訂／經修訂香港財務報告準則(續)

香港財務報告準則年度改進—二 零一八年至二零二零年週期

香港財務報告準則第1號：首次採納的附 屬公司

該修訂本針對晚於母公司首次採納香港財務報告準則之附屬公司，簡化應用香港財務報告準則第1號之程序，簡言之，如某附屬公司晚於母公司採納香港財務報告準則，在應用香港財務報告準則第1.D16(a)號時，該附屬公司可選擇根據母公司過渡至香港財務報告準則之日期，按母公司綜合財務報表所示金額計量所有海外業務之累計交易差額。

香港財務報告準則第9號：終止確認金融 負債之「百分之十」測試費用

該修訂本澄清，為終止確認金融負債而進行「百分之十測試」時，就釐訂已付費用(扣除已收費用)而言，借款人僅計及借款人與貸款人之間之已付或已收費用，包括借款人或貸款人代對方支付或收取之費用。

香港財務報告準則第16號：租賃激勵

該修訂本移除了出租人就租賃裝修所作付款的示例。於現時版本中，例13並無明確說明有關付款不屬租賃寬減的原因。

香港會計準則第41號：公平值計量中的稅 項

該修訂本移除了計量公平值時撇除稅項現金流的規定，將香港會計準則第41號對公平值計量的規定，調整至與香港財務報告準則第13號一致。

採納該修訂本對綜合財務報表並無任何重大影響。

The measurement basis used in the preparation of these consolidated financial statements is historical costs.

Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and all of its subsidiaries. The financial statements of the subsidiaries are prepared for the same reporting year as that of the Company using consistent accounting policies.

All intra-group balances, transactions, income and expenses and profits and losses resulting from intra-group transactions are eliminated in full. The results of subsidiaries are consolidated from the date on which the Group obtains control and continue to be consolidated until the date that such control ceases.

Non-controlling interests are presented, separately from owners of the Company, in the consolidated statement of comprehensive income and within equity in the consolidated statement of financial position. The non-controlling interests in the acquiree, that are present ownership interests and entitle their holders to a proportionate share of the acquiree's net assets in event of liquidation, are measured initially either at fair value or at the present ownership instruments' proportionate share in the recognised amounts of the acquiree's identifiable net assets. This choice of measurement basis is made on an acquisition-by-acquisition basis. Other types of non-controlling interests are initially measured at fair value, unless another measurement basis is required by HKFRSs.

計量基準

編製該等綜合財務報表採用之計量基準為按歷史成本計量。

綜合基準

綜合財務報表包括本公司及其全部附屬公司之財務報表。附屬公司按與本公司於相同報告年度採用之一致會計政策編製財務報表。

所有集團內公司間結餘、交易以及集團內公司間交易所產生收入及支出以及溢利及虧損已全數對銷。附屬公司業績自本集團取得控制權當日起綜合入賬，並一直綜合入賬直至控制權不再存在當日為止。

非控股權益於綜合全面收益表及綜合財務狀況表之權益中與本公司擁有人分開呈列。於收購對象之屬於現時擁有權權益並賦予其持有人於清盤時按比例分佔收購對象資產淨額之非控股權益乃初步以公平值或現時之擁有權工具應佔收購對象可識別資產淨額中已確認款額之比例計量。按逐項收購基準選擇計量基準。除非香港財務報告準則規定採納另一計量基準，否則其他類型非控股權益初步按公平值計量。

Basis of consolidation (Continued)

Allocation of total comprehensive income

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income is attributed to the owners of the Company and the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Changes in ownership interest

Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. The carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the Company.

When the Group loses control of a subsidiary, the profit or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest determined at the date when control is lost and (ii) the carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests at the date when control is lost. The amounts previously recognised in other comprehensive income in relation to the disposed subsidiary are accounted for on the same basis as would be required if the Company had directly disposed of the related assets or liabilities. Any investment retained in the former subsidiary and any amounts owed by or to the former subsidiary are accounted for as a financial asset, associate, joint venture or others as appropriate from the date when control is lost.

分配全面收益總額

溢利或虧損及其他全面收益各組成部分均歸於本公司擁有人以及非控股權益。全面收益總額歸於本公司擁有人以及非控股權益，即使此舉會導致非控股權益之餘額出現虧絀。

擁有權權益變動

倘本集團於附屬公司之擁有權權益變動並無導致失去控制權，則列賬為股本交易。控股權益及非控股權益之賬面值已作出調整，以反映其於附屬公司之有關權益變動。非控股權益之經調整金額與已付或已收代價之公平值間之任何差額直接於權益中確認並歸屬於本公司擁有人。

倘本集團失去對附屬公司之控制權，出售時產生之損益按下列兩者之差額計算：(i) 於失去控制權當日已收代價之公平值與任何保留權益之公平值之總和及(ii) 於失去控制權當日附屬公司及任何非控股權益之資產(包括商譽)及負債之賬面值。先前於其他全面收益確認之有關所出售附屬公司之金額按與假設本公司直接出售相關資產或負債之同一基準確認。於前附屬公司保留之任何投資及前附屬公司結欠或應付前附屬公司之任何金額自失去控制權當日起列賬為金融資產、聯營公司、合營公司或其他(視適用情況而定)。

4. PRINCIPAL ACCOUNTING POLICIES

(Continued)

Subsidiaries

A subsidiary is an entity that is controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The Group reassesses whether it controls an investee if facts and circumstances indicate that there are changes to one or more of the elements of control.

In the Company's statement of financial position, which is presented in note 33 to the consolidated financial statements, an investment in subsidiaries is stated at cost less impairment loss. The carrying amount of the investment is reduced to its recoverable amount on an individual basis, if it is higher than the recoverable amount. The results of subsidiaries are accounted for by the Company on the basis of dividends received and receivable.

Associates

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The Group's interest in associate is accounted for under the equity method of accounting, except when the investment or a portion thereof is classified as held for sale. Under the equity method, the investment is initially recorded at cost and adjusted thereafter for the post-acquisition changes in the Group's share of the investee's net assets and any impairment loss relating to the investment. Except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the investee, the Group discontinues recognising its share of further losses when the Group's share of losses of the investee equals or exceeds the carrying amount of its interest in the investee, which includes any long term interests that, in substance, form part of the Group's net investment in the investee.

4. 主要會計政策(續)

附屬公司

附屬公司為本集團控制之實體。倘本集團因參與實體之營運而對其浮動回報承擔風險或享有權利及有能力運用其權力以影響回報，則本集團對實體擁有控制權。倘有事實及情況顯示控制因素中一項或以上出現變動，本集團會重新評估其是否對投資對象擁有控制權。

於綜合財務報表附註33呈列之本公司財務狀況表中，於附屬公司之投資乃按成本減去減值虧損列賬。倘投資之賬面值高於可收回金額，則按個別基準將投資之賬面值減至其可收回金額。本公司基於已收及應收股息將附屬公司之業績入賬。

聯營公司

聯營公司為本集團對其擁有重大影響力之實體。重大影響力指有權參與投資對象之財務及營運政策決定，但非對該等政策擁有控制權或共同控制權。

本集團於聯營公司之投資採用權益會計法入賬，惟當投資或部分投資分類為持作出售則除外。根據權益法，投資最初以成本入賬，其後經調整以確認本集團攤佔投資對象之淨資產及任何有關投資之減值虧損於收購後之變動。倘本集團攤佔投資對象之虧損與其所佔投資對象權益賬面值相等或超出其所佔投資對象權益賬面值(包括任何實質上構成本集團於投資對象淨投資一部分之任何長期權益)，則本集團會終止確認其攤佔之進一步虧損，惟僅以本集團已產生法定或推定責任或代表投資對象付款為限。

4. PRINCIPAL ACCOUNTING POLICIES (Continued)

Associates (Continued)

Unrealised profits and losses resulting from transactions between the Group and its associates are eliminated to the extent of the Group's interest in the investees, except where unrealised losses provide evidence of an impairment of the asset transferred, in which case they are recognised immediately in profit or loss.

Goodwill

Goodwill arising on an acquisition of a business is measured at the excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of any previously held equity interests in the acquiree over the acquisition date amounts of the identifiable assets acquired and the liabilities assumed of the acquired business.

Goodwill on acquisition of business is recognised as a separate asset and is carried at cost less accumulated impairment losses, which is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. For the purpose of impairment test and determination of gain or loss on disposal, goodwill is allocated to cash-generating units. An impairment loss on goodwill is not reversed.

On the other hand, any excess of the acquisition date amounts of identifiable assets acquired and the liabilities assumed of the acquired business over the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree, if any, after reassessment, is recognised immediately in profit or loss as an income from bargain purchase.

Property, plant and equipment

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and accumulated impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

聯營公司(續)

本集團與其聯營公司之間進行交易所產生之未變現盈虧會予以對銷，惟以本集團於該等投資對象之權益為限。倘未變現虧損提供證據顯示所轉讓資產出現減值，則有關虧損會即時於損益內確認。

商譽

收購業務產生之商譽乃按所轉撥之代價、於收購對象之任何非控股權益金額及於收購對象先前所持股本權益之公平值超出所收購業務之已購入可識別資產及所承擔負債之收購當日金額之差額計量。

收購業務之商譽乃確認為一項獨立資產，按成本減累計減值虧損列賬，並每年作減值測試，或於有事件發生或情況有變而顯示賬面值可能減值時進行較頻密之減值測試。就減值測試及釐定出售盈虧而言，商譽被分配至現金產生單位。商譽之減值虧損不予撥回。

另一方面，重新評估後所收購業務之已購入可識別資產及所承擔負債之收購當日金額超出所轉撥代價、於收購對象之任何非控股權益金額及收購方先前於收購對象所持權益之公平值總額之任何差額(如有)，即時於損益內確認為議價購買收入。

物業、廠房及設備

物業、廠房及設備(不包括在建工程)按成本減累計折舊及累計減值虧損列賬。物業、廠房及設備項目之成本包括其購買價格及令資產達到其計劃使用之工作狀況及位置之任何直接應佔成本。

Property, plant and equipment (Continued)

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to profit or loss in the period in which it is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property, plant and equipment, and where the cost of the item can be measured reliably, the expenditure is capitalised as an additional cost of the asset or as a replacement.

Depreciation is provided to write off the cost less accumulated impairment losses of property, plant and equipment, other than construction in progress, over their estimated useful lives from the date on which they are available for use and after taking into account of their estimated residual values, using the straight-line method, at the following rates per annum:

Buildings	3 $\frac{1}{3}$ %-10%

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset calculated as the difference between the net disposal proceeds and the carrying amount of the item is included in profit or loss in the year in which the item is derecognised.

Construction in progress

Construction in progress includes property, plant and equipment in the course of construction for production or for its own use purposes. Construction in progress is stated at cost less accumulated impairment losses. Cost includes all construction expenditure and other direct costs, including interest costs, attributable to such projects. Costs on completed construction works are transferred to the appropriate asset category. No depreciation is provided in respect of construction in progress until it is completed and ready for its intended use.

Impairment of other assets, other than goodwill

At the end of each reporting period, the Group reviews internal and external sources of information to assess whether there is any indicator that its property, plant and equipment and right-of-use assets may be impaired or impairment loss previously recognised no longer exists or may be reduced. If any such indication exists, the recoverable amount of the asset is estimated, based on the higher of its fair value less costs of disposal and value in use. Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the smallest group of assets that generates cash flows independently (i.e. a cash-generating unit).

If the recoverable amount of an asset or a cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount. Impairment losses are recognised as an expense immediately.

A reversal of impairment losses is limited to the carrying amount of the asset or cash-generating unit that would have been determined had no impairment loss been recognised in prior years. Reversal of impairment losses is recognised as income in profit or loss immediately.

The accounting policy for recognition and reversal of impairment loss for goodwill is stated in the accounting policy for goodwill in the earlier part of this note.

在建工程

在建工程包括用作生產或自用之在建物業、廠房及設備。在建工程按成本減累計減值虧損列賬。成本包括所有工程開支及有關項目直接應佔之其他成本，如利息成本。竣工建築工程之成本會轉撥至合適資產類別。當在建工程竣工及可供投入擬定用途時方計提折舊。

其他資產(不包括商譽)減值

於各報告期末，本集團審核內部及外部資料來源，以評估其物業、廠房及設備以及使用權資產是否有任何減值跡象或先前已確認之減值虧損不再存在或可能減少。倘存在任何跡象，則根據其公平值減出售成本與使用價值之較高者估計資產之可收回金額。倘無法估計個別資產之可收回金額，則本集團估計獨立產生現金流量之最小組別資產(即現金產生單位)之可收回金額。

倘資產或現金產生單位之可收回金額估計將低於其賬面值，則資產或現金產生單位之賬面值降至其可收回金額。減值虧損即時確認為開支。

減值虧損之撥回以過往年度未確認減值虧損時原應釐定之資產或現金產生單位之賬面值為限。減值虧損之撥回即時於損益確認為收入。

有關確認及撥回商譽減值虧損之會計政策載於本附註較先部分有關商譽之會計政策。

Financial assets

Recognition and derecognition

Financial assets are recognised when and only when the Group becomes a party to the contractual provisions of the instruments and on a trade date basis except for financial assets mandatorily measured at fair value through profit or loss (“FVPL”) which are accounted for on the settlement date basis.

A financial asset is derecognised when and only when (i) the Group’s contractual rights to future cash flows from the financial asset expire or (ii) the Group transfers the financial asset and either (a) it transfers substantially all the risks and rewards of ownership of the financial asset, or (b) it neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset but it does not retain control of the financial asset.

If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises the financial asset to the extent of its continuing involvement and an associated liability for amounts it may have to pay.

On initial recognition, a financial asset is classified as (i) measured at amortised cost; (ii) debt investment measured at fair value through other comprehensive income (“Mandatory FVOCI”); (iii) equity investment measured at fair value through other comprehensive income (“Designated FVOCI”); or (iv) measured at FVPL.

金融資產於且僅於本集團成為工具合約條文之一方時按交易日基準確認，惟強制按公平值計入損益(「按公平值計入損益」)釐定之金融資產按結算日基準入賬。

於且僅於(i)本集團來自金融資產之未來現金流量之合約權利屆滿時或(ii)本集團轉讓金融資產及(a)其轉讓金融資產擁有權之大部分風險及回報時，或(b)其不轉讓亦不保留金融資產擁有權之大部分風險及回報，但亦不保留金融資產控制權時，則終止確認金融資產。

倘本集團仍保留已轉讓金融資產擁有權之絕大部分風險及回報，本集團會繼續確認該金融資產以及確認已收所得款項之有抵押借貸。

4. PRINCIPAL ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial assets (Continued)

Recognition and derecognition (Continued)

The classification of financial assets at initial recognition depends on the Group's business model for managing the financial assets and the financial asset's contractual cash flow characteristics. Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing them, in which case all affected financial assets are reclassified on the first day of the first annual reporting period following the change in the business model (the "reclassification date").

Derivatives embedded in a hybrid contract in which a host is an asset within the scope of HKFRS 9 are not separated from the host. Instead, the entire hybrid contract is assessed for classification.

1) Financial assets measured at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVPL:

- (i) it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- (ii) its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses arising from impairment derecognition or through the amortisation process are recognised in profit or loss.

確認及終止確認(續)

金融資產於初步確認時之分類視乎本集團管理有關金融資產之業務模式及金融資產之合約現金流量特徵。金融資產不會於初步確認後重新分類，除非本集團改變管理有關金融資產之業務模式，於該情況下，所有受影響之金融資產將於更改業務模式後首個年度報告期間之首日(「重新分類日期」)重新分類。

主體為香港財務報告準則第9號範圍內資產之混合合約之嵌入衍生工具不會自主體分開呈列。相反整份混合合約會進行分類評估。

1) 按攤銷成本計量之金融資產

倘金融資產符合下列兩項條件且並無指定為按公平值計入損益時，則該金融資產按攤銷成本計量：

- (i) 於旨在持有金融資產以收回合約現金流量之業務模式內持有；及
- (ii) 合約條款於指定日期產生僅為支付本金及尚未償還本金利息之現金流量。

按攤銷成本計量之金融資產其後以實際利率法計量並須作出減值。減值、終止確認或於攤銷過程中產生之收益及虧損於損益中確認。

Financial liabilities

Recognition and derecognition

Financial liabilities are recognised when and only when the Group becomes a party to the contractual provisions of the instruments.

A financial liability is derecognised when and only when the liability is extinguished, that is, when the obligation specified in the relevant contract is discharged, cancelled or expires.

Classification and measurement

Financial liabilities are initially recognised at their fair value plus, in the case of financial liabilities not carried at FVPL, transaction costs that are directly attributable to the issue of the financial liabilities.

The Group's financial liabilities include trade and other payables, bank and other borrowings and amounts due to connected companies and an associate. All financial liabilities, except for financial liabilities at FVPL, are recognised initially at their fair value and subsequently measured at amortised cost, using the effective interest method, unless the effect of discounting would be insignificant, in which case they are stated at cost.

Impairment of financial assets and other items

The Group recognises loss allowances for expected credit losses ("ECL") on financial assets that are measured at amortised cost, Mandatory FVOCI, lease receivables, contract assets, loan commitments and financial guarantee contracts issued to which the impairment requirements apply in accordance with HKFRS 9. Except for the specific treatments as detailed below, at each reporting date, the Group measures a loss allowance for a financial asset at an amount equal to the lifetime ECL if the credit risk on that financial asset has increased significantly since initial recognition. If the credit risk on a financial asset has not increased significantly since initial recognition, the Group measures the loss allowance for that financial asset at an amount equal to 12-month ECL.

確認及終止確認

當及僅當負債消除時，即當相關合約中列明之義務解除、取消或到期時，方會終止確認該項金融負債。

分類及計量

金融負債初步按其公平值加(倘為並非按公平值計入損益之金融負債)發出有關金融負債之直接應佔交易成本確認。

本集團的金融負債包括貿易及其他應付款項、銀行及其他借貸以及應付關連公司及一名聯繫人款項。所有金融負債(按公平值計入損益之金融負債除外)初步按其公平值確認，其後以實際利率法按攤銷成本計量，惟倘貼現之影響不重大時，金融負債則按成本入賬。

金融資產及其他項目減值

本集團就按攤銷成本計量之金融資產、強制按公平值計入損益、應收租賃款項、合約資產、貸款承擔及根據香港財務報告準則第9號減值規定所適用之財務擔保合約確認預期信貸虧損(「預期信貸虧損」)虧損撥備。除下文所詳述特定處理情況外，於各報告日期，倘金融資產之信貸虧損自初步確認以來大幅增加，則本集團按相等於全期預期信貸虧損之金額計量金融資產之虧損撥備。倘金融資產之信貸虧損自初步確認以來並無大幅增加，本集團按相等於12個月預期信貸虧損之金額計量該金融資產之虧損撥備。

Measurement of ECL

ECL is a probability-weighted estimate of credit losses (i.e. the present value of all cash shortfalls) over the expected life of the financial instrument.

For financial assets, a credit loss is the present value of the difference between the contractual cash flows that are due to an entity under the contract and the cash flows that the entity expects to receive.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of a financial instrument while 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

Where ECL is measured on a collective basis, the financial instruments are grouped based on the following one or more shared credit risk characteristics:

- (i) past due information
- (ii) nature of instrument
- (iii) nature of collateral
- (iv) industry of debtors
- (v) geographical location of debtors
- (vi) external credit risk ratings

Loss allowance is remeasured at each reporting date to reflect changes in the financial instrument's credit risk and loss since initial recognition. The resulting changes in the loss allowance are recognised as an impairment gain or loss in profit or loss with a corresponding adjustment to the carrying amount of the financial instrument, except in the case of Mandatory FVOCI, the loss allowance is recognised in other comprehensive income and accumulated in the fair value reserve (recycling).

計量預期信貸虧損

預期信貸虧損為金融工具預期使用期限內信貸虧損之概率加權估計(即所有現金差額之現值)。

就金融資產而言，信貸虧損為根據合約應付予實體之合約現金流量與實體預期收取之現金流量之差額之現值。

全期預期信貸虧損指在金融工具預期使用期限內發生所有可能違約事件而導致之預期信貸虧損，而12個月預期信貸虧損則指在金融工具預期可能於報告日期後12個月內發生違約事件而導致之部分全期預期信貸虧損。

預期信貸虧損按共同基準計量時，金融工具根據以下一項或多項共同信貸風險特徵分類：

- (i) 逾期資料
- (ii) 工具性質
- (iii) 抵押品性質
- (iv) 債務人之行業
- (v) 債務人之地區
- (vi) 外界信貸風險評級

虧損撥備於各報告日期進行重新計量以反映金融工具自初步確認以來的信貸風險及虧損變動。虧損撥備產生的變動於損益中確認為減值收益或虧損，並相應調整金融工具的賬面值，惟強制按公平值計入其他全面收益的其他情況除外，其中虧損撥備乃於其他全面收益中確認及於公平值儲備(可劃轉)累計。

Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that the Group may not receive the outstanding contractual amounts in full if the financial instrument that meets any of the following criteria.

- (i) information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group); or
- (ii) there is a breach of financial covenants by the counterparty.

Irrespective of the above analysis, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Assessment of significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

違約定義

本集團認為以下情況就內部信貸風險管理目的而言構成違約事件，原因為過往經驗顯示，倘金融工具符合以下任何一項條件，本集團可能無法悉數收取未償還合約金額。

- (i) 內部得出或自外界資料來源取得之資料顯示債務人不可能向其償權人(包括本集團)悉數付款(不計及本集團所持任何抵押品)；或
- (ii) 交易對手違反財務契諾。

不論上述分析的結果如何，本集團認為，當金融資產逾期超過90天，則發生違約事件，除非本集團有合理有據資料能說明更寬鬆的違約標準更為合適，則作別論。

評估信貸風險大幅增加

在評估自初始確認起金融工具之信貸風險是否大幅增加時，本集團會比較於報告日期金融工具發生違約的風險與於初始確認日期金融工具發生違約的風險。於作出評估時，本集團考慮合理及可靠的定量及定性資料，包括過往經驗及毋需付出過多成本或努力即可取得的前瞻性資料。

Assessment of significant increase in credit risk (Continued)

In particular, the following information is taken into account in the assessment:

- the debtor's failure to make payments of principal or interest on the due dates;
- an actual or expected significant deterioration in the financial instrument's external or internal credit rating (if available);
- an actual or expected significant deterioration in the operating results of the debtor; and
- actual or expected changes in the technological, market, economic or legal environment that have or may have a significant adverse effect on the debtor's ability to meet its obligation to the Group.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial instrument has increased significantly since initial recognition when contractual payments are more than 30 days past due.

Notwithstanding the foregoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date.

評估信貸風險大幅增加(續)

尤其是，在評估中會計及下列資料：

- 債務人無法於到期日支付本金或利息；
- 金融工具外部或內部信貸評級(如可得)出現實際或預期顯著惡化；
- 債務人經營業績出現實際或預期顯著惡化；及
- 已經或可能對債務人向本集團履行其責任之能力造成重大不利影響的技術、市場、經濟或法律環境出現實際或預期變動。

儘管有上述評估結果，倘合約付款逾期30天以上，則本集團假定金融工具的信貸風險自首次確認起大幅增加。

儘管如上文所述，倘金融工具於報告日期被釐定為具有低信貸風險，則本集團假定金融工具的信貸風險自首次確認起並無大幅增加。

Low credit risk

A financial instrument is determined to have low credit risk if:

- (i) it has a low risk of default;
- (ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term; and
- (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

Simplified approach of ECL

For trade receivables and contract assets, the Group applies a simplified approach in calculating ECL. The Group recognises a loss allowance based on lifetime ECL at each reporting date and has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Credit-impaired financial asset

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower.
- (b) a breach of contract, such as a default or past due event.

低信貸風險

倘符合下列條件，則金融工具被視為具低信貸風險：

- (i) 其違約風險相當低；
- (ii) 借款人有穩健能力於短期內達成其合約現金流量承擔；及
- (iii) 經濟及業務狀況之長遠不利變動或會但不一定減低借款人達成其合約現金流量承擔的能力。

預期信貸虧損之簡化法

本集團就貿易應收款項及合約資產應用簡化法計算預期信貸虧損。本集團於各報告日期根據全期預期信貸虧損確認虧損撥備，並已設立撥備矩陣，以其過往信貸虧損經驗為基準，並就應收賬款及經濟環境之特定前瞻性因素作出調整。

信貸減值金融資產

金融資產在一項或以上事件(對該金融資產估計未來現金流量構成不利影響)發生時出現信貸減值。金融資產出現信貸減值之證據包括有關下列事件之可觀察數據：

- (a) 發行人或借款人的重大財困。
- (b) 違反合約(如違約或逾期事件)。

- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation.
- (e) the disappearance of an active market for that financial asset because of financial difficulties.
- (f) the purchase or origination of a financial asset at a deep discount that reflects the incurred credit losses.

Write-off

The Group writes off a financial asset when the Group has no reasonable expectations of recovering the contractual cash flows on a financial asset in its entirety or a portion thereof. The Group has a policy of writing off the gross carrying amount when the financial asset is 1 year past due based on historical experience of recoveries of similar assets. The Group expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities under the Group's procedures for recovery of amounts due, taking into account legal advice if appropriate. Any subsequent recovery is recognised in profit or loss.

Cash equivalents

For the purpose of the consolidated statement of cash flows, cash equivalents represent short-term highly liquid investments which are readily convertible into known amounts of cash and which are subject to an insignificant risk of change in value, net of bank overdrafts.

Nature of goods or services

The nature of the goods or services provided by the Group is as follows:

Identification of performance obligations

At contract inception, the Group assesses the goods or services promised in a contract with a customer and identifies as a performance obligation each promise to transfer to the customer either:

- (a) a good or service (or a bundle of goods or services) that is distinct; or
- (b) a series of distinct goods or services that are substantially the same and that have the same pattern of transfer to the customer.

A good or service that is promised to a customer is distinct if both of the following criteria are met:

- (a) the customer can benefit from the good or service either on its own or together with other resources that are readily available to the customer (i.e. the good or service is capable of being distinct); and
- (b) the Group's promise to transfer the good or service to the customer is separately identifiable from other promises in the contract (i.e. the promise to transfer the good or service is distinct within the context of the contract).

Timing of revenue recognition

Revenue is recognised when (or as) the Group satisfies a performance obligation by transferring a promised good or service (i.e. an asset) to a customer. An asset is transferred when (or as) the customer obtains control of that asset.

Revenue recognition (Continued)

Revenue from contracts with customers within HKFRS 15
(Continued)

Timing of revenue recognition (Continued)

The Group transfers control of a good or service over time and, therefore, satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

- (a) the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- (b) the Group's performance creates or enhances an asset (for example, work in progress) that the customer controls as the asset is created or enhanced; or
- (c) the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If a performance obligation is not satisfied over time, the Group satisfies the performance obligation at a point in time when the customer obtains control of the promised asset. In determining when the transfer of control occurs, the Group considers the concept of control and such indicators as legal title, physical possession, right to payment, significant risks and rewards of ownership of the asset, and customer acceptance.

Sale of goods is recognised at a point in time at which the customer obtains the control of the promised asset, which generally coincides with the time when the goods are delivered to customers and the title is passed.

Service income of petrochemical products storage services is recognised over time when services are rendered.

(Continued)

Revenue recognition (Continued)

Revenue from contracts with customers within HKFRS 15 (Continued)

Timing of revenue recognition (Continued)

For revenue recognised over time under HKFRS 15, provided the outcome of the performance obligation can be reasonably measured, the Group applies the output method (i.e. based on the direct measurements of the value to the customer of the goods or services transferred to date relative to the remaining goods or services promised under the contract) to measure the progress towards complete satisfaction of the performance obligation because the method provides a faithful depiction of the Group's performance and reliable information is available to the Group to apply the method. Otherwise, revenue is recognised only to the extent of the costs incurred until such time that it can reasonably measure the outcome of the performance obligation.

The principal input applied in the output method is:

- Storage services for petrochemical products: number of days of the usage of the storage services

Interest income

Interest income from financial assets is recognised using the effective interest method. For financial assets measured at amortised cost that are not credit-impaired, the effective interest rate is applied to the gross carrying amount of the assets while it is applied to the amortised cost (i.e. the gross carrying amount net of loss allowance) in case of credit-impaired financial assets.

Contract assets and contract liabilities

If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, the contract is presented as a contract asset, excluding any amounts presented as a receivable. Conversely, if a customer pays consideration, or the Group has a right to an amount of consideration that is unconditional, before the Group transfers a good or service to the customer, the contract is presented as a contract liability when the payment is made or the payment is due (whichever is earlier). A receivable is the Group's right to consideration that is unconditional or only the passage of time is required before payment of that consideration is due.

For a single contract or a single set of related contracts, either a net contract asset or a net contract liability is presented. Contract assets and contract liabilities of unrelated contracts are not presented on a net basis.

For the trading business, it is common for the Group to receive from the customer the whole or some of the contractual payments before the services are completed or when the goods are delivered (i.e. the timing of revenue recognition for such transactions). The Group recognises a contract liability until it is recognised as revenue. During that period, any significant financing components, if applicable, will be included in the contract liability and will be expensed as accrued unless the interest expense is eligible for capitalisation.

合約資產及合約負債

倘本集團於客戶支付代價前或在付款到期應付前將貨品或服務轉移予客戶，合約將呈列為合約資產，不包括呈列為應收款項之任何金額。相反，倘客戶支付代價，或本集團有權無條件取得代價金額，則於本集團向客戶轉移貨品或服務前，合約將於作出付款或付款到期應付(以較早者為準)時呈列為合約負債。應收款項為本集團無條件或僅在支付到期代價前所需時間流逝之取得代價權利。

單一合約或一組相關合約以合約資產淨額或合約負債淨額呈列。不相關合約的合約資產及合約負債並無按淨額基準呈列。

就貿易業務而言，本集團於服務完成前或貨品交付時(即有關交易之收益確認時間)自客戶收取全部或部分合約款項屬常見。直至合約負債確認為收益，本集團方確認合約負債。期內，除非利息開支合資格資本化，任何重大融資成分(如適用)將計入合約負債並將按應計開支支銷。

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost, which comprises all costs of purchase and, where applicable, other costs that have been incurred in bringing the inventories to their present location and condition, is calculated using the weighted average cost method. Net realisable value represents the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised. The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period of the write-down or loss occurs. The amount of any reversal of any write-down of inventories is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in the currency of Hong Kong dollars, which is the Company's functional currency.

Foreign currency transactions are translated into the functional currency of each of the Group's entities using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

- On all other partial disposals, which includes partial disposal of associates that do not result in the Group losing significant influence, the proportionate share of the cumulative amount of exchange differences recognised in the separate component of equity is reclassified to profit or loss.

Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income over the years necessary to match the grant on a systematic basis to the costs that it is intended to compensate. Where the grant relates to an asset, the fair value is credited to a deferred income account and is released to profit or loss over the expected useful life of the relevant asset by equal annual instalments.

Borrowing costs

Borrowing costs incurred, net of any investment income on the temporary investment of the specific borrowings, that are directly attributable to the acquisition, construction or production of qualifying assets, i.e. assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. Capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. All other borrowing costs are recognised as an expense in the period in which they are incurred.

Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and when a reliable estimate of the amount of obligation can be made. Expenditures for which a provision has been recognised are charged against the related provision in the year in which the expenditures are incurred. Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. Where the effect of the time value of money is material, the amount provided is the present value of the expenditures expected to be required to settle the obligation. Where the Group expects a provision to be reimbursed, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain.

Share capital

Ordinary shares are classified as equity.

Leases

The Group assesses whether a contract is, or contains, a lease at inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As lessee

The Group applies the recognition exemption to short-term leases and low-value asset leases. Lease payments associated with these leases are recognised as an expense on a straight-line basis over the lease term.

The Group has elected not to separate non-lease components from lease components, and accounts for each lease component and any associated non-lease components as a single lease component.

撥備

當本集團因過往事件而須承擔現時之法定或推定責任，而履行該責任可能需要流出能實現經濟利益之資源且有關責任之金額能可靠估計時，即會確認撥備。已確認撥備之支出會在產生支出年度與有關撥備互相抵銷。本集團會於各報告期末審閱撥備，並作出調整，以反映當前之最佳估計。倘有關撥備金額之時間值影響重大，則撥備金額應為履行責任預期所需支出之現值。倘本集團預期撥備將會獲得償還，則償還款項會確認為個別資產，惟僅於償還實際上肯定時方予確認。

股本

普通股分類為權益。

租賃

本集團於合約初始時評估合約是否為或包含租賃。倘合約為換取代價而給予在一段時間內控制可識別資產使用的權利，則該合約為租賃或包含租賃。

作為承租人

本集團對短期租賃及低價值資產租賃應用確認豁免。該等租賃相關的租賃付款按直線法於租賃期內確認為開支。

本集團已選擇不從租賃組成部分中分離出非租賃組成部分，並對各個租賃組成部分及任何相關非租賃組成部分入賬作為單獨租賃組成部分。

Leases (Continued)

As lessee (Continued)

The Group accounts for each lease component within a lease contract as a lease separately. The Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component.

Amounts payable by the Group that do not give rise to a separate component are considered to be part of the total consideration that is allocated to the separately identified components of the contract.

The Group recognises a right-of-use asset and a lease liability at the commencement date of the lease.

The right-of-use asset is initially measured at cost, which comprises

- (a) the amount of the initial measurement of the lease liability;
- (b) any lease payments made at or before the commencement date, less any lease incentives received;
- (c) any initial direct costs incurred by the Group; and
- (d) an estimate of costs to be incurred by the Group in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories.

作為承租人(續)

本集團對於租賃合約內各個租賃組成部分單獨入賬作為一項租賃。本集團根據租賃組成部分的相對單獨價格將合約代價分配至各個租賃組成部分。

本集團未產生單獨組成部分之應付款項被視作分配至合約單獨可識別組成部分之總代價之一部分。

本集團於租賃開始日期確認使用權資產及租賃負債。

使用權資產初步按成本計量，包括

- (a) 租賃負債的初始計量金額；
- (b) 於開始日期或之前所作的任何租賃付款，減已收取的任何租賃優惠；
- (c) 本集團產生的任何初始直接成本；及
- (d) 本集團拆除及移除相關資產、恢復相關資產所在場地或將相關資產恢復至租賃條款及條件所規定狀態將予產生的估計成本，除非該等成本乃因生產存貨而產生。

Subsequently, the right-of-use asset is measured at cost less any accumulated depreciation and any accumulated impairment losses and adjusted for any remeasurement of the lease liability. Depreciation is provided on a straight-line basis over the shorter of the lease term and the estimated useful lives of the right-of-use asset (unless the lease transfers ownership of the underlying asset to the Group by the end of the lease term or if the cost of the right-of-use asset reflects that the Group will exercise a purchase option — in which case depreciation is provided over the estimated useful life of the underlying asset) as follows:

Office premises	2–3 years
Prepaid lease payment	45 years

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date of the contract.

The lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

- (a) fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- (b) variable lease payments that depend on an index or a rate;
- (c) amounts expected to be payable under residual value guarantees;
- (d) exercise price of a purchase option if the Group is reasonably certain to exercise that option; and
- (e) payments of penalties for terminating the lease, if the lease term reflects the Group exercising an option to terminate the lease.

辦公室物業	2至3年
預付租賃付款	45年

租賃負債乃按於合約開始日期尚未支付之租賃付款現值進行初始計量。

計入租賃負債計量的租賃付款包括下列於租賃期內使用相關資產的權利且於開始日期尚未支付之付款：

- (a) 固定付款(包括實質性固定付款)減任何應收租賃優惠；
- (b) 取決於一項指數或比率之可變租賃付款；

(Continued)

Leases (Continued)

As lessee (Continued)

The lease payments are discounted using the interest rate implicit in the lease, or where it is not readily determinable, the incremental borrowing rate of the lessee.

Subsequently, the lease liability is measured by increasing the carrying amount to reflect interest on the lease liability and by reducing the carrying amount to reflect the lease payments made.

The lease liability is remeasured using a revised discount rate when there are changes to the lease payments arising from a change in the lease term or the reassessment of whether the Group will be reasonably certain to exercise a purchase option.

The lease liability is remeasured by using the original discount rate when there is a change in the residual value guarantee, the in-substance fixed lease payments or the future lease payments resulting from a change in an index or a rate (other than floating interest rate). In case of a change in future lease payments resulting from a change in floating interest rates, the Group remeasures the lease liability using a revised discount rate.

The Group recognises the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset. If the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Group recognises any remaining amount of the remeasurement in profit or loss.

租賃(續)

作為承租人(續)

租賃付款使用租賃的隱含利率貼現，或倘該利率無法可靠地釐定，則採用承租人之增量借款利率。

隨後，租賃負債透過增加賬面值以反映租賃負債之利息及調減賬面值以反映已付的租賃付款進行計量。

當租賃期出現變動而導致租賃付款變動或重新評估本集團是否將合理確定行使購買選擇權時，租賃負債使用經修訂貼現率進行重新計量。

當剩餘價值擔保、實際固定租賃付款或未來租賃付款因指數或利率(浮動利率除外)變動而出現變動，則使用原貼現率重新計量租賃負債。當未來租賃付款因浮動利率變動而出現變動時，本集團使用經修訂貼現率重新計量租賃負債。

本集團將租賃負債之重新計量金額確認為對使用權資產之調整。倘使用權資產賬面值減少至零且於租賃負債計量進一步調減，本集團將於損益中確認任何重新計量之剩餘金額。

A lease modification is accounted for as a separate lease if

- (a) the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- (b) the consideration for the lease increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

When a lease modification is not accounted for as a separate lease, at the effective date of the lease modification,

- (a) the Group allocates the consideration in the modified contract on the basis of relative stand-alone price as described above.
- (b) the Group determines the lease term of the modified contract.
- (c) the Group re-measures the lease liability by discounting the revised lease payments using a revised discount rate over the revised lease term.
- (d) for lease modifications that decrease the scope of the lease, the Group accounts for the re-measurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease and recognising any gain or loss relating to the partial or full termination of the lease in profit or loss.
- (e) for all other lease modifications, the Group accounts for the re-measurement of the lease liability by making a corresponding adjustment to the right-of-use asset.

當租賃修改並未於租賃修改生效日期作為單獨租賃入賬，

- (a) 本集團根據上述相對單獨價格將代價分配至經修訂合約。
- (b) 本集團釐定經修訂合約的租期。
- (c) 本集團透過於經修訂租期使用經修訂折算率對經修訂租賃付款進行折算以重新計量租賃負債。
- (d) 就縮減租賃範圍的租賃修改而言，本集團透過減少使用權資產賬面值將租賃負債重新計量入賬，以反映部分或全面終止該租賃及於損益中確認任何與部分或全面終止該租賃相關的收益或虧損。

Employee benefits

Short-term employee benefits

Salaries, annual bonuses, paid annual leave and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees.

Defined contribution plans

The obligations for contributions to defined contribution retirement scheme are recognised as an expense in profit or loss as incurred. The assets of the scheme are held separately from those of the Group in an independently administered fund.

Contributions to the state-managed retirement schemes in jurisdictions other than Hong Kong, which are calculated on certain percentages of the applicable payroll costs, are charged as expenses when employees have rendered services entitling them to the contributions.

No forfeited contributions for the above plans may be used by the employer to reduce the existing level of contributions.

Shared-based payment transactions

Equity-settled transactions

The Group's employees, including directors, receive remuneration in the form of share-based payment transactions, whereby the employees rendered services in exchange for shares or rights over shares. The cost of such transactions with employees is measured by reference to the fair value of the equity instruments at the grant date. The fair value of share options granted to employees is recognised as an employee cost with a corresponding increase in a reserve within equity. The fair value is determined using the binomial model, taking into account any market conditions and non-vesting conditions.

Share-based payment transactions (Continued)

Equity-settled transactions (Continued)

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the vesting conditions are to be fulfilled, ending on the date on which the entitlement of relevant employees to the award is no longer conditional on the satisfaction of any non-market vesting conditions (“**vesting date**”). During the vesting period, the number of share options that is expected to vest ultimately is reviewed. Any adjustment to the cumulative fair value recognised in prior periods is charged/credited to profit or loss for the year of review, with a corresponding adjustment to the reserve within equity.

No expense is recognised for awards that do not ultimately vest, except for awards that are conditional on a market condition or non-vesting condition, which are treated as vested irrespective of whether or not the market condition or non-vesting condition is satisfied, provided that all non-market vesting conditions are satisfied.

Equity-settled share-based payment transactions with parties other than employees are measured at fair value of the goods or services received, except where the fair value cannot be reliably estimated, in which case they are measured at the fair value of the equity instruments granted. In all cases, the fair value is measured at the date the Group obtains the goods or the counterparty renders the services.

Cash-settled transactions

A liability is recognised for goods or services acquired, measured at the fair value of the liability. Until the liability is settled, the fair value of the liability is remeasured at the end of each reporting period and at the date of settlement, with any changes in fair value recognised in profit or loss for the period.

Taxation

The charge for current income tax is based on the results for the year as adjusted for items that are non-assessable or disallowed. It is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, any deferred tax arises from initial recognition of goodwill; or other asset or liability in a transaction other than a business combination that at the time of the transaction affects neither the accounting profit nor taxable profit or loss, it is not recognised.

The deferred tax liabilities and assets are measured at the tax rates that are expected to apply to the period when the asset is recovered or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the end of reporting period.

Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences, tax losses and credits can be utilised.

Deferred tax is provided on temporary differences arising on investment in subsidiaries, except where the timing of the reversal of the temporary differences is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

遞延稅項負債及資產根據於報告期末已頒佈或實質上已頒佈之稅率及稅務法例，並按預計適用於有關收回資產或償還負債期間之稅率計算。

若未來應課稅溢利將可能與有關可扣減暫時差額、稅項虧損及抵免對銷，則確認遞延稅項資產。

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

Fair value measurement (Continued)

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date

Level 2 — based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly

Level 3 — based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

非金融資產公平值計量須計及市場參與者能自最大限度使用該資產達致最佳用途，或將該資產出售予將最大限度使用該資產達致最佳用途之其他市場參與者，所產生之經濟利益。

本集團採納適用於不同情況且具備充分數據以供計量公平值之估值方法，以儘量使用相關可觀察輸入數據及儘量減少使用不可觀察輸入數據。

所有載於於綜合財務報表計量或披露之資產及負債乃基於對公平值計量整體而言屬重大之最低層輸入數據按以下公平值等級分類：

第二級—基於對公平值計量而言屬重大之可觀察(直接或間接)最低層輸入數據之估值技巧

Critical accounting estimates and judgements

In the process of applying the Group's accounting policies, which are described above, management has made various estimates and judgements which are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Estimates and judgements are continually evaluated. The key source of estimation uncertainty and accounting judgements that result in significant risk of causing a material adjustment to the carrying amount of assets and liabilities in the next financial year or significantly affect the amounts recognised in the consolidated financial statements are discussed below:

Key sources of estimation uncertainty

(i) *Going concern*

As disclosed in note 2, the consolidated financial statements have been prepared on a going concern basis. The appropriateness of the going concern basis is assessed after taking into consideration all relevant available information about future of the Group, including cash flow forecasts of the Group. Such forecasts inherently involve uncertainties. Actual results could differ significantly and hence render the adoption of the going concern basis inappropriate.

估計不明朗因素之主要來源

(i) *持續經營*

誠如附註2所披露，綜合財務報表已按持續經營基準編製。持續經營基準之適當性於考慮與本集團未來有關之所有相關可用資料(包括本集團之現金流預測)後進行評估。該等預測本身涉及不確定性。實際業績可能存在重大差異，致使不適宜採納持續經營基準。

4. PRINCIPAL ACCOUNTING POLICIES

(Continued)

Critical accounting estimates and judgements

(Continued)

Key sources of estimation uncertainty (Continued)

- (ii) *Useful lives and impairment of property, plant and equipment and right-of-use assets*

The management reviews the useful lives and depreciation method of property, plant and equipment and right-of-use assets at the end of each reporting period, through careful consideration with regards to expected usage, wear-and-tear and potential technical obsolescence to usage of the assets.

In determining whether an asset is impaired or the event previously causing the impairment no longer exists, the management has to assess whether an event has occurred that may affect the asset value or such event affecting the asset value has not been in existence. If any such indication exists, the recoverable amounts of the asset would be determined by using higher of the value in use and fair value less costs of disposal. Value in use is determined using the discounted cash flow method.

- (iii) *Loss allowance for ECL*

The Group's management estimates the loss allowance for trade receivables by using various inputs and assumptions including risk of a default and expected loss rate. The estimation involves high degree of estimation and uncertainty which is based on the Group's historical information, existing market conditions as well as forward-looking estimates at the end of each reporting period. Where the expectation is different from the original estimate, such difference will impact the carrying amount of trade receivables. Details of the key assumptions and inputs used in estimating ECL are set out in note 32(a)(iii) to the consolidated financial statements.

4. 主要會計政策(續)

重要會計估計及判斷(續)

估計不明朗因素之主要來源(續)

- (ii) *物業、廠房及設備以及使用權資產之使用年限及減值*

管理層於各報告期末審慎考慮有關使用資產之預計用量、損耗及潛在技術過時，以檢討物業、廠房及設備以及使用權資產之使用年限及折舊方法。

在釐定資產是否出現減值或過往導致減值之事件是否不再存在時，管理層須評估有否出現可能影響資產價值之事件或該影響資產價值之事件是否並不存在。倘有任何該等跡象存在，則會基於使用價值與公平價值減出售成本之較高者釐定資產之可收回金額。使用價值乃採用貼現現金流量法釐定。

- (iii) *預期信貸虧損之虧損撥備*

本集團管理層使用不同輸入數據及假設，包括違約風險及預期虧損率以估計貿易應收款項之虧損撥備。估計涉及高度估計及不確定性，其基於本集團的過往資料、現行市況及於各報告期末的前瞻性資料。當預期與原先估計不一，有關差異將影響貿易應收款項之賬面值。估計預期信貸虧損使用的主要假設及輸入數據詳情載列於綜合財務報表附註32(a)(iii)。

4. PRINCIPAL ACCOUNTING POLICIES

(Continued)

Critical accounting estimates and judgements

(Continued)

Key sources of estimation uncertainty (Continued)

(iv) *Fair value of property, plant and equipment*

The Group estimates the fair value of its certain property, plant and equipment (for impairment purpose) with reference to valuations performed by an independent professional valuer. The valuation of property, plant and equipment is performed using the depreciation replacement cost ("DRC") approach. The DRC approach includes estimation of construction as if building the similar structures, adjusting for physical deterioration, obsolescence and optimisation or referring to current market price of the similar assets.

(v) *Impairment of investments and receivables*

The Company assesses annually if investment in subsidiaries has suffered any impairment in accordance with HKAS 36 and follows the guidance of HKFRS 9 in determining whether amounts due from these entities are impaired. Details of the approach are stated in the respective accounting policies. The assessment requires an estimation of future cash flows, including expected dividends, from the assets and the selection of appropriate discount rates. Future changes in financial performance and position of these entities would affect the estimation of impairment loss and cause the adjustments of their carrying amounts.

(vi) *Allowance for inventories*

The Group's management reviews the condition of inventories, as stated in note 20 to the consolidated financial statements, at the end of each reporting period, and makes allowance for inventories that are identified as obsolete, slow-moving or no longer recoverable. The Group carries out the inventory review on a product-by-product basis and makes allowances by reference to the latest market prices and current market conditions.

4. 主要會計政策(續)

重要會計估計及判斷(續)

估計不明朗因素之主要來源(續)

(iv) *物業、廠房及設備之公平值*

本集團參考獨立專業估值師進行的估值估計其若干物業、廠房及設備的公平值(以作減值用途)。物業、廠房及設備的估值採用折舊重置成本(「折舊重置成本」)法進行。折舊重置成本法包括估計建築(猶如建造類似結構物)、就實質損耗、報廢及優化作出調整或參照類似資產的當期市價。

(v) *投資及應收款項減值*

本集團每年均根據香港會計準則第36號評估於附屬公司之投資有否任何減值，並依循香港財務報告準則第9號之指引釐定應收該等實體款項有否減值。有關方法之詳情載於各相關會計政策。評估須估計來自有關資產之未來現金流量(包括預期股息)，並選用合適貼現率。該等實體在財務表現及狀況之未來變動會影響減值虧損估計，並導致調整其賬面值。

(vi) *存貨撥備*

誠如綜合財務報表附註20所述，本集團管理層於各報告期末審閱存貨狀況，並就已識別為陳舊、滯銷或不再可收回的存貨作出撥備。本集團按個別產品基準進行存貨檢討，並參考最新市價及當前市況作出撥備。

An operating segment is a component of the Group that is engaged in business activities from which the Group may earn revenue and incur expenses, and is identified on the basis of the internal management reporting information that is provided to and regularly reviewed by the Company's executive directors in order to allocate resources and assess performance of the segment.

For management purposes, the Group is currently organised into the following operating segments:

15. PROPERTY, PLANT AND EQUIPMENT

(Continued)

The directors of the Company have reviewed the carrying value of property, plant and equipment (storage facilities and construction in progress) and right-of-use assets (note 18 to the consolidated financial statements) of Petrochemical Products Storage Business as at 31 December 2022 after considered that the economic activities are gradually resumed from the lockdown brought by the stringent COVID measures imposed by the local government. The directors of the Company expect that the economies would be recovered and determined that the recoverable amount from the use or sale of certain of these assets would be improved.

The recoverable amounts of the cash-generating unit ("CGU"), including property, plant and equipment and right-of-use assets of Petrochemical Products Storage Business (collectively known as the "Assets") as at 31 December 2022 were higher than their respective carrying amounts. The recoverable amounts are determined by the management, with assistance from an independent professional valuer, based on fair value less costs of disposal for the Assets, which are significantly higher than that using value-in-use calculation.

The recoverable amounts of the property, plant and equipment and right-of-use assets of Petrochemical Products Storage Business were HK\$130,361,000 and HK\$61,046,000 respectively (2021: HK\$140,446,000 and HK\$57,590,000 respectively). Accordingly, net reversal of impairment losses of HK\$7,334,000 (2021: net impairment losses of HK\$12,676,000) and no impairment losses were provided for property, plant and equipment and right-of-use assets in relation to this CGU respectively.

The key assumptions used in estimating the fair value of the Assets under depreciation replacement cost approach include estimation of construction as if building the similar structures, adjusting for physical deterioration, obsolescence and optimisation or referring to current market price of the similar assets. The valuation was categorised as Level 3 fair value measurement.

15. 物業、廠房及設備(續)

本公司董事已審閱截至二零二二年十二月三十一日石化產品倉儲業務之物業、廠房及設備(倉儲設施及在建工程)以及使用權資產(綜合財務報表附註18)之賬面值，考慮到隨著當地政府實施的嚴格新冠防疫措施的取消，經濟活動逐步恢復。本公司董事預期經濟將會恢復，並確定使用或出售若干該等資產的可收回金額將會改善。

截至二零二二年十二月三十一日之現金產生單位(「現金產生單位」)(包括石化產品倉儲業務之物業、廠房及設備以及使用權資產(統稱「該等資產」)之可收回金額被認定為高於其各自的賬面值。由管理層在獨立估值師之協助下根據公平值減該等資產之出售成本釐定之可收回金額明顯高於較使用價值法計算之可收回金額。

石化產品倉儲業務的物業、廠房及設備以及使用權資產之可收回金額分別為130,361,000港元及61,046,000港元(二零二一年：分別為140,446,000港元及57,590,000港元)。因此，已撥回有關此現金產生單位之物業、廠房及設備減值虧損淨額撥備7,334,000港元(二零二一年：減值虧損淨額12,676,000港元)，但未對使用權資產計提減值虧損。

根據折舊重置成本法估計該等資產之公平值所用關鍵假設包括估計建築(猶如建造類似結構)，就作出實質損耗、報廢、優化作出調整或參照類似資產的當前市價。估值被分類為第三級公平值。

Goodwill arose because the consideration paid for the acquisitions effectively included amount in relation to the benefits originated from future market development and the assembled workforce of the acquired business. These benefits are not recognised separately from goodwill because they do not meet the recognition criteria for identifiable intangible assets. None of the goodwill recognised is expected to be deductible for income tax purposes.

Restricted bank balances represents the bank balance being frozen due to the legal case with an independent third party (the "Plaintiff"). On 12 January 2021, the Plaintiff lodged a petition in The Primary People's Court of Qianhai Cooperation Zone of Shenzhen City of Guangdong Province ("QianHai Court") for the dispute on the sales and purchase contract entered between Qianhai Mingtian and the Plaintiff. The Plaintiff has claimed for the refund of the contract sum, amounting to RMB9,500,000 and other costs, including the cost of delivery of the alleged refunded inventory, amounting to RMB186,000, insurance cost of RMB24,000, legal fee of RMB800,000, breach penalty of RMB1,900,000 and other associated costs. On 6 September 2021, the QianHai Court has dismissed the claim from the Plaintiff other than the breach penalty of RMB186,000, which was determined by the QianHai Court.

During 2022, the Plaintiff has lodged an appeal in Shenzhen Intermediate People's Court of Guangdong Province (the "Intermediate Court"), claiming to withdraw the verdict issued by the QianHai Court and to amend the judgement or remand for a retrial. The Plaintiff also applied to freeze the bank balances of Qianhai Mingtian, amounting to RMB4,083,000 (equivalent to HK\$4,622,000). On 29 November 2022, the Intermediate Court upheld the verdict issued by the QianHai Court.

Subsequent to the year end, on 4 January 2023, Qianhai Mingtian has applied for the discharge of the freeze.

A lower withholding tax rate may be applied if there is a tax treaty between the PRC and jurisdiction of the foreign investors. As at 31 December 2022 and 2021, no deferred tax has been recognised for withholding taxes that would be payable on the unremitted earnings of the Groups' subsidiaries established in the PRC of HK\$581,000 (2021: HK\$786,000). In the opinion of the directors, these accumulated profits, at the present time, are required for financing the operations of these entities and no distribution would be made in the foreseeable future.

未確認遞延稅項資產(續)

由於無法預知未來溢利來源，故並無就該等項目確認遞延稅項資產。未確認稅項虧損之到期日如下：

28(a) Share premium

Under the law of the Cayman Islands and the Company's Articles of Association, it is distributable to the Company's shareholders provided that the Company is able to pay its debts as they fall due in the ordinary course of business after the distribution.

28. RESERVES (Continued)

28(b) Capital reserve

The capital reserve arises from the business combination under common control in relation to the reorganisation (the "Reorganisation") for rationalising the corporate structure in preparation for the initial listing of the Company's shares on GEM of the Stock Exchange. The Reorganisation was completed on 3 August 2013. The amount represents the difference between aggregate net asset value of the subsidiaries and the investment costs in the subsidiaries.

The negative capital reserve represents the excess of "total investment costs in the subsidiaries" over "the aggregate net assets value of the subsidiaries".

Under merger accounting the net assets of the combining entities are combined using the existing book values from the controlling party's perspective. No amount is recognised as consideration for goodwill or gain on bargain purchase at the time of common control combination, to the extent of the continuation of the controlling party's interest. Accordingly, the above mentioned difference has been recorded in the capital reserve under merger accounting.

28(c) Exchange reserve

Exchange reserve of the Group comprises all foreign exchange differences arising from translation of the financial statements of the Group's subsidiaries in the PRC. The reserve is dealt with in accordance with the accounting policy set out in note 4 above.

28(d) Statutory reserve

The statutory reserves are reserves required by the Accounting Regulations for Business Enterprises applicable to the Company's PRC subsidiaries. The reserves can be used to reduce previous years' losses and to increase the capital of the subsidiaries.

28. 儲備(續)

28(b) 資本儲備

資本儲備自有關因籌備本公司股份於聯交所GEM首次上市而理順公司架構所進行重組(「重組」)之共同控制下業務合併產生。重組已於二零一三年八月三日完成。該金額指附屬公司之資產淨額總額與投資附屬公司之成本間之差額。

負資本儲備指「投資附屬公司之總成本」超出「附屬公司之資產淨值總額」之部分。

就控股方而言，合併賬目項下合併實體之資產淨額乃以現有賬面值合併入賬。倘控制方仍然持有權益，於共同控制合併時，不會就商譽或議價購買收益確認任何金額。因此，上述差額已於合併賬目項下資本儲備入賬。

28(c) 匯兌儲備

本集團之匯兌儲備包括因換算本集團中國附屬公司之財務報表而引致之所有外匯差額。該儲備乃根據上文附註4所載會計政策處理。

法定儲備乃適用於本公司中國附屬公司之企業會計制度所規定儲備。該儲備可用於削減過往年度虧損及增加附屬公司資本。

28. RESERVES (Continued)

28(e) Other reserve

The other reserve has been set up to deal with the changes in ownership interests in subsidiaries that do not result in a loss of control. The difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised in other reserve.

28(f) Contributed surplus

The contributed surplus of the Company arose from the Reorganisation. The balance represents the difference between the nominal amount of the Company's shares issued and the consolidated shareholders' fund of the subsidiaries acquired during the Reorganisation.

28(g) Share-based payment reserve

The share-based payment reserve comprises the fair value of share-based payment transactions dealt with employees of the Group and is dealt with in accordance with the accounting policy as set out in note 4 to the consolidated financial statements.

28. 儲備(續)

28(e) 其他儲備

28(f) 實繳盈餘

本公司之實繳盈餘自重組產生。該結餘指本公司已發行股份面值與重組期內所收購附屬公司綜合入賬之股東資金間之差額。

28(g) 以股份為基礎之付款儲備

以股份為基礎之付款儲備包括與本集團僱員所進行以股份為基礎之付款交易之公平值，並按綜合財務報表附註4所載會計政策處理。

於報告期末，本集團為數201,750,000港元（二零二一年：219,776,000港元）之承擔主要涉及石化倉儲設施建設工程。

32. FINANCIAL INSTRUMENTS

(a) Financial risk management objectives and policies

The Group's principal financial instruments comprise bank and other borrowings, amounts due from/to connected companies, bank balances and cash. The main purpose of these financial instruments is to raise and maintain finance for the Group's operations. The Group has various other financial instruments such as trade and other receivables and trade and other payables, which arise directly from its business activities.

The main risks arising from the Group's financial instruments are (i) foreign currency risk, (ii) interest rate risk, (iii) credit risk and (iv) liquidity risk. The Group does not have any written risk management policies and guidelines. However, the board of directors co-operates closely with key management to identify and evaluate risks and generally adopts conservative strategies on its risk management and limits the Group's exposure to these risks to a minimum level as follows.

32. 金融工具

(a) 金融風險管理目標及政策

本集團之主要金融工具包括銀行及其他借貸、應收／應付關連公司款項、銀行結餘及現金。該等金融工具之主要目的為籌集及維持本集團經營所需融資。本集團有貿易及其他應收款項以及貿易及其他應付款項等多種其他金融工具，該等款項直接自其業務活動產生。

本集團金融工具產生之主要風險為(i)外匯風險、(ii)利率風險、(iii)信貸風險及(iv)流動資金風險。本集團並無任何書面風險管理政策及指引。然而，董事會與主要管理人員緊密合作，以辨別及評估風險，對其整體風險管理採取保守策略並將本集團所面對該等風險限制在最低水平，具體如下。

32. FINANCIAL INSTRUMENTS (Continued)

(a) Financial risk management objectives and policies (Continued)

(i) Foreign currency risk

Most of the Group's business transactions were conducted in Hong Kong dollars, Renminbi ("RMB") and United States dollars ("US\$"). Exposures to foreign currency risk arise from certain of the Group's trade and other receivables, trade and other payables and cash and bank balances denominated in HK\$, RMB and US\$. The Group does not use derivative financial instruments to hedge its foreign currency risk. The Group reviews its foreign currency exposures regularly and considers there is no significant exposure on its foreign currency risk.

(ii) Interest rate risk

The Group's exposure to market risk for changes in interest rates relates primarily to its interest-bearing financial instruments (with floating interest rates) including bank balances and cash.

At the end of the reporting period, if interest rates had been 100 basis points (2021: 100 basis points) higher/lower and all other variables were held constant, the Group's net loss would decrease/increase by HK\$179,000 (2021: the Group's net loss would decrease/increase by HK\$255,000).

The sensitivity analysis above has been determined assuming that the change in interest rates had occurred at the end of the reporting period and had been applied to the exposure to interest rate risk for the financial instruments in existence at that date. The 100 basis points increase or decrease represents management's assessment of a reasonably possible change in interest rates over the period until the next annual end of the reporting period.

32. 金融工具(續)

(a) 金融風險管理目標及政策(續)

(i) 外匯風險

本集團業務主要以港元、人民幣(「人民幣」)及美元(「美元」)進行交易。所面對外匯風險乃源自本集團以港元、人民幣及美元計值之貿易及其他應收款項、貿易及其他應付款項以及現金及銀行結餘。本集團並無使用衍生金融工具以對沖其外幣風險。本集團定期檢討外匯風險且認為並無重大外匯風險。

(ii) 利率風險

主要與計息金融工具(包括按浮動利率計息之銀行結餘及現金)有關之利率變動使本集團面對市場風險。

於報告期末，倘利率上調／下調100個基點(二零二一年：100個基點)，而所有其他變數維持不變，則本集團之虧損淨額將減少／增加179,000港元(二零二一年：本集團之虧損淨額將減少／增加255,000港元)。

以上敏感度分析乃假設利率變動已於報告期末發生而釐定，並已應用於當日已存在之金融工具承受之利率風險。上升或下降100個基點代表管理層對直至下一年度報告期末止期間利率之合理可能變動所進行之評估。

32. FINANCIAL INSTRUMENTS (Continued)

(a) Financial risk management objectives and policies (Continued)

(iii) Credit risk

The carrying amount of financial assets on the consolidated statement of financial position, which is net of impairment losses, represents the Group's maximum exposure to credit risk on these financial assets.

Trade receivables

The Group trades only with recognised and creditworthy third parties. The Group limits its exposure to credit risk from trade receivables by selecting the counterparties with reference to their past credit history and/or market reputation.

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The default risk of the industry and country in which customers operate also has an influence on credit risk but to a lesser extent. Credit quality of a customer is assessed based on an extensive credit rating and individual credit limit assessment which is mainly based on the Group's own trading records.

At the end of the reporting period, the Group had a concentration of credit risk as 94.0% (2021: 21.0%) and 98.0% (2021: 59.0%) of the trade receivables were due from the Group's largest customer and the five largest customers respectively.

32. 金融工具(續)

(a) 金融風險管理目標及政策(續)

(iii) 信貸風險

綜合財務狀況表之金融資產賬面值(扣除減值虧損)指本集團就該等金融資產承擔之信貸風險上限。

貿易應收款項

本集團僅與獲認可及信譽良好之第三方交易。本集團透過參考交易對手過往信貸記錄及／或市場聲譽甄選交易對手以限制其自貿易應收款項的信貸風險。

本集團所承擔信貸風險主要受各客戶之個別特徵影響。客戶經營所在行業及國家之違約風險亦影響信貸風險，惟影響幅度較小。本集團基於廣泛信貸評級及個別信貸限額評估(主要基於本集團本身之交易紀錄)對客戶之信貸質素進行評估。

於報告期末，本集團應收其最大客戶及五大客戶貿易應收款項之集中信貸風險分別為94.0%(二零二一年：21.0%)及98.0%(二零二一年：59.0%)。

32. FINANCIAL INSTRUMENTS (Continued)

(a) Financial risk management objectives and policies (Continued)

(iii) Credit risk (Continued)

Trade receivables (Continued)

The Group's customer base consists of a wide range of clients and the trade receivables are categorised by common risk characteristics that are representative of the customers' abilities to pay all amounts due in accordance with the contractual terms. The Group applies a simplified approach in calculating ECL for trade receivables and recognises a loss allowance based on lifetime ECL at each reporting date and has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. The expected loss rate used in the provision matrix is calculated for each category based on actual credit loss experience over the past years and adjusted for current and forward looking factors to reflect differences between economic conditions during the period over which the historical data has been collected, current conditions and the Group's estimate on future economic conditions over the expected lives of the receivables. There was no change in the estimation techniques or significant assumptions made during the year.

Other receivables

The Group performs impairment assessment on other receivables from various parties based on 12-month ECL. The credit risk of the Group's other receivables arises from default of the counterparties, with maximum exposure equal to the carrying amounts of these receivables. Individual credit limits are set based on the assessments of the credit quality.

In estimating the ECL, the Group has taken into account the historical actual credit loss experience and the financial position of the counterparties, past collection history, current creditworthiness, adjusted for forward-looking factors that are specific to the debtors and general economic conditions of the industry in which the counterparties operate, in estimating the probability of default of these financial assets, as well as the loss upon default in each case. The management of the Group considers the ECL of these financial assets to be insignificant after taking into account the financial position, quality of the counterparties and past settlement records. There was no change in the estimation techniques or significant assumptions made during the year.

其他應收款項

本集團對其他應收賬款進行減值評估是基於各方12個月預期信貸虧損。本集團的其他應收賬款的信貸風險來自交易各方的違約，最大上限相等於應收款項的賬面金額，個別信貸額度是根據信貸質量評估確定。

在估計預期信貸虧損時，本集團已考慮到過往實際信貸損失經驗和交易對手的財務狀況，過往的收款歷史、當前信譽度、並就債務人特定前瞻性因素及對方營運所在行業的一般經濟條件作出調整，以估計該等金融資產的違約概率，及至各情況下違約的損失。經考慮交易對手之財務狀況及質素以及過往清償記錄後，本集團管理層認為該等金融資產之預期信貸虧損並不重大。年內並無對估計方法或重大假設作出更改。
